MAINTENANCE DISTRICT NO. 1

FISCAL YEAR 2025-26

To ensure a flow of funds for the installation, operation, maintenance and servicing of specified improvements within the boundaries of the Landscape Maintenance District No. 1 (the "District") the City Council approved the formation of the District on July 15, 1985 by adopting Resolution No. 85-78. The District boundaries are completely within the incorporated boundaries of the City of Clovis. Improvements that may be operated, maintained and serviced by the District include, but are not limited to:

> *Operation, maintenance and servicing of landscaping and irrigation improvements located within the public right-of-way or within the public easements adjacent to existing developments. Landscaping and irrigation improvements consist of, but are not limited to medians, slope areas, entranceways, dedicated easements, neighborhood parks, etc.*

As required by the Landscaping and Lighting Act of 1972, this Engineer's Report describes the improvements to be installed, operated, maintained and serviced by the District for Fiscal Year 2025-26, provides an estimated budget for the District, and lists the proposed assessments to be levied upon each assessable lot or parcel within the District.

The City of Clovis will hold a Public Hearing on June 16, 2025, to provide an opportunity for any interested person to be heard. At the conclusion of the public hearing the City Council may adopt a resolution confirming the levy of assessments as originally proposed. Following the adoption of this resolution, the Final Assessor’s Roll will be prepared and filed with the County of Fresno Auditor’s Office, to be included on the Fiscal Year 2025-26 tax roll.

Payment of the assessment for each parcel will be made in the same manner and at the same time as payments are made for property taxes. All funds collected through the assessment must be placed in a special fund and can only be used for the purposes stated within this Report.

The 1972 Act requires that a special fund be set up for the revenues and expenditures of the District. Funds raised through the District assessments shall be used only for the purpose as stated herein. A contribution to the City of Clovis may be made to reduce assessments, as the City Council deems appropriate. Any balance remaining on July 1 must be carried over to the next fiscal year unless needed in the reserve fund.

PART C

ASSESSMENT ROLL

The proposed assessment and the amount of assessment for Fiscal Year 2025-26 apportioned to each lot or parcel, as shown on the latest roll at the Assessor's Office, is incorporated in Appendix "A".

The description of each lot or parcel is part of the records of the Assessor of the County of Fresno and these records are, by reference, made part of this Report.

The total proposed assessment for the Fiscal Year 2025-26 is $6,583,795.66.

PART D

METHOD OF APPORTIONMENT OF ASSESSMENT

General

Part 2 of Division 15 of the Streets and Highways Code, the Landscaping and Lighting Act of 1972, permits the establishment of assessment districts by Agencies for the purpose of providing certain public improvements which include the operation, maintenance and servicing of landscaping and street lighting improvements.

Section 22573 of the Landscape and Lighting Act of 1972 requires that maintenance assessments must be levied according to benefit rather than according to assessed value. This Section states:

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefit to be received by each such lot or parcel from the improvements.*
>
> *The determination of whether or not a lot or parcel will benefit from the improvements shall be made pursuant to the Improvement Act of 1911 (Division 7 (commencing with Section 5000)) [of the Streets and Highways Code, State of California]."*

In addition, Article XIIID, Section 4(a) of the California Constitution limits the amount of any assessment to the proportional special benefit conferred on the property.

Because assessments are levied on the basis of benefit, they are not considered a tax, and, therefore, are not governed by Article XIIIA of the California Constitution.

The 1972 Act permits the designation of zones of benefit within any individual assessment district if "by reasons or variations in the nature, location, and extent of the improvements, the various areas will receive different degrees of benefit from the improvement" (Sec. 22574). Thus, the 1972 Act requires the levy of a true "assessment" rather than a "special tax."

Article XIIID provides that publicly owned properties must be assessed unless there is clear and convincing evidence that those properties receive no special benefit from the assessment. Exempted from the assessment would be the areas of public streets, public avenues, public lanes, public roads, public drives, public courts, public alleys, public easements and rights-of-ways, public greenbelts and public parkways, and that portion of public property that is not developed and used for business purposes similar to private commercial, industrial and institutional activities.

BENEFIT DETERMINATION

Well maintained landscaped medians, parkways, slope banks, and park and recreational areas provide beautification, shade, recreational possibilities, and the enhancement of the surrounding areas. These improvements provide special and direct benefit to the parcels within the District boundaries because the parcels have direct access and use of the improvement areas. These improvements increase the desirability to live and work in the area and further increase property values. Because the property owners benefit from the improvements, they also benefit from the operation, maintenance and servicing thereof.

ZONE CLASSIFICATION

The Landscape Maintenance District No. 1 was formed to provide a funding source for the operation, maintenance and servicing of landscaping and neighborhood park and recreational facilities within the boundaries of the District. Because of the varying degrees of improvements throughout the City specific benefit zones have been created. These zones are necessary to accurately track the operation and maintenance costs for each improvement type.

Parcels benefiting from the general landscape improvements throughout the City (medians, slope areas, entranceways, etc.) have been divided into three (3) distinct benefit zones; Benefit Zone No. 1 encompasses the north area of the City, which is generally bounded by Herndon Avenue. Benefit Zone No. 2 includes the east area of the City, which is generally bounded by Sunnyside Avenue, and Benefit Zone No. 3 covers the west area of the City generally bounded by Sunnyside Avenue.

