## **DEMOLITION - RESIDENTIAL GARAGE**

### **Submittal Process and Checklist**

#### **APPLYING FOR PERMITS:**

Submit all materials via email to: [Building@vah.com](mailto:Building@vah.com). You will receive an email notification within 24 hours that your email was received. If you do not receive an email response, contact us at 847-368-5560.

#### **APPLICATIONS AND FORMS REQUIRED:**

The applications and forms that you need to submit are listed on the next page of this checklist. Please be careful to fill these out completely. Incomplete, illegible or lack of information, can delay your permit from being processed.

\* If you are the homeowner doing the work yourself, please fill out and submit the Homeowner as General Contractor form with your applications. This form is found at [www.vah.com](http://www.vah.com).

#### **CONTRACTOR LICENSE:**

The Village of Arlington Heights Contractor license number must be listed on the permit applications. Their license numbers can be looked up on our web-site at:

[https://www.vah.com/village\\_services/permits\\_and\\_licenses](https://www.vah.com/village_services/permits_and_licenses)

#### **REVIEW TIME FRAMES:**

Please allow 10 working days for plan review. Each revision or re-submittal can take an additional 10 working days.

#### **PROCESSING NOTIFICATIONS:**

When reviews are completed, if approved, you will receive a pick-up notification packet by email. If a correction or revision is required, you will receive Plan Review Comments. When submitting revisions/corrections, please provide detailed written response of the changes.

#### **FEES:**

Fees are not pre-set based on project type. The pick-up notification packet will show the detailed permit cost for the project.

Once payment is received, your plans and permit placard will be emailed to the applicant within 24 hours. Please print the plans and permit placard and have available at the site for inspection.

#### **INSPECTIONS:**

Inspections are required; please call 847-368-5560 at least one day in advance to schedule your inspection. The **permit number** and **project address** are required when scheduling.

## **Applications, Forms and Other Materials to be supplied for the following type of project**

### **Demolition – Residential Garage**

Supply those items marked below to ensure your submittal is complete. Fill out all forms clearly and accurately.

#### **Applications Required:**

- Building Permit Application

#### **Forms Required:**

- Contractor List *(if more than one contractor)*
- Tax Assessor Supplemental Information *(Complete the 1st & 2nd boxes)*
- Open Excavation Acknowledgment

#### **Materials to be Submitted (one set of each of the indicated items):**

- Plans – fully dimensioned, scaled drawings (sealed by Architect or Engineer not required)
- Plat of Survey - show location, size, and top of foundation for the existing detached garage
- Contractor's Proposal explaining the scope of work to be performed.
- Copy of Cook County Demolition Permit required *(recommend applying for Cook County Demolition permit after submitting the permit application materials to Building & Life Safety Department.)*

### **OPEN EXCAVATIONS OR AREAS OF CONSTRUCTION**

All construction that will have open excavations or exterior work above the first floor level shall be secured with a fence to prevent persons from falling into the excavation or being injured because of the construction activity.

If a permit authorizes demolition or construction of a new structure or addition, the work area is required to be fenced. This fencing must be installed prior to any work commencing and must remain in place until the demolition is completed with no additional work anticipated on the site, or written confirmation from the building inspector that there are no open excavations and the site can be secured after the fence has been removed.

The perimeter of the work area shall be protected by a fence, not less than 5 feet in height. The fence must be of chain link or equal quality and strength, and firmly weighted to or anchored into the ground, with uprights at a maximum of 8 feet on center. All doors or gates in the fence must be locked at all times other than when there is work taking place in the site.

Failure to comply may result in a STOP WORK Order being issued, an emergency fence being rented and installed by the Village and citations being issued.

Under the NPDES Phase II program through the US EPA, storm water runoff from private construction sites must be controlled. Prior to any excavation work, a silt fence must be properly installed around the perimeter of the work area and maintained until final restoration. Failure to comply will result in the issuance of a Stop Work Order. Property must be graded to prevent water from ponding.

In addition, grass and weeds on properties under construction must be cut and maintained below 8 inches in height. Failure to comply will result in the Village having the property maintained and billing the undersigned for the expense.

This is to acknowledge that no underground oil storage tanks have been located at the above address. Where an oil tank is located, proper documentation and release from the Office of the State Fire Marshall must be submitted before the issuance of the permit.

The undersigned has read and does understand all of the above:
