   A. Review Upper Prospect Street – Consider speed limit change from
      40 MPH to 35 or 25 MPH as requested by resident Robert Codling
      of 445 Upper Prospect Street. Possible Action item

      Discussion:
      Vehicle count 1200-1500 per day. 40mph with no transition speed into
      BC which is 25mph. Police should monitor speed in this area as
      there are several vehicles doing over 50mph. Bill K. suggested no

C. Websterville Rd. - Consider changing sign at Websterville Road to be clearer as to where to find Route 110 (Washington Rd).

Discussion: Websterville Rd sign OK- If state reposition sign on Rte. 110, Vt. Rte. 110 sign with a arrow ok. How about Rte. 302 sign? VTRANS has relocated signs on Rte. 110 closer to Waterman St intersection so they can be seen. No action at this time.

2. Other Business –
   A. Miscellaneous – Bill K. made the comment that there is a National Traffic Safety Bd. – NCHRP – which says speed signs need to be conforming to a national standard (MUTCD).
      Lighted Speed Advisory Signs shouldn’t be rapid blue strobes, the program should be set to flash at a slower rate.
