INDEPENDENT AUDITOR'S REPORT

City of Charles Town
101 East Washington Street
Charles Town, West Virginia 25414

To the Members of Council:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Municipality of Charles Town, Jefferson County, West Virginia (Municipality), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Municipality's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Municipality of Charles Town, Jefferson County, West Virginia as of June 30, 2022, and the respective changes in financial position and the respective budgetary comparisons for the General and Coal Severance Tax Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Municipality, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 2 to the financial statements, during 2022, the Municipality adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. We did not modify our opinion regarding this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Municipality's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Municipality's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis*, the required budgetary comparisons, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Municipality's basic financial statements. The supplementary information of the Combining Balance Sheet – Nonmajor Governmental Funds, the Combining Statement of Revenue, Expenditures and Changes in Fund Balance – Nonmajor Governmental Funds, and the Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 24, 2023, on our consideration of the Municipality's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Municipality's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Municipality's internal control over financial reporting and compliance.

Municipality of Charles Town, West Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2022
(Unaudited)

The discussion and analysis of the Municipality of Charles Town's financial performance provides an overview and analysis of the Municipality's financial activities for the fiscal year ended June 30, 2022. It should be read in conjunction with the accompanying financial statements. The Charles Town Utility Board, component unit of the Municipality of Charles Town, has presented a Management's Discussion and Analysis in its separately issued financial statements.

FINANCIAL HIGHLIGHTS

Net position of the governmental activities increased by \$3.0 million to \$15.0 million at June 30, 2022. Revenues increased \$2.8 million and expenses increased \$0.7 million compared to the previous year.

The COVID-19 pandemic depressed consumer based taxes and other revenues during 2021 compared to 2022. During 2022, business and occupation taxes increased by \$0.6 million, hotel and motel tax increased by \$0.05 million, licenses and permits increased by \$0.1 million, and video lottery and table gaming revenues increased by \$0.3 million. The Municipality was also able to offset a portion of the lost revenues due to the COVID-19 pandemic with grant revenues established by the American Rescue Plan Act (ARPA) in the amount of \$1.3 million.

During the year, the Municipality had expenses for governmental programs that were \$3.9 million more than the \$1.6 million generated by governmental program revenues and intergovernmental aid. The remaining cost of governmental activities was financed with general revenues, which totaled \$7.2 million this year.

The governmental funds ended the year with a fund balance of \$11.7 million which is an increase of \$3.0 million from 2021.

Municipality revenues increased because consumer based taxes and revenues increased as a result of COVID-19 restrictions being relaxed and also because of grant funding for COVID-19 revenue losses. Expenses increased approximately \$0.7 million because of the resumption of cultural and recreational activities, capital project expenditures, and granting of funds to local non-profit and other entities. Contributions to other entities amounted to \$0.4 million in 2022.

The Municipality's contractual payments to pension and other benefit plans remained constant at approximately \$0.25 million for both 2022 and 2021. Unfunded liabilities (assets) of the plans are considered financially sustainable for both 2022 and 2021.

The Municipality had capital projects in the construction phase during 2022 consisting of the Star Lodge/Free School renovation project, the Skate Park renovation project and various stormwater projects with a cost incurred as of the end of 2022 of \$0.4 million.

During 2022, the Municipality purchased vehicles and related outfitting for \$0.1 million.

Municipality of Charles Town, West Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS
 June 30, 2022
 (Unaudited)

FINANCIAL HIGHLIGHTS (continued)

The Municipality adopted GASB No. 87, "Leases" as of July 1, 2021. The adoption had the following effect on Financial Position at July 1, 2021:

	Charles Washington Hall and Municipal Annex Leases (In Millions)	Utility Board Facility Lease (In Millions)	
Increase in Assets	\$ 5.0	\$ 0.5	
Increase in Liabilities	-	(0.5)	
Increase in Deferred Inflows	5.3	-	
Decrease in Net Position	\$ (0.3)	\$ 0.0	

The 2021 comparative financial information contained in the Management Discussion and Analysis has not been restated for the effects of GASB No. 87.

MUNICIPALITY AS A WHOLE

One of the most important questions asked about the Municipality's finances is, "Is the Municipality as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Municipality as a whole and about its activities in a way that helps answer this question. These statements include all governmental assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Municipality's net position and changes to it. You can think of the Municipality's net position-the difference between assets and deferred outflows and liabilities and deferred inflows - as one way to measure the Municipality's financial health or financial position. Over time, increases or decreases in the Municipality's net position, is one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the Municipality's property tax base, debt structure and the condition of the Municipality's infrastructure, to assess the overall health of the Municipality.

In the Statement of Net Position and the Statement of Activities, the Municipality reports the Governmental Activities and Component Units. The business-type activities are found in the Municipality's component units, the Municipality of Charles Town Building Commission and the Charles Town Utility Board. The Charles Town Utility Board issues separate financial statements.

Governmental activities-Most of the Municipality's basic services are reported here, including the police, streets, culture and recreation, social services, and general administration. Taxes, licenses and permits, fees, fines and forfeits, lottery and table gaming revenues, and general revenues finance most of these activities.

Municipality of Charles Town, West Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2022
(Unaudited)

MUNICIPALITY AS A WHOLE (continued)

Reporting the Municipality's Most Significant Funds

The fund financial statements provide detailed information about the most significant funds-not the Municipality as a whole. Some funds are required to be established by State law and by bond covenants. However, the Municipality Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The Municipality uses the governmental fund types.

Governmental funds -The majority of the Municipality's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Municipality's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Municipality's programs.

The Municipality as Trustee

The Municipality is the trustee for the policeman's pension and relief fund. The Municipality's fiduciary activities related to this pension fund are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These activities are excluded from the Municipality's other financial statements because the Municipality cannot use these assets to finance its operations. The Municipality is responsible for ensuring that the assets reported in this fund are used to provide pension benefits to eligible participants.

Municipality of Charles Town, West Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2022
(Unaudited)

MUNICIPALITY AS A WHOLE (continued)

Net Position and Activities

The Municipality's combined net position increased \$3.0 million (\$15.0 million for 2022, \$12.0 million for 2021) compared to the prior year. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, increased from \$7.4 million at June 30, 2021, to \$10.6 million at the end of this year. Reviewing the net position and net expenses of governmental activities provides more detail about this change. The analyses below focus on the net position and changes in net position of the Municipality's governmental activities.

Statements of Net Position
June 30, 2022 and 2021
(in Millions)

	Governmental Activities	
	2022	2021
Current and other assets	\$ 18.8	\$ 9.2

 (Unaudited)

MUNICIPALITY AS A WHOLE (continued)

Net Position and Activities (continued)

Statements of Activities
 For the years ended June 30, 2022 and 2021
 (in Millions)

	Governmental Activities	
	2022	2021
Revenues		
Program revenues:		
Charges for services	\$ 0.2	\$ 0.2
Operating grants and contributions	1.3	0.1
Capital grants and contributions	0.1	0.2
General revenues:		
Taxes	4.8	3.9
Licenses and permits	0.3	0.2
Fines, forfeits and confiscated property	0.3	0.3
Fees	0.3	0.2
Table gaming	0.3	0.2
Video lottery	0.8	0.6
Contribution from component unit	0.4	-
Other general revenues	0.2	0.3
	9.0	6.2
Expenses		
General government	2.4	2.1
Public safety	2.1	1.9
Highways and streets	0.8	0.8
Culture and recreation/social services	0.3	0.1
	5.6	4.9
Change in net position	\$ 3.4	\$ 1.3

Revenues for the Municipality's governmental activities increased by 45 percent (\$2.8 million), while total expenses increased by \$0.7 million or 14 percent. The factors driving these results include the following:

- a) The Municipality's governmental revenue sources recovered as a result of the COVID-19 pandemic restrictions being relaxed and the receipt of ARPA grant funding.
- b) The Municipality's governmental expenses increased (\$0.7 million) because of the resumption of cultural and recreational activities and contributions to other entities.