Each of the Benefit Zones described above also have sub-benefit zones to accurately track and assess the costs of neighborhood parks to the benefiting parcels within that benefit zone. Benefit Zone No. 4 encompasses the parcels benefiting from neighborhood parks located in the north area of the City, which is generally bounded by Herndon Avenue. Benefit Zone No. 5 includes the parcels benefiting from neighborhood parks in the east area of the City, which is generally bounded by Sunnyside Avenue. Benefit Zone No. 6 covers the parcels benefiting from neighborhood parks in the west area of the City, which is generally bounded by Sunnyside. For a detailed diagram of these benefit zones refer to Part F of this report.

ASSESSMENT METHODOLOGY

The total operation, maintenance and servicing costs for the landscaping and neighborhood park and recreational facilities are apportioned in accordance with the methodology that was established when the District was formed. The method for spreading the costs to each parcel is based on the Equivalent Dwelling Unit (EDU) factor.

The single-family residential parcel has been selected as the basic unit for the calculation of assessments and is defined as one (1) Equivalent Dwelling Unit (EDU). The methodology used to assign EDUs to other land uses in proportion to the benefit they receive relative to the single-family residential parcel is based on acreage. All non-single family residential parcels are assessed four (4) EDUs per acre, which is generally the average density of single-family homes in the City of Clovis.

It would not be equitable to spread assessments evenly to each parcel, not considering land use or parcel size, because a single-family parcel would be paying the same as a 50-unit apartment complex parcel or a large commercial establishment. Therefore, as previously stated, the total estimated costs are spread to each parcel of land based on the number of EDUs associated with each particular parcel. Below is a breakdown of the EDUs for the various land uses.

RELATIVE BENEFIT BY LAND USE	
Land Use	**Benefit Equivalent**
Single-Family Residential	1.00 EDU/parcel
Multi-Family Residential	1.00 EDU/unit
Commercial	4.00 EDUs/net acre
Industrial	4.00 EDUs/net acre
Misc. Property (Recreational, Institutional, etc.)	4.00 EDUs/net acre

Single-Family Residential Properties

All single-family parcels benefit equally because of the similar type of property and the similar degree of use of facilities; therefore, all single-family parcels are assessed 1.0 EDU each.

Multi-Family Residential Units

All multi-family units benefit equally because of the similar type of property and the similar degree of use of facilities; therefore, all multiple family parcels are assessed 1.0 EDU per unit.

Commercial, Industrial, and Miscellaneous Properties

Commercial, Industrial, and Miscellaneous Properties derive a similar benefit as single-family residences, except that an area equivalency is used due to the wide variability in parcel size. The equivalency of four (4) EDUs per net acre is used based on the average lot size of a residential parcel. Churches, welfare properties, charity and service organizations are also assessed at these same rates.

Miscellaneous Parcels

1. There is a parcel within the District (APN 498-020-57) that is owned by the Rodeo Association that is assessed 1.00 EDU because it is only partially developed.

2. The Stone-Brook subdivision in Benefit Zone No. 2 - General Landscaping (East Area) has a homeowner's association for their 98 single-family residential parcels. The homeowner's association maintains its own frontage improvements and therefore City Council directed staff to only assess these parcels for center island median improvements which is $8.90/parcel. This subdivision is also located in Benefit Zone No. 5 Neighborhood Park Landscaping (East Area) and will be assessed for the neighborhood park improvements.

3. During the Public Meeting held on June 3, 1996, the City Council of the City of Clovis directed staff to review the assessments of properties that may not be fully developed. Staff verified the properties for Fiscal Year 2025-26 and identified the following commercial parcel as being not fully developed:

MISCELLANEOUS COMMERCIAL PARCELS		
Assessor Parcel Numbers	**Location**	**Development Status**
552-062-11	East side of Armstrong, between Shaw and Gettysburg	50% Developed during Fiscal Year 2024-25

General Benefits & Special Benefits

Some of the LMD zones provide a general benefit to the public at large. These LMD zones consist of zones 1 through 6, NW zone, and the SE zone. Residents within close proximity to the landscape improvements who are not paying an assessment may benefit from a portion of the improvements within these zones. City staff reviewed the population of people who benefit from the improvements within each of these zones and determined the percentage of people who pay an assessment and the percentage who are not paying

an assessment. The City contributes from the general fund the benefit percentages of people who are not paying an assessment within each zone. City staff has determined that 100% of the improvements located within enhanced benefit zones provide no benefit to the general public at large and only provide a special benefit to the properties within those enhanced zones. Therefore, none of those costs are funded by the general fund. Those percentages of costs funded by the general fund are shown on the following page.

LMD Zone	Total Maintenance Cost	Percentage of General Benefit	General Benefit Contribution
1	$1,405,468.49	6%	$84,328.11
2	$752,800.46	6%	$45,168.03
3	$108,710.23	45%	$48,919.60
4	$505,873.88	2%	$10,117.48
5	$214,097.26	2%	$4,281.95
6	$42,401.86	60%	$25,441.11

SE	$2,481,001.90	5%	$124,050.09
		Total	**$353,294.99**

Annual Increase

The maximum assessment rates shown in Table 2 on the following pages for Benefit Zones 7 through 50, NW, and SE may be increased each fiscal year based upon the annual change in the Consumer Price Index – All Urban Consumers (U.S. City Average) + 2%.

Also, the City is proposing assessment increases for Benefit Zones 4 and 5 commencing Fiscal Year 2025-26. If the assessment increases are approved by the affected property owners and City Council, the maximum assessment rates for Benefit Zones 4 and 5 shown in Table 2 on the following pages may be increased each fiscal year based upon the annual change in the Consumer Price Index – All Urban Consumers (U.S. City Average), not to exceed 3%.

The summary of EDUs per benefit zone, maximum Fiscal Year 2025-26 assessment rates, and the proposed Fiscal Year 2025-26 assessment rates per benefit zone are shown in Table 2 below.
