

Niskayuna Compost Pledge

Ready to take the pledge?

“COMPOSTING IS NATURE’S WAY OF RECYCLING. I BELIEVE THAT COMPOSTING HAS THE POWER TO SHIFT OUR ATTITUDES AND BEHAVIORS AS STEWARDS OF THE EARTH.”

When we compost instead of throwing food waste away, we reduce the amount of solid waste that is destined for a landfill. In doing so, we reduce energy consumption for waste removal and lower greenhouse gas emissions in our neighborhoods. Additionally, adding compost to your soil increases its capacity to absorb Greenhouse Gases.

Landfills create methane. Recycled food creates healthy soil. Healthy soil creates healthier yards and gardens. Using compost as a soil enhancement can lessen dependence on fertilizers and pesticides and less chemicals means less harm to pets and wildlife and a cleaner Mohawk River.

I PLEDGE TO:

- Start Composting / Continue to keep Composting
- Use compostable materials whenever I can
- Volunteer to help the Town’s Composting Program
