NEW SINGLE FAMILY or REMODEL

Application Checklist

Must be completed in full & submitted with permit application

Part 1 – Submittal Requirements

I certify that the following items have been included as part of a complete new single family or remodel permit application:

- Completed and signed Building Permit application
- If the project is to be completed using a contractor, the applicant is to provide a copy of the signed contract in connection with the work being completed and ensure that the contractor is registered with the Village.
- If the project is to be completed without contractor assistance, the homeowner is to provide a detailed scope of work, materials list and a signed homeowner's waiver accepting liability for the performed work.*
- Refer to the new one- and two-family residential construction checklist

Part 2 – Zoning Acknowledgments of Chapter 62 of the Village Code

The applicant hereby acknowledges and will show on the plans submitted for permit, the following requirements:

- Zoning district has been reviewed and the property is in the A, A-1, A-2 or A-3 zoning district.
- Plans show a minimum of 40% green/open space of the lot. Driveways, decks, sidewalks & patios are not greenspace.
- Maximum height is no more than 35 feet or 2.5 stories, whichever is less (Sec. 62-75 of the Village Code)
- Maximum building coverage including house, garage and shed is 30% to 40% depending on lot. (Sec. 62-75 of the Village Code)
- Side setbacks for the home is 5 feet to the drip edge. Front setback is 25 feet; or the front setback may be within 3 feet of the average of the home homes immediately adjacent to the property or the average of the homes on the block.
- If 50% or more of gross floor area is added or if the project is considered new construction, it must include automatic fire sprinklers.
- If 300 square feet of impervious surface is added that cannot drain to the right-of-way, it must include stormwater management on site. A flow diagram and/or a site grading plan may be required with stormwater calculations.
- If the lot has alley access, a curb cut & apron off the street is not permitted.
- If the lot does not have alley access, a curb cut & apron extending to the driveway with a parking space or garage is required in the side or rear yard. Front yard parking is prohibited.
- If the addition is on the second story, it may follow the first-floor footprint & not change drip edge. Even if the existing first floor encroaches upon setbacks.
- If the lot does not have alley access, a curb cut & apron must extend to the side or rear yard parking or garage. Front yard parking is prohibited.
- An unenclosed front porch may encroach 5 feet from the building line into the front setback.
- If this is new construction, it must meet width/street frontage & square footage requirements. (Sec. 62-75 of the Village Code.
