I. SUSTAINABILITY

Sustainability means meeting our own needs without compromising the ability of future generations to meet their own needs. In addition to natural resources such as fossil fuels and water, we also need social and economic resources. The City of Countryside believes sustainability also includes social equity and economic development in addition to environmentalism.

II. INTRODUCTION

Mayor Sean McDermott appointed a Sustainability Committee in 2019. This committee began the task of developing a Sustainability Plan. The Committee met over the next two years to develop a framework to lead the City in the future.

III. PURPOSE

A sustainability plan is an outline of how an organization plans to achieve goals that create financial, societal and environmental sustainability. It provides a guide for the city to better itself over time. If we understand our sustainability goals, and the milestones that demonstrate success, we are that much likelier to achieve them.

The City will educate the residents and business owners while leading in sustainable community practices that lead to a reduction of the community's carbon footprint while promoting water and energy conservation and the improvement of air quality and water quality.

IV. HISTORY OF SUSTAINABLE ACTIONS

For many years, the City followed sustainable practices without a formal plan. These programs include recycling, LED light fixtures, shared-use paths, etc. For a complete list please see **Exhibit A**.

V. GREENEST REGION COMPACT

The Metropolitan Mayors Caucus developed the Greenest Region Compact (GRC) to leverage the strength of municipal government to build vibrant, sustainable communities across the Chicago region.

The foundation of the GRC is 49 high-level goals that have been reached by consensus; not only are the goals aligned with important local, regional, national and global goals, but they are also broadly supported by municipal members of the Metropolitan Mayors Caucus and allied organizations. These consensus goals guide municipal action, support mayors in their role as environmental leaders, and foster collaboration that has positive impacts on sustainability in the region.

The Sustainability Committee recommended supporting the GRC's initiatives to the City Council. A resolution was adopted by the City Council on 10/01/2020 endorsing the Metropolitan Mayors Caucus' GRC. Adoption of this resolution is a commitment that the City will generally support the GRC's 10 consensus goals.

The member municipalities of the Metropolitan Mayors Caucus seek a vibrant, sustainable future for their communities and the greater Chicago region. The consensus goals of the Greenest Region Compact aim for enhanced quality of life for residents; protection and stewardship of the environment and sustainable economic vitality. To become the most sustainable and successful region in the United States, they, therefore, support the following consensus goals of the Greenest Region Compact and agree to work to achieve them, both in their own communities and in collaboration throughout the region:

Climate

- Reduce greenhouse gas emissions
- Maintain clean and healthful air
- Develop resiliency to climate change impacts
- Engage the community in climate change mitigation and adaptation

Economic Development

- Promote innovation and a competitive workforce
- Cultivate local and sustainable development, jobs, and businesses

Energy

- Use energy for buildings and facilities efficiently
- Advance renewable energy
- Reduce energy consumption
- Enact policies that support clean energy
- Engage the community in clean energy practices

Land

- Encourage strategic development that upholds sustainability principles
- Conserve, restore and enhance natural features and ecosystems
- Support networks of accessible well-used and enjoyable parks
- Sustain a robust urban forest canopy
- Sustain beautiful landscapes that provide ecosystem services
- Achieve greater livability through sustainable land use and housing policies
- Cultivate a conservation ethic in the community

Leadership

- Enlist support for GRC2 goals through regional, state and national leadership
- Advocate for policies that align with and advance the GRC2
- Work collaboratively towards a sustainable region

Mobility

- Support safe and effective active transportation
- Maintain a diverse, safe, and efficient transportation network
- Support efficient transportation that uses resources wisely
- Integrate sustainability into transportation policies, programs, & regulations
- Promote public and sustainable transportation choices

Municipal Operations

- Lead by demonstrating sustainable values and practices
- Integrate sustainability into all municipal operations
- Operate a safe, clean and efficient fleet
- Collect and manage data to advance sustainability

