VIOLATION AND PENALTIES

The authority to require contractors to obtain a permit from the City of New Brunswick to open a road, construct or repair sidewalk and/or curb, place a dumpster, install monitoring wells, obstruct the normal flow of traffic, place barricades, structures or equipment on a street is regulated and controlled under **City Ordinance Chapter 12, Section 8-170** and respective subsections. Violations and penalties shall be according to subsection 8-180 paragraph A, which reads as follows:

Any person/persons, partnership, association or corporation performing/causing to be performed any work contrary to the provisions of this chapter is subject, for each offense, a fine of at least one hundred dollars (\$100.00), but not to exceed one thousand dollars (\$1,000.00) and may be subjected to a period of imprisonment not to exceed ninety (90) days, or to community service not to exceed ninety (90) days. Each violation of any provision of this chapter is a separate and distinct violation and, in case of a continuing violation, every day's continuance thereof is deemed to be a separate and distinct offense.

ADDITIONAL RULES AND REGULATIONS

General

No person or corporation shall be granted a permit to place any dumpster, roll-off or drop box upon any City street, alleyway, or other public thoroughfare unless there shall be deposited with the City Treasurer, in cash or certified check, an amount sufficient to secure the costs of repairing and replacing such street or other surfaces or appurtenances within the street area as may be determined by the City Engineer. The minimum amount deemed sufficient for such purposes shall be **five hundred dollars (\$500.00)**.

Any person may file a Performance Surety Bond in double the amount of the above deposit to secure the cost of repairing and replacing such streets or other appurtenances within the street area in the matter as provided herein. No such bond shall be accepted until the City Engineer shall have certified the amount thereof is sufficient as provided herein. And, the City Engineer shall have approved the qualifications of the surety, and the City Engineer shall have approved the sufficiency of the form and execution of such guarantee.

No such security deposit, certified check, or Performance Surety Bond shall be released until all repairing and replacing of streets or other appurtenances within the street area are fully complete to the satisfaction of the City Engineer and all fees paid as provided in this chapter.

Upon failure or default of the permittee of any of the terms, agreements, covenants and conditions of the permit on its part to be done and performed, said deposits may be used by the City of New Brunswick for any expense incurred by the City of New Brunswick for reason of such failure of default on the part of the permittee.

After the expense of such failure or default has been paid and deducted from the amount of deposit, as determined and certified by the City Engineer, the balance shall be refunded to the permittee. The permittee shall be responsible for the expenses incurred by the City of New Brunswick if the security is insufficient to cover the expenses.

Dumpsters shall be placed so as not to interfere with pedestrian or vehicular traffic on any improved street, highway, road or sidewalk.

Dumpsters shall be emptied within seventy-two (72) hours of being filled to seventy-five (75%) percent capacity or more.

The City Engineer shall have the right to revoke or cancel the permit at any time should the permittee fail to comply with any of the terms, agreements, covenants and conditions thereof.

The permit shall not be signed or transferred except upon the prior written consent of the City Engineer.

The City Engineer may attach conditions to the permit to ensure the health, welfare and safety of the pedestrians and motorists.

All containers shall be clearly marked with the owner's name, address and business phone number, and shall be equipped with reflectors on each side of the container.

ADDITIONAL RULES AND REGULATIONS (con't)
PAGE TWO

If the dumpster is not moved after the date shown on the approved application, the City of New Brunswick reserves the right to move the dumpster at the applicant's expense.

SUPPLEMENTAL CONDITIONS:

With respect to property located in any zoning district other than L-I and G-I districts, the following regulations apply:

Permits when issued shall be reviewed and either approved or denied within three (3) working days.

Permits shall be valid for a period of thirty (30) days and shall be renewable upon completion of a new application and payment of a new application/dumpster fee.

Permits and renewals thereof shall not be granted for more than one-hundred eighty (180) days inclusive of the initial permit and all renewals.

Dumpsters outside of the City Right-of-Way (ROW) shall be placed at least 10 feet from the (ROW) property line and at least 10 feet from all improved streets, highways, roadways, buildings or structures. Furthermore, dumpsters shall be located at least 50 feet from any intersections unless approved otherwise by the City Engineer.
