The President and Members
of the Board of Trustees and the
Village Manager of the
Village of Arlington Heights

The Annual Comprehensive Financial Report (ACFR) of the Village of Arlington Heights (Village) for the year ended December 31, 2022, is hereby submitted as required by the Illinois Compiled Statutes. State law requires that the Village issue annually a report on its financial position and activity presented in conformance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards by an independent firm of certified public accountants.

This report consists of management's representations concerning the finances of the Village of Arlington Heights. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Village has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Village of Arlington Heights' financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Village's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Village's financial statements have been audited by Sikich, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Arlington Heights for the year ended December 31, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and, evaluating the overall financial statement presentation. The independent auditor concluded, based upon audit, that there was a reasonable basis for rendering an unmodified opinion that the Village's financial statements for the year ended December 31, 2022, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Village's MD&A can be found immediately following the report of the independent auditors.

Profile of the Village of Arlington Heights

The Village of Arlington Heights is located 25 miles northwest of the City of Chicago in Cook County, Illinois. It was incorporated in 1887. The Village's 2020 Census places the population at 77,676 and the Village has an area of approximately 16.6 square miles. It is a home rule community as defined by the Illinois Constitution. Arlington Heights is a very livable community with excellent schools, an outstanding park system, dependable village services, a diverse housing stock and easy access to the major expressways and

O'Hare International Airport. There are 23,132 owner-occupied units and 7,950 rental units with considerable high-rise and multi-family residential development in and around the Downtown area.

The Village has a well-established reputation as a preeminent community located in the northwestern corridor of the Chicago metropolitan area. There is now relatively little undeveloped land in the Village. The Village's economic base is somewhat diversified with income and housing indices well above State levels. While primarily considered a residential community, there is a significant commercial base and a large retail sector. The Equalized Assessed Value of the property in the Village is split 71% residential and 29% commercial and industrial. Due to its healthy local economy, the Village of Arlington Heights has maintained a credit rating of Aa1 from Moody's Investor Service.

The Village operates under the Council/Manager form of government. Policymaking and legislative authority are vested in the Village Board, which consists of a President and eight Trustees. The Village Board is responsible, among other things, for passing ordinances, adopting the budget, appointing members to Boards and Commissions and hiring the Village Manager, Village Attorney, and Prosecuting Attorney. The Village Manager is responsible for carrying out the policies and ordinances of the Village Board, for overseeing the day-to-day operations of the Village and for appointing employees including the heads of the Village's departments. Board members are elected for four-year staggered terms with four Board members elected every two years. The President is elected to a four-year term. The President and Village Trustees are elected at large.

The Village provides a full range of general government services including public safety, community development, community services and public works, as well as construction and maintenance of the Village's infrastructure. In addition to the Village's general governmental activities, the Village provides water and sewer services, Senior Center, Health Services, and maintains several parking garages and surface parking lots.

Long-Term Financial Planning and Major Initiatives

Unrestricted fund balance (the total of the assigned and unassigned components of fund balance) in the General Fund at year end was 39.7% of total General Fund expenditures. This is within the minimum fund balance level established in the Village's financial performance goals. A statement of the financial performance goals is incorporated in the Village's annual budget. This statement includes goals for revenues, expenditures, reserves, investment performance, capital improvements, debt, and financial reporting.

On a biennial basis the Village Board completes a strategic plan which is included in the annual budget and helps guide the development of this document. The Village's annual budget and financial planning process begins with the preparation of a biennial five-year capital improvement program and an annual separate three-year operating fund projection. These long-range planning documents project revenue and expense trends and allow the Village to anticipate structural budget concerns. The Village maintains dedicated revenue sources in its Capital Projects Fund to ensure that its capital infrastructure is maintained at a high level. An internal service fund, the Fleet Fund, is also funded through annual operating transfers from the effected departments based on a vehicle depreciation schedule. The Village's current financial condition has remained healthy as the key operating funds, the General Fund and the Water & Sewer Fund, have both retained comfortable reserves.

The Village's efforts to be fiscally conservative while monitoring the financial climate at the state and federal levels allows the Village to ensure its economic strength will be maintained. The Village's strength is also demonstrated by the new businesses that have opened in the Village. Arlington Downs is the site of a \$320 million multi-use redevelopment. The site includes luxury apartments, plans for new restaurants, retail shops, and a new separate hotel building located within the planned unit development. Several phases of the Arlington Downs development have been completed and it is expected to be fully completed over the next few years. Northwest Gateway Center is planned along the retail corridor of Dundee Road. 511,600 feet of industrial and office space will be positioned in two warehouse buildings. 4 N. Hickory Apartments, is a 76 residential mixed use apartment development with 3,400 square feet of commercial space which is under construction with occupancy expected in the fall. The Chicago Bears football club has purchased the sizeable 326-acre area of the former Arlington Race Track. They are exploring the potential redevelopment of the area site including a mixed used development and an NFL stadium.

The Village maintains a very aggressive economic development program. The components include business retention, business attraction, business assistance and special programs. This results in increased property and sales tax revenue, higher employment rates and a stable economic base. Arlington Heights also enjoys a thriving Downtown area, which contains a mix of multi-story housing, office space, restaurants, retailers, specialty stores and business services. Tax Increment Financing (TIF) Districts were instrumental in creating this vital commercial area in the Downtown area.

Part of the Village's economic development program is to provide the opportunity for businesses to apply for the non-residential property tax incentive programs through Cook County. Cook County offers the Class 6b property tax abatement to incentivize re-occupancy of vacant industrial properties. This incentive lasts for 12 years. Businesses applying for a Class 6b tax abatement provide a 10% rebate to the Village of their property tax savings over the first five years of the incentive, in order to fund the Zero Interest Loan program or other economic development activities as approved. Additionally, the application fee (\$1,000) for the Class 6b incentive also goes towards funding the Zero Interest Loan program in order to assist in attracting and retaining other businesses.

In 2022, the Village approved five Class 6b requests:

- A Class 6b request for 3727 N. Ventura Drive was approved by the Village Board in mid-January. This will allow Kolbi Pipe Marker, an Arlington Heights business since 2010, the ability to relocate into a new property and allow the Village to retain their 50 employees.
- A Class 6b request for Elegante Cuisine at 2616 S. Clearbrook was approved in early February by the Village Board. This incentive will allow for the re-occupancy of a vacant 15,000 square foot building and bring 20 full-time workers to the community.
- The Class 6b renewal request for Atomic Mechanical was approved by the Village Board in mid-May. This will enable the retention of the business within their existing 36,000 square foot building, and allow for the expansion of their facilities. Atomic Mechanical currently employs 160 workers, approximately 50 of which work on site full-time.
- A Class 6b request for 416 W. Campus Drive has been approved by the Village Board. Razny, which operates four retail jewelers across the Chicago area, will use the property for assembly/warehouse/distribution operations. The site is expected to be home to 20 full-time workers in Year One, with plans to add five more over the next ten years. Property improvements include replacing the existing roof with a more environmentally-friendly white roof, upgrading site landscaping, and installing Energy Select windows.
- A Class 6b renewal request for J.R. Carlson Laboratories was approved by the Village Board. The long-time Arlington Heights company is a manufacturer and distributor of vitamins and supplements. Carlson Labs currently has over 130 employees, with plans to grow to nearly 200 over the next ten years. The abatement will allow for reinvestment in the building towards obtaining a LEED rating, in addition to retaining this growing company.

Cook County also offers the Class 7c property tax abatement to incentivize the re-occupancy or redevelopment of vacant properties. Unlike the industrial focus of the Class 6b program, the 7c incentives are strictly for commercial properties. This incentive lasts for five years, assessing the property at 10% over the first three years, 15% in the fourth year, and 20% in the fifth and final year. Applicants are also allowed up to one renewal. As with the 6b program, municipal approval is initially required, and then final approval goes through Cook County.

The Village staff, following specific directives of the Village Board and the Village Manager, has been involved in a variety of projects throughout the year ended December 31, 2022; these projects reflect the Village's commitment to ensuring that its citizens are able to live and work in a desirable environment. The most significant of these projects are discussed below:

- Over \$7.7 million was spent on the ongoing street resurfacing and street reconstruction programs.
- \$3.3 million was spent on storm water control improvements.
- \$4.8 million was spent on water and sewer rehabilitation and replacement projects.
- In excess of \$600,000 was spent toward the replacement of Village vehicles.
- Other significant capital expenses included:
 - \$1.4 million was spent on redevelopment in the TIF V area
 - \$127,000 for municipal parking lot improvements

Other Efforts

For the third consecutive year, the 2022 property tax levy reflects a 0% increase over the prior year extended levy, while still providing high quality services to the community.

The year ended with a significant surplus in the General Fund, and the Village Board subsequently approved transfers-out to the Municipal Parking Operations Fund, the Capital Projects Fund, the Lead Service Line Replacement Fund, the Water and Sewer Fund and the Fleet Operations Fund to provide financial assistance for future capital costs. In addition, the General Fund was able to contribute \$2 million to each of the Public Safety Pension Funds to offset some of 2022's market decline in investments. The surplus also allowed the Village to abate the Village's 2022 Tax Levy by \$1.6 million.

Tyler Technologies, the Village's new Enterprise Resource Planning (ERP) provider began a multi-year implementation project. This software will enhance the employee, resident and business experience. It will provide greater sharing of information between Village departments with less duplication and redundant data processing, allowing our staff to provide more efficient services to our residents and businesses.

Storm Water Televising Assessment was finalized and identified high priority repair areas within the Village's storm water system.

The Berkley/Hintz Stormwater Improvements were completed. Significantly less flooding will occur due to the new storm sewers and the detention pond.

Relevant Financial Policies and Practices

Cash management policies and practices – Cash temporarily idle during the year was invested in money market funds, certificates of deposit, Treasury Bills, Commercial paper, the Illinois Metropolitan Investment Fund (IMET) and the Illinois State Treasurer's pool (Illinois Funds). The maximum maturity for the certificates of deposit is 1 1/2 years. The public safety pension funds can usually earn a higher rate of interest because their investment term is longer and they are permitted to invest a portion of their monies in equities. However, annual Police and Fire pension fund losses or gains are smoothed over a three-year period. Investment income includes appreciation in the fair value of investments. Increases in fair value during the current year, however, do not necessarily represent trends that will continue, nor is it always possible to realize such amounts, especially in the case of temporary changes in the fair value of investments that the Village intends to hold to maturity. Investments are made in accordance with State statutes and Village policy. The Village Board adopted a revised Investment Policy covering all funds it governs in 2020. Police and Firefighters' pension funds are covered by separate policies because these funds are governed by separate boards.

Risk management – The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of Illinois municipalities which have formed an association to pool its risk management needs. The Village offers to its employees five basic types of health insurance plans: a conventional HMO plan, a Blue Advantage HMO plan comprised of a smaller, more localized network, a self-insured PPO plan, a Core PPO and a high deductible PPO, which are all administered by a third party. All of

the Village's health plan options are offered to retirees who pay their insurance premiums in full that are under 65. Medicare-eligible retirees, who pay their insurance premiums in full, are offered a separate fully-insured group retiree medical plan. The Village is protected from catastrophic losses in the self-insured plan through the purchase of a stop-loss insurance policy. One of the functions of the Village's risk management operation is to organize various health and safety programs to minimize insurance related losses.

Pension and other post-employment benefits – The Village's sworn police officers participate in the Police Pension Employees Retirement System (PPERS), which is a single employer, defined benefit plan governed by a five-member pension board. The Village's sworn firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS), which is a single employer, defined benefit plan governed by a five-member pension board. The defined benefits and employee contribution levels of both pension funds are governed by Illinois State statutes. The Village is authorized to approve the actuarial assumptions used to determine employer contribution levels. The most recent actuarial valuation as of January 1, 2022 for the year ending December 31, 2022 reflects funding levels of 87% for the Police Pension Fund and 81% for the Firefighters' Pension Fund on an actuarial basis.

