Overview & Highlights

On behalf of our entire administration, I am proud to share our **proposed 2026 Capital Investment and Community Development Program**, commonly known as the Capital Budget.

The capital budget is focused on the **key infrastructure investments** of city government in the areas of **public safety, transportation, water and sewer systems, parks and recreation facilities, other public facilities**, as well as certain investments in **economic development, housing, and community services**, including allocations of federal funds through the **CDBG** and **HOME** programs.

With this year's capital budget, our city government will **finish key projects**, maintain important **infrastructure**, improve **transportation** throughout the city, and start a phased process to fully renovate our **Akron Police Department headquarters**.

Key Highlights of the 2026 budget include:

- Allocating \$6.5 million to resurfacing which will cover approximately 52 centerline miles of Akron roadway, as well as repairs to concrete streets. The city will also undertake major repair projects to Home Avenue, North Main Street in North Hill, and South Main Street between Bartges and Cedar.
- Investing \$1 million in the city sidewalk program which will allow us to complete approximately 225 repair requests. At the beginning of 2024, Akron was over 3 years behind on sidewalk requests but thanks to increased investment, in 2026 we will complete all the requests from 2024 and all the requests from 2025 up to September bringing us almost up to date on requests.
- The City of Akron has committed to a multi-year full renovation of the Stubbs Justice Center, which houses our Akron Police Department. In 2026, we will be replacing several transport elevators, replacing the heating and cooling lines from the basement to the 10th floor, and starting on the design for the full renovation.
- Supporting our parks and public spaces through new playground and recreation improvements across the city, as well as our new city meadows program which will improve the natural beauty and wildlife of certain parks while reducing mowing and stormwater runoff.
- Investing in new construction of infill housing, as well supporting our neighborhood Community Development Corporations, and beginning implementation of the Innerbelt Master Plan.
- Undertaking significant water and sewer projects, including the completion of the Northside Interceptor Tunnel and the replacement of the historic Brittain Road Reservoir.
- Replacement of two salt domes in the city which will help with our snow/ice response.
- The city has completed the removal of all lead service lines in the city. We are now moving on to galvanized lines with a goal of removing all the galvanized lines by the end of 2027.

Overview & Highlights

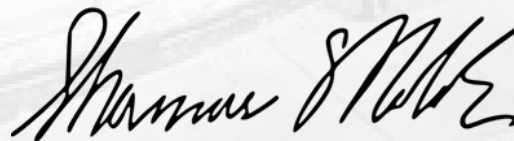

Prioritizing Fiscal Responsibility

As the City of Akron transitions out of American Rescue Plan Act (ARPA) funding, our continued focus is on creating a **fiscally responsible capital budget** which prioritizes the city's key services and responsibilities. This year's proposed capital budget is **\$39 million less than** the 2025 capital budget, a **10.23% reduction**.

Acknowledgements

This year's capital budget process began in the summer, with requests submitted by each city department and by **City Councilmembers**. Throughout the fall, we focused on **public engagement** at City Council ward meetings and community townhalls. Many people have put in hard work to make this budget possible. In particular, I want to thank the Long Range Planning Division, especially **Helen Tomic, Jim Ashley, and Amy Woodill**, and Planning Director **Kyle Julien**, as well as **Patricia Porter** in Communications. In each department, there are many other people to thank, and this budget is truly stronger because of each person who contributed.

In the coming weeks, our administration looks forward to engaging with City Council on this important piece of our city's budget.

Shammas Malik, Mayor

WARD ENGAGEMENT

Over the past several months, city staff have presented about the 2026 capital budget at six City Council ward meetings and town halls across the city.

At these meetings, city staff provided residents with an overview of the capital budget process, and asked them to identify investments that should receive priority in the capital budget.

These presentations illustrated the wide range of the work accomplished through the capital budget and how the City invests in its capital assets in order to improve operations, strengthen the quality of life for our residents, make Akron more attractive for private investment, and ensure that the City's infrastructure aligns with our strategic goals and plans.

