

## 2026- Town Council Goals

Revised: December 10, 2026

### Asset Management and Capital Planning

- Complete a Town wide Asset Management Plan- Including asset inventory, replacement values, available funding mechanisms and a prioritization strategy.

*\*1934 building plan, explore infrastructure funding and bond*

### Environment

- Incorporate Climate Action Plan into operational and capital decision making process.

### Community Driven Projects

- Consider the level of town staff and financial support for external community facilities and gathering locations.

*\*Ice Arena*

### Housing Diversity

- Develop a comprehensive approach to housing diversity implementation through ordinances, the use of past studies, the comprehensive plan, regional/national trends, and public engagement.

*\*LD 1829 and associated state housing mandates*

### Informed and Engaged Citizenry

- Increase engagement and transparency through technology, events, surveys. Learn, collaborate and adapt to meet citizen needs.

*\*Councilor article posts, feedback loop for citizen comments and engagement*

### Economic Development

- Create the program or mechanism for local government to serve the unique needs of the business and service organizations of the community.

*\*Town Center vitality and events, communication on development process*

### Property Tax Relief

- Explore new revenues or programs to maintain high levels of service, while still providing town-wide property tax relief for vulnerable populations.

*\*Support GPCOG and MMA county and statewide efforts, investigate property tax relief tools for 2027, new revenues or market rate adjustments to existing fees*

### Communication Infrastructure

- Facilitate private cell phone wireless coverage improvements across areas of town with low signal issues.

*\*Examine site locations for towers and other alternatives to towers*

### Transportation Safety

- Explore and respond to requests for safety improvements to the Town transportation infrastructure network, including bike, pedestrian, and vehicular safety enhancements.

*\*sidewalk connectivity, continue evaluating traffic safety alternatives*

*\*potential tasks by goal area.*
