ITEM #8 - SEWER MAINTENANCE

| 2021 BUDGET | \$30,000 | | | |
|----------------------|----------|--|--|--|
| 2020 BUDGET | \$60,000 | | | |
| 2020 ANNUAL ESTIMATE | \$30,000 | | | |
| | | | | |
| | | | | |
| | | | | |

This item encompasses repairs to frames and covers, access plates, other repairs revealed during the annual sewer inspections, NJ "One Call" System and minor cleaning projects.

Major repairs are charged against the Sewer Replacement Fund which is subsequently reimbursed by respective members based upon the existing municipal ownership contracts of the Joint Meeting. In 1993 and 1994 TV inspections were performed to examine the status of the interior of the original 1902 trunk sewer in Sections I, II, IV and V. As a result of JM Staff review of the inspection, 28 segments or reaches were identified as needing repair. The repairs require either lining or excavation. Repairs have been made on 13 segments. Subsequent contracts will address the remaining segments.