The Village also provides pension benefits for its non-public safety employees. These benefits are provided through a statewide plan managed by the Illinois Municipal Retirement Fund (IMRF). The Village has no obligation in connection with employee benefits offered through this plan beyond its contractual payments to IMRF. The actuarial valuation for the Village's portion of IMRF as of December 31, 2021 reflects a funding level of 110%. It should be noted that the IMRF's funding level is just for the Village's active IMRF participants as IMRF retirees' pensions are 100% funded. Additional information on the Village's pension arrangements can be found in Note #15 (Defined Benefit Pension Plans) in the financial statements.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village for its Annual Comprehensive Financial Report (ACFR) for period ended December 31, 2021. This was the thirty-third consecutive year that the Village has received this prestigious award. In order to be awarded a Certificate of Achievement, the Village published an easily readable and efficiently organized ACFR. This report satisfied both GAAP and applicable legal requirements.

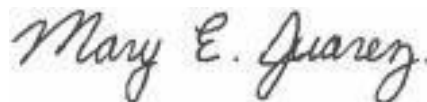

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. We would like to express our appreciation especially to Alexis Smulson, Accounting Manager, Kevin Baumgartner, Budget Coordinator/Accountant and all other members of the Department who assisted and contributed to the preparation of this report. Credit also must be given to the Village Board and Village Manager for their continued support in maintaining the highest standards of professionalism in the management of the Village of Arlington Heights' finances.

Respectfully submitted,

Thomas F. Kuehne
Finance Director/Treasurer

Mary E. Juarez
Assistant Finance Director

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor
Members of the Board of Trustees
Village of Arlington Heights
Arlington Heights, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Arlington Heights, Illinois (the Village), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Arlington Heights, Illinois as of December 31, 2022, and the respective changes in financial positions and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Northwest Water Commission (NWWC), which represent 20.32%, 21.69%, and 3.33% of the assets, net position, and revenues of the business-type activities, respectively. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Village's investment in joint venture, is based on the report of the other auditor. The financial statements of the NWWC were not audited in accordance with *Government Auditing Standards*.

Change in Accounting Principle

The Village adopted GASB Statement No. 87, *Leases*, which established a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Our opinion is not modified with respect to these matters.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Village as of and for the year ended December 31, 2021, and we expressed unmodified opinions on those basic financial statements. That audit was conducted for purposes of forming an opinion on the basic financial statements as a whole. The 2021 comparative information included on certain combining and individual financial statements and schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2021 basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements from which it has been derived.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, supplemental information and statistical section, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 15, 2023, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

**GENERAL PURPOSE EXTERNAL
FINANCIAL STATEMENTS**

The VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

December 31, 2022

The Village of Arlington Heights (the "Village") management's discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget) and, (5) identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on Page iii) and the Village's financial statements (beginning on Page 3).

Financial Highlights

- The Village's total net position increased by \$29.8 million or 12.0% during the calendar year ending December 31, 2022. The governmental net position increased by \$17.0 million and the business-type activities net position increased by \$12.8 million.
- The Village's combined Governmental Funds ending fund balance increased by \$4.3 million.
- At the end of the current fiscal year, the unrestricted fund balance for the General Fund was \$32,348,592 or 39.7% of General Fund expenditures.

USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL REPORT

The financial statement's focus is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year-to-year or government to government) and enhance the Village's accountability.

Government-Wide Financial Statements

The government-wide financial statements (see Pages 5-8) are designed to emulate the corporate sector in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. The focus of the Statement of Net Position (the "Unrestricted Net Position") is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities (see Pages 7-8) is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The governmental activities reflect the Village's basic services, including police, fire, planning and community development, engineering, building and health services, public works and administration. Property taxes, shared State sales, local utility and shared State income, home rule sales and food and beverage taxes finance the majority of these services. The business-type activities reflect private sector type operations (Water & Sewer Fund and Solid Waste Disposal Fund), where the fee for service typically covers all or most of the cost of operations, including depreciation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Fund Financial Statements allow the demonstration of source and uses and/or budgeting compliance associated therewith. Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is now on major funds, rather than fund types. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Governmental Funds

The Governmental Major Fund presentation (see Pages 9-10 and 12) is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the budget) is typically developed. The flow and availability of liquid resources is a clean and appropriate focus of any analysis of a government. The focus of governmental funds is narrower than that of the Government-Wide Financial Statements. The Village maintains 17 individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Debt Service and Capital Projects Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds

The Village maintains two different types of proprietary funds. Enterprise Funds are used to report the same functions presented in Business-Type Activities in the Government-Wide Financial Statements. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the Village's various functions. The Village uses internal service funds to account for its fleet operations, self-insurance and technology programs.

Proprietary Fund Financial Statements (see Pages 14-18) provide the same type of information as the Government-Wide Financial Statements, only in more detail. The Water & Sewer Fund is considered a major fund of the Village and is presented in a separate column in the Proprietary Fund Financial Statements. The Solid Waste Disposal Fund, Arts, Entertainment and Events Fund, and the Lead Service Line Replacement Fund are the Village's non-major enterprise funds. The Internal Service Funds are combined in a single, aggregate presentation in the Proprietary Fund Financial Statements. Individual fund data for the Internal Service Funds is presented elsewhere in the report.

Fiduciary Funds

The Fund Financial Statements also allow the government to address its Fiduciary Funds (Police Pension Fund and Firefighters' Pension Fund, see Pages 19-20). While these funds represent trust responsibilities of the government, these assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government-Wide Statements.

While the Business-type Activities column on the Proprietary Fund Financial Statements is the same as the Business-type column at the Government-Wide Financial Statement, the Governmental Funds Total column requires a reconciliation because of the different measurement focus (current financial resources versus total economic resources) which is reflected on the page following each statement (see Pages 11 and 13). The flow of current financial resources will reflect bond proceeds and interfund transfers as other financing sources, as well as capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligation (bonds and others) into the Governmental Activities column (in the Government-wide statements). The reconciliation also includes the Internal Service Funds' activities given that the Internal Service Funds serve primarily the Governmental Funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and Fund Financial Statements. The Notes to the Financial Statements can be found on pages 21-76 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including the major governmental fund budgetary schedules and data concerning the Village's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on Pages 77-89 of this report. The combining and individual fund statements for the governmental, enterprise internal service funds and fiduciary funds are presented on Pages 90-143 of this report, immediately following the required supplementary information.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
MANAGEMENT’S DISCUSSION AND ANALYSIS (Continued)

GOVERNMENT-WIDE STATEMENTS

Statement of Net Position

The Village’s combined net position increased by \$29.8 million from 2021, increasing from \$248.0 million to \$277.8 million. The largest portion of the Village’s net position (\$199.4 million) reflects its investment in capital assets (e.g., land, infrastructures, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The Village used these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The following analysis will look at net position and net expenses of the governmental and business-type activities separately. The total net position for the governmental activities increased by \$17.1 million from \$173.0 million to \$190.1 million. The business-type activities net position increased by \$12.8 million from \$75 million to \$87.8 million. Table 1 reflects the condensed Statement of Net Position compared to 2021. Table 2 focuses on the changes in net position of the governmental and business-type activities.

Table 1: Statement of Net Position as of December 31, 2022 (In Millions)

	Governmental		Business-Type		Total Primary	
	Activities		Activities		Government	
	2022	2021	2022	2021	2022	2021
Assets						
Current & Other Assets	\$ 201.5	\$ 167.2	\$ 50.6	\$ 41.4	\$ 252.1	\$ 208.6
Capital Assets	211.9	210.5	\$ 43.1	\$ 36.8	255.0	247.3
Total Assets	413.4	377.7	93.7	78.2	507.1	455.9
Deferred Outflows of Resources	57.2	29.0	2.2	2.3	59.4	31.3
Liabilities						
Current Liabilities	22.0	11.8	1.1	0.6	23.1	12.4
Long-Term Liabilities	193.0	134.6	2.3	2.1	195.3	136.7
Total Liabilities	215.0	146.4	3.4	2.7	218.4	149.1
Deferred Inflows of Resources	65.4	87.4	4.7	2.9	70.1	90.3
Net Position						
Net Investment in Capital Assets	167.9	162.0	43.1	36.8	199.4	191.0
Restricted	30.8	42.3	0.0	0.0	30.8	42.3
Unrestricted	(8.6)	(31.3)	44.6	38.1	47.6	14.7
Total Net Position	\$ 190.1	\$ 173.0	\$ 87.8	\$ 75.0	\$ 277.8	\$ 248.0

Note: The General Obligation Bonds, Series 2020, were issued as governmental activities debt to fund capital asset acquisitions for the business-type activities. Therefore, the total column includes the outstanding balance for these bonds (and related amounts), while the governmental activities column does not include these amounts in the calculation of the net investment of capital assets.

(See independent auditor’s report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Normal Impacts on Net Position

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net Results of Activities – which will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for Capital – which will increase current assets and long-term debt.

Spending Borrowed Proceeds on New Capital – which will reduce current assets and increase capital assets. There is a second impact, an increase in invested capital assets and an increase in related net debt, which will not change the invested in capital assets, net of related debt.

Spending of Non-borrowed Current Assets on New Capital – which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net position and increase invested in capital assets, net of related debt.

Principal Payment on Debt – which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net position and increase invested in capital assets, net of related debt.

Reduction of Capital Assets through Depreciation – which will reduce capital assets and invested in capital assets, net of related debt.

Current Year Impacts on Net Position

The Village's \$29.9 million increase of combined net position (which is the Village's bottom line) was the result of the governmental activities net position increasing by \$17.1 million and the business-type activities net position increasing \$12.8 million. The governmental activities total assets and deferred outflow of resources increased by \$63.90 million and the governmental activities total liabilities and deferred inflows of resources increased by \$46.6 million.

The governmental activities total assets increase of \$35.7 million is due to a \$34.3 million increase in current and other assets and a \$1.4 million increase in capital assets. The governmental activities current assets increase is from several factors. The first is primarily from the increase in the cash position of \$14.7 million due to the funds received from the American Rescue Plan Act (ARPA) Grant, the increase of Income Taxes received over the prior year and the surplus of revenues over expenditures. Secondly, the Property Tax receivable increased \$8.1 million due to the delay of the 2nd installment of Property Taxes receipts in 2022. Thirdly, the current year included a Net Pension Asset for IMRF of \$11.7 due to the difference between the IMRF plan assets and the total pension liability. The \$1.4 million increase in capital assets was mainly from the addition of Public Improvement Infrastructure netted against the capital asset depreciation.

The large increase in total liabilities of \$68.6 million is attributable to the increase of \$10.5 million of current liabilities and \$58.3 million increase in the noncurrent liabilities over the prior year. The \$10.5 million increase in current liabilities was mainly from an increase of \$2.3 in Accounts Payable and Accrued payroll, due to the timing of year-end expenses not paid until the following year. In addition, Unearned Revenue increased \$2.1 Million from the unspent ARPA Grant Revenues that are not recognized as revenue until spent. The Village also recognized a liability Due to the Pension Funds of \$5.9 million for the planned transfer of \$4M of the General Fund's surplus and the amount due to the Pension Funds for the Property Tax levy that was not received before year end due to the delay in the 2nd installment of property Taxes. The Noncurrent liabilities increase was primarily from the actuarial valuation of the Police and Fire net pensions liabilities increasing \$66.6 million over prior year. Police and Fire Pension Liabilities had a substantial increase due to the poor performance of Police and Fire Pension Net Investment returns experienced during 2022, which decreased the Pension Plan's Net Position. The large increase was offset by a decrease of \$5.5 million in the Bonds Payable balance and \$2.2 million in the OPEB Liability.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The Village's other post-employment benefits (OPEB) obligation decreased by \$2.3 million due to the increase in the discount rate from 1.84% up to 4.05% which lowered the OPEB liability. Retirees and their dependents who are 65 or older and Medicare eligible, are no longer included in the Village's medical and prescription plan which thereby decreases the OPEB liability. As required by the Governmental Accounting Standards Board (GASB) Statement No. 75, the Village must now recognize the full liability associated with explicit and implicit post-employment benefits. The only explicit OPEB offered by the Village is 100% lifetime health insurance coverage for public safety officers disabled on the job as mandated by the State. The Village's implicit OPEB liability arises from implicit rate subsidies under which health care premiums are typically based on a blended premium for active employees and retirees under 65. Under the Village's current benefit package, retirees up to the age of 64 can participate in the Village's health care plan, but must pay 100% of the premium. However, as retiree costs are actuarially more significant than active employee's health care costs, the Village implicitly subsidizes the under 64 retiree rates. On a bi-annual basis, the Village must hire an actuary to calculate the value of the explicit OPEB cost and implicit subsidy.