Sustainable Communities

- Promote cultural vibrancy in the community
- Foster a culture of health, safety, and wellness
- Increase access to sustainably grown local food
- Sustain community principles that are welcoming, inclusive and equitable
- Promote a sustainable identity for the community
- Ensure local policies and codes support sustainability
- Cultivate community values based on principles of sustainability

Waste & Recycling

- Support sustainable material management
- Recycle materials across all sectors
- Divert waste from landfills
- Enact policies that cause sustainable material management
- Engage the community in waste reduction and recycling

Water

- Use and distribute water efficiently
- Protect and improve and water quality
- Manage water system assets sustainably
- Optimize the use of natural and built systems to manage storm water
- Practice stewardship of water resources
- Enact policies to protect water resources
- Engage the community in water stewardship

VI. SUSTAINABILITY COMMITTEE'S RESPONSIBILITIES

The Sustainability Committee is responsible for the creation and update of The Sustainability Plan, and the development and prioritization of programs and initiatives to further the City's sustainability goals. Each year the committee will review the GRC Framework (**Exhibit B**) to prioritize goals planned for the next 18 months. Goals and initiatives will be assigned to the appropriate staff to implement. The implementation requirements and success of the program/initiative will be reported back to the Committee in an Annual Report of Sustainable Accomplishments. This report will be reviewed at the first meeting each calendar year.

The Committee will adjust the goals and initiatives for the next 18 months based upon the Annual Report of Sustainable Accomplishments, the success of each program/initiative, input from the community, funding availability staff recommendations, and impact on the community.

VII. SUSTAINABILITY PLAN REVIEW

The overall Sustainability Plan will be reviewed every three years. Changes recommended by the Sustainability Committee will be itemized and sent to the City Council for final approval.

VIII. EXHIBITS

A – History of Sustainable Actions

B - Greenest Region Compact Framework

EXHIBIT A – HISTORY OF SUSTAINABLE ACTIONS

PRIOR TO 2010

- Purchased 5631 La Grange Road (former hotel) for future economic development
- Upgraded the pumping station electrical supply and replaced the emergency generator
- Water main replacements on 7th & 8th Avenues between 55th St. & Plainfield Road
- 61st Street (Brainard to Kensington Ave); Kensington Ave (61st St to 55th St); 9th Ave (57th St to 58th St); 57th Street (La Grange Rd to East Ave); and 56th Street (La Grange Rd to Pump House) water mains were replaced
- Rehabilitation of Pump House No. 1 and No. 2
- Adopted an Open Space Master Plan
- La Grange Road Streetscape including native plantings and walking path
- Creation of an Economic Development Committee
- Park Improvement Plan adopted to renovate 7 City parks
- Participation in the Earth Hour campaign
- Spring Clean-Up program for the proper disposal of household items including electronics
- Drainage improvements implemented at Salem Square Shopping Center
- Comprehensive Property Maintenance Inspection program implemented
- Water system Consumer Confidence Reports published annually
- Lawn sprinkling restrictions adopted
- Parkway Tree Planting Program initiated
- Storm water Detention Ordinance adopted
- Purchased Maple Crest Golf Course in partnership with the Pleasant Dale Park District to maintain the property as green space.
- Became a member of Gateway Special Recreation Association to provide recreational opportunities to residents with disabilities

2010 TO 2020

- 9950 Joliet Road (former Circuit City) purchased for City Center development
- 9960 Joliet Road (former Toyota Dealership) purchased for City Center development
- 5949 La Grange Road (former Dodge City) purchased for City Center development
- 6001 La Grange Road (former Ethan Allen) purchased for City Center development
- Ideal Park renovations including a walking path, new equipment and landscaping
- Adopted an Active Transportation Plan
- Catherine Ave (57th St to 55th St); Madison Ave (57th St to 55th St); Lorraine Dr. (71st St to 67th St); Francis Ave & Lorraine Dr.; & Joliet Rd (La Grange Rd to Brainard Ave) water mains replaced
- Purchased 5539 Peck Avenue to remove a residential property from the floodplain and use the property for the construction of Andrew Whiting Memorial Park
- Sidewalks installed along the 6500 block of Joliet Road
- Water conservation tips shared with the community

