STREET/PARKS/GROUNDS

Mr. Keithley submitted a written report.

June 21 & 22 the Board held public hearings to discuss the address changes for Loyal, Nola, Meadowbrook, and Chrysler. Concerns came up before the meeting that Alderman McPhail and Alderman Schmidt presented to the Board. This concern was based on the change from Lane to Street and with the directional of east. It was explained that standards on street naming have evolved and keeping Lane does not conform with the Clever's road plans. A lane would be more of a dead in whereas a street would have an outlet on both ends.

Priebe made the motion for the 1st reading of Bill 18-2021 Ordinance 541 by title: An Ordinance Assigning New Numerical to all the Residences Located on Loyal, Nola, West Meadowbrook, West Chrysler, All within the City of Clever, Missouri with copies available to the public. POLICE

Written quarterly report was submitted with verbal review by Mrs. Robertson.

Mayor Maisel informed the Board that Trekk completed the traffic study that was done through a MoDot grant. This study was for the area around the elemiddle school and how to handle the traffic issues. The new design for pick up and drop off is working to elevate some of the problems. Trekk has some other items that may help: Upgrading signage, adding a crosswalk at Maple and Brown, and change the speed limit on Snowdrop to 30 mph.

Clerk is to work with City Attorney to get a speed limit ordinance for Snowdrop and an ordinance to allow the school authority to close Public Ave for school buses in the morning and afternoons.

ADMIN

Alderman Schmidt submitted Bill 19-2021 that will amend Title II Health and Public Safety: Article XII – Offenses concerning tobacco, alternative nicotine products, or vapor products. Discussion was held on this ordinance and its clarity with state and federal laws. Discussion on if it would or could be enforced and prosecuted within the city.

Priebe made the motion to send Bill 19-2021 to the City Attorney for review. Larson 2nd the motion and passed with 4 ayes.

Discussion was held on the step-up program and continuing to partner with ShowMe Christian County. Andrea Sitzes, President & CEO of ShowMe Christian County along with Mayor Clint Ellingsworth of Highlandville were present to inform and answer any questions. Mrs. Sitzes explained what SMCC does and what they have done for Clever to date. Mayor Ellingsworth informed the Board how SMCC is helping Highlandville obtain a sales tax bases business to their city who otherwise was not going to have the resources and funding mechanisms to do so. It was asked on why the increase and where that money would be going. Mrs. Sitzes stated that the regular budget has been met and so this extra income would be going to marketing to draw businesses to Christian County.

Priebe made the motion to approve the Step-Up program pledge form and go from \$2,500 to \$5,000.00 for 5 years with ShowMe Christian County. McPhail 2nd the motion and passed with 4 ayes.

Clerk informed the Board that it is time to bid out all professional services.

McPhail made the motion to allow the Clerk to bid out all applicable contract services. Larson 2nd the motion and passed with 4 ayes.

Board has discussion on the current dog licensing application and process. Board would like to repeal and amend this ordinance to go back to the way it was only to have a picture of the animal. Board would also like to see the garage sale ordinance repealed and amended to back the way it was but to make the city wide exempt.

With the uprise in Covid-19 cases the Board is wanting to put a policy in place to amend the sick policy to allow for time off for the pandemic.

McPhail made the motion to temporarily amend the City's sick leave policy written after the City of Battlefield model to expire January 31, 2022. Priebe 2nd the motion and passed with 4 ayes.

Mayor Maisel informed the Board that it was brought to her attention that a citizen was upset because they were told the restrooms within city hall are not open to the public. This was done when all the security

upgrades were made. There is no point for the security if anyone is allowed in and out of the building. Alderman McPhail stated that his opinion is that only official business needs to be conducted passed the front office. Alderman Priebe was worried about the backroom and restrooms would not be treated appropriately with people back there unattended. Board is of the consensus that only city related business is allowed through the front entry way and no public restrooms.

Aldermen McPhail informed the Board that he would like to attend the MML Conference in September. This is an informative conference and would like to City to cover the hotel and conference fee with already budgeted training expenses.

Priebe made the motion to take a 10–15-minute break. McPhail 2nd the motion and passed with 4 ayes.

Priebe made the motion to enter executive session pursuant to section 610.021.3(Personnel) of the revised statutes of the state of Missouri. McPhail 2nd the motion and passed by roll call vote: Priebe – Aye, Larson – Aye, Schmidt – Aye, McPhail – Aye.

Council Report for August 2021

Council,

It has been a very busy month for us.

Water and Sewer

The water system is working as it should with no issues known at this time. Hogan's Inc came in on the week of August 2 and pressured washed inside and out of Tower 1 and done an inspection of it. They did not report any issues. They then came back the next week and started pressure washing the outside of tower 2. They did blow quite a bit of paint off that will have to be touched up. They should be back on the day of council or Wednesday to start touching up the paint and will start on the inside for cleaning and inspection. They did say that next time tower two needs cleaned it would be recommended to sand it down to bare metal and start all over. They think when the tower was originally built that the surface preparation was not done properly, and the paint is not sticking. It should be another 5-10 years before we have to worry about that.