The Deferred Outflows of Resources substantial increase of \$28.2 million is related mainly to the large increase in the Police and Fire pension items. The pension items deferred outflows are determined by actuarial valuations, the balances are derived from the variances between the expected and actual non-investment experience, investment earnings, and assumption changes. These same factors decreased the deferred inflows of resources for the Police and Fire pension items by \$31.9 million. The Village reports the deferred inflows of resources related to the 2022 property tax levy, which was levied in December 2022, but will not be collected and distributed to the Village until calendar year 2023.

The total assets of the business-type activities increased by \$15.4 million from \$78.2 million to \$93.7 million. This was mainly due to the \$4.2 million Internal Balance transfer from the General Fund's Surplus of \$1.2 million to the Lead Line Service Replacement Fund and \$3.0 million to the Water and Sewer Fund. In addition, the current year included the actuarial valuation Net Pension Asset - IMRF of \$3.4 million. Capital Assets in the Water and Sewer Fund also increased \$6.3 million, with the largest amount attributed to the increase of Underground Systems of \$8.1 million which was offset by depreciation of \$1.8 million. Cash and Customer accounts increased by \$700,000 and Investment in joint venture increased by \$800,000.

Total liabilities increased \$700,000 mainly from an increase in Accounts Payable in the Water and Sewer Fund. The Deferred Inflows of Resources increased \$1.8 million due to the IMRF items actuarial valuation.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Changes in Net Position

The Village's combined change in net position increased by \$29.8 million from \$247.9 million to \$277.8 million in 2022. The Village's total revenue (net of transfers) increased by \$10.9 million. The Village's cost of all programs increased by \$21.1 million primarily from the expense of the General Fund due to the Pension Funds for the Property Tax Levy that was not received before year end due to the delay in the 2nd installment of property taxes. The following table shows the condensed revenues and expenses of the Village's activities:

Table 2: Changes in Net Position for the Year Ended December 31 (In Millions)

	Governmental Activities		Business-Type Activities		Total Primary Government

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Normal Impacts on Revenues and Expenses

There are eight basic impacts on revenues and expenses as reflected below.

Revenues:

Economic Condition – which can reflect a declining, stable, or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

Increase/Decrease in Village-Approved Rates – while certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (property taxes, water, sewer, building fees, home rule sales tax, prepared food tax, etc.)

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) – certain recurring revenues (State-shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.

Market Impacts on Investment Income – the Village's investment portfolio is managed using a similar average maturity to most governments. Market conditions may cause investment income to fluctuate.

Expenses:

Introduction of New Program – within the functional expense categories (General Government, Public Safety and Streets and Highways, etc.), individual programs may be added or deleted to meet changing community needs.

Increase/Decrease in Authorized Personnel – changes in service demand may cause the Village Board to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent 81% of the Village's General Fund and 39% of Water & Sewer Fund operating costs.

Salary Increases (annual adjustments and merit) – the ability to attract and retain human and intellectual resources requires the Village to strive to approach a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuels and parts. Some functions may experience unusual commodity-specific increases.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Current Year Impacts

Governmental Activities

Revenues:

**12/31/22 Governmental Activities
Revenues by Source**

For the fiscal year ended December 31, 2022, revenues from Governmental Activities totaled \$119.1 million, which was \$9.0 million (net of transfers) more than the prior year total. Property and Replacement tax receipts of \$42.7 million, which represents 35.8% of the total Governmental Activity revenue, remained relatively level when compared to the prior year due to a 0% Property Tax increase from calendar year 2021.

During the fiscal year, Other taxes was one of the Village's largest revenue categories coming in at \$51.4 million and representing 43.2% of total Government Activity revenue. Other Taxes includes Sales and Home Rule taxes, which when combined brought in \$25.6 million during the calendar year. The increase in Sales taxes is mainly due to the state and federal laws that require payment of sales taxes on internet sales. In addition, the inflation raised the cost of goods, which increased Sales tax receipts. Food and Beverage Taxes also increased 8% over the prior year from, \$2.1 million to \$2.3 million as a result of inflation. Other Taxes also includes Income Taxes of \$12.7 million, which increased \$2.8 million over the prior year, which corresponds to a lower level of unemployment and inflation. Other taxes, also contains the telecommunications tax, use tax, and other miscellaneous taxes total. Telecommunication tax receipts decreased by about \$33,100 or 2% from more residents eliminating their land lines. Use taxes increased approximately \$189,800 and electric and natural gas utility tax receipts decreased by about \$21,700.

Charges for Services came in at \$14.1 million or 11.8% of total Government Activity revenue. These revenues include Building Permits, Engineering Service charges, Vehicle Licenses, Ambulance Fees, Cable Franchise Fees, General Fund Service Charges to the Municipal Parking, TIF, and Water & Sewer Funds, parking lot fees and fines, and other charges. Charges for Services increased \$952,000 due to inflation increasing the cost of services. The Village realized gains of \$827,000 from Fines and Fees and \$176,000 from Licenses and Permits. These gains were offset by a decrease in Parking fees of \$48,000, caused largely by less commuters due to hybrid remote work schedules that have become prevalent following the Pandemic.

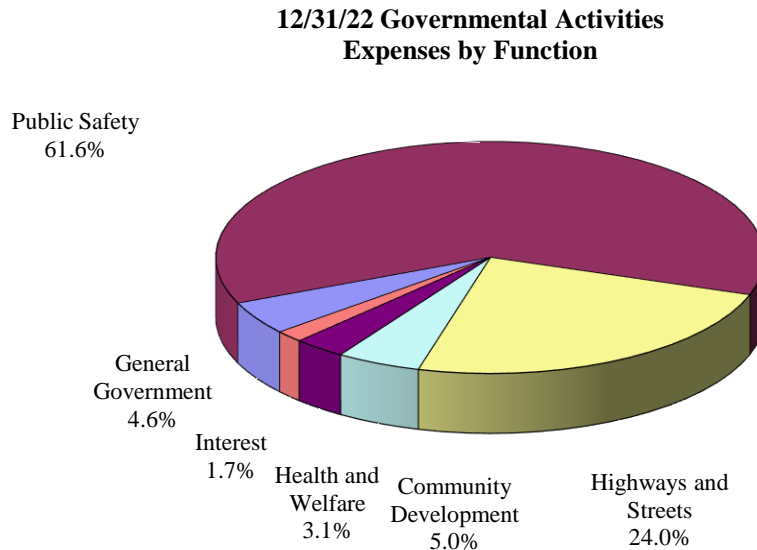

Grants decreased approximately \$450,000 from the prior year. This decrease is primarily due to the deferral of unspent ARPA Grant monies received, offset by DCEO and State grants obtained.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Expenses:

For the year ended December 31, 2022, expenses from Governmental Activities totaled \$98.4 million. Expenses increased 26.2% over the prior year. The majority of the increase was from the Net Pension Liability and the expense of transferring the General Fund surplus and Property Taxes from the General Fund to the Pension Funds.

Police and Fire pension property tax levies are collected in the General Fund and paid to these respective pension funds as an employer contribution, and are shown as pension expenses in the Police and Fire Departments.

Business-Type Activities

Revenues:

The total revenue, excluding transfers in, for the business-type activities increased by \$1.9 million. Water and sewer rates increased 5.0% per the Village's five-year rate plan. The rate adjustment allows the Village to make necessary water main replacements to the water and sanitary sewer infrastructure. General Fund Surplus Transfers-in amounted to \$4.2 million. \$1.2 million was contributed to the Water and Sewer Fund for the Water Meter Replacement Program and \$3 million was also contributed to the Lead Service Line Replacement Fund. Solid Waste Disposal revenues remained relatively consistent with the prior year. Arts, Entertainment, and Events Fund revenues increased by approximately \$344,000 from the prior year.

Expenses:

Expenses from business-type activities increased by about \$840,000 (net of transfers) compared to the prior year. The main reason was due to a increase in Personal Services, commodities and Capital Outlay. in the Water Utility Operations.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

Governmental Funds

At December 31, 2022, the Governmental Funds Balance Sheet (as presented on Page 9-10) reported a combined fund balance of \$88,458,809, which is a 5% increase from the beginning of the year balance of \$84,202,219. Of the total fund balance, \$31,529,456 is unassigned indicating availability for continuing Village services. The General Fund is the only fund that would report a positive amount in unassigned fund balance. Restricted fund balance reflects amounts that can be spent only for specific purposes stipulated by creditors, grantors, contributors, or imposed by law through enabling legislation adopted by the Village. Restricted fund balances totaling \$30,845,551 include \$1,820,239 for debt service, \$587,252 for capital projects, \$2,045,679 for public safety (Foreign Fire Insurance and Drug Forfeiture Funds), \$7,653,206 for highways and streets (MFT Fund), \$3,846,816 for Stormwater Control, and \$14,892,359 for community development (TIF Funds). Assigned fund balances are intended to be used by the Village for specific purposes and are designated by the Village's Finance Director for reporting purposes. Assigned fund balances totaling \$25,913,501 includes \$6,262,041 for public parking, \$18,832,324 for Capital Projects and \$819,136 for other miscellaneous purposes.

The General Fund is the Village's primary operating fund and the largest source of day-to-day service delivery. Revenues came in over expenditures by \$8,460,628, mainly from the increase of Sales Tax receipts from the Internet and the effects of the rising Inflation. Income Taxes increased over the prior year due to a lower level of unemployment and inflation. Given that the General Fund has acquired a healthy fund balance over the years, the General Fund transferred its surplus to other funds. Transfers consisted of \$3 million to fund the new Lead Service Line Replacement Fund, \$2 million to the Fleet Fund, \$1.2 million to the Water and Sewer Fund, \$100,000 transfer to the Capital Projects Fund, and \$500,000 to the Municipal Parking Fund. An additional \$2 million was contributed to each of the Pension Funds. In addition, \$1.6 million of the surplus will be allocated to Abate the Village's 2022 Tax levy Payable in 2023.

The Debt Service Fund is used to account for the general long-term debt. The total fund balance of the Debt Service Fund of \$1,820,239 decreased by \$116,763 compared to \$1,937,002 at December 31, 2021. Property Taxes increased by \$132,246 due to the increase in the Property Tax Levy to adjust for higher debt service payments due in 2022.

The Capital Projects Fund accounts for the costs of capital improvement and equipment replacement. The total Fund Balance decreased by \$591,977 from \$19,424,301 to \$18,832,324 at December 31, 2022. The decrease in Fund Balance was mainly from the increase of expenditures by \$1.3 million and the \$2.5 million transfer out of ARPA Grant Funds to the Fleet Fund.

Proprietary Funds

At December 31, 2022 the Proprietary Funds (as presented on Pages 14-18) total net position increased by \$12.8 million or 17.1%. Accumulated depreciation increased by \$1.8 million and depreciable assets increased by \$8.2 million.

