

PAINTED TOTE BAG

MATERIALS

- canvas tote
- 3 colors of paint
- foam paintbrush
- painter's tape
- magazine

INSTRUCTIONS

1. Prewash and dry bag.
 2. Create a design with your painter's tape. Make sure it is completely stuck down so that there are no raised areas where the paint could seep under.
 2. Stick the magazine inside of the bag where you are painting so that the paint doesn't seep onto the other side.
 2. Paint to fill in your design. Bounce your foam paintbrush for the best coverage.
 3. Let dry for at least 30 minutes.
 4. Peel off the tape!
- After 24 hours, the bag will be machine washable, just be sure to turn the bag inside out when washing.
