ITEM SPECIAL - HEALTH AND SAFETY

Description. Contractor shall accomplish the Work in accordance with the CONTRACTOR's approved Project Safety Program. See also <Item 115, Protection of Persons and Property>.

Related Requirements. Section <01 33 00, Submittals>. <General Conditions Article 10, Protection of Persons and Property>.

Submittals.

Action Submittals:

1. Project Specific Safety Program
2. Emergency Preparedness Plan
3. Emergency Response Plan

Informational Submittals:

1. Material Safety Data Sheets (MSDS): provide MSDSs for chemicals brought to or stored on the Site.

General. Comply with CONTRACTOR's Project Specific Safety Program for the health and safety of persons and property in the vicinity of the Work area. Noncompliance by CONTRACTOR or its personnel with the Project Specific Safety Plan is grounds for a stop work order.

CONTRACTOR shall enforce its plan for its personnel.

Develop and maintain, for the duration of the Work, a Project Specific Safety Program that will effectively implement required safety provisions. The CONTRACTOR shall appoint a Project Safety Officer qualified to supervise and enforce compliance with the Project Specific Safety Program. Maintain at the jobsite, a copy of the Project Specific Safety Program, MSDS sheets, safety equipment applicable to the Work, including articles necessary for administering first-aid to the injured, and establish a procedure for the immediate removal to a hospital or urgent care facility.

Comply with applicable safety codes, ordinances, and statutes, and bear sole responsibility for the penalties imposed for noncompliance.

Inspect Project safety measures each workday and document in daily reports.

Respond in writing to the CMT within 72 hours of written notification of any Project related health and safety concerns and take appropriate action. Regardless of any such action by the CMT, the CONTRACTOR retains sole responsibility to initiate, maintain and supervise all safety precautions and programs in connection with the Work.