Municipality of Charles Town, West Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS
 June 30, 2022
 (Unaudited)

MUNICIPALITY AS A WHOLE (continued)

Net Position and Activities (continued)

The cost of all governmental activities this year was \$5.6 million. As shown in the Statement of Activities, the amount that taxpayers ultimately financed for these activities through general revenues was \$3.9 million because some of the cost was paid by those who directly benefitted from the programs (\$0.2 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$1.5 million).

Governmental Funds

As the Municipality completed the year, the governmental funds (as presented in the balance sheet) reported a combined fund balance of \$11.7 million, which is an increase of \$3.0 million from the previous year.

General Fund Budgetary Highlights

Over the course of the year, the Municipality's Council made occasional revisions to the Municipality budget. These budget amendments were made to reflect anticipated funding changes in the Municipality's operations.

Even with the effects of the COVID-19 pandemic, the Municipality's general fund actual revenues were \$0.9 million over budgeted revenues. General fund expenditures were less than budgeted expenditures by \$1.2 million.

CAPITAL ASSET AND DEBT AND LONG-TERM LIABILITY ADMINISTRATION (in Millions)

Capital Assets

Capital assets of the Governmental Activities consisted of the following:

	Governmental Activities	
	2022	2021
Land	\$ 0.7	\$ 0.7
Land improvements	4.6	4.6
Buildings and improvements	2.3	2.3
Leasehold improvements	0.1	0.1
Equipment and vehicles	3.2	3.1
Construction in progress	0.5	0.4
Total	11.4	11.2
Accumulated depreciation	(7.2)	(6.7)
Capital assets, net of accumulated depreciation	\$ 4.2	\$ 4.5

 June 30, 2022
 (Unaudited)

CAPITAL ASSET AND DEBT AND LONG-TERM LIABILITY ADMINISTRATION (in Millions)
(continued)

Debt and Long-Term Liabilities (continued)

The Charles Town Building Commission fixed debt consisted of the following at June 30, 2022 and 2021:

	Building Commission	
	2022	2021
Series 2015A and 2015B Lease Revenue Bonds (Charles Washington Hall)	\$ 3.4	\$ 3.4
Series 2017A Lease Revenue Bonds (Municipal Annex)	1.8	1.9
Total	\$ 5.2	\$ 5.3

The Charles Town Building Commission had no long-term liabilities except fixed debt.

ECONOMIC FACTORS

The Municipality's elected and appointed officials considered many factors when setting the fiscal-year 2022 budget and tax rates. Factors consisted of the economy and COVID-19 pandemic.. The County's population has a direct impact on the Municipality's economic growth.

The Municipality of Charles Town is optimistic about its potential for economic growth in the future. The increasing population, infrastructure improvements, annexations, and procurement of grants and other funding sources are all positive indicators for continued economic growth in the Municipality of Charles Town.

CONTACTING THE MUNICIPALITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, and investors and creditors with a general overview of the Municipality's finances and to show the Municipality's accountability for the money its receives. If you have questions about this report or need additional financial information, contact the City Manager at City Hall 101 E. Washington Street, Charles Town, West Virginia.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Municipality of Charles Town, West Virginia (“Municipality”) is a municipal corporation in which citizens elect the mayor at large and eight council members. The Municipality engages in a comprehensive range of services, including general government administration, public safety, administration of justice, water and sewer services, transportation, planning, community development, recreation, cultural and historic activities, and social services.

The accounting policies and the presentation of the financial report of the Municipality has been designed to conform to generally accepted accounting principles as applicable to government units, in accordance with the Governmental Accounting Standards Board (GASB).

The Municipality follows the Governmental Accounting Standards Board (GASB) Standards for financial reporting. Certain significant components of the Standards include the following:

- A Management Discussion and Analysis (MD&A) section providing an analysis of the Municipality’s overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the Municipality’s activities.
- Fund financial statements that focus on major funds.

These financial statements present all fund types of the City and its discretely presented component units.

Individual Component Unit Disclosure

The criteria for including component units consists of identification of legally separate organizations for which the elected officials of the Municipality are financially accountable. This criteria also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Blended component units, although legally separate entities, are in substance, part of the government’s operations and so data from these units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government.

The Municipality had no blended component units as of and for the year ended June 30, 2022.

The Municipality of Charles Town Building Commission (“Building Commission”) and the Charles Town Utility Board (“Utility Board”) are governed by boards appointed by the Municipality’s Council. While legally separate from the Municipality, they are reported as part of the reporting entity under the discretely presented method because the Municipality’s elected officials are financially accountable for the Building Commission and the Utility Board. The Municipality Council has the power to approve, disapprove, or modify budgets and financial operations of the Building Commission and the Utility Board. Separate financial information can be obtained from the Building Commission and the Utility Board.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Parks and Recreation Fund

The Parks and Recreation fund is not a legally separate organization but does have a separate board of directors and federal employer identification number. The fund relies on financial support from the City and daily operations are managed by City employees. The fund does not meet the criteria to be considered a component unit.

Related Organizations

The Municipality's officials are also responsible for appointing the members of the boards of various organizations, but the Municipality's accountability for these organizations does not significantly extend beyond making the appointments. The Municipality is not financially accountable for the organizations to which these appointments are made.

Government-wide and Fund Financial Statements

The financial statements include both government-wide (based on the Municipality as a whole) and fund financial statements. Under this reporting model, the focus is on both the Municipality as a whole and the fund financial statements, including the major funds of the governmental and business-type categories, as well as the fiduciary funds, (by fund type) and the component units. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type, as applicable. In the government-wide Statement of Net Position, both the governmental and business-type activities columns, as applicable, (a) are presented on a consolidated basis by column, and (b) are reflected in a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (general government, public safety, highways and streets, culture and recreation, etc.) that are otherwise being supported by general government revenues (property, business and occupation taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants and contributions. The program revenues must be directly associated with the function (general government, public safety, highways and streets, culture and recreation, etc.) or a business-type activity, as applicable. Program revenues include 1) charges to customers for applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported as general revenues. The Municipality does not allocate indirect expenses. The operating grants include operating - specific and discretionary (either operating or capital) grants while the capital grants column reflects capital - specific grants and contributions.

In the fund financial statements, financial transactions and accounts of the Municipality are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resources and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustments necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Government-wide and Fund Financial Statements (continued)

The emphasis in fund financial statements is on major funds in the governmental categories. Non-major funds by category are summarized into a single column. GASB Standards set forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental categories combined) for the determination of major funds.

Municipality management may electively add funds as major funds, when it is determined the funds have specific community or management focus. The coal severance fund has been electively added as a major fund.

The Municipality's fiduciary funds are presented in the fund financial statements by type (pension). Since, by definition, these assets are being held for the benefit of a third party (pension participants) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government - wide statements.

The following is a brief description of the specific funds used by the Municipality:

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds are reported using the current financial resource measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within a current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Municipality considers revenues to be available if they are collected within sixty days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

General Fund

The general fund is the primary operating fund of the Municipality. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, interest, and other income.

Special Revenue Funds

Special revenue funds account for revenue derived from specific sources (other than major capital projects) that are restricted by legal and regulatory provisions to finance specific activities. The special revenue funds, except for the coal severance fund, capital reserve fund, residual fund, sales tax fund, ARPA fund, and bond escrow fund are considered non-major funds for reporting purposes. The coal severance fund is used to account for the funds received from the State of West Virginia that are derived from the coal severance tax. The capital reserve fund is used to administer the capital grant and bond and loan monies received for capital improvements. The sales tax fund is used to account for the Municipality's 1% sales tax including allowable uses of sales tax revenue. The ARPA fund is used to administer American Rescue Plan Act (ARPA) grant funds awarded to the Municipality. The bond escrow fund is used to administer developer bonds held. The residual fund is used for municipal stabilization purposes.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Government-wide and Fund Financial Statements (continued)

Fiduciary Funds

Fiduciary funds are used to account for assets held by the Municipality in a trustee capacity for individuals, private organizations and other governments. The fiduciary fund of the Municipality is a pension trust fund. For accounting measurement purposes, the pension trust fund accounts for the assets of the Municipality's police pension plan. Fiduciary funds are not included in the government-wide financial statements.

