Lake Charleston Trail Etiquette
All user groups have rights and responsibilities to our trail system, and to each other.
• Do not use wet trails. If you are leaving tire prints or foot prints, the trail is too wet and you are damaging the trail. If you encounter a muddy spot, go through the center of the mud to keep the trail narrow.
• Stay on the trail. Do not create new trails or trespass. Narrow trails mean less environmental impact.
• Well behaved dogs are welcome. Leash required and please pick up after your best friend.
• Bikers always yield to hikers. Yield means slow down, establish communication, be prepared to stop if necessary, and pass in a sage and friendly manner.
• Faster trail users, bikers and runners, can startle others, especially when approaching from behind. Always ride under control, anticipate users around blind corners, and be communicative.
PLEASE BE ADVISED, THESE ARE NATURE TRAILS, USE AT YOUR OWN RISK