In the Water & Sewer Fund, current assets increased by \$1.7 million due mainly to the operating transfer in of \$1.2 million from the General Fund surplus, along with an increase of cash and investments of \$221,000 and \$327,000 increase in Customer Accounts. Solid Waste Disposal Fund cash and investments decreased by \$223,000 due to transfers out of \$500,000 to the General and Capital Projects Funds. In the A, E & E Fund, cash and investments increased \$278,100 mainly from Food and Beverage taxes of \$977,400 and Charges for Services and interest of \$182,100. These revenue cash inflows were offset by planned expenses of \$887,000. The new Lead Service Line Replacement Fund had an increase to Currents assets of \$3 million which was funded from the General Funds's surplus.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

GENERAL FUND BUDGETARY HIGHLIGHTS

Table 3: General Fund Budgetary Highlights

	Original Budget	Final Budget	Actual
Revenues	\$ 78,932,700	\$ 79,159,804	\$ 90,007,615
Expenditures	79,132,700	79,594,541	81,546,987
Excess of Revenues			
Over Expenditures	\$ (200,000)	\$ (434,737)	\$ 8,460,628
Other Financing Sources (Uses)	200,000	200,000	(6,600,000)
Net Changes in Fund Balance	\$ -	\$ (234,737)	\$ 1,860,628

Over the course of the fiscal year, as shown on page 94 the Village amended the General Fund expenditure budget at various times for a total of \$461,841 or .6% over the original budget. The expenditure budget amendments can be summarized as follows:

<u>\$234,737</u>	Encumbrance rollover-purchase orders for goods ordered the prior year, but not received until this fiscal year.
<u>\$227,104</u>	Miscellaneous Budget Amendments.
<u>\$461,841</u>	Total General Fund expenditure budget amendments.

General Fund revenues ended the fiscal year \$10.8 million over the final budget from an increase of taxes received on Internet Sales, the recovery from Inflation and a lower unemployment rate. Sales, Home Rule Sales, Replacement Taxes and Food/beverage tax receipts were a combined \$5.3 million over budget. Income tax receipts outperformed the budget by \$3.4 million. Ambulance service charges came in over budget by \$1 million due to Ground Emergency Medical Transportation (GEMT) supplemental payments paid for transporting Medicaid patients. Other Grants came in over budget by \$105,000 primarily from State grants. Liquor and Vehicle licenses came in \$146,000 under budget. Building permits came in \$211,000 under Budget. State Use Tax came in \$151,000 over budget. Electric utility tax receipts came \$297,000 under budget, along with natural gas utility tax receipts coming in under budget by \$81,600. Telecommunications tax receipts came in over budget by \$280,000 and Cable franchise fees came in \$65,300 lower. This latter revenue decrease was caused by Disruptive technologies from residents replacing Cable with Streaming services.

The year-end results for General Fund expenditures came in over budget by \$1.9 million due to the unbudgeted \$4 million surplus transfer to the Public Safety Pension Funds. The fund's salaries came in under budget by \$1.2 million, due to normal and temporary workers' compensation related vacancies. Contractual Services, Commodities and Other Charges were below budget across all departments by \$670,000.

The General Fund's total net change in fund balance increased by \$1.9 million as a result of revenues coming in over expenditures by \$8.5 million, with an offset from net of other financing sources (uses) totaling \$6.6 million, to provide financial assistance to several capital funds. This transfer-out amount, combined with the additional Public Safety Pension contribution of \$4 million, was significantly higher than in prior years.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CAPITAL ASSETS

At the end of 2022, the Village had a combined total of \$254.9 million invested in a broad range of capital assets including police and fire equipment, buildings, Village facilities, roads, and water and sewer lines. The following tables summarize the changes in Capital Assets which are presented in detail on Pages 34-35 in the Notes to the Financial Statements. Table 4 shows that total capital assets had a net increase (including additions and deletions) of \$7.71 million. Table 5 focuses on the changes in capital assets of the governmental and business-type activities.

Table 4: Capital Assets at Year End Net of Depreciation (In Millions)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2022	2021	2022	2021	2022	2021
Land	\$12.40	\$12.40	\$2.93	\$2.93	\$15.33	\$15.33
Land Right-of-Way (ROW)	85.90	84.93	--	--	85.90	84.93
Construction in Progress	0.00	0.00	--	--	0.00	0.00

Underground Systems (Water & Sewer)	--	--	31.39	24.40	31.39	24.40
Total Capital Assets, Net	\$211.87	\$210.52	\$43.12	\$36.80	\$254.99	\$247.28

Table 5: Change in Capital Assets (In Millions)

	Governmental Activities	Business-Type Activities	Total
Beginning Balance	\$210.52	\$36.80	\$247.32
Additions			
Depreciable	6.30	8.16	14.46
Non-Depreciable	1.01	-	1.01
CIP	-	-	-
Retirements			
Depreciable	(0.30)	-	(0.30)
Non-Depreciable	-	-	-
CIP	-	-	-
Depreciation	(6.00)	(1.84)	(7.84)
Retirement	0.30	-	0.30
Ending Balance	\$211.83	\$43.12	\$254.99

The governmental activities net capital assets increased by \$1.3 million due primarily from the additions of vehicles and infrastructure. Depreciation Expense was \$6.0 million for the current year. For business-type activities, the capital assets net of depreciation increased by \$6.3 million or 17% due primarily to the addition of Infrastructure consisting of Storm Sewers.

(See independent auditor's report.)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

DEBT OUTSTANDING

As of December 31, 2022, total General Obligation Bonds outstanding for governmental activities amounted to \$51.6 million. Of this amount, \$33.5 million for reconstruction of public buildings, \$2.2 million is for road improvements, \$8.3 million for Storm Water Sewer Improvements, \$1.2 million for Parking Lot Infrastructure Improvements, and \$6.4 million for Water Main Replacements. The Village, under its home rule authority, does not have a legal debt limit. The Village's bond rating of Aa1 by Moody's Investors Service was reaffirmed in 2020 citing the Village's well-managed financial operations and that the village has continued to fully fund the Police and Fire pension plans. Additional information on the Village's long-term debt can be found in the Notes to the Financial Statements on Pages 37-40.

ECONOMIC FACTORS AND NEXT YEAR'S 2023 BUDGET

This fiscal year ended positively as the Village's General Fund ended with a surplus. Due to current and past year's budgeting policies that have been put in place, the Village has maintained a strong fund balance. During the past year, the Village experienced the effects of inflation. The Village tightened its expenditures where possible and was also fortunate to receive the ARPA Grant during 2022. Sales Taxes rose due to the new state and federal laws requiring the payment of sales taxes on internet sales. Property Tax receipts have remained stable and Income taxes increased from a lower Unemployment rate and inflation. During 2023, financial pressures from inflation and supply chain issues will continue to cause much higher Village expenses for fuel, vehicles and other products. Going forward, the Village will continue to budget conservatively to maintain a stable fund balance, while providing and improving services and infrastructure as technology and the economy changes.

CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Thomas F. Kuehne, Finance Director/Treasurer, Village of Arlington Heights, and 33 S. Arlington Heights Road, Arlington Heights, IL 60005.

(See independent auditor's report.)

GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET POSITION**

December 31, 2022

FUND BALANCES OF GOVERNMENTAL FUNDS	\$ 88,458,809
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds	211,873,239
Less internal service funds	(6,821,499)
Certain revenues are reported as unavailable in governmental funds but reported as revenue on the statement of activities	1,943,249
The net pension asset is reported only on the statement of net position	
Net pension asset - IMRF	11,728,358
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds	
Bonds payable	(51,605,000)
Unamortized premium on bonds	(4,001,894)
Net pension liability - police pension	(48,350,494)
Net pension liability - firefighters' pension	(62,061,151)
Total OPEB liability	(24,782,157)
Differences between expected and actual experiences, assumption changes, net differences between projected and actual earnings, and contributions subsequent to the measurement date for the Illinois Municipal Retirement Fund are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position	
Deferred outflows of resources	2,684,428
Deferred inflows of resources	(15,885,538)
Differences between expected and actual experiences, assumption changes, and net differences between projected and actual earnings for the Police Pension Plan are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position	
Deferred outflows of resources	24,751,712
Deferred inflows of resources	(1,466,216)
Differences between expected and actual experiences, assumption changes, and net differences between projected and actual earnings for the Firefighters' Pension Plan are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position	
Deferred outflows of resources	25,128,174
Deferred inflows of resources	(1,075,913)
Differences between expected and actual experiences, assumption changes, and net differences between projected and actual earnings for the Postemployment Benefit Plan are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position	
Deferred outflows of resources	4,576,576
Deferred inflows of resources	(4,860,048)
Compensated absences payable are not due and payable in the current period and, therefore, are not reported in governmental funds	(1,820,885)
Less internal service funds	130,899
Accrued interest on long-term liabilities is reported as a liability on the statement of net position	(164,238)
The net position of the internal service funds are included in the governmental activities in the statement of net position	41,693,614
NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 190,074,025

See accompanying notes to financial statement.

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES TO THE
GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES**

For the Year Ended December 31, 2022

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 4,256,590
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures; however, they are capitalized and depreciated in the statement of activities	6,740,367
Depreciation in the statement of activities does not require the use of current financial resources and, therefore, is not reported as an expenditure in governmental funds	(4,659,506)
Certain revenues are reported as unavailable in governmental funds but reported as revenue on the statement of activities	(91,587)
The repayment of the principal portion of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of activities	5,335,000
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds	
Amortization of gains and losses on refundings	(54,154)
Amortization of premium on long-term debt	557,696
Change in compensated absences liability	36,295
Change in accrued interest payable	14,520
The change in the Illinois Municipal Retirement Fund net pension asset and deferred outflows and inflows of resources is not a source or use of a financial resource	
Net pension asset	11,762,896
Deferred outflows and deferred inflows of resources	(7,511,086)
The change in the Police Pension Plan net pension liability and deferred outflow/inflows of resources is not a source or use of a financial resource	
Net pension liability	(34,584,825)
Deferred outflows and deferred inflows of resources	34,196,191
The change in the Firefighters' Pension Plan net pension liability and deferred outflow/inflows of resources is not a source or use of a financial resource	
Net pension liability	(31,981,340)
Deferred outflows and deferred inflows of resources	28,649,664
The change in the total OPEB liability and deferred outflow/inflows of resources is not a source or use of a financial resource	
Total OPEB liability	2,270,021
Deferred outflows and deferred inflows of resources	(3,035,573)
The change in net position of internal service funds is reported in governmental activities	<u>5,137,468</u>
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	<u><u>\$ 17,038,637</u></u>

See accompanying notes to financial statement.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Arlington Heights, Illinois (the Village) was incorporated in 1887. The Village provides services to the community that include police, fire, water and sewer utility, community development, street maintenance, and general services.

The accounting policies of the Village conform to accounting principles generally accepted in the United States of America, as applicable to governments (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies:

a. Reporting Entity

The Village is a municipal corporation governed by an elected eight-member board. As required by GAAP, these financial statements present the Village (the primary government). Management has determined that there are two fiduciary component units that are required to be included in the financial statements of the Village as pension trust funds.

Police Pension Employees Retirement System

The Village's police employees participate in Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's Mayor, one elected by pension beneficiaries and two elected police employees constitute the pension board. The Village is obligated to fund all PPERS costs not funded by PPERS participants based upon actuarial valuations, which creates a financial burden on the Village. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels, which results in the PPERS being fiscally dependent upon the Village. PPERS is reported as a pension trust fund. PPERS does not issue a stand-alone financial report.

Firefighters' Pension Employees Retirement System

The Village's sworn firefighters participate in Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's Mayor, one elected pension beneficiary and two elected fire employees constitute the pension board. The Village is obligated to fund all FPERS costs not funded by FPERS participants based upon actuarial valuations, which creates a financial burden on the Village.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a. Reporting Entity (Continued)

Firefighters' Pension Employees Retirement System (Continued)

The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels, which results in the FPERs being fiscally dependent on the Village. FPERs is reported as a pension trust fund. FPERs does not issue a stand-alone financial report.

b. Fund Accounting

The Village uses funds to report on its financial position and the change in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The minimum number of funds are maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental, proprietary, and fiduciary.

Governmental funds are used to account for all or most of the Village's general activities, including the collection and disbursement of committed, restricted, or assigned monies (special revenue funds), the funds committed, restricted, or assigned for the acquisition or construction of capital assets (capital projects funds), and the funds committed, restricted, or assigned for the servicing of long-term debt (debt service funds). The General Fund is used to account for all activities of the Village not accounted for in some other fund.

Enterprise funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the Village (internal service funds).