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet in the funds statements. Long-term assets and long-term liabilities are included in the government-wide statements. Operating statements of the governmental funds present increases (i.e. revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide statements of net position and statements of activities and pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these activities are either included on the statement of net position or on the statement of activities as increases (e.g. revenues) decreases (e.g. expenses) in net position.

The statement of net position, statement of activities, and financial statements of the fiduciary funds are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned, and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

When both restricted and unrestricted resources are available for use, it is the Municipality's policy to use restricted resources first, and then the unrestricted resources as needed.

Budgets and Budgetary Accounting

All municipalities within West Virginia are required by statute to prepare annual budgets (levy estimates) on prescribed forms and submit these for approval to the West Virginia State Auditor's office. These budgets are prepared in accordance with the following procedures:

1. The governing body of the Municipality is required to hold a meeting or meetings between the seventh and twenty-eighth days of March to ascertain the financial condition of the Municipality and to prepare the levy estimate (budget) for the fiscal year commencing July 1.
2. The budget is then forthwith submitted to the West Virginia State Auditor's office for approval.
3. The governing body then reconvenes on the third Tuesday in April to hear objections from the public and to formally lay the levy.

The annual budget for the General Fund is prepared on a basis generally consistent with U.S. generally accepted accounting principles.

Revisions are authorized only with the prior written approval of the West Virginia State Auditor's office. The budgeted amounts reflected in the accompanying financial statements represent those adopted by the Municipality's Council and approved by the West Virginia State Auditor's office.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Encumbrances

Encumbrance accounting, under which purchase orders are issued but are not considered expenditures until liabilities for payments are incurred, is not employed as an extension of the formal budgetary process.

Cash and Cash Equivalents

Cash and cash equivalents of the primary government, fiduciary fund, and component units at June 30, 2022 include deposits of \$22,611,366 at seven financial institutions (excludes investments and funds held at the West Virginia Municipal Bond Commission). Deposits are FDIC insured and deposits in excess of FDIC limits are 100% collateralized with securities held by the financial institutions.

Restricted Cash

Restricted cash of the primary government consists of the following:

Law enforcement funds held in investigation and evidence accounts whose use is limited by state law and regulation.	\$ 92,587
Developer bonds held in accordance with Municipality requirements to assure development project completion.	181,998
Contributions to Parks & Recreation restricted as to purpose.	<u>1,736</u>
Total	\$ <u><u>276,321</u></u>

Restricted cash of the Utility Board consists of the following:

Debt service funds and debt service reserve funds represent funds required by debt covenants under the various debt ordinances. These funds are to be used to pay bond interest and principal.	\$ 650,431
Construction funds represent funds held by banks under the bond ordinances or developer agreements. These funds are to be used solely for payment of costs associated with the Utility Board's ongoing construction projects.	115,516
Capacity improvement funds are established by ordinance and subject to regulatory commission oversight. The capacity improvement fund is to be kept apart from all other funds and shall be invested and reinvested in accordance with applicable regulation. Withdrawals and disbursements may be made for replacements, emergency repairs, improvements, and upgrades to the system.	6,422,904
The repair and replacement fund represents funds held by a bank under the Utility Board's bond ordinances. Withdrawals may be made for replacement and emergency repairs.	<u>1,481,953</u>
Total	\$ <u><u>8,670,804</u></u>

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Restricted Cash (continued)

Restricted cash of Building Commission consists of the following:

Debt service funds and debt service reserve funds represent funds required by debt covenants under the various debt ordinances.	
These funds are to be used to pay bond interest and principal.	\$ <u>352,481</u>

Investment Securities - Policemen’s Pension and Relief Fund and Residual Fund

Investments are carried at fair value. Realized gains and losses on sales of securities are recognized based on the cost of specified securities sold and are included in revenue. Fair values are determined by quoted market prices. Changes in fair values are included in the determination of changes in net position.

Market Risks - Policemen’s Pension and Relief Fund and Residual Fund

Investments are exposed to various risks, such as interest rate, market, currency and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would affect investment assets reported in the financial statements.

Accounts Receivable

Primary Government

The Municipality uses the reserve method of providing for possible losses in the collection of its accounts receivable. Management believes all accounts are materially collectible and the allowance of \$15,000 is adequate at June 30, 2022.

Utility Board

The Utility Board’s management periodically analyzes delinquent accounts of the water and sewer funds and uses the allowance method for accounting for bad debts. No allowance was deemed necessary by management at June 30, 2022. At June 30, 2022, accounts receivable amounted to \$224,940. Revenue accrued but not billed amounted to \$866,343 at June 30, 2022.

Building Commission

The Building Commission’s management considers all accounts receivable to be collectible. Amounts due from the primary government amounted to \$70,912 at June 30, 2022.

Inventories

Primary Government

The Municipality considers inventories of materials and supplies utilized in governmental fund type operations as expended at the time of purchase. Therefore, they do not appear in the Municipality’s financial statements.

Utility Board

Inventories consist of expendable supplies and are accounted for on a first-in first-out basis. Inventories are valued at cost and approximate fair market value at June 30, 2022.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital Assets

Capital outlays are recorded as expenditures of the general and special revenue funds and as assets in the government-wide financial statements including the component units. The capitalization threshold is \$5,000 for the governmental funds and Building Commission and \$15,000 for the Utility Board. Depreciation is recorded using the straight-line method and the following estimated useful lives:

Primary Government	
Buildings	25-50 years
Improvements	10-20 years
Equipment	3-10 years
Utility Board	
Utility Plant	5-50 years
Building Commission	
Buildings	40 years
Improvements	40 years
Roads	20 years

All assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at their acquisition value on the date donated.

Expenditures for repairs and upgrading which materially add to the value or life of an asset are capitalized. Other maintenance and repair costs are expensed as incurred.

The depreciation/amortization of assets acquired under capital leases or in excess of predecessor book value are included in depreciation expense.

Bond Issue Costs

Bond issue costs are expensed as incurred except for those costs related to prepaid insurance.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of net position and or balance sheets will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred amounts resulting from advance refunding of debt and elements of the Municipality's defined benefit pension plans and other post employment benefit plan qualifies for reporting in this category.

In addition to liabilities, the statements of net position and or balance sheets will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows related to lease receivables and elements of the Municipality's defined benefit pension plans and other post employment benefit plans qualify for reporting in this category.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Advance Refunding of Debt

Deferred amounts resulting from advance refunding of debt are being amortized by the straight-line method over the life of the new debt.

Compensated Absences

Employees are permitted to accumulate earned but unused vacation benefits. The liability related to compensated absences is fully recognized in the government-wide financial statements without modification.

Interfund Charges

All interfund services provided and used are reported as due to/due from asset and liability accounts.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

Nonexchange Transactions

GASB Standards establish accounting and reporting guidelines for government entities that gives (or receives) value without directly receiving (or giving) equal value in return is followed. Voluntary nonexchange transactions from developer and customer donations of cash, property, lines and improvements are received. In addition, various capital grants are received from federal and state agencies. These donations are considered capital contributions in the government-wide financial statements.

Customer Utility Deposits

Customer utility deposits are refunded after bills for service have been paid on time for twelve consecutive months.

Fund Balances

In accordance with GASB Standards, the Municipality classifies governmental fund balances within the following categories: Nonspendable fund balance, which includes amounts that cannot be spent because it is not in spendable form; restricted fund balance, which includes amounts constrained for specific purposes that are externally imposed by the resource providers; committed fund balance, which includes amounts constrained for specific purposes that are internally imposed through formal action of the City Council; assigned fund balance, which includes amounts intended to be used for specific purposes that are neither restricted or committed, however, assigned by non-formal action of City Council or finance department; and unassigned fund balance, which is the residual classification for amounts in the general fund that have not been classified within the other categories and special revenue funds with deficit fund balances.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Position

Net Position is classified as follows:

Net investment in capital assets - This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the assets.

Restricted net position - This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments.

Unrestricted net position - This amount is net position that does not meet the definition of "net investment in capital assets" or "restricted net position."