We have been working down at the plant a lot helping Clean Stream with some repairs down there. We have the Clarifier back in service that had a gear box broke on it. We have finally received the check valves for the main lift station, and we have them installed. We have the pumps out and being tested now should have them back the week of council. We can now work on the electrical side of things since it will be in the dry. Hopefully we can have it up and going in another week and get rid of the diesel pump.

I have also been working with the engineers for Kings Gate phase two making sure that the lift stations are going to be sufficient in size with the new construction and so far everything is looking good, as it Kings Gate was already designed for the additional flow.

Streets parks and Grounds,

Mowing has slowed down a bit in the heat. We do have a mower down right now and parts have been ordered. Hopefully by council it will be back up and going. We did a lot of tree trimming down on some of the streets in town. We have more to do and will get it done when it cools down a little bit.

As I am sure you all are aware from the Facebook post, we had some damage done at the park. All the repairs have been made. I am not sure why a person thought the damage was done three weeks ago, but we seen on camera where it was done on 8-6-21 at 4:45 PM. The cameras did cut out for three minutes when the damage was done, so I can't say if it was done on purpose or an accident. I have made contact with the camera company, and they are supposed to come and look and see why the cameras skip like they do.

I have ordered five new metal tables for the pavilion to replace the old wooden ones. I am not sure when they will come in as everything is hard to get at the moment. I am also looking at other equipment to order, I will hopefully have something next month for you all to look at and see what you guys think, I have just not had a chance to look at the moment.

We started refreshing some paint on the crosswalks and stop bars last week. Then our paint striper decided that it wanted to blow paint everywhere. We took it to the shop to be repaired. As soon as we get it back, we will continue to paint. I would like to have all the painting done before school starts.

We also patched some potholes on a few of the streets in town. We had to do a fairly big patch at the end of Robin. I believe it was due to the trash truck turning around in the Cul de Sac. Hopefully are patch will last a while. If not, I'll see what else we can do at the end of that street that may hold up better.

Thank you and if you every have any questions please don't hesitate to ask,

Ronnie Keithley
Public Works Director

Updates to my previous Council report.

Water and Sewer,

We are still waiting on pumps for the treatment plant lift station. I talked with Bert and he stated that the pumps will hopefully be done this week.

We also got word this week that the CMOM was approved by Missouri DNR.

We are going to start doing the repairs on the sewer clean outs next week.

I meet with the engineer this week and gave him flow numbers for water and sewer for the last 5 years. He is starting to make progress with the beginning stages of the upgrades.

Streets, Parks and Grounds

We was able to get a lot of the crosswalks painted. We painted 15 crosswalks and we are going to be adding some additional ones that was never installed. We ran out of paint and who knew that paint would be affected by Covid also. We should have some more paint by next week.

I ordered all the signs for the new street names, them signs should be coming in any day now and we will get them installed.

Everything seems to be running smoothly with no new issues.

Thanks

Ronnie Keithley

AUGUST SEWER REPORT

Clever Council,

We ran a total of 5,960,000 gallons thru the plant in July, with an average daily flow of 165,000 gallons and a one day peak flow of 184,000 gallons.

The new UV bulbs and racks came in and have been installed bringing the UV system up to 100%

Clarifier number 2 is back in service without the sweeper arm. Since drawings of the arm cannot be acquired due to the age of the clarifiers the arm off of clarifier number 1 will be removed and used for a pattern to be manufactured from a local source. But we will be able to use both of the clarifiers in the mean time.

The last back ordered check valve from Smith and Loveless came in for the influent lift station and all the new gate valves and check valves have been installed in the station. The pumps have been removed and the re wiring can begin now that the leaking into the dry well has been stopped.

The second pump for the Hwy 14 lift station has been returned and re installed by Fluid Equipment. While they were here doing a warranty check on the hoist we purchased last year to be able to pull pumps more safely and efficiently we had them go through the controls as a preventative maintenance measure and they found all to be in good working order. By having them do the control checks while they were already on site reduced the cost from 1800.00 dollars to under 400.00 dollars. They find a check valve that is sticking and we are looking into the most cost effective way to rebuild or replace the check valves in the station since the current ones are almost twenty years old.

I had a brief meeting with Andy Novinger of Anderson Engineering concerning the capacity of hwy 14 and Kings Gate lift stations due to more development and Dozer has met with Brandon of Anderson Engineering more than once on the same subject. And Dozer and I are developing our plan to be prepared for the increased flow to these two stations.

Any question or concerns contact me anytime at 693-3590.

Bert Bond.
