3) WARNED PUBLIC HEARINGS (7:05 p.m.)

Public hearing on the proposed amendments to Chapter 8 (energy) section 8.5 (renewable energy) to the Town of Barre Municipal Plan.

Sanborn provided a recap of how the changes to the energy section came about.

Regan Howard and Val Vallerand among other family members were in attendance representing Paquet Farms – Regan and Val read a prepared statement. The Paquet family as a whole is looking for alternative ways to find revenue that will allow them to continue to operate the farm. They feel that the revenue generate from a solar plant that they may wish to be involved with will help tremendously as it could for other agricultural uses. They are not supportive of plan revisions that could impede solar development in Barre Town.

Kathy Brouilette – suggested that the PC use Northern Power Systems as a resource to help with the energy plan.

On a motion by Violette, seconded by Duke, the Planning Commission voted to close the public hearing.

The Central Vermont Regional Planning Commission (CVRPC) sent a letter to Cedric regarding Barre Town’s proposed energy section amendments to the Plan. In the letter, they noted that proposed revisions may not be specific enough based on guidance provided by the Agency of
Commerce and Community Development. The Planning Commission decided it would be best to set aside the current draft and continue working on changes to the Energy plan.

Cedric drafted more proposed changes prior to this hearing which were distributed to the members. After discussion it was decided that the members should review the changes and make comments or suggest revision or additions and get those comments back to Chris before the next meeting.

On a motion by Clain, seconded by Violette, the Planning Commission voted to continue working on Section 8 of the Town of Barre Town Plan.

Discuss sending a letter to the PSB regarding the Novus Beckley Hill solar project.

The screening plan that is proposed is acceptable and we urge that the plan be incorporated into their final plan, as well as maintenance on the landscaping be maintained.