Pension

For purposes of measuring the net pension liability and deferred outflows/inflows of the resources related to the pension, and pension expense, information about the fiduciary net position of the Municipality's Public Employee Retirement System (PERS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability and deferred outflows/inflows of the resources related to OPEB, and OPEB expense, information about the fiduciary net position of the West Virginia Retiree Health Benefits Trust (RHBT) and additions to/deductions from the RHBT's fiduciary net position have been determined on the same basis as they are reported by the RHBT. RHBT recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 2: NEW ACCOUNTING PRONOUNCEMENT ADOPTED

The Municipality has adopted the following GASB Pronouncement during the fiscal year ended June 30, 2022:

GASB Statement No. 87, *Leases*, aims to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset.

NOTE 3: NEW ACCOUNTING PRONOUNCEMENTS

The Municipality will adopt the following new accounting standards issued by GASB by the required effective dates:

GASB Statement No. 91, *Conduit Debt Obligations* seeks to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. Statement 91 will be effective for fiscal year ending June 30, 2023.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* aims to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements. Statement 94 will be effective for fiscal year ending June 30, 2023.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset-an intangible asset-and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. Statement 96 will be effective for fiscal year ending June 30, 2023.

GASB Statement No. 100, *Summary of Accounting Changes and Error Corrections - An Amendment of GASB Statement No. 62*, aims to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions of assessing accountability. Statement 100 will be effective for fiscal year ending June 30, 2024.

GASB Statement No. 101, *Compensated Absences*, aims to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. Statement 101 will be effective for fiscal year ending June 30, 2025.

The Municipality has not yet determined the effect these Statements will have on its financial statements.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 4: PROPERTY TAXES

The taxes on real property and the interest and other charges upon such taxes attach as an enforceable lien on the first day of July. There is no lien denominated as such on personal property. However, statutes provide that the sheriff of a county may distraint for delinquent taxes any goods and chattels belonging to a person assessed. All current taxes assessed on real and personal property may be paid in two installments: the first installment is payable on September first of the year for which the assessment is made and becomes delinquent on October first; the second installment is payable on the first day of the following March and becomes delinquent on April first. Taxes paid on or before the date when they are due, including both first and second installments, are subject to a discount of two and one-half percent. If taxes are not paid on or before the date on which they become delinquent, including both first and second installments, interest at the rate of nine percent per annum is added from the date they become delinquent until paid.

All municipalities within the state are authorized to levy taxes not in excess of the maximum levies per \$100 of assessed valuation. In addition, municipalities may provide for an election to lay an excess levy, the rates not to exceed fifty percent of such authorized maximum levies, provided that at least sixty percent of the voters cast ballots in favor of the excess levy.

The rates levied by the Municipality per \$100 of

Class of Property	Assessed Valuations For Tax Purposes	Current Expense
Class I	\$ -	12.30¢
Class II	\$ 252,928,400	24.60¢
Class IV	\$ 146,388,245	49.20¢

NOTE 5: CASH

Unrestricted cash and cash equivalents at June 30, 2022 were as follows:

	Primary Government	Utility Board	Building Commission
Cash in checking and savings accounts	\$ 9,470,644	\$4,329,221	\$ 181,553
Cash on hand	1,150	300	-
Total cash and cash equivalents	\$ 9,471,794	\$4,329,521	\$ 181,553

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 6: INVESTMENTS - POLICEMEN'S PENSION AND RELIEF FUND AND RESIDUAL FUND

The Municipality uses a fair value hierarchy established by GAAP that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the assets or liabilities.

Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (that is, the inputs are supported by little or no market activity).

- A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

Policemen's Pension and Relief Fund

The Plan's investments are as follows at June 30, 2022:

	<u>Fair Value</u>	<u>Cost</u>	<u>Appreciation (Depreciation)</u>	<u>Hierarchy</u>
Stocks and bonds	<u>\$ 392,230</u>	<u>\$ 351,864</u>	<u>\$ 40,366</u>	Level 1

The components of investment income for the year ended June 30, 2022 are as follows:

Interest and dividends	\$ 12,728
Realized and unrealized gain (loss)	(45,329)
Investment expense	<u>(4,814)</u>
Net investment income	<u>\$ (37,415)</u>

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 6: INVESTMENTS - POLICEMEN'S PENSION AND RELIEF FUND AND RESIDUAL FUND (continued)

Residual Fund

The Fund's investments are as follows at June 30, 2022:

	Fair Value	Cost	Appreciation (Depreciation)	Hierarchy
Stocks, bonds, core account	\$ 577,000	\$ 505,312	\$ 71,688	Level 1

The components of investment income for the year ended June 30, 2022 are as follows:

Interest and dividends	\$ 15,709
Realized and unrealized gain (loss)	(86,383)
Investment expenses	<u>(7,150)</u>
Net investment income (loss)	<u>\$ (77,824)</u>

NOTE 7: INTERNAL BALANCES AND INTERFUND TRANSFERS

The composition of internal balances as of June 30, 2022 is as follows:

Governmental funds/component units:

Receivable Fund/CU	Payable Fund/CU	Amount	Nature
Residual Fund	CT Utility Board	\$ 499,819	Loan (loan to CT Utility Board)
Capital Reserve Fund	General Fund	292,863	Table gaming and video lottery revenue (due to/from)
CT Building Commission	General Fund	70,912	Charles Washington Hall rental income (due to/from)
Residual Fund	General Fund	33,232	CT Utility Board loan repayment (due to/from)
General Fund	Parks and Recreation Fund	177	Expense reimbursement
General Fund	Capital Reserve Fund	<u>33,291</u>	Expense reimbursement
		<u>\$ 930,294</u>	

These balances represent timing differences due to routine transfers and capital contributions. Internal receivables and payables are expected to be paid by year end except for the Utility Board to Residual Fund, which represents financing of water and sewer assets.

The Residual Fund advanced the Utility Board \$640,795 to finance certain construction projects. The advance bears no interest and is generally being repaid over a 50 year term. For the year ended June 30, 2022, \$12,816 was repaid.

Interfund transfers and transactions for the year ended June 30, 2022, consisted of the following:

Transfer to (Fund)	Transfer from (Fund)	Amount	Nature
General Fund	Sales Tax Fund	\$ 1,557,615	Annual budgeted contribution
General Fund	ARPA Fund	1,332,522	Revenue loss subsidy
Capital Reserve Fund	General Fund	1,198,541	Lottery and table gaming revenue transfers
Parks and Recreation Fund	General Fund	128,400	Hotel and motel tax allocation
		<u>\$ 4,217,078</u>

NOTE 11: LONG-TERM LIABILITIES (continued)

Utility Board (Component Unit) (continued)

Certain of the water and sewer revenue bonds require administrative fees to be paid to the governmental issuers. Administrative fees amounted to \$2,545 and \$48,321 for the water and sewer funds, respectively, for the year ended June 30, 2022. Administrative fees are not considered interest expense for rate establishment purposes and are not included in the above maturity schedules.

The water and sewer bond issues are secured by a lien on the revenues derived from the system and a statutory mortgage lien on the system.

The covenants contained in the water and sewer bond issues include a required debt service coverage ratio of 115%. The Utility Board met the required coverage for the year ended June 30, 2022.

The water and sewer bond issues require monthly deposits to the renewal and replacement fund equal to 2-1/2% of monthly gross revenues. The Utility Board's deposits, including necessary expenditures for renewals and replacements, exceeded this requirement for the year ended June 30, 2022.

NOTE 13: LEASE COMMITMENTS

Municipality of Charles Town (Lessor) and Charles Town Utility Board (Lessee)

The Utility Board entered into a facility lease with the Municipality on April 1, 2019, which expires on June 1, 2042. Monthly rental payments of \$2,550 are required during the term of the lease including principal and interest at 3.5%. The Municipality lease asset and Utility Board lease liability were \$437,758 at June 30, 2022. The Utility Board recognized \$20,971 of amortization of right to use assets and \$14,970 of interest expense during the year ended June 30, 2022. The Municipality recognized \$20,971 of lease revenue and \$14,970 of interest income during the year ended June 30, 2022.

