RE: Draft Integrated Plan

Dear Commissioners:

On December 31, 2015, the draft Integrated Wastewater and Stormwater Master Plan was completed. On January 20, 2016 a letter and copies of said plan were issued to the City Council. Said plan has been posted on the City's website for the past year. The draft plan identifies \$1.38 billion dollars in need over the next 50 years. The plan recommended a \$333.4 million dollar twenty year spending plan. Spending during the first 10 years totaled \$277.5 million dollars.

The EPA issued comments dated May 12, 2016. I met with members of the EPA staff at the EPA Boston Office on June 28, 2016 to discuss their comments and the next steps in the planning process. Also in attendance were representatives of CDM Smith, MA DEP and CLF. Based on the meeting I submitted a revised spending plan on August 5, 2016. EPA responded on September 26, 2016.

The primary issue of technical conflict with the EPA is the scheduling and/or commitment for nitrogen removal at the Wastewater Treatment Facility. Although the draft plan identifies nitrogen removal, it is not included in the proposed initial 20-year spending plan due to the high cost and need of other critical projects. As EPA representatives expressed concern about such a schedule delay for potential nitrogen removal, I agreed to the following:

- Submit to EPA a shorter term spending plan.
- Include draft loan orders for Year 1 and Years 2-7. The Year 1 loan order would be for \$4.8 million and would require approval by the Sewer Commission, City Council and Mayor. The Years 2-7 loan order would be for \$122 million and

would require approval by the Sewer Commission, City Council, Mayor and the public via a referendum question on a ballot.

- Year 1 would include a facilities plan for the major rehabilitation of the aged wastewater facility and other projects. The majority of the wastewater treatment facility is 36 years old. The facility operates 24 hours per day and seven days per week. The facility is subjected to corrosive conditions.
- The wastewater facilities plan shall include additional analysis of possible short-term and long-term nitrogen removal options. Please note that I have not committed to the installation of a nitrogen removal system due to the high cost (\$88 million dollars); but have agreed to investigate alternatives to integrate these processes into the facility design as we proceed forward. Additional discussions between the City, MA DEP and EPA are expected to occur upon completion of the facilities plan. My position has been reiterated numerous times that simple low-cost solutions to nitrogen removal do not appear possible. The City plans to continue discussions with EPA on both the cost and the environmental benefits of nitrogen removal at the Fall River Wastewater Treatment Facility.

The proposed spending plan, loan orders and amortization schedules are attached. Although Fall River continues to face severe economic hardship with high unemployment levels and low median household income, this is an opportunity to direct our spending plan and prioritize the projects based on need. If we do not opt to proceed with a plan of our choosing then we become susceptible to an order issued by the EPA and/or a lawsuit from a 3rd party that can result in a court order as occurred with the CSO project in 1992. Such an order or lawsuit could result in a spending plan greater than what is proposed and/or selection of projects not in keeping with our recommended priorities.

As such, I recommend that the attached loan orders and spending plan be approved by the Sewer Commission. If the Sewer Commission approves then approval by the City Council and the Mayor will be required for the \$4.8 million loan order. The \$122 million dollar loan order will need a public referendum vote as well.

Your continued input is appreciated.

Respectfully,

Terrance J. Sullivan
Administrator of Community Utilities

Mayor

December 20, 2016

The Honorable City Council
One Government Center
Fall River, MA 02722

Dear Councilors:

Please find enclosed revised loan orders and supporting documentation for the Wastewater and Stormwater system improvements related to the Integrated Plan as originally submitted to you on December 8, 2016.

The revisions do not change the combined totals of the requests but moves \$1,000,000 from phase 1 to phase 2. The Financial Team working with Mr. Sullivan identified that said amount could be deferred by two years and as such could be transferred to the loan order subject to public referendum. The related spending plan and amortization estimates have been updated and attached.

Your approval of the attached loan orders as revised is respectfully requested.