Fiduciary funds are used to account for fiduciary activities (e.g., assets held on behalf of outside parties, including other governments). The Village utilizes pension trust funds which are generally used to account for assets that the Village holds in a fiduciary capacity.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Interfund services provided and used are not eliminated on these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment, or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

The General Fund is the general operating fund of the Village. It is used to account for all financial resources except those accounted for in another fund.

The Debt Service Fund is used to account is used to account for the servicing of general long-term debt not being financed by proprietary funds.

The Capital Projects Fund accounts for financial resources that are restricted, committed, or assigned to expenditure for miscellaneous capital improvement projects and equipment replacement. Major projects include: road improvements, curb replacement, paving maintenance, and sidewalk replacement/installation.

The Village reports the following major proprietary funds:

The Water and Sewer Fund accounts for the provision of water and sewer services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including but not limited to, administration, operations, maintenance, billing and collection.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

Additionally, the Village reports the following Internal Service Funds:

Internal Service Funds account for operations that provide services to other departments or agencies of the Village, or to other governments, on a cost-reimbursement basis.

The Health and Life Insurance Fund is used to account for all costs associated with self-insurance risks for health and life insurance.

The General Liability Insurance Fund is used to account for all costs associated with self-insurance risks for general liability and property loss.

The Workers' Compensation Fund is used to account for all costs associated with self-insurance risks for workers' compensation.

The Fleet Operations Fund is used to account for all costs associated with maintaining and servicing the vehicles and equipment operated by various departments within the Village.

The Technology Fund is used to account for all costs associated with providing technology services to all departments for the operations of the Village.

The internal service funds are reported as part of the governmental activities on the government-wide financial statements as the services provided predominantly benefit the Village's governmental funds/activities.

The Village reports pension trust funds as fiduciary funds to account for the Police Pension Fund and Firefighters' Pension Fund.

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Non-operating revenue/expenses are incidental to the operations of these funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation
(Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, generally 60 days except for sales taxes and telecommunication taxes which use 90 days. The Village recognizes property taxes when they become both measurable and available in the year for which they are levied (i.e., intended to finance). Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as expenditures when due.

Property taxes, sales taxes owed from the state at year end, franchise taxes, licenses, charges for services, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. Fines and permits revenues are not susceptible to accrual because generally they are not measurable until received in cash.

In applying the susceptible to accrual concept to intergovernmental revenues (e.g., federal and state grants), the legal and contractual requirements of the numerous individual programs are used as guidelines. There are, however, essentially two types of revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Village; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are generally revocable only for failure to comply with prescribed eligibility requirements, such as equal employment opportunity. These resources are reflected as revenues at the time of receipt or earlier if they meet the availability criterion.

The Village reports unearned revenue and deferred/unavailable revenue on its financial statements. Deferred/unavailable revenues arise when a potential revenue does not meet the available criteria for recognition in the current period, under the modified accrual basis of accounting. Unearned revenue arises when a revenue is measurable but not earned under the accrual basis of accounting. Unearned revenues also arise when resources are received by the Village before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability or deferred inflow of resources for unearned and deferred/unavailable revenue are removed from the financial statements and revenue is recognized.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Cash and Investments

For purposes of the statement of cash flows, the Village considers cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments of the pension trust funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Interfund Receivables/Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “interfund receivables/payables” (current portion of interfund loans) or “advances to/from other funds” (noncurrent portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Advances are offset by nonspendable fund balance in applicable governmental funds.

Interfund service transactions are accounted for as revenues, expenditures, or expenses.

Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as transfers.

g. Property Taxes

Property taxes for 2022 attached as an enforceable lien on January 1, 2022, on property values assessed as of the same date. Taxes are levied by December of the fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and issued on or about February 1, 2023 and August 1, 2023 and are payable in two installments, on or about March 1, 2023 and September 1, 2023. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 3% of the tax levy, to reflect actual collection experience. Since the 2022 levy is intended to fund the 2023 fiscal year, the levy has been recorded as a receivable and deferred inflow of resources.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Inventories and Prepaid Items/Expenses

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased.

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses. Prepaid items/expenses are recorded as expenditures/expenses when consumed rather than when purchased.

i. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads and bridges) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost in excess of \$25,000 (with the exception of \$10,000 vehicles) and an estimated useful life of greater than of one year.

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant, and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	10-40
Machinery, equipment, and vehicles	3-20
Infrastructure	40
Underground systems	40

j. Compensated Absences

Vested or accumulated vacation leave that is owed to retirees or terminated employees, if applicable, is reported as an expenditure and a fund liability of the governmental fund that will pay it in the fund financial statements. Vested or accumulated vacation leave of proprietary funds and governmental activities is recorded as an expense and liability as the benefits accrue to employees.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Long-Term Obligations

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund financial statements. Bond premiums and discounts, as well as the unamortized loss on refunding, are deferred and amortized over the life of the bonds. Bonds payable are reported net of any applicable bond premium or discount.

Issuance costs are reported as expenses.

The unamortized loss on refunding is reported as a deferred outflow of resources.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

l. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

m. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for a specific purpose, or externally imposed by outside entities. Committed fund balance is constrained by formal actions of the Village Board of Trustees, which is considered the Village's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Trustees. Assigned fund balance represents amounts

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Fund Balance/Net Position (Continued)

constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Village's Finance Director through the fund balance policy adopted by the Village Board of Trustees. Any residual fund balance of the General Fund is reported as unassigned. Deficit fund balances of other governmental funds are also reported as unassigned.

The Village has established a fund balance reserve policy for its General Fund. The policy requires unassigned fund balances to be maintained in the General Fund equivalent to 25% of the fund's annual operating expenditures.

The Stormwater Fund reports restricted fund balance for capital projects (stormwater management projects) as established by the enabling ordinance.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the Village considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net positions are legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the book value of capital assets less any outstanding long-term debt issued to acquire or construct the capital assets.

n. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Village and pension funds categorize the fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

2. DEPOSITS AND INVESTMENTS (Continued)

a. Village Investments

The Village's investment policy authorizes the Village to invest in all investments allowed by Illinois Compiled Statutes (ILCS). These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and The Illinois Funds.

The Village's investment policy limits their deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance. Additionally, the Village maintains a list of approved security brokers/dealers selected by creditworthiness (e.g., a minimum capital requirement of \$10,000,000 and at least five years of operation).

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity, and rate of return.

The Village maintains a cash pool that is available for use by all funds, except the pension trust funds. Investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by the Village, an independent third party, the Federal Reserve Bank of Chicago, or with an irrevocable line of credit at the Federal Home Loan Bank of Chicago.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

a. Village Investments (Continued)

Investments

The following table presents the investments and maturities of the Village's debt securities as of December 31, 2022:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	Greater than 10
Negotiable CDs	\$ 652,000	\$ 652,000	\$ -	\$ -	\$ -
TOTAL	\$ 652,000	\$ 652,000	\$ -	\$ -	\$ -

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for cash requirements for ongoing operations in shorter-term securities, money market mutual funds or similar investment pools.

The Village has the following recurring fair value measurements as of December 31, 2022: The negotiable certificates of deposit are measured at fair value using quoted matrix pricing models (Level 2 inputs).

The Village limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by prequalifying the financial institution, intermediaries and advisors with which the Village will conduct business, and diversifying the investment portfolio so that potential losses on individual investments will be minimized. The Illinois Funds and IMET are rated AAA. The investment negotiable certificates of deposit are not rated.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than fair value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

2. DEPOSITS AND INVESTMENTS (Continued)

a. Village Investments (Continued)

Investments (Continued)

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held in a custodial account with the trust department of an approved financial institution. The Illinois Funds and IMET are not subject to custodial credit risk.

The Illinois Metropolitan Investment Fund (IMET) is a local government investment pool. Created in 1996 as a not-for-profit trust formed under the Intergovernmental Cooperation Act and the Illinois Municipal Code. IMET was formed to provide Illinois government agencies with safe, liquid, attractive alternatives for investing and is managed by a Board of Trustees elected from the participating members. IMET offers participants two separate vehicles to meet their investment needs. The IMET Core Fund is designed for public funds that may be invested for longer than one year. The Core Fund carries the highest rating available (AAAf/bf) from Moody's for such funds. Member withdrawals can be made from the core fund with a five day notice. The IMET Convenience Fund (CVF) is designed to accommodate funds requiring high liquidity, including short term cash management programs and temporary investment of bond proceeds. It is comprised of collateralized and FHLB LoC backed bank deposits, FDIC insured certificates of deposit and US government securities. Member withdrawals are generally on the same day as requested. Investments in IMET are valued at IMET's share price, which is the price the investment could be sold.

Concentration of credit risk is the risk that the Village has a high percentage of its investments invested in one type of investment. The Village's investment policy requires diversification of investments to avoid overconcentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities and authorized investment pools) but has no set percentage limits.

Water and sewer	\$ 1,780,743
Arts, entertainment, and events	60,673
TOTAL DEPRECIATION EXPENSE - BUSINESS-TYPE ACTIVITIES	\$ 1,841,416

5. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. These risks, along with medical claims for employees and retirees, are provided for through a limited self-insured program. The Village is self-insured for the first \$100,000 for property claims, \$100,000 per employee for medical claims, \$100,000 for errors and omissions, and \$100,000 for workers' compensation claims.

Effective July 2017, The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of Illinois municipalities and special districts in Northeastern Illinois which have formed an association under the Illinois Intergovernmental Cooperation Statute to pool its risk management needs.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

5. RISK MANAGEMENT (Continued)

IRMA administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration and litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

Each member appoints one delegate along with an alternate delegate, to represent the member on the Board of Directors. The Village does not exercise any control over the activities of IRMA beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the by-laws of IRMA and experience modification factors based on past member loss experience. Each member assumes the first \$10,000 (higher optional deductibles available) of each occurrence, and IRMA has self-insurance retentions at various amounts above that level. The Village has chosen an optional higher deductible of \$100,000. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. Supplemental contributions may be required to fund these deficits. The Village's payments to IRMA are displayed on the financial statements as expenditures/expenses in the appropriate funds. The coverages provided by IRMA are generally consistent with the coverages in the prior year.

Premiums are paid into the internal service funds by the departments of the General Fund and other funds based upon historical cost estimates. The total claims liability remaining as of December 31, 2022, was \$1,477,178.

There were no insurance claims that exceeded the amount of insurance coverage during the last three years.

A reconciliation of claims liability for the current year and that of the preceding year follows:

	Health and Life Insurance	General Liability Insurance	Workers' Compensation	Total

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

6. COMMUNITY DEVELOPMENT BLOCK GRANT REHABILITATION LOANS

The Village makes loans to village residents for the rehabilitation of single-family housing. Initial funding for these loans was from Community Development Block Grant (CDBG) Fund. These loans are title transfer loans which are due in full when the housing unit is sold. Repayments of principal on these receivables, which are recorded in the CDBG Fund, are used to make additional rehabilitation loans. Loan activity for the current year is summarized as follows:

	Interest Rates	Beginning of Year	Loans Made	Loan Repayments	Loan Write-Off	End of Year
CDBG rehab loans	0%	\$ 1,868,342	\$ 45,334	\$ 58,557	\$ -	\$ 1,855,119

7. LONG-TERM DEBT

a. General Obligation Bonds

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Village. Any general obligation bonds issued for proprietary funds are reported in the proprietary funds if they are expected to be repaid from proprietary revenues. In addition, general obligation bonds have been issued to refund general obligation bonds.

b. Changes in Long-Term Liabilities

The following is a summary of changes in long-term debt for the year ended December 31, 2022:

Issue	Fund Debt Retired By	Balances January 1	Additions	Reductions/ Refunding	Balances December 31	Current
GOVERNMENTAL ACTIVITIES						
\$2,855,000 General Obligation Refunding Bonds, Series 2010, due in annual installments of \$20,000 to \$280,000 with interest at 1.50% to 3.25%. The last payment is due December 1, 2022.	Debt Service	\$ 280,000	\$ -	\$ 280,000	\$ -	\$ -

7. LONG-TERM DEBT (Continued)

c. Debt Service Requirements to Maturity

Annual debt service requirements to maturity are as follows:

Fiscal Year Ending December 31,	Governmental Activities	
	Principal	Interest
2023	\$ 5,220,000	\$ 1,970,850
2024	5,435,000	1,751,750
2025	4,335,000	1,523,850
2026	4,020,000	1,345,650
2027	3,980,000	1,184,750
2028	4,120,000	1,044,925
2029	4,255,000	900,075
2030	2,870,000	750,400
2031	2,440,000	656,775
2032	2,520,000	580,975
2033	2,620,000	482,875
2034	2,720,000	380,875
2035	2,825,000	274,975
2036	2,935,000	164,975
2037	645,000	49,125
2038	665,000	24,938
TOTAL	<u>\$ 51,605,000</u>	<u>\$ 13,087,763</u>

d. Legal Debt Margin

The Village is a home rule municipality.

