SOLAR MOUNTING SYSTEM ☐ POLE ☐ GROUND ☐ ROOF ☐ AC ☐ DC _____

PERMIT INFORMATION:

Project Valuation: \$ _____ Total Fee \$ _____

Payment Method: ☐ Cash ☐ Check # _____ ☐ Credit Card

Trade Permit # _____

***HOMEOWNER CLAUSE:** The Colorado Revised Statutes provide a homeowner the opportunity to perform the electrical installation provided the following conditions are true:

- ☐ You are the property owner and this property is not for sale, resale, or is not rental property.
- ☐ You reside or intend to reside at this property as your sole place of residence.
- ☐ You are doing the permitted work yourself and have a reasonable enough knowledge of electrical codes for a proper installation.

***SOLAR /WIND / wmerg.gen. (CSEL-R&R 6-10) *Includes Fire Alarms (CRS 12-23-111(24))**

Signature _____

Date _____

Master / Homeowner / *Non-Licensed Contractor
If using fillable application, digital signature required. Do not leave blank.

Notice: This permit expires one year from the date of issuance. If a final inspection has not been requested and approved within the year, a new permit or extension will be required, or the meter may be subject to removal. All applications are subject for reviewed by the electrical inspector.

This application is not valid without the proper signoff below.

Approved: Chaffee County Building Department

ELECTRICAL PERMIT FEES CRS 12-23-117

CHAFFEE COUNTY ORDINANCE 2018-1

- (1) Fees are tied to the State schedule and are reviewed annually and may be adjusted as the State does.
- (2) If a permit application is not filed in advance of the commencement of an installation, the inspection fee shall be twice the amount computed (CRS 12-23-117(3))
- (3) Fees are based on Sections A,B, C, and D as noted below.
- (4) If a permit has expired after the Rough In Inspection and an inspection is still required for a Final Inspection, a new permit is required to complete the Trim Out, Either compute the remaining cost of the outdated permit with Labor, Equipment, and Material or pay a flat fee of \$135.00.

A.) Residential wiring and extensive residential remodeling, as regulated in the IRC, shall be computed on square footage (based in enclosed living space)

	<u>FEE</u>
Residential wiring only, for one or two family dwelling, or townhouse	
Living Area	
(a) not more than 1000 square feet	\$135.00
(b) 1001 square feet to not more than 1500 square feet	\$202.00
(c) 1501 square feet to not more than 2000 square feet	\$270.00
(d) Per 100 square feet in excess of 2000 square feet	\$13.50

Example: Residential is 2235 square feet.

The base fee for 2000 sq ft (of the 2235 sq. ft. total) is \$270.00 (see Item (c) above) \$270.00

The remaining 235 sq. ft. is rounded up per section (d) above, to 300 sq. ft. ($3 \times 13.50 = 40.50$) \$ 40.50

Total fee due is: \$310.50

B) All other fees including some residential installations that are not based on square footage (not in a living area, i.e. garage, shop and photovoltaic, etc.). Fees in this section are calculated from the total cost to customer, including electrical materials, items and labor – whether provided by the contractor or property owner. Use this chart for all commercial installations. Such fees shall be computed as follows (See ‘D’ below for the permit fees for a mobile/modular home and travel trailer parks).

Valuation of Installation: (based on cost to customer of labor, equipment, material, and items):

	<u>FEE</u>
a) Not more than \$2,000.00	<u>\$135.00</u>
b) \$2001.00 and above	\$135.00 + \$13.50 per thousand / or fraction thereof.

Example: The cost of the installation is \$5,150.00 (round up to \$6,000.00)

The base fee is calculated from section (b) above: $6 \times \$13.50 = \81.00 Plus \$135.00 **the total fee is \$216.00**

C.) Solar Fees

Solar panel fees are calculated using a cost of \$4.00 per watt to come up with a valuation so that it is possible to calculate the permit fee. Please note that the fee for a **Residential Unit will not exceed \$500.00 and a Commercial Unit will not exceed \$1,000.00.**

Example: Actual watts for a Solar Panel are 5500 watts. Take the $5500 \times \$4.00 = \$22,000.00$. Then take $22 \times \$10.00 = \220.00 + base fee of \$65.00

Total fee would be $22 \times \$10.00 + \$65.00 = \$285.00$

D) Miscellaneous Fees (No Base Fee Required)

Mobile/Modular home/travel trailer Parks per space	\$135.00
Temporary Construction Meter / Heat Release	\$65.00
Electric Well Line	\$65.00
Re-inspection fee	\$100.00
Partial Inspection Fee or Extra Inspection Fee	\$100.00

**Required Inspections are (1) A service underground system; (2) A rough-in prior to insulation and drywall; and (3) A final prior to occupancy.*