City staff explained how the City's capital needs are identified, how the City funds investments to address those needs, and the budgetary constraints that require us to make often challenging choices about what investments to prioritize and what investments can be delayed.

These meetings reflect the administration's commitment to creating a more transparent and engaging city government.

Additionally, attendees were asked to identify their priorities across five categories: Parks and Recreation, Transportation, Public Facilities, Housing and Community Development, and Public Safety. Each attendee was provided with six stickers and asked to indicate their priorities by placing the stickers on posters labeled with the spending categories.

This exercise gave residents a sense of the challenges involved in addressing a broad range of capital needs with a limited budget.

2026 CAPITAL INVESTMENT & COMMUNITY DEVELOPMENT PROGRAM

TRANSPORTATION

\$53,629,328

Since 2016, the City of Akron has invested over **\$50 million in resurfacing** Akron's roadways. Thanks to Akron voters passing the income tax increase for Police, Fire, and Roads back in 2017, the city has been able to go from paving **16 miles of roadway** a year to approximately 53 miles per year on average. Due to that ongoing work, most of Akron's roadways are now graded as "fair" to "good" which is an outstanding improvement to where the city was 5, 10, or 15 years ago.

Akron is responsible for **832 centerline miles of pavement** (or 122,000,000 square feet of pavement) and 144 bridges. Projects in the Transportation section of the budget have either deteriorated beyond simple maintenance or require safety improvements.

Highlights of this year's budget include the completion of the **Home Ave. asphalt replacement**, beginning **S. Main St. phase 3** from Bartges to Cedar, N. Main St. full street improvements, **\$1 million to the city sidewalk program**, and maintenance and rehabilitation of several of our bridges. Akron is investing **\$6.5 million** to resurface approximately 52 miles of roadway this year and another **\$1.85 million** on the city's concrete pavement rehabilitation program.

Arterials/Collectors

2026 CAPITAL INVESTMENT & COMMUNITY DEVELOPMENT PROGRAM

MISCELLANEOUS

\$54,776,000

This section of the budget includes a variety of needs including **debt services**, and various **public safety equipment**. With the 2026 budget, the city will pay **\$39 million** in annual repayments on various forms of debt. There's an additional **\$4.075 million** for equipment replacement including the snow and ice fleet and a bucket truck for Traffic Engineering. The city will invest **\$453,000** for the ongoing contract for police body-worn cameras and **\$525,000** to replace miscellaneous EMS equipment such as cardiac monitors.

	Funding Source	Budget (\$)
62 Abandon Declining City Owned Oil & Gas Well Abandon declining City owned oil & gas wells that no longer produce enough income to justify their continued operation.	OGR	150,000
63 Debt Service Annual repayments on various forms of debt. Includes safety forces bond funds.	TOTAL	39,000,000
	IT	37,200,000
	PT	1,800,000
64 Downtown Beautification Annual beautification to various downtown areas.	IT	10,000
65 Equipment Replacement - Fire Replacement of up to four ambulances, emergency response SUVs, and fleet vehicles.	IT	850,000
66 Equipment Replacement - Police Annual replacement of obsolete or otherwise unusable rolling stock. Up to 10 vehicles including 6 marked police cruisers, a negotiator vehicle, and unmarked vehicles.	IT	400,000
67 Equipment Replacement - Public Works Replacing the aging Snow and Ice Fleet. Trucks, plows, spreaders, brine tanks and more. Includes bucket truck for Traffic Engineering.	TOTAL	4,075,000
	IT4	3,000,000
	IT	1,075,000
68 Fire CAD System Annual maintenance of new Tyler CAD system to be used by City of Akron safety forces.	IT4	193,000
69 Fire Combined Communication Center Funding for expenses related to new Combined Communications Center.	IT4	188,000
70 Fire Facility Improvement Program Repair various fire station kitchens, HVAC systems, overhead doors, generators, drive aprons, and parking lots.	TOTAL	255,000
	GO	125,000
	IT4	130,000

2026 CAPITAL INVESTMENT & COMMUNITY DEVELOPMENT PROGRAM

HOUSING & COMMUNITY DEVELOPMENT

\$8,992,500

Housing and Community Development Programs are primarily supported with funding through the Community Development Block Grant **(CDBG) Program**, the HOME Investment Partnership **(HOME) Program** and the Emergency Solutions Grant **(ESG) Program**.