The following is a schedule of future minimum lease payments under the lease:

Year	Principal	Interest	Total
2023	\$ 14,842	\$ 15,758	\$ 30,600
2024	16,054	14,546	30,600

2026	17,216	13,384	30,600
2027	17,828	12,772	30,600
2028-2032	99,117	53,883	153,000
2033-2037	118,043	34,957	153,000
2038-2042	138,033	12,418	150,451
	<u>\$ 437,758</u>	<u>\$ 171,693</u>	<u>\$ 609,451</u>

Building Commission (Lessor) and Municipality of Charles Town (Lessee)

The Municipality and the Building Commission entered into a lease agreement dated March 2, 2015, whereby the Municipality leases from the Building Commission the Charles Washington Hall facilities. The lease is for a 36 year term reflecting the same term as the bond financing used to fund the Charles Washington Hall improvements and renovation. The Municipality is required to pay sufficient lease rentals to accumulate sums necessary to promptly pay principal and interest due on the Building Commission's Series 2015A and Series 2015B Lease Revenue Bonds. The lease is a net lease therefore the Municipality is responsible for all operation and maintenance costs associated with the leased property.

Monthly rental payments of \$16,667 are required during the term of the lease including principal and interest at 3.75%. The Building Commission lease asset and Municipality lease liability were \$3,354,410 at June 30, 2022. The Municipality recognized \$108,149 of amortization of right to use assets and \$126,398 of interest expense during the year ended June 30, 2022. The Building Commission recognized \$108,149 of lease revenue and \$126,398 of interest income during the year ended June 30, 2022. Building Commission collective deferred inflows related to the lease amounted to \$3,109,273 at June 30, 2022. The deferred inflows are being recognized on a straight-line basis over the term of the lease.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)

	<u>\$ 3,354,410</u>	<u>\$ 1,944,802</u>	<u>\$ 5,299,212</u>

The Municipality and the Building Commission entered into a lease agreement dated May 30, 2017, whereby the Municipality leases from the Building Commission the Municipal Annex Facilities. The lease is for a 25 year term reflecting the same term as the bond financing used to fund the Municipal Annex land purchase and building construction. The Municipality is required to pay sufficient rentals to accumulate sums necessary to promptly pay principal and interest due on the Building Commission's Series 2017A Lease Revenue Bonds. The lease is a net lease therefore the Municipality is responsible for all operation and maintenance costs associated with the leased property.

Monthly rental payments of \$10,391 are required during the term of the lease including principal and interest at 3.16%. The Building Commission lease asset and Municipality lease liability were \$1,840,398 at June 30, 2022. The Municipality recognized \$84,000 of amortization of right to use assets and \$59,446 of interest expense during the year ended June 30, 2022. The Building Commission recognized \$84,000 of lease revenue and \$59,446 of interest income during the year ended June 30, 2022. Building Commission collective deferred inflows related to the lease amount to \$1,673,000 at June 30, 2022. The deferred inflows are being recognized on a straight-line method over the term of the lease.

The following is a schedule of future minimum lease payments under the lease:

Year	Principal	Interest	Total

Utility Board Cellular Leases

Beginning in the year ended June 30, 2016, the Utility Board has entered into multiple cellular equipment right to use agreements for space on the Utility Board's water standpipes. The remaining terms of the lease agreements range from 2022-2050. Payments required under the lease agreements are variable based on the specific terms contained in the agreements. Minimum payments due the Utility Board for the next five years are as follows:

Year	Amount
2023	\$ 518,513
2024	\$ 520,379
2025	\$ 511,597
2026	\$ 509,787
2027	\$ 524,967

Leases receivable were calculated using a discount rate of 3.5%. Leases receivable amounted to \$6,901,114 at June 30, 2022. Collective deferred inflows related to the leases amount to \$6,389,408 at June 30, 2022. The deferred inflows are being based on the terms of the leases using the straight-line method. The Utility Board recognized \$340,320 of lease revenue and \$186,987 of interest income on leases during the year ended June 30, 2022.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM AND PLAN

Plan Description, Contribution Information, and Funding Policies

The Municipality participates in the West Virginia Public Employees Retirement System (PERS), a state-wide, cost-sharing, multiple-employer defined benefit plan on behalf of Municipality employees. The system is administered by agencies of the State of West Virginia and funded by contributions from participants, employers, and State appropriations, as necessary.

PERS is administered by the Consolidated Public Retirement Board (CPRB), which acts as a common investment and administrative agent for all of the participating employers. CPRB issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CPRB website at www.wvretirement.com.

The following is a summary of eligibility factors, contribution methods, and benefit provisions:

Eligibility to participate:	All Municipality full-time employees, except those covered by other pension plans
Authority establishing contribution obligations and benefit provisions:	West Virginia Code Section 5-10d
Tier 1 Plan member's contribution rate:	4.50% (Employees hired before July 1, 2015)
Tier 2 Plan member's contribution rate:	6.00% (Employees hired after July 1, 2015)
Municipality's contribution rate:	10.00% for fiscal year 2022 (Effective July 1, 2022 the Municipality is required to contribute 9%)
Period required to vest:	5 years for Tier 1 and 10 years for Tier 2
Benefits and eligibility for distribution:	<p><u>Tier 1</u></p> <p>A member who has attained age 60 and has earned 5 years or more of contributing service or age 55 if the sum of his/her age plus years of credited service is equal to or greater than 80. The final average salary (three highest consecutive years in the last 15) times the years of service times 2% equals the annual retirement benefit.</p> <p><u>Tier 2</u></p> <p>Qualification for normal retirement is age 62 with 10 years of service or at least age 55 plus service years equal to 80 or greater. The final average salary is the average of the five consecutive highest annual earnings years out of the last fifteen years. The final average salary times the years of service times 2% equals the annual retirement benefit.</p>
Deferred retirement portion:	No
Provisions for:	
Cost of living	No
Death benefits	Yes

Pension Liability (Asset), Pension Expense (Offset), Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pension

At June 30, 2022, the Municipality reported the following asset for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2021, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2020, rolled forward to the measurement date of June 30, 2021. The Municipality's proportion of the net pension asset was based on a projection of the Municipality's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined.

At June 30, 2022, the Municipality reported the following proportion:

Amount for proportionate share of net pension asset	\$1,158,489
Percentage for proportionate share of net pension asset	0.131956%
Increase/(decrease) % from prior proportion measured	0.001771%

For the year ended June 30, 2022, the Municipality recognized \$(226,354) of pension expense (offset).

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM AND PLAN (continued)

Pension Liability (Asset), Pension Expense (Offset), Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pension (continued)

The Municipality reported deferred outflows of resources and deferred inflows of resources related to the pension plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of assumptions	\$ 220,421	\$ 9,390
Net difference between project and actual earnings on pension plan investments	-	1,483,836
Difference between expected and actual experience	132,213	4,391
Changes in proportion and differences between Municipality contributions and proportionate share of contributions	8,908	4,588
Municipality contributions subsequent to the measurement date	207,987	-
	\$ 569,529	\$ 1,502,205

The amount reported as deferred outflows of resources related to the pension plan resulting from Municipality contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the pension plan will be recognized in pension expense (offset) as follows:

Year ended June 30

	2023	\$	(240,442)
	2024		(224,354)
	2025		(311,974)
	2026		(363,893)
	Total	\$	(1,140,663)

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM AND PLAN (continued)

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of July 1, 2020, and rolled forward to June 30, 2020, which is the measurement date, using the following actuarial assumptions, applied to all periods included in the measurement.