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes governs computation of the legal debt margin.

“The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property...(2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent:...indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum...shall not be included in the foregoing percentage amounts.”

To date, the General Assembly has set no limits for home rule municipalities.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. LONG-TERM DEBT (Continued)

e. Asset Retirement Obligations

The Village has recognized an asset retirement obligation (ARO) and related deferred outflow of resources in connection with its obligation to seal and abandon various water wells at the end of their estimated useful lives in accordance with federal, state, and/or local requirements. The ARO was measured using actual historical costs for similar abandonments, adjusted for inflation through the end of the year. The estimated remaining useful lives of the water wells is 30 years. The Village had \$1,050,000 in asset retirement obligations and \$910,000 in deferred outflows as of December 31, 2022.

8. CONTINGENT LIABILITIES

a. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

c. Northwest Water Commission

The Village's water purchase contract with the Northwest Water Commission (NWWC) provides that each member is liable for its proportionate share of any costs arising from defaults in payment obligations by other members.

d. Solid Waste Agency of Northern Cook County

The Village's contract with the Solid Waste Agency of Northern Cook County (SWANCC) provides that each member is liable for its proportionate share of any costs arising from defaults in payment obligations by other members.

9. ECONOMIC INCENTIVES/TAX ABATEMENTS

The Village participates in Cook County's Class 6b property tax incentive program. The purpose of the Class 6b program is to encourage industrial development throughout Cook County by offering a real estate tax incentive for the development of new industrial facilities, the rehabilitation of existing industrial structures, and the industrial reutilization of abandoned buildings. The goal of the Class 6b program is to attract new industry, stimulate expansion and retention of existing industry, and increase employment opportunities.

Under the incentive provided by Class 6b, qualifying industrial real estate is eligible for the Class 6b level of assessment from the date that new construction or substantial rehabilitation is completed and initially assessed or, in the case of abandoned property, from the date of substantial re-occupancy. Properties receiving a Class 6b incentive are assessed at 10% of market value for the first ten years, 15% in the 11th year, and 20% in the 12th and final year of the incentive. This constitutes a substantial reduction in the level of assessment and results in significant tax savings. In the absence of this incentive, industrial real estate would normally be assessed at 25% of its market value.

The Village has granted Class 6b incentives to businesses that, as a result, have occupied abandoned properties, constructed new buildings, or expanded existing facilities. In many instances, the program has produced more property tax revenue for the Village and the other impacted taxing districts than would have been generated if the development had not occurred.

The Village's share of the abatement granted to the Class 6b properties was \$333,312 for the fiscal year ended December 31, 2022.

The Village has entered into various economic incentive agreements with companies to rebate sales taxes. As of December 31, 2022, the Village has three active agreements with local businesses. The agreements require the Village to rebate to the companies varying amounts of sales tax generated by the facilities. The first agreement requires 33 1/3% of municipal sales tax to be rebated in annual installments through May 31, 2023 or until a total of \$2,250,000 has been paid. The second agreement requires 33 1/3% of municipal sales tax to be rebated in annual installments through August 31, 2025, or until a total of \$2,500,000 has been paid. The third agreement requires 50% of the incremental municipal sales tax generated by the company to be rebated in annual installments through January 18, 2023. The amount paid for the fiscal year ended December 31, 2022, was \$325,273. A total of \$3,745,738 has been rebated to date under active agreements.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. COMMITMENTS

a. Northwest Water Commission

The Village has committed to purchase water from NWWC. The Village expects to pay the following minimum amounts:

<u>Year Ending December 31,</u>	<u>Amount</u>
2023	\$ 3,958,974
2024	4,057,948
2025	4,159,396
2026	4,263,381
2027	4,369,966
2028	4,479,215

These amounts have been calculated using the Village's current allocation percentage of 36.42%. In future years, this allocation percentage will be subject to change.

NWWC has entered into water supply agreements with four member municipalities. The agreements are irrevocable and may not be terminated or amended except as provided in the general resolution. Each member is obligated, on a "take or pay" basis, to purchase or in any event to pay for a minimum annual quantity of water.

The obligation of the Village to make all payments as required by this agreement is unconditional and irrevocable, without regard to performance or nonperformance by NWWC of its obligations under this agreement.

b. Solid Waste Agency of Northern Cook County

The Village has committed to pay its share of the annual operating costs and fixed costs of SWANCC. The Village's share of dual costs is funded through user fees collected by refuse haulers. The Village expects to pay the following amounts:

<u>Year Ending December 31,</u>	<u>Amount</u>
2023	\$ 1,434,992
2024	1,747,036
2025	1,861,082
2026	1,903,301
2027	1,983,480

These amounts have been calculated using the Village's allocation percentage of 3.96%. In future years, the allocation percentage will be subject to change.

11. JOINT VENTURES

a. Solid Waste Agency of Northern Cook County

The Village is a member of SWANCC which consists of 23 municipalities. SWANCC is a municipal corporation and public body politic and corporate established pursuant to the Intergovernmental Cooperation Act of the State of Illinois. SWANCC is empowered to plan, construct, finance, operate, and maintain a solid waste disposal system to serve its members.

SWANCC is governed by a Board of Directors which consists of the Mayor or President from each member municipality. Each director has an equal vote. The officers of SWANCC are appointed by the Board of Directors. The Board of Directors determines the general policy of SWANCC, makes all appropriations, approves contracts, provides for the issuance of debt, adopts by-laws, rules and regulations, and exercises such powers and performs such duties as may be prescribed in the agency agreement or the by-laws.

Complete financial statements can be obtained from the Solid Waste Agency of Northern Cook County administrative office at the Village of Arlington Heights Public Works Building at 77 W. Hintz Road, Arlington Heights, Illinois 60090 or online at www.swancc.org.

SWANCC's outstanding bonds are revenue obligations. They are limited obligations of SWANCC with a claim for payment solely from and secured by a pledge of the revenues of the system and amounts in various funds and accounts established by SWANCC resolutions. The bonds are not the debt of any member. SWANCC has no power to levy taxes.

Revenues of the system consist of (1) all receipts derived from solid waste disposal contracts or any other contracts for the disposal of waste; (2) all income derived from the investment of monies; and (3) all income, fees, service charges, all grants, rents, and receipts derived by SWANCC from the ownership and operation of the system. SWANCC covenants to establish fees and charges sufficient to provide revenues to meet all its requirements.

SWANCC has entered into solid waste disposal contracts with the member municipalities. The contracts are irrevocable and may not be terminated or amended except as provided for in the contract. Each member is obligated, on a "take or pay" basis, to deliver a minimum amount of solid waste to the system. The obligation of the Village to make all payments as required by this contract is unconditional and irrevocable, without regard to performance or nonperformance by SWANCC of its obligations under the contract. The contract does not constitute an indebtedness of the Village within the meaning of any statutory or constitutional limitation.

11. JOINT VENTURES (Continued)

a. Solid Waste Agency of Northern Cook County (Continued)

In accordance with the contract, the Village made payments totaling \$1,659,483 to SWANCC for the year ended December 31, 2022. The payments have been recorded in the Solid Waste Fund. The Village does not have an equity interest in SWANCC at December 31, 2022.

b. Northwest Water Commission

Description of Joint Venture

The Village is a member of NWWC, which consists of four municipalities. NWWC is a municipal corporation and public body politic and corporate established pursuant to the Intergovernmental Cooperation Act of the State of Illinois. NWWC is empowered to plan, construct, improve, extend, acquire, finance, operate, and maintain a water supply system to serve its members and other potential water purchasers.

NWWC is governed by a Board of Commissioners which consists of one appointed representative from each member municipality. Each commissioner has an equal vote. The officers of NWWC are appointed by the Board of Commissioners. The Board of Commissioners determines the general policy of NWWC, makes all appropriations, approves contracts for sale or purchase of water, provides for the issuance of debt, adopts by-laws, rules and regulations, and exercises such powers and performs such duties as may be prescribed in the agency agreement or the by-laws.

Complete financial statements can be obtained from the Northwest Water Commission, 1525 North Wolf Road, Des Plaines, Illinois 60016.

Revenues of the system consist of (1) all receipts derived from the Water Supply Agreements or any other contract for the supply of water; (2) all income derived from the investment of monies; and (3) all income, fees, water service charges, and all grants, rents, and receipts derived by NWWC from the ownership and operation of the system and the sale of water. NWWC covenants to establish fees and charges sufficient to provide revenues to meet all its obligations.

NWWC has entered into water supply agreements with the four member municipalities for a term of 40 years, extending to 2022. The agreements are irrevocable and may not be terminated or amended except as provided for in the General Resolution. Each member is obligated, on a "take or pay" basis, to purchase or in any event to pay for a minimum annual quantity of water.

NWWC has entered into an agreement with the City of Evanston (the City) under which the City has agreed to sell quantities of Lake Michigan water sufficient to meet the projected water needs of the members through the year 2035.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

11. JOINT VENTURES (Continued)

b. Northwest Water Commission (Continued)

The obligation of the Village to make payments required by this agreement is payable from the Village's Water and Sewer Fund.

In accordance with the joint venture agreement, the Village remitted \$4,177,840 to NWWC for the year ended December 31, 2022. The Village has an equity interest in NWWC in the amount of \$19,037,399 as of December 31, 2022.

12. INDIVIDUAL FUND DISCLOSURES

a. Due From/To Other Funds

Individual fund interfund receivables/payables are as follows:

Receivable Fund	Payable Fund	Amount
General	Nonmajor Governmental (CDBG)	\$ 200,001
Nonmajor Governmental (Parking)	General	500,000
Capital Projects	General	100,000
Water and Sewer	General	1,200,000
Nonmajor Enterprise (Lead Service)	General	3,000,000
Internal Service	General	2,000,000
Police Pension	General	2,888,345
Fire Pension	General	3,058,216
TOTAL		<u>\$ 12,946,562</u>

The purposes of significant due from/due to other funds are as follows:

- \$200,001 due from Nonmajor Governmental Funds (CDBG) to the General Fund is for a short-term loan. Repayment is expected within one year.
- \$2,888,345 due from the General Fund to the Police Pension Fund for property taxes received in 2023 related to 2022 and market decline.
- \$3,058,216 due from the General Fund to the Fire Pension Fund for property taxes received in 2023 related to 2022 and market decline.
- \$1,200,000 due from the General Fund to the Water and Sewer Fund for capital projects.
- \$3,000,000 due from the General Fund to Nonmajor Enterprise (Lead Service Line Replacement Fund) for capital projects.
- \$2,000,000 due from the General Fund to Internal Service (Fleet Operations Fund) for vehicle replacements.

TOTAL	\$ 10,493,300	\$ 10,493,300

12. INDIVIDUAL FUND DISCLOSURES (Continued)

b. Interfund Transfers (Continued)

The purpose of significant transfers is as follows:

- \$693,300 transferred to the Debt Service Fund from the Nonmajor Governmental Funds (Storm Water Control) for bond payments. This transfer will not be repaid.
- \$2,500,000 transferred from the Capital Projects Fund to the Internal Service Fund (Fleet Operations) to fund capital purchases. This transfer will not be repaid.
- \$2,000,000 transferred from the General Fund to the Internal Service Fund (Fleet Operations) to fund capital purchases. This transfer will not be repaid.
- \$3,000,000 transferred from the General Fund to the Nonmajor Enterprise Funds (Lead Service Line Replacement Fund) to fund lead service line replacement projects. This transfer will not be repaid.
- \$1,200,000 transferred from the General Fund to the Water and Sewer Fund to fund capital projects. This transfer will not be repaid.