2010 TO 2020 CONTINUED

- Parkway Tree Planting program initiated
- Community garden plots constructed
- Implemented Electric Aggregation Program
- La Grange Streetscape Beautification Project – Phase I & Phase II
- PACE offers park and ride locations for Countryside commuters
- Police Bike Patrol program initiated
- Purchase of hybrid vehicles for the City's fleet
- Pleasantview Fire Protection District is upgraded to a Public Protection Classification of Class 2 (the City's water system accounts for 40% of the total rating)
- Household Hazardous Waste Collection Event held
- City receives the EDIE Award from the Illinois Chamber of Commerce for the development of the Countryside City Center
- An incentive was approved for Tony's Fresh Market to renovate and occupy the vacant building formerly occupied by Dominicks
- An incentive was approved for Ettleson Hyundai to build a new dealership on vacant land owned by the city
- Streetlights on residential streets were replaced with LED fixtures
- City-wide Drainage Improvement Program implemented
- Tree Sponsorship Program implemented at Flagg Creek Golf Course
- Route 66 benches installed along Joliet Road
- 56th Street water main replacement between 6th and 7th Avenues
- City-wide Sidewalk Inspection and Replacement program initiated
- 6th Avenue cul-de-sac water main replaced
- Supply customers with free kits to detect leaky toilets
- Fire Suppression Sprinkler Ordinance adopted (automatic sprinklers can reduce greenhouse gas emissions by 98%)
- Safe Bike Riding Program initiated by the Police Department
- The City purchases a bank-owned vacant restaurant for future development
- Partnered by MWRD to provide rain barrels to our residents
- Drug collection unit installed at the Countryside Police Station
- Installed a multi-use path along Brainard Avenue from Joliet Road to 55th Street
- Constance Lane water main replaced
- Pop Top Recycling program initiated by the Police Department
- 5th Avenue Cutoff improvements including pavement widening and resurfacing, drainage improvements and the installation of a pedestrian pathway
- Electronic Waste Recycling Program initiated at the Department of Public Works
- City Hall garage sale held to reduce the furniture and fixtures headed for the dump
- Public Works employees coordinate Earth Day cleanup projects with local school children
- Designed and constructed the first net zero energy municipal building in the State of Illinois
- Used 98% of the demolition debris from the old Flame Restaurant as the base for the new Municipal Complex
- Installed a battery recycling bin for the public at the Municipal Complex
- Installed electric car charging stations at the Municipal Complex

2010 TO 2020 CONTINUED

- Automatic shut-off plumbing fixtures installed to reduce water waste
- Bottle fill-up station at water fountains to reduce plastic bottle waste
- Recycling containers installed in each department
- 435 solar panels installed on the roof and carports of the Municipal Complex
- Awarded LEED Gold certification for the Municipal Complex
- Implemented a paperless agenda/packet for City Council and committee meetings
- Adopted a resolution endorsing the Mayors Caucus Green Region Compact's consensus goals

EXHIBIT B – GREENEST REGION COMPACT FRAMEWORK

CLIMATE

Category	 GOAL	OBJECTIVE		Already achieved	In Progress	Planned for next 6 months	Planned for next 12-18 months	Interested in pursuing	Notes

