

# Ugly Sweater Christmas Ornament

## MATERIALS:

- FELT
- SWEATER TEMPLATE
- SILVER PIPE CLEANER (FOR HANGER)
- GLUE DOTS
- TACKY GLUE
- PAINTBRUSH
- VARIOUS EMBELLISHMENTS
- PEN FOR TRACING (NOT INCLUDED)
- SCISSORS (NOT INCLUDED)

## INSTRUCTIONS:

- Trace the sweater onto the felt and cut out. You will need two felt sweater pieces per ornament.
- Bend the silver pipe cleaner into the shape of a clothes hanger. To make the hanger, bend the pipe cleaner into a triangle, leaving extra length on one side, twist the two ends together, and bend the extra length into a "J" shape.
- Place glue dots on each shoulder of the sweater and stick the two points of your hanger to them.
- Place glue dots on the sleeves, the center, and the bottom two corners of the sweater and stick the second felt piece on top. Be sure to line up each piece the best you can.
- Decorate! For bigger embellishments, use the extra glue dots included to make sure they stay stuck to your ornament. For smaller embellishments, paint on the tacky glue and stick your decoration. Use a fair amount of glue so that your embellishments stay on. Don't worry! The glue dries clear.
- Keep the ornament flat while the glue dries so that the embellishments don't slide off.
- Hang on your tree and enjoy!
