Jody Kinsey said that what they are finding now is that $2,000.00 is short of what the actual charge is. Ms. Kinsey said that since the benefit is not fully covered, people are not going in for their preventative colonoscopies and that is an issue. Ms. Kinsey said that the timeline for having a colonoscopy is one (1) over the age of 50, every 10 years. Currently, she said that there are 127 employees over the age of 50 enrolled on the plan and over the last two (2) years only ten (10) employees have used that preventative benefit. Ms. Kinsey said that typically the costs are running from $3,200.00 to $6,500.00, depending on the place of service, the time it takes, etc. Jody Kinsey said that she is proposing that the Commissioners remove the $2,000.00 maximum cap and change it to unlimited