13. LESSOR DISCLOSURES

In accordance with GASB Statement No. 87, *Leases*, the Village's lessor activity is as follows:

The Village entered into a lease arrangement on September 1, 2019, to lease tower space. Payments ranging from \$2,400 to \$3,063 are due to the Village in monthly installments, through August 2049. The lease agreement is noncancelable and maintains an interest rate of 1.50%. During the fiscal year, the Village collected \$28,800 and recognized a \$26,684 reduction in the related deferred inflow of resource. The remaining lease receivable and offsetting deferred inflow of resource for this agreement are \$719,618 and \$711,577, respectively, as of December 31, 2022.

The Village entered into a lease arrangement on September 1, 2013, to lease tower space. Payments ranging from \$2,283 to \$4,124 are due to the Village in monthly installments, through December 2042. The lease agreement is noncancelable and maintains an interest rate of 1.40%. During the fiscal year, the Village collected \$27,400 and recognized a \$32,006 reduction in the related deferred inflow of resource. The remaining lease receivable and offsetting deferred inflow of resource for this agreement are \$653,123 and \$640,110, respectively, as of December 31, 2022.

13. LESSOR DISCLOSURES (Continued)

The Village entered into a lease arrangement on January 1, 2021, to lease space. Payments ranging from \$300 to \$473 are due to the Village in monthly installments, through December 2030. The lease agreement is noncancelable and maintains an interest rate of 1.055%. During the fiscal year, the Village collected \$2,400 and recognized a \$4,761 reduction in the related deferred inflow of resource. The remaining lease receivable and offsetting deferred inflow of resource for this agreement are \$40,447 and \$38,086, respectively, as of December 31, 2022.

The Village entered into a lease arrangement on May 1, 2010, to lease space. Payments ranging from \$758 to \$47,425 are due to the Village in monthly installments, through April 2033. The lease agreement is noncancelable and maintains an interest rate of 1.117%. During the fiscal year, the Village collected \$285,358 and recognized a \$145,559 reduction in the related deferred inflow of resource. The remaining lease receivable and offsetting deferred inflow of resource for this agreement are \$1,379,565 and \$1,504,108, respectively, as of December 31, 2022.

14. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the Village provides postemployment health care and life insurance benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions, and employer contributions are governed by the Village and can be amended by the Village through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the Village's governmental and business-type activities.

b. Benefits Provided

The Village provides postemployment health care and life insurance benefits to its retirees and certain disabled employees. To be eligible for benefits, an employee must qualify for retirement under one of the Village's retirement plans. All health care benefits are provided through the Village's health insurance plans. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous, and substance abuse care; vision care; and prescriptions. Upon a retiree reaching age 65 years, Medicare becomes the primary insurer and the Village's plan becomes secondary. For certain disabled employees who qualify for health insurance benefits under the Public Safety Employee Benefits Act (PSEBA), the Village is required to pay 100% of the cost of basic health insurance for the employee and their dependents for their lifetime.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

14. OTHER POSTEMPLOYMENT BENEFITS (Continued)

c. Membership

At December 31, 2022, membership consisted of:

Retirees and beneficiaries currently receiving benefits	83
Terminated employees entitled to benefits but not yet receiving them	-
Duty disabled participants	16
Active employees	<u>384</u>
TOTAL	<u><u>483</u></u>
Participating employers	<u><u>1</u></u>

d. Total OPEB Liability

The Village's total OPEB liability of \$26,110,808 was measured as of December 31, 2022 and was determined by an actuarial valuation as of December 31, 2022.

e. Actuarial Assumptions and Other Inputs

The total OPEB liability at December 31, 2022 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Actuarial cost method	Entry-age normal
Actuarial value of assets	Not applicable
Salary Increases	3.00%
Discount rate	4.05%
Healthcare cost trend rates	6.75% Initial 4.50% Ultimate

The discount rate was based on The Bond Buyer 20-Bond GO Index, which is based on an average of certain general obligation municipal bonds maturing in 20 years and having an average rating equivalent of Moody's Aa2 and Standard & Poor's AA.

Thereafter	(812,897)
TOTAL	\$ 153,415

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

15. DEFINED BENEFIT PENSION PLANS

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system (cost-sharing plan); the Police Pension Plan, which is a single-employer pension plan; and the Firefighters' Pension Plan, which is also a single-employer pension plan. The benefits, benefit levels, employee contributions, and employer contributions for all three plans are governed by ILCS and can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org. The Police and Firefighters' Pension Plans do not issue separate reports.

The table below is a summary for all pension plans as of and for the year ended December 31, 2022:

	IMRF	Police Pension	Firefighters' Pension	Total
Net pension liability (asset)	\$ (15,148,152)	\$ 48,350,494	\$ 62,061,151	\$ 95,263,493
Deferred outflows of resources	3,462,291	24,751,712	25,128,174	53,342,177
Deferred inflows of resources	20,517,579	1,466,216	1,075,913	23,059,708
Pension expense (income)	(3,040,715)	6,502,635	10,293,676	13,755,596

a. Plan Descriptions

Illinois Municipal Retirement Fund

Plan Administration

All employees (other than those covered by the Police and Firefighters' Pension Plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Plan Membership

At December 31, 2021, IMRF membership consisted of:

Inactive employees or their beneficiaries currently receiving benefits	503
Inactive employees entitled to but not yet receiving benefits	229
Active employees	<u>379</u>
 TOTAL	 <u><u>1,111</u></u>

The IMRF data included in the table above includes membership of both the Village and the Arlington Heights Memorial Library (the Library).

Benefits Provided

All employees (other than those covered by the Police or Firefighters' Pension Plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all are established by state statute.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Contributions

Participating members are required to contribute 4.50% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The actual and required employer contribution for the year ended December 31, 2022, was 11.64% of covered payroll.

Actuarial Assumptions

The Village's net pension liability (asset) was measured as of December 31, 2021 and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2021
Actuarial cost method	Entry-age normal
Assumptions	
Inflation	2.25%
Salary increases	2.85% to 13.75%
Interest rate	7.25%
Cost of living adjustments	3.25%
Asset valuation method	Fair value

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2020, was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Changes in the Net Pension Liability (Asset)

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan

Plan Administration

Police sworn personnel are covered by the Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

The plan is governed by a five-member Board of Trustees. Two members of the Board of Trustees are appointed by the Village President, one member is elected by pension beneficiaries, and two members are elected by active police employees.

Plan Membership

At December 31, 2022, the measurement date, membership consisted of:

Inactive plan members currently receiving benefits	124
Inactive plan members entitled to but not Yet receiving benefits	12
Active plan members	<u>107</u>
TOTAL	<u><u>243</u></u>

Benefits Provided

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive 2.50% of salary for each year of service. The monthly benefit shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension, and 3% compounded annually thereafter.

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the greater of the average monthly salary obtaining by dividing the total salary during the 48 consecutive months of service within the last of 60 months in which the total salary was the highest by the number of months in that period; or the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period.

Police officers' salary for pension purposes is capped at \$106,800, plus the lesser of $\frac{1}{2}$ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., $\frac{1}{2}\%$ for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or $\frac{1}{2}$ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions

Employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service cost for the Police Pension Plan. The Village has chosen a policy to fund 100% of the past service costs by 2040. For the year ended December 31, 2022, the Village's contribution was 33.36% of covered payroll.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Investment Policy

ILCS limits the Police Pension Fund's (the Fund) investments to those allowable by ILCS and require the Fund's Board of Trustees to adopt an investment policy which can be amended by a majority vote of the Board of Trustees. The Fund's investment policy authorizes the Fund to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, investment grade corporate bonds, and The Illinois Funds. The Fund may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, Illinois insurance company general and separate accounts, mutual funds and corporate equity securities, and real estate investment trusts. The investment policy was not modified during the year ended December 31, 2022.

The Fund's investment policy, in accordance with ILCS, establishes the following target allocation across asset classes:

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed income	33%	1.00% to 4.20%
Domestic equities	5% to 52%	5.30% to 5.50%
International equities	5%	7.20% to 7.50%
Real estate	3%	4.20%
Cash and cash equivalents	0%	(0.20%)

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Investment Policy (Continued)

The overall target for the Fund is approximately 35% invested in fixed income securities and 65% invested in equity securities. The long-term expected real rates of return are net of a 2.60% factor for inflation and investment expense. ILCS limits the Fund's investments in equities, mutual funds, and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in February 2019 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding the expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2022, are listed in the table on the previous page.

Investment Concentrations

There are no significant investments (other than U.S. agency securities) in any one organization that represent 5% or more of the Fund's investments.

Investment Rate of Return

For the year ended December 31, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was (12.52%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Fund's deposits may not be returned to them. The Fund's investment policy requires all bank balances to be covered by federal depository insurance.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Interest Rate Risk

The following table presents the investments and maturities of the Fund's debt securities as of December 31, 2022:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	Greater than 10
U.S. Treasury obligations	\$ 29,746,388	\$ 1,405,263	\$ 23,183,289	\$ 5,157,836	\$ -
U.S. agency obligations	627,259	-	271,551	171,608	184,100
Corporate bonds	15,646,669	162,071	12,030,645	3,035,606	418,347
Municipal bonds	727,372	269,708	364,346	-	93,318
TOTAL	\$ 46,747,688	\$ 1,837,042	\$ 35,849,831	\$ 8,365,050	\$ 695,765

The Fund has the following recurring fair value measurements as of December 31, 2022: the U.S. agency obligations, corporate bonds, and municipal bonds are valued using quoted matrix pricing models (Level 2 inputs). The U.S. Treasury obligations, equities, and mutual funds use Level 1 inputs.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed for expected current cash flows. The investment policy does not limit the maximum maturity length of investments in the Fund.

Credit Risk

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Fund's investment policy does not address the management of credit risk other than to limit investments to those allowed by state statutes. The Fund limits its exposure to credit risk by primarily investing in U.S. Treasury obligations and other obligations which are rated in the top three classes by a national rating agency. The money market mutual funds are not rated. The Illinois Funds are rated AAA. The U.S. agency obligations are not rated by Standard and Poor's. The municipal bonds are rated AAA to A+ and corporate bonds range in rating from AAA to BBB- by Standard and Poor's.

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party.

To limit its exposure, the Fund requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Fund's agent separate from where the investment was purchased in the Fund's name. The money market mutual funds and equity mutual funds are not subject to custodial credit risk.

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2022 was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Police Pension Plan (Continued)

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2022
Actuarial cost method	Entry-age normal
Assumptions	
Inflation	2.50%
Salary increases	Graded by years of service
Interest rate	6.75%
Cost of living adjustments	3.00% (Tier 1) 3.00% (Tier 2)
Asset valuation method	Fair value

Mortality assumptions were based upon the PubS-2010 Base Rates projected to 2022 with Scale MP2021.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability (asset) to changes in the discount rate. The table below presents the net pension liability (asset) of the Village calculated using the discount rate of 6.75% as well as what the Village's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (5.75%) or 1 percentage point higher (7.75%) than the current rate:

	1% Decrease (5.75%)	Current Discount Rate (6.75%)	1% Increase (7.75%)
Net pension liability (asset)	\$ 77,198,114	\$ 48,350,494	\$ (24,783,916)

Police Pension Plan (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2022, the Village recognized pension expense of \$6,502,635. At December 31, 2022, the Village reported deferred outflows of resources and deferred inflows of resources related to the police pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 7,097,723	\$ -
Changes in assumptions	5,096,603	1,466,216
Net difference between projected and actual earnings on pension plan investments	12,557,386	-
TOTAL	\$ 24,751,712	\$ 1,466,216

Changes in the net pension liability related to the difference in actual and expected experience or changes in assumptions regarding future events, are recognized in pension expense over the expected remaining service life of all employees (active and retired) in the plan. Differences in projected and actual earnings over the measurement period are recognized over a five-year period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the police pension will be recognized in pension expense as follows:

<u>Year Ending December 31,</u>	
2023	\$ 2,236,597
2024	5,529,635
2025	6,947,647
2026	8,326,097
2027	245,520
Thereafter	-
TOTAL	\$ 23,285,496

a. Plan Descriptions (Continued)

Firefighters' Pension Plan

Plan Administration

Firefighter sworn personnel are covered by the Firefighters' Pension Plan, a single-employer defined benefit pension plan sponsored by the Village. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/4-101) and may be amended only by the Illinois legislature. The Village accounts for the Firefighters' Pension Plan as a pension trust fund.