Sincerely,

Jasiel F. Correia II

CITY CLERK _____
FALL RIVER, MA

December 20, 2016

The Honorable City Council
City of Fall River
One Government Center
Fall River, MA 02722

Dear Honorable Council Members:

The City of Fall River has been awarded \$217,000 grant by the MA Executive Office of Energy and Environmental Affairs to make significant improvements to the Thomas Chew and Maplewood Parks. The total cost of the project is \$310,000.

After reviewing the grant and recognizing both the need and the opportunity presented by the state grant, I respectfully request the City Council to accept the grant and approve the project.

As a condition of releasing this PARC grant, the Office of Energy and Environmental Affairs requires that the City Council approve the attached resolution. The draft of this resolution is already approved by them.

The Council approval of the attached resolution will allow the City to move forward with the execution of the grant contract as required by the State and the Administration will be able to comply with State's deadline for contract execution.

You are requested to approve the attached Loan Order to meet the project's working capital and required local match of \$93,000.

If you have any questions or concerns regarding this, please feel free to contact me.

Sincerely,

Jasiel F. Correia II
Mayor

LOAN ORDER: CITY PARKS CAPITAL REPAIRS

(THOMAS CHEW AND MAPLEWOOD PARKS)

ORDERED, that the City hereby appropriates Three Hundred Ten Thousand dollars (\$310,000) to pay for the costs of capital repairs to Thomas Chew and Maplewood parks, and for the payment of all other costs incidental and related thereto. To meet this appropriation, the City Treasurer, with the approval of the Mayor, is authorized to borrow said sum under and pursuant to M.G.L. Chapter 44 Section 7(25) or pursuant to any other enabling authority, and to issue bonds or notes of the City therefor. The Mayor and any other appropriate officials of the City are authorized to apply for and accept any grants, gifts, or other amounts that may be available to the City to defray costs of these projects. The amount authorized to be borrowed by this Order shall be reduced to the extent of any grants or gifts that the City may receive on account of these projects, AND

BE IT FURTHER ORDERED, that the City Treasurer is authorized to file an application with the appropriate officials of The Commonwealth of Massachusetts (the "Commonwealth") to qualify under Chapter 44A of the General Laws any and all bonds of the City to be issued pursuant to this Order, and to provide such information and execute such documents as such officials of the Commonwealth may require.

A RESOLUTION TO FILE AND ACCEPT GRANTS WITH AND FROM THE COMMONWEALTH OF MASSACHUSETTS, EXECUTIVE OFFICE OF ENERGY AND ENVIRONMENTAL AFFAIRS FOR THE PARKLAND ACQUISITIONS AND RENOVATIONS FOR COMMUNITIES GRANT PROGRAM FOR IMPROVEMENTS TO THE FOLLOWING TWO PARKS:

THOMAS CHEW AND MAPLEWOOD PARKS

- Whereas: The two parks are by and far community-wide assets and the preservation and improvements to these facilities are a City priority as evidenced in the most recent Open Space and Recreation Plan; and
- Whereas: The two parks are dedicated to park and recreation purposes under M.G.L. Chapter 45, Section 14; and
- Whereas: The parks' renovations, guided in principal by the Master Plan, will greatly enhance these facilities with improved recreational areas; and
- Whereas: The main focus of the Plan's Natural Resources, Open Space, and Recreation element is to improve Fall River's open space and opportunities for recreation. This overall cost and fiscal budget constraints prevented the City from proceeding forward with implementation of the project; and
- Whereas: The project was to be implemented over time, by priority as fiscal resources were available, with the intention of securing grant funding, when and if available, to assist in this effort; and
- Whereas: The Executive Office of Energy and Environmental Affairs is offering reimbursable grants to cities and towns to support the preservation and restoration of urban parks through the Parkland Acquisitions and Renovations for Communities grant program (301 CMR 5.00); and
- Whereas: The Fall River Parks Project will cost a total of \$310,000 (Three Hundred Ten Thousand Dollars). The City will allocate \$310,000 for the FY 17 Fall River Parks Project, now therefore

BE IT RESOLVED:

1. That the City Administrator be and is hereby authorized to file and accept grants from the Executive Office of Energy and Environmental Affairs; and
2. That the City Administrator be and is hereby authorized to take such other actions as are necessary to carry out the terms, purposes, and conditions of this grant to be administered by the Community Maintenance/Buildings Department; and
3. That this resolution shall take effect upon passage.