The City of Akron continues to move forward with activities to **stabilize neighborhoods** and assist residents in keeping a **safe, warm and dry home**. Of the City's approximately 93,000 housing units, over a third were constructed before 1940. Maintenance and reinvestment are necessary in order to preserve neighborhoods and housing values. The City utilizes CDBG and HOME funds for this purpose. The City continues to combine **rehabilitation assistance** with **Lead Hazard Reduction Demonstration Program** funding and **Healthy Homes** funding to maximize the efficient use of available resources and manpower. The City also works with area agencies to provide additional housing assistance.

Community service programs assist lower income residents with a range of **public social services concentrating on infant mortality, public safety, the judicial system, financial empowerment centers and information and referrals**. Thousands of residents take advantage of these programs every year.

Other objectives include assisting unhoused persons to obtain **affordable housing, retaining affordable housing, increasing the availability of permanent housing** that is affordable to low-income people without discrimination and **increasing supportive housing** with features and services that enable persons with special needs to live in dignity. This also includes **\$500,000** towards the implementation of the **Innerbelt Master Plan**.

	Funding Source	Budget (\$)
90 Acquisition/Relocation/Clearance	<u>TOTAL</u>	<u>200,000</u>
Acquisition, relocation, and clearance of dilapidated structures or vacant lots in neighborhood development and redevelopment areas, land assembly to assist non-profits, and neighborhood blight removal.	CD	100,000
	JEDD	100,000
91 AMHA Environmental Reviews	AMHA	50,000
Assistance to Akron Metropolitan Housing Authority by providing environmental reviews for property improvements.		
92 Affordable Housing Development	CD	900,000
Matching funds for housing development organizations.

ECONOMIC AND JOB DEVELOPMENT

\$8,650,000

The City of Akron's Economic Development Department complements Planning Department initiatives within the Office of Integrated Development. The department focuses on **fostering economic growth, retaining, and attracting businesses, strengthening business districts, and improving the quality of life** for residents. The Economic Development team supports the spectrum of business from micro-entrepreneurship to mature businesses through a combination of City programming and capacity outsourced to a robust network of community partners. The department is an active participant in **Elevate Greater Akron** – a cross-sector collaboration between local, regional, and state organizations to drive prosperity in Akron and the Greater Akron region.

This year's budget includes **\$184,000** to support the new **polymer cluster innovation center**, **\$250,000** to support the **University of Akron's** redevelopment of the **Polsky building**, and **\$550,000** towards the city's **neighborhood business districts**.

2026 CAPITAL INVESTMENT & COMMUNITY DEVELOPMENT PROGRAM

SEWER

\$94,310,000

In 2009, the City of Akron was issued a **Federal Consent Decree** which has required the city to completely overhaul the combined sewer system throughout Akron. This decree includes **26 massive projects** totaling over **\$1 billion of investment**. To date, the city has completed **24** of these projects and is in progress on the 25th, the **Northside Interceptor Tunnel**. Once the Northside Interceptor Tunnel is operational, which we expect by the end of 2026, Akron will be capturing **99%** of wet weather flows and reducing Akron's number of combined sewer overflow events by **99.7%**.

In 2026, **Water Reclamation Services** will be implementing Sewer projects to meet regulatory requirements and to maintain and enhance the performance of the **sewer collection system, Water Reclamation Facility, and Renewable Energy Facility**.

