

Village of Arlington Heights

Program Overview

Since the start of the ComEd Energy Efficiency Program in 2008, our business and residential customers have saved more than \$6.4 billion on their electric bills and 59.4 million megawatt hours of energy - that's enough to power 6.8 million homes for a year. Our energy efficiency offerings are structured to ensure that all communities in our service territory benefit from participation. Here's how your community fared in 2018 - 2021.

Energy Efficiency Results for the Village of Arlington Heights

9,600
