

NEW AND NOTABLE

We're excited to introduce our new Maker Lab! Our Maker Lab was funded by a generous grant from the Larson Family Foundation and is meant to be a space where our community can engage in a variety of hands-on learning opportunities, access technology, and become more creative and empowered with new skills.

The Maker Lab has a variety of equipment and technology for use, including a Glowforge laser printer, a Cricut electronic cutting machine, a computer with Adobe Creative Cloud, metal stamping tools, a button maker, punch embroidery tools, linoleum block printing tools, and more!

We've been holding Library programs in the Maker Lab for a couple of months and now we're ready to open the space up to adult individual use! To become a Maker, you must be 18 years or older, sign our waiver, and acknowledge our safety protocols. Some advanced equipment, such as the Glowforge laser printer, will require an additional certification class prior to use. Using the Maker Lab is free, but you'll need to provide your own consumable materials for use. For example, if you'd like to use the Cricut electronic cutting machine, you'll need to provide your own paper, vinyl, etc. to be cut with the machine. For more information on what's available in the Maker Lab and how to make a reservation, visit <https://bit.ly/BPLMakerLab>.

If you have questions about the Maker Lab or would like to make a donation to help keep the Maker Lab going, please feel free to contact Nancy Swenson, Technology Services Librarian at 605-692-9407 or nswenson@cityofbrookings-sd.gov.