Actuarial cost method	Individual entry age normal cost with level percentage of payroll
Asset valuation method	Fair value
Amortization method	Level dollar, fixed period
Amortization period	Through Fiscal Year 2035
Actuarial assumptions:	
Investment rate of return	7.25%
Projected salary increases	3.60-6.75%%, including inflation
Inflation rate	2.75%
Discount rate	7.50%
Mortality rates	Active-100% of Pub-2010 General Employees table, below-median, headcount weighted, projected with scale MP-2018
	Retired healthy males - 108% of Pub-2010 General Retiree Male table, below-median, headcount weighted, projected with scale MP-2018
	Retired healthy females - 122% of Pub-2010 General Retiree Male table, below-median, headcount weighted, projected with scale MP-2018
	Disabled males - 118% of Pub 2010 General/ Teachers Disabled Male table, below-median headcount weighted, projected with scale MP-2018
	Disabled females - 117% of Pub 2010 General/ Teachers Disabled Male table, below-median headcount weighted, projected with scale MP-2018
Withdrawal rates	
State	2.28-45.63%%
Non-state	2.500-35.880%%
Disability rates	0.005-0.0540%%
Retirement rates	12 - 100%%
Date range in most recent experience study	2015-2020 - Economic assumptions; 2013-2018 - All other assumptions

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM AND PLAN (continued)

Actuarial Assumptions (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which estimates of expected real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Rates summarized in the following table as of June 30, 2021, include the inflation component and were used for the defined benefit plan:

Asset Class	Long-Term Expected Rate of Return	PERS Target Asset Allocation
U.S. Equity	5.5%	27.50%
International Equity	7.0%	27.50%
Private Equity	8.5%	10.00%
Fixed Income	2.2%	15.00%
Real Estate	6.6%	10.00%
Hedge Funds	4.0%	10.00%
		100.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.25 percent for the defined benefit plan. The projection of cash flows used to determine the discount rate assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position for the defined benefit pension plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability of the plan.

The following chart presents the sensitivity of the net pension liability (asset) to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1% Decrease 6.25%	Discount Rate 7.25%	1% Increase 8.25%
Municipality's proportionate share of PERS's net pension liability (asset)	\$ 13,238	\$ (1,158,489)	\$ (2,147,483)

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report available at the Consolidated Public Retirement Board's website at www.wvretirement.com. That information can also be obtained by writing to the West Virginia Consolidated Public Retirement Board, 4101 MacCorkle Avenue SE, Charleston, WV 25304.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM AND PLAN (continued)

Utility Board (Component Unit)

Information regarding the Utility Board's West Virginia Public Employee pension benefits can be found in the separately issued Utility Board audited financial statements.

Policemen's Pension and Relief Fund

The Municipality participates in one single employer, public employee retirement system. Assets are held separately and may be used only for the payment of benefits to the members of the plan.

The Policemen's Pension Relief Fund (PPRF) provides retirement benefits for certain retired police employees and their beneficiaries. The PPRF's Board consists of a chairman which is the Mayor and four members from the municipal police department. The Municipality is authorized in accordance with State Code §8-22 to establish and maintain this plan. Unless otherwise indicated, PPRF information in this Note is provided as of the latest actuarial valuation, July 1, 2020 and projected to the measurement date of June 30, 2022.

Actuarial valuations are required to be performed once every year.

The investment policies of the PPRF are restricted by State Code and may be restricted further as determined by the Board. For additional information relating to basis of accounting and reported investment values, see Notes 1 and 5. There were no significant changes in the investment policies for the current year.

Membership of the plan is as follows:

Group	Participants
Active Employees	0
Inactive, Non-Retired Members	0
Retirees and Beneficiaries	
Currently Receiving Benefits	4
Total	4

This plan is a defined benefit plan. The following is a summary of funding policies, contribution methods, and benefit provisions.

Determination of Contribution Requirements	Actuarially determined
Employer	Contributes annually an amount which, together with contributions from the members and others, and the allocable portion of the State premium tax fund, will be sufficient to meet the normal cost of the fund and amortize any actuarial deficiency over a period of not more than forty years in accordance with West Virginia State code §8-22-10.
Plan Members	7% of covered payroll (currently no applicable)
Period Required to Vest	No vesting occurs. If separation from employment occurs the member is entitled to a refund of his/her contributions only.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM (continued)

Policemen's Pension and Relief Fund (continued)

Post-Retirement Benefit Increases	Cost of living adjustment after two years of retirement. Adjustment calculated on the first \$15,000 of the total annual benefit in the first year and then the cumulative index for the preceding year. The supplemental pension benefit shall not exceed four percent.
Eligibility for Distribution	20 years of credited service or age 65; whichever comes first. Must be at least age 50.
Provisions for:	
Disability Benefits	Yes
Death Benefits	Yes

Actuarial Assumptions and Rate of Return

The total pension liability was determined by an actuarial valuation as of July 1, 2020 and projected to the measurement date of June 30, 2022, using the following actuarial assumptions, applied to all periods included in the measurement. The actuarial assumptions used in the valuation were based on the results of an actuarial experience study for the period July 1, 2009, through June 30, 2014.

Actuarial Assumptions:

Inflation	2.50%
Salary increases	Rates vary by years of service
Single discount rate (BOY)	5.75%
Single discount rate (EOY)	5.75%
Investment rate of return (BOY)	5.75% , net of pension plan investment expense, including inflation
Investment rate of return (EOY)	5.75% , net of pension plan investment expense, including inflation
Long-term municipal bond rate (BOY)	1.92%
Long-term municipal bond rate (EOY)	3.69%
Mortality	SOA PubS-2010(B) with generational projection using Scale MP-2019
Year Fund is project to be fully funded	2030
Year assets are expected to be depleted for a closed plan	N/A

Investment Rate of Return

For the year ended June 30, 2022, the annual investment rate of return on pension plan investments (excluding cash equivalents), net of pension plan investment expense including inflation was (9.76%).

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM (continued)

Policemen's Pension and Relief Fund (continued)

Rate of Return (continued)

The long-term expected rate of return on pension plan investments is 5.75% and target asset allocation as of June 30, 2022, is summarized in the following chart:

Asset Class	Target Allocation
U.S. Large Cap Growth	10.00%
U.S. Large Cap Value	10.00%
U.S. Mid-Cap Blend	5.00%
U.S. Small Value Blend	3.00%
International Equity	7.00%
Taxable Blend	60.00%
Money Market	5.00%
	100.00%

Net Pension Liability, Reserves and Discount Rate

The current year net pension liability is shown below. The annual required contributions were made in accordance with State Code.

Reserves

There are no assets legally reserved for purposes other than the payment of plan members benefits.

Net Pension Liability

The Municipality's net pension liability is as follows:

Total pension liability	\$1,013,266
Plan fiduciary net position	(523,573)
Net pension liability	\$ 489,693
Plan fiduciary net position as a percentage of the total pension liability	51.67%

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 14: EMPLOYEES' RETIREMENT SYSTEM (continued)

Policemen's Pension and Relief Fund (continued)

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At June 30, 2022, The Municipality reported deferred outflows of resources and deferred inflows of resources related to the pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 45,778	\$ -

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30

2023	\$	12,687
2024		10,764
2025		8,311
2026		14,016
Total	\$	45,778

Discount Rate

The discount rate used to measure the total pension liability was 5.75% and the municipal bond rate used was 1.92% (BOY) and 3.69% (EOY). The projection of cash flows used to determine these discount rates assumed that the plans sponsor would make the statutory required contribution as defined by the funding policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the single discount rate of 5.75% was applied to all periods of projected benefit payments to determine the total pension liability.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease 4.75%	Current Discount Rate 5.75%	1% Increase 6.75%
PPRF's net pension liability	\$ 580,036	\$ 489,693	\$ 411,517

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 15: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

General Information about the OPEB Plan

Plan Description

The Municipality contributes to the West Virginia Other Postemployment Benefit Plan (The Plan), a cost-sharing, multiple-employer defined benefit postemployment healthcare plan. The financial activities of the Plan are accounted for in the West Virginia Retiree Health Benefit Trust Fund (RHBT), a fiduciary fund of the State of West Virginia. The Plan is administered by a combination of the West Virginia Public Employees Insurance Agency (PEIA) and the RHBT staff. Plan benefits are established and revised by PEIA and the RHBT management with approval of the Finance Board. The Finance Board is comprised of nine members. Finance Board members are appointed by the Governor, serve a term of four years and are eligible for reappointment. The State Department of Administration cabinet secretary serves as Chairman of the Board. Four members represent labor, education, public employees and public retirees. The four remaining members represent the public at large. The Plan had approximately 43,000 policyholders and 64,000 covered lives at June 30, 2021. The RHBT audited financial statements and actuarial reports can be found on the PEIA website at www.peia.wv.gov. You can also submit your questions in writing to the West Virginia Public Employees Insurance Agency, 601 57th Street, SE, Suite 2, Charleston WV 25304.