The **Sewer Maintenance Division** operates and maintains the sewer collection system which includes **1,348 miles** of sanitary and storm sewers, **29,771 manholes**, **23,424 inlets**, **36 sanitary sewer pump stations**, and **8 Combined Sewer Overflow (CSO) storage facilities** (7 basins and 1 Tunnel). The Water Reclamation Facility (WRF) provides treatment of **70 million gallons** of wastewater per day (MGD) and up to **280 MGD** during rain events.

Combined Sewer Overflows (CSO)

2026 CAPITAL INVESTMENT & COMMUNITY DEVELOPMENT PROGRAM

WATER

\$102,191,861

As the infrastructure of the **Akron Public Water System** is aging and deteriorating, the need to **maintain, replace, and upgrade** critical components within the Water System are necessary. There are numerous tasks critical to the operation, maintenance, and sustainability of the Akron Water System including **managing short- and long-term budgeting** and planning of Capital Improvements. With the new rate increase which went into effect in 2024, Akron Water’s objective is to make a significant investment in updating its **aging infrastructure** by increasing the investment in **water main replacements and extensions**, making a major investment in **replacing the main water storage reservoir** in town, **repair-replacement of critical Water Plant assets**, and ensuring **structural viability of water reservoir impoundment structures**.

Highlights of this year’s budget include the replacement of **11,000 feet** of chronically **breaking and deteriorating water mains**, finishing the **Fixed Network Advanced Metering Infrastructure**, replacing **galvanized houselines** on private property which were previously connected to lead with a goal of removing them all by the end of 2027, and replacing the sodium hypochlorite feed system.

Water Distribution

CAPITAL BUDGET HISTORY NARRATIVE

Reviewing the City of Akron's capital budgets from previous years brings a number of trends into focus. (These capital budgets are available from 1993 forward at the City of Akron's Finance Department webpage.)

The total investment budgeted for the city peaked in 2016 at over \$450 million, which represented an increase of 84% over the budget for 2015. This figure is also \$66 million greater than the second highest historical budget, in 2021. The dramatic increase in 2016 can be largely attributed to construction on the I-76/I-77 Main-Broadway interchange (\$112 million, funded mostly by Ohio Department of Transportation) and federally mandated work on the City's sewer and stormwater system (\$138 million).

The smallest capital budget was in 1999, when \$134 million of investments were planned.

The proposed capital budget for 2026 totals \$341 million, a decrease of 10.23% from 2025. This decrease reflects shifts in funding at the state and federal level, as well as a reduction in spending on sewer projects.

The largest sustained investment has been the mandated work on the sanitary and storm sewers to eliminate combined sewer overflows. This work represents a significant amount of the capital budget from 2012 forward, exceeding \$100 million in 2016, 2017, 2021, 2024, and 2025.

Significant investment has been directed to the City's water infrastructure in recent years, including installing advanced water metering infrastructure and replacing lead service lines throughout the city. That investment allowed the City to remove its last lead service line in 2025, a significant accomplishment and an investment in the wellbeing of our residents.

From 2008-2011, Economic Development investments averaged \$103 million annually, reflecting investments to support redevelopment of the Goodyear headquarters and the Eastgate Urban Renewal Area. Much of that work was funded by state and federal programs.

Transportation investments showed significant increases in 2006, 2016, 2021, and 2022, all reflecting Ohio Department of Transportation projects to improve or maintain freeways and bridges.

Federal ARPA funds, which allowed the City to significantly rebuild or upgrade recreational facilities across Akron since 2022, have been drawn down.