WATER	Water Conservation <i>Use and distribute water efficiently</i>	W1 Reduce community water consumption per capita		X			
		W1a >Implement water efficiency measures at all municipal facilities		X			
		W1b >Encourage residents and businesses to identify and mitigate water loss			X		
		W2 Become a US EPA WaterSense Partner		X			
		W3 Designate a staff Water Conservation Coordinator to manage water conservation programs					X
		W4 Participate in regional efforts and programs to conserve water					X
		W+5 Provide customer incentives to retrofit using high efficiency, Water Sense appliances and fixtures					X
		W+7 Collaborate with energy utilities to integrate water conservation into energy audits for residential customers					X
	W+8 Collaborate to encourage commercial, industrial and institutional customers to conserve water					X	
	Water Quality <i>Protect and improve water quality</i>	W9b >Resolve to eliminate unnecessary landscape pesticides and fertilizer use on municipal property			X		
		W9c >Use sensible salting strategies to reduce chloride contamination		X			
		W11 Support post-development runoff reduction and mitigation		X			
		W13 Collaborate with regional initiatives to protect Lake Michigan and the Mississippi River		X			
		W14 Label storm drains indicating the destination of discharge			X

WATER	Water Infrastructure	Manage water system assets sustainably	W15 Operate an efficient water utility that delivers clean, healthful, water	X				
			<i>W15a</i> >Control water loss by auditing water supply system using AWWA protocols	X				
			<i>W15b</i> >Periodically detect system leaks and develop a strategic plan for repair	X				
			W16 Comprehensively and sustainably manage water infrastructure	X				
			<i>W16a</i> >Develop a water infrastructure asset management plan to sustain the system	X				Novotny's 10-Yr Plan
			<i>W16b</i> >Implement the water infrastructure asset management plan to sustain the system	X				
			<i>W16c</i> >Meter 100% of customers with automated reading technology	X				
			<i>W16d</i> >Implement sub-metering for multi-family housing customers	X				
			<i>W16f</i> >Repair and replace inefficient water supply infrastructure	X				Reviewed Annually
			W17 Invest water revenues into sustaining water infrastructure	X				
			W18 Coordinate street, utility and water infrastructure projects	X				
			W19 Seek both public and private financing partnerships for infrastructure improvements	X

GOAL													
WATER Stormwater Management and Green Infrastructure	Optimize the use of natural and built systems to manage stormwater	W22	Participate in the National Flood Insurance Program allowing residents to access flood insurance					X					
		W23	Implement green infrastructure best management practices on municipal properties					X					
		W23a	>Build or retrofit paved surfaces with permeable materials						X				
		W23b	>Install and maintain bioswales, filter strips, trees, rain gardens, and other functional landscapes						X				
		W24	Encourage residents and businesses to adopt green infrastructure practices						X				
		W24a	>Collaborate to provide rain barrels, plants and other resources to allow resident to capture and store rainwater					X					
		W25	Encourage residents and businesses to reduce flood risks on their property					X					
		W25b	>Encourage property owners to disconnect downspouts from sewers and direct flow to landscaping					X					
		W26	Enhance natural features of stormwater detention and retention systems					X					
		W28	Collaborate with regional and state agencies to sustainably manage stormwater					X					
		W+29	Use USEPA Water Quality Scorecard to develop a systems approach to optimize stormwater									X	
		W+30	+ Establish a stormwater utility funding mechanism									X

			Already achieved	In Progress	Planned for next 6 months	Planned for next 12-18 months	Interested in pursuing			
WATER	Policy	Enact policies to protect water resources	W31	Conduct a water rate study to determine sustainable rate structure	X					
			W32	Adopt full-cost pricing policies for water service	X					
			W33	Amend code to require water efficiency and conservation in commercial and residential development	X					
			W34	Incorporate conservation practices into new development guidelines and incentives					X	
			W35	Adopt a water conservation policy and/or plan inclusive of all customers and municipal operations	X					Watering Ord
			W35b	>Enact and enforce outdoor watering regulations responsive to drought conditions	X					
			W35c	>Regulate or incentive water efficiency for customers managing large landscapes	X					Service sizes 20% less
			W36	Update stormwater ordinance to integrate Illinois State Model Local Stormwater Ordinance			X			
			W39	Review and adopt codes to eliminate barriers to green infrastructure BMPs including cisterns, green roofs, bioswales, permeable paving	X					
			W41	Enact codes that protect surface and groundwater from runoff and contamination	X