Benefits Provided

The Plan provides medical and prescription drug insurance and life insurance. The medical and prescription drug insurance is provided through two options: 1) Self-Insured Preferred Provider Benefit Plan (primarily for non-Medicare-eligible retirees and spouses) and 2) External Managed Care Organizations (primarily for Medicare-eligible retirees and spouses).

Contributions

Paygo premiums are established by the Finance Board annually. All participating employers are required by statute to contribute this premium to the RHBT at the established rate for every active policyholder per month. The active premiums subsidized the retirees' health care by approximately \$137 million for the fiscal year ended June 30, 2021. For the year ended June 30, 2022, contributions to the OPEB plan from the Municipality were \$23,453.

OPEB Liabilities (Assets), OPEB Expense (Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2022, the Municipality reported an asset of \$8,714 for its proportionate share of the net OPEB asset. The net OPEB asset, deferred inflows and outflows of resources, and OPEB expense (offset) were determined by an actuarial valuation date as of June 30, 2020, rolled forward to June 30, 2021, which is the measurement date. The Municipality's proportion of the net OPEB asset was based on a projection of the Municipality's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2021, the Municipality's proportionate share was 0.029304950%, which was an increase of 0.0014064 from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Municipality recognized OPEB expense (offset) of \$(149,481).

Municipality of Charles Town, West Virginia

NOTE 15: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

OPEB Liabilities (Assets), OPEB Expense (Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (continued)

The Municipality reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in proportion and differences between Municipality contributions and proportionate share of contributions	\$ 46,190	\$ -
Net difference between projected and actual investment earnings on OPEB plan investments	-	60,136
Reallocation of opt-out employer change in proportionate share	-	2,898
Difference between expected and actual experience	-	60,025
Change in assumptions	-	184,387
Municipality contributions subsequent to the measurement date	23,453	-
	\$ 69,643	\$ 307,446

The amount reported as deferred outflows of resources related to OPEB resulting from Municipality contributions subsequent to the measurement date will be recognized as an increase of the net OPEB asset in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as follows:

Year ended June 30

2023	\$	(129,212)
2024		(98,699)
2025		(14,638)
2026		(18,707)
Total	\$	(261,256)

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 15: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

OPEB Liabilities (Assets), OPEB Expense (Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (continued)

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation rate	2.25%
Wage inflation	2.75%
Salary increases	Dependent upon pension system, ranging from 2.75% to 5.18%, including inflation.
Investment rate of return	6.65%, net of OPEB plan investment expense, including inflation.
Healthcare cost trend rates	Trend rate for pre-Medicare per capita costs of 7.0% for plan year end 2022, 6.50% for plan year end 2023, decreasing by 0.25% each year thereafter, until ultimate trend rate of 4.25% is reached in plan year end 2032. Trend rate for Medicare per capita costs of 31.11% for plan year end 2022, 9.15% for plan year end 2023, 8.40% for plan year end 2024, decreasing gradually each year thereafter, until ultimate trend rate of 4.25% is reached in plan year end 2036.
Actuarial Cost Method	Entry age normal
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	20 year closed period as of June 30, 2017
Mortality Rates	Post Retirement: TRS: Pub-2010 General Healthy Retiree Mortality Tables projected with MP-2019 and scaling factors of 100% for males and 108% for females. PERS: Pub-2010 Below-Median Income General Healthy Retiree Mortality Tables projected with MP-2019 and scaling factors of 106% for males and 113% for females. Troopers A and B: Pub-2010 Public Safety Healthy Retiree Mortality Tables projected with scale MP-2019 and scaling factors of 100% for males and females.

The actuarial assumptions used in the valuation were based on the results of an actuarial experience study for the period July 1, 2010 through June 30, 2015.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
 June 30, 2022

NOTE 15: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

OPEB Liabilities (Assets), OPEB Expense (Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (continued)

Actuarial Assumptions (continued)

The long-term rates of return on OPEB plan investments are determined using a building-block method in which estimates of future real rates of returns (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation. The strategic asset allocation consists of 55% equity, 15% fixed income, 10% private equity, 10% hedge fund and 10% real estate invested. Short-term assets used to pay current year benefits and expenses are invested with the WVBTI. Best estimates of long-term geometric rates are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Global Equity	4.80%
Core Plus Fixed Income	2.10%
Core Real Estate	4.10%
Hedge Fund	2.40%
Private Equity	6.80%
Cash and Cash Equivalents	0.00%

Discount Rate

A single discount rate of 6.65% was used to measure the OPEB liability (asset). This single discount rate was based on the expected rate of return on OPEB plan investments of 6.65%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made in accordance with prefunding and investment policies. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Discount rates are subject to change between measurement dates.

OPEB Liabilities (Assets), OPEB Expense (Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (continued)

Sensitivity of the Municipality's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate

The following chart presents the Municipality's proportionate share of the net OPEB liability (asset), as well as what the proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease 5.65%	Discount Rate 6.65%	1% Increase 7.65%
Net OPEB Liability (Asset)	\$ 46,760	\$ (8,714)	\$ (54,773)

Sensitivity of the Municipality's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Healthcare Cost Trend Rates

The following chart presents the Municipality's proportionate share of the net OPEB liability (asset), as well as what the proportionate share of the net OPEB liability (asset) would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates described in the actuarial assumptions:

	1% Decrease	Cost Trend Rates	1% Increase
Net OPEB Liability (Asset)	\$ (64,340)	\$ (8,714)	\$ 59,044

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report available at the West Virginia Public Employee Insurance Agency's website at peia.wv.gov. That information can also be obtained by writing to the West Virginia Public Employee Insurance Agency, 601 57th Street, Suite 2, Charleston, WV 25304.

Utility Board (Component Unit)

Information regarding the Utility Board's postemployment benefits other than pensions can be found in the separately issued Utility Board audited financial statements.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 16: RISK MANAGEMENT

The Municipality is exposed to various risks of loss related to torts; theft of; damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries umbrella (general liability) insurance for these various risks.

The Municipality provides insurance coverage to employees for job-related injuries through Travelers Insurance Company and offers health insurance to all eligible employees through Public Employees Insurance Agency (PEIA).

Liabilities are reported when it is probable a loss has occurred and the amount of the loss can be reasonably estimated.

NOTE 17: COMMITMENTS AND CONTINGENCIES

Litigation

The Municipality is routinely a party to various legal proceedings which normally occur in governmental operations. These legal proceedings are not likely to have a material adverse impact on the affected funds of the Municipality, when considered in relation to insurance coverage in force.

Federal and State Grants

In the normal course of operations, the Municipality receives grant funds from various federal and state agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

NOTE 18: CHARLES WASHINGTON HALL HISTORIC TAX CREDITS

Improvements were made in prior years to the Charles Washington Hall facility representing qualified rehabilitation expenditures for purposes of claiming Federal And State Historic Tax Credits. The Federal and State Historic Tax Credits represent 20% and 10% of qualified rehabilitation expenditures, respectively. Because the Municipality and Building Commission are tax exempt entities, the Municipality entered into a partnership, Charles Washington Hall Landlord, LLC, with a private investor to enable the Building Commission to receive a financial benefit from the federal and state tax credits. During the year ended June 30, 2017, tax credits were sold at a discount to the private investor through Charles Washington Hall Landlord, LLC. The Building Commission, as the property owner and developer, is due a \$718,616 developer fee from the partnership. The developer fee has not been paid as of June 30, 2022 and is contingent on Charles Washington Hall Landlord, LLC cash flows as defined by the Charles Washington Hall Landlord, LLC operating agreement. The Building Commission received, through a wholly owned Municipal entity (Charles Washington Hall Manager, LLC), \$395,717 from the sale of State Historic Tax Credits during the year ended June 30, 2017.

Both the developer fee and the proceeds from the sale of state tax credits were offset against the book value of the Charles Washington Hall facility.

There are various rights and restrictions contained in lease agreements, operating agreements, a developer agreement, contribution agreements, and other agreements that pertain to the leasing operations of Charles Washington Hall during the existence of Charles Washington Hall Landlord, LLC which is generally for a 40 year period.