CAPITAL BUDGET HISTORY CHART

Note - the decimals listed reflect the budget amounts in millions of dollars

Select Capital Projects In Our Neighborhoods
(Wards 1-10)

Ward	Project Name	Description
1	Innerbelt Planning/Beautification	Community-informed improvements and beautification to the decommissioned Innerbelt right-of-way.
2	E Cuyahoga Falls Ave. Striping/Curb Ramps	Restriping and new pedestrian curb ramps, from Main St. to Route 8.
3	Vernon Odom Resurfacing	Street resurfacing and pedestrian-friendly restriping.
4	Aquae Park Playground	New playground equipment.
4	Williams Community Center Improvements	Esports gaming room; upgrade flooring and lighting and remove old play equipment.
5	Joy Park Community Center Improvements	Esports gaming room; concrete plaza (north end).
6	Hyre Park Playground Improvements	Playground and tennis court improvements.
6	Ellet Community Center Improvements	Miscellaneous improvements as identified by Building Maintenance staff.
7	Heinz-Hillcrest Ballfields	New bleachers and players benches for baseball fields; ADA access ramp from Brown Street Parking lot to existing walking path.
7	Atwood Galena Paths	Repairs to asphalt walking path.
8	Wendling Dr. Concrete Replacement	Repaving with new curbs and gutters.
8	Karona Park	Akron Parks Challenge Grant--converting tennis court to pickleball, new nature play area, walkways, and landscaping.
9	Young's Restaurant Site Improvements	Evaluations and site preparations for redevelopment.
9	Prentiss Park	Replace/repair bleachers, remove softball backstop, and restroom upgrade.
10	Rubber City Heritage Trail	Continued transformation of a rail corridor into a recreational trail.
10	Blinn St. Greenspace	Develop new park space on the western portion of the former Blinn street property.

2026 PROJECTED REVENUES*

\$17,986,000

PUBLIC SERVICE DEPARTMENT

Equipment Replacement	\$3,000,000	Replacing the aging Snow and Ice Fleet. Trucks, plows, spreaders, brine tanks and more.
Traffic Calming	\$250,000	Traffic safety intervention including speed tables, curb extensions, flashing radar signage, and more.
Resurfacing	\$2,750,000	Pave and replace additional streets based on roadway conditions and safety.
TOTAL	\$6,000,000	

AKRON POLICE DEPARTMENT

Management Software/Hardware/Training	\$664,000	Computers, cameras, server equipment, security upgrades, phone upgrades, and various software solutions.
Dan St. Training Bureau Improvements	\$500,000	Replacement of the HVAC units and roof repairs.
Police CAD	\$358,000	Updated software solution for dispatching emergency calls, and new record management system for APD.
Safety Forces Staffing	\$3,630,000	Funding assistance to maintain staffing levels.
Academy / Training	\$536,000	Improve development, training and hardware for Police Academy and Citizens Academy, funds for training efforts.
Body Worn Cameras	\$453,000	Development of additional cameras for SWAT and SNUD units, and build out of additional infrastructure to support expansion.
Police Combine Comm Center	\$348,000	Contract costs for communication center facility, technology and utilities.
Police Gear Replacement	\$255,000	Funding for development and implementation of Patrol long gun program, replacement of police gear, body armor, and other equipment.
Taser Replacement	\$291,000	Contract to ensure that all APD patrol officers are issued tasers.
TOTAL	\$7,035,000	

AKRON FIRE DEPARTMENT

Fire/EMS Misc Equipment	\$400,000	Provide for replacement of end of service life EMS and Fire equipment. Examples include cardiac monitors, LUCAS CPR devices, Styker Powerload Cots, Nozzles, and hoses, and miscellaneous equipment.
Fire Facility Improvement Program	\$130,000	Provides for repair of fire station HVAC systems, drive aprons, kitchen, generators, overhead doors, and parking lots.
Fire Gear Replacement	\$200,000	Ongoing replacement of turn-out gear.
Management Software/Hardware/Training	\$210,000	Computers, cameras, server equipment, security upgrades, phone upgrades, and various software solutions.
Fire CAD	\$193,000	Updated software solution for dispatching emergency calls and new record management system for AFD.
Safety Forces Staffing	\$3,630,000	Funding assistance to maintain staffing levels.
Police Combines Comm Center	\$188,000	Contract Costs for Communication Center facility, technology and utilities.
TOTAL	\$4,951,000