The plan is governed by a five-member Board of Trustees. Two members of the Board of Trustees are appointed by the Village President, one member is elected by pension beneficiaries, and two members are elected by active firefighter employees.

Plan Membership

At December 31, 2022, the measurement date, membership consisted of:

Inactive plan members currently receiving benefits	110
Inactive plan members entitled to but not yet receiving benefits	3
Active plan members	<u>107</u>
TOTAL	<u><u>220</u></u>

Benefits Provided

The following is a summary of benefits of the plan as provided for in ILCS:

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held at the date of retirement. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension, and 3% compounded annually thereafter.

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Benefits Provided (Continued)

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the greater of the average monthly salary obtaining by dividing the total salary during the 48 consecutive months of service within the last of 60 months in which the total salary was the highest by the number of months in that period; or the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period.

Firefighters' salary for pension purposes is capped at \$106,800, plus the lesser of $\frac{1}{2}$ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., $\frac{1}{2}\%$ for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the firefighter retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or $\frac{1}{2}$ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions

Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with fewer than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. Contributions are recognized when due pursuant to formal commitments, as well as statutory or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Firefighters' Pension Plan. The costs of administering the Firefighters' Pension Plan are financed through investment earnings. The Village is required to finance the Firefighters' Pension Plan as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service cost for the Firefighters' Pension Plan. The Village has chosen a policy to fund 100% of the past service costs by 2040. For the year ended December 31, 2022, the Village's contribution was 39.89% of covered payroll.

Firefighters' Pension Plan (Continued)

Illinois Firefighters' Pension Investment Fund

The Illinois Firefighters' Pension Investment Fund (IFPIF) is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate firefighter pension funds. IFPIF was created by Public Act 101-0610, and codified within the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds. Participation in IFPIF by Illinois suburban and downstate firefighter pension funds is mandatory.

Deposits with Financial Institutions

The plan retains all of its available cash with one financial institution. Available cash is determined to be that amount which is required for the current expenditures of the plan. The excess of available cash is required to be transferred to IFPIF for purposes of the long-term investment for the plan.

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Fund's deposits may not be returned to it. The Fund's investment policy requires that any funds deposited directly in financial institutions should be made with fully federally insured financial institutions and that any deposits in excess of FDIC insurance should be collateralized at 110% of the fair market value of the deposits. The collateral will be held in a safekeeping by a third party and evidenced by a written agreement.

Investments

Investments of the plan are combined in a commingled external investment pool and held by IFPIF. A schedule of investment expenses is included in IFPIF's annual report. For additional information on IFPIF's investments, please refer to their annual report as of June 30, 2022. A copy of that report can be obtained from IFPIF at 1919 South Highland Avenue, Building A, Suite 237, Lombard, IL 60148 or at www.ifpif.org.

15. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Fair Value Measurement

The plan categorizes fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Plan held no investments subject to fair value measurement at December 31, 2022.

Net Asset Value

The Net Asset Value (NAV) of the plan's pooled investment in IFPIF was \$120,136,304 at December 31, 2022. The pooled investments consist of the investments as noted in the target allocation table available at www.ifpif.org. Investments in IFPIF are valued at IFPIF's share price, which is the price the investment could be sold. There are no unfunded commitments at December 31, 2022. The plan may redeem shares by giving notice by 5:00 pm central time on the 1st of each month. Requests properly submitted on or before the 1st of each month will be processed for redemption by the 14th of the month. Expedited redemptions may be processed at the sole discretion of IFPIF.

Investment Policy

IFPIF's current investment policy was adopted by the Board of Trustees on June 17, 2022. IFPIF is authorized to invest in all investments allowed by ILCS. The IFPIF shall not be subject to any of the limitations applicable to investments of pension fund assets currently held by the transferor pension funds under Sections 1-113.1 through 1-113.12 or Article 4 of the Illinois Pension Code.

Investment Rate of Return

For the year ended December 31, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 3.19%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Firefighters' Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2022, was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Notes to the Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed, and the amortization period was 22 years; the asset valuation method was five-year smoothed fair value; and the significant actuarial assumptions were an investment rate of return at 7.25% annually, projected salary increases assumption of 3.35% to 14.25% compounded annually and postretirement benefit increases of 3.25% compounded annually.

*Beginning December 31, 2018, the information above is presented for the Village only. Prior years include the Library information.

Ultimately, this schedule should present return information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

Notes to Required Supplementary Information

Year Ended December 31, 2022 - There were change in mortality rates from the prior year.

Year Ended December 31, 2021 - There were change in mortality rates from the prior year.

Year Ended December 31, 2020 - There were change in mortality rates from the prior year.

Year Ended December 31, 2019 - There were change in mortality rates. In addition, there were changes in plan benefits required under PA-101-0610 (SB 1300).

Year Ended December 31, 2018 - There were change in mortality rates from the prior year.

Year Ended December 31, 2017 - There were change in the retirement rates and termination rates.

Year Ended December 31, 2016 - Change in assumptions related to marital status rates and termination rates.

Year Ended April 30, 2015 - There were change in the actuarial cost method from projected unit credit to entry age normal.

Ultimately, this schedule should present return information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2022

1. BUDGETS

At the first Committee-of-the-Whole (the Committee) meeting in November, the Village Manager submits to the Committee his proposed operating budget for the fiscal year commencing the following January 1. It is for the period January 1 through December 31 and contains a budget for all funds at a line item level within each fund. The Village Manager's budget includes proposed expenditures and the means for financing them. Preceding this meeting a number of budget review meetings are held with the Village Board of Trustees in February.

Public hearings are conducted in November and December to obtain citizen comments on the Village Manager's proposed budget (May for Community Development Block Grant (CDBG) funds).

At the first Village Board of Trustees meeting in December, the Board of Trustees considers the proposed operating budget for the fiscal year commencing the following January 1 as approved by the Committee.

Prior to January 1, the budget, which by State law also serves as the appropriation ordinance, is adopted by the Board of Trustees and constitutes the legal budget of the Village.

The Village Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the governing body.

Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, several budget amendments were completed.

Budgets are adopted on a basis consistent with GAAP. Annual appropriated budgets are adopted for the General, Special Revenue, Debt Service, Capital Projects, Enterprise (with the exception of the Lead Service Line Replacement Fund), Internal Service, and Pension Trust funds. All annual appropriations lapse at fiscal year end.

2. EXPENDITURES EXCEEDED BUDGET

During the year ended December 31, 2022, expenditures exceeded budget in TIF V Fund by \$133,367 and General Fund by \$1,952,446.

**COMBINING AND INDIVIDUAL FUND
FINANCIAL STATEMENTS AND SCHEDULES**

MAJOR GOVERNMENTAL FUNDS

GENERAL FUND

General Fund - to account for resources traditionally associated with governments that are not accounted for in another fund.

DEBT SERVICE FUND

Debt Service Fund - to accumulate monies for payment of principal and interest on general obligation bonds.

CAPITAL PROJECTS FUND

Capital Projects Fund - to account for the costs of miscellaneous capital improvement projects and equipment replacement. Financing is provided by earmarking revenues to provide for the costs associated with the projects. Major projects include: road improvements, curb replacement, paving maintenance, and sidewalk replacement/installation.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Motor Fuel Tax Fund - to account for the activities involved with street maintenance and construction. Financing is provided by the Village's share of state gasoline taxes. State law requires these gasoline taxes to be used to maintain streets.

Community Development Block Grant (CDBG) Fund - to account for the revenue and expenditures associated with CDBG. The grant is provided by the U.S. Department of Housing and Urban Development to develop urban communities by expanding economic opportunities and providing housing and a suitable living environment. The beneficiaries of the CDBG Program must be individuals with low and/or moderate incomes.

Affordable Housing Fund - to account for the revenues and expenditures restricted for the creation and preservation of Attainable Housing.

Zero Interest Loan Fund - to account for the revenue derived from the Cook County Class 6/7 property tax abatements which are restricted to provide financial assistance to prospective and existing business within the Village.

Foreign Fire Insurance Fund - to account for revenue derived from a 2% tax of the gross receipts from out-of-state businesses engaged in providing fire insurance within the Village.

Criminal Investigations Fund - to account for revenues awarded by criminal courts and expenditures for police investigations.

NONMAJOR GOVERNMENTAL FUNDS (Continued)

SPECIAL REVENUE FUNDS (Continued)

TIF IV Fund - to account for revenues and expenditures associated with the formation and redevelopment of the Village's Tax Increment Financing District Number IV on the northeast corner of Arlington Heights Road and Golf Road.

TIF V Fund - to account for revenues and expenditures associated with the formation and redevelopment of the Village's Tax Increment Financing District Number V on the southeast corner of Arlington Heights Road and Palatine Road.

Hickory Kensington TIF Fund - to account for revenues and expenditures associated with the formation and redevelopment of the Village's Hickory Kensington Tax Increment Financing District.

South Arlington Heights Road TIF Fund - to account for revenues and expenditures associated with the formation and redevelopment of the Village's South Arlington Heights Road Tax Increment Financing District.

CAPITAL PROJECTS FUNDS

Municipal Parking Operations Fund - to account for revenues and expenditures associated with the Village's parking system.

Stormwater Control Fund - to account for the costs of constructing the second portion of the Weller Creek Flood Control Project. Financing was provided by the \$14,200,000 Series 1993 Corporate Purpose bonds.

PROPRIETARY FUNDS

Enterprise Funds are established to account for the financing of self-supporting activities of the Village that render services on a user charge basis.

Water and Sewer Fund

This fund is used to account for the provision of water and sewer services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, and improvements.

NONMAJOR ENTERPRISE FUNDS

Solid Waste Disposal Fund - to account for all provision of solid waste disposal services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service billing and collection.

Arts, Entertainment and Events Fund - to account for costs associated with Village presentations or participation in art, theatrical and new community events.

Lead Service Line Replacement Fund - to account for the costs from the state mandate eliminating all public lead water service lines by the year 2044.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the Village of Arlington Heights' annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information displays about the Village's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have been changed over time.	149-160
Revenue Capacity These schedules contain information to help the reader assess the Village's most significant local revenue source, the property tax.	161-164
Debt Capacity These schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the Village's ability to issue additional debt in the future.	165-168
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.	169-170
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.	171-173

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

*The Village implemented GASB Statement No. 68 for the fiscal period ended December 31, 2015.

**The Village implemented GASB Statement No. 75 for the fiscal period ended December 31, 2018.

***General Obligation Bonds Series 2020 were issued as governmental activities debt to fund capital asset acquisitions for the business-type activities. Therefore, the total column includes the outstanding balance for these bonds (including unamortized premium and unspent proceeds), while the governmental activities column does not include these amounts in the calculation of the net investment in capital assets.

VILLAGE OF ARLINGTON HEIGHTS, ILLINOIS

LEGAL DEBT MARGIN

December 31, 2022

The Village is a home rule municipality.

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes governs computation of the legal debt margin.

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property . . . (2) if its population is more than 25,000 and less than 500,000 an aggregate property . . . (2) if its population is more than 25,000 and less than 500,000 an aggregate of one per cent: . . . Indebtedness which is outstanding on effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum . . . Shall not be included in the forgiving percentage amounts."

To date the General Assembly has set no limits for home rule municipalities.