Municipality of Charles Town, West Virginia
NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 19: FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the Municipality is bound to observe constraints imposed upon the use of the resources in governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balance	General	Coal Severance	Capital Reserve Fund	Sales Tax Fund	Residual Fund	ARPA Fund	Bond Escrow Fund	Other
Nonspendable:								
Insurance	\$ 13,670	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Restricted for:								
Law enforcement	-	-	-	-	-	-	-	92,587
Developer bond repayment	-	-	-	-	-	-	4,241	-
Parks and recreation	-	-	-	-	-	-	-	1,736
Committed for:								
Capital outlays/debt service on capital projects	-	-	3,539,802	2,822,718	1,788,996	-	-	-
Assigned for:								
Carryover in fiscal year June 30, 2023 budget	2,226,685	-	-	-	-	-	-	-
Revenue loss	-	-	-	-	-	4,607	-	-
Community development	-	-	-	-	-	-	-	63,223
Law enforcement	-	-	-	-	-	-	-	959
Parks and Recreation	-	102,735	-	-	-	-	-	45,548
Unassigned	<u>990,862</u>	-	-	-	-	-	-	-

NOTES TO THE FINANCIAL STATEMENTS (continued)
June 30, 2022

NOTE 20: AMERICAN RESCUE PLAN ACT GRANT

The Municipality was awarded an American Rescue Plan Act (ARPA) grant on August 19, 2021, in the amount of \$1,330,405. The Municipality received a second ARPA award on October 27, 2021 in the amount of \$2,117. The ARPA funds are being used to replace lost revenue during the COVID-19 Pandemic.

NOTE 21: PRIOR PERIOD ADJUSTMENT

Net position required restatement at the beginning of the year as follows:

	Primary Government Governmental Activities	Building Commission (Component Unit)	Utility Board (Component Unit)
Net position, as previously stated	\$ 11,982,434	\$ 2,409,857	\$ 34,994,970
Implementation of GASB No. 87, Leases	(356,591)	371,334	358,537
Net position, as restated	\$ 11,625,843	\$ 2,781,191	\$ 35,353,507

NOTE 22: SUBSEQUENT EVENTS

The Municipality has evaluated all subsequent events through March 24, 2023, the date the financial statements were available to be issued.

The Municipality received \$1,332,522 of additional ARPA grant proceeds in July, 2022, which was used to replace lost revenues during the COVID-19 Pandemic. Management has elected to use these grants to replace lost revenues due to the COVID-19 Pandemic.

NOTES TO SCHEDULE

Valuation date

Actuarially determined contribution amounts are calculated as of the beginning of the fiscal year (July 1) for the year immediately following the fiscal year. The assumptions below are those used in the 7/1/2020 actuarial valuation to calculate the FY2022 ADC. Assumptions used to determine all contributions in the past would not have been the same.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age Normal
Amortization method	Level Dollar
Remaining amortization period	10 to 15 years
Asset valuation method	4-year smoothed market
Inflation	2.50 percent
Salary increases	Rates vary by years of service
Investment rate of return	5.75%, net of pension plan investment expense, including inflation
Retirement age	Rates vary by age
Mortality	SOA PubS-2010(B) with generational projection using Scale MP-2019

See accompanying notes.

Municipality of Charles Town, West Virginia
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
 June 30, 2022

PERS

A. Change in Benefit Terms

Legislation passed during the 2015 Legislative session created a second tier of retirement benefits for those hired for the first time and first becoming a member of PERS on or after July 1, 2015 (Tier II). For tier II employees, normal retirement is a member who has attained age 62 and has earned 10 years or more of contributing service. The final average salary (five highest consecutive years in the last 15) times the years of service times 2% equals the annual retirement benefit.

B. Change in Assumptions

The actuarial assumptions for mortality, withdrawal rates, salary scales, and non-contributory service loads that were used in the total Pension liability calculation were changed from June 30, 2019 to June 30, 2020, to reflect the most recent experience study for July 1, 2013 through June 30, 2018.

C. Actuarial Revisions

Total Pension Liability	\$ 7,927,948
Plan Fiduciary Net Position	(8,805,884)
Net Pension (Asset) Liability	\$ (877,936)
Plan Fiduciary Net Position as a percentage of the total pension liability	
	111.07%

PPRF

No changes in benefits or changes in assumptions.

OPEB

A. Subsequent Events

The OPEB valuation measured at June 30, 2021, does not reflect the recent and still developing impact of COVID-19, which is likely to influence healthcare claims experience, demographic experience and economic expectations.

B. Actuarial Revisions

Total OPEB Liability	\$ 1,643,289,292
Plan Fiduciary Net Position	(1,673,024,000)
Net OPEB (Asset) Liability	\$ (29,734,708)
Plan Fiduciary Net Position as a percentage of the total OPEB liability	
	101.81%

Municipality of Charles Town, West Virginia
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2022

OPEB (continued)

C. Changes in Assumptions

- General/price inflation - Decrease price inflation rate from 2.75% to 2.25%..
- Discount rate - Decrease discount rate from 7.15% to 6.65%.
- Wage inflation - Decrease wage inflation from 4.00% to 2.75%.
- OPEB retirement - Develop explicit retirement rates for members who are eligible to retire with health care benefits and elect health care coverage.
- Waived annuitant termination - Develop explicit waived termination rates for members who are eligible to retire with health care benefits but waive health coverage.
- SAL conversion - Develop explicit SAL conversion rates for members who are eligible to convert sick and annual leave (SAL) balances at retirement and convert SAL balances into OPEB benefits.
- Lapse/re-entry - Develop net lapse/re-entry rates for members who either lapse coverage after electing health care coverage or elect health care coverage after waiving coverage.
- Other demographic assumptions - Develop termination, disability, and mortality rates based on experience specific to OPEB covered group.
- Salary increase - Develop salary increase assumptions based on experience specific to the OPEB covered group.

Budgets and Budgetary Accounting

All municipalities within West Virginia are required by statute to prepare annual budgets (levy estimates) on prescribed forms and submit these for approval to the West Virginia State Auditor's office. These budgets are prepared in accordance with the following procedures:

1. The governing body of the Municipality is required to hold a meeting or meetings between the seventh and twenty-eighth days of March to ascertain the financial condition of the Municipality and to prepare the levy estimate (budget) for the fiscal year commencing July 1.
2. The budget is then forthwith submitted to the West Virginia State Auditor's office for approval.
3. The governing body then reconvenes on the third Tuesday in April to hear objections from the public and to formally lay the levy.

The annual budget for the General Fund is prepared on a basis generally consistent with U.S. generally accepted accounting principles.

Revisions are authorized only with the prior written approval of the West Virginia State Auditor's office. The budgeted amounts reflected in the accompanying financial statements represent those adopted by the Municipality's Council and approved by the West Virginia State Auditor's office.

Municipality of Charles Town, West Virginia
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year ended June 30, 2022

NOTE A - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Municipality of Charles Town under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Municipality of Charles Town, it is not intended to and does not present either the financial position or changes in net position of the Municipality of Charles Town.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting in accordance with U.S. Generally Accepted Accounting Principles. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C - PASS-THROUGH ENTITIES

Certain federal awards are received through the West Virginia Governor's Office and WV State Agencies.

NOTE D - INDIRECT COST RATE

The Municipality of Charles Town has elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance. The Municipality does not charge indirect expenses to federal grants.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Municipality of Charles Town
101 East Washington Street
Charles Town, West Virginia 25414

To the Members of Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the **Municipality of Charles Town**, Jefferson County (the Municipality) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Municipality's basic financial statements and have issued our report dated March 24, 2023, wherein we noted the Municipality adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Municipality's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control. Accordingly, we do not express an opinion on the effectiveness of the Municipality's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Municipality's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Municipality's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Municipality's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Municipality's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Municipality of Charles Town
101 East Washington Street
Charles Town, West Virginia 25414

To the Members of Council:

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited the Municipality of Charles Town, Jefferson County, West Virginia (the Municipality) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the Municipality of Charles Town's major federal program for the year ended June 30, 2022. Municipality of Charles Town's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying schedule of audit findings.

In our opinion, the Municipality of Charles Town complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2022.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the Municipality and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Municipality's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The Municipality's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Municipality's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Municipality's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Municipality's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Municipality's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the Municipality's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