The Fall River City Council Sub-Committee on Economic Development and Tourism allegedly violated the Open Meeting Law (MGL 30A) by:

1. Failing to state on the agenda that the City Administration will be making presentations governing the City's proposed marketing campaign (See Attached Agenda)
2. The City Council was notified publicly during the meeting by City Councilor Steven Camara that they may be delving into an area of a violations of MGL 30A on other presentation being made by the Chamber of Commerce President Robert Mellion (Present for item 1 on agenda) who was present to voice the Chamber's ideas on a branding initiative, and members of the Fall River Industrial Park who were present for items 3 and 4 on the agenda, when they decided to digress into the City Tax Factor and they were only allowed 3 minutes. City Councilor Camara shut down that issue recognizing the need to stay on agenda.
3. Whereas, the City Council Chairman failed to stop further discussion or presentation by the branding committee which were not on the agenda. The item on the agenda was Item # 2: Order- That the sum of \$30,000 be transferred from the Mayor's Office Salaries to the Mayor's Office Expenditures for the launching of the City's branding initiative (referred 8-16-16)

Which consists a violation of MGL 30A §20(a) as the Chair should have reasonable foreseen that the administration intended to present the entire branding campaign and plan thereof, further, the Chair failed to exercise control over the meeting and order the cessation of the presentations on the City's proposed Branding Campaign, as he was readily aware that it was not on the agenda and had been advised earlier when another issue had occurred. This appears to be willful and deliberate to allow the administration to present their proposed branding campaign and thereby denying the public the right to know, oppose or support in a clear and timely manner.

Attention City Council members.

The Flint neighborhood Association, would like to request the permission to dedicate the Soccer Field at Travasso's Park on Alden St. after a very recognized Soccer team that made so much history back on the years 40s and 50s.

Our organization got blown away when we found out about "The Ponta Delgada Soccer Club" and how much they give back to our city of Fall River.

If you not familiar with "The Ponta Delgada Soccer Club" we add a second page on this request with they story.

Thank You for your attention and consideration into this request.

Flint Neighborhood Association Board

Ponta Delgada Soccer Club, also referred to as Fall River Ponta Delgada, was a United States soccer club, based in Fall River, Massachusetts. The club was formed by members of the city's Portuguese community and shared its name with Ponta Delgada, the capital city of the Azores, an autonomous region of Portugal. During the 1930s, 1940s and 1950s they were one of the most successful amateur teams in the United States, winning the National Amateur Cup six times. In 1947 they won the first-ever National Challenge Cup / National Amateur Cup double. The same year their entire squad was selected en masse to represent the United States at the inaugural North American soccer championship.[1] Between 1951 and 1953 they also played in the American Soccer League. They played some home games at Mark's Stadium in North Tiverton, Rhode Island, previously the home of Fall River Marksmen. Like the Marksmen, they did this to avoid the Massachusetts Blue Laws that prevented them from playing Sunday games.[2]

Ponta Delgada first came to national attention when they won the National Amateur Cup in 1938, beating Pittsburgh Heidelberg 2-1 in the final on May 1.[3] However, it was during the 1940s and 1950s, inspired by the unrelated John Souza and Ed Souza, that the club enjoyed its golden era. They won the Amateur Cup three times in a row between 1946 and 1948 and then again in 1950 and 1953. They also reached three National Challenge Cup finals, winning the competition in 1947.[4][5]

In July 1946 Ponta Delgada played in the finals of both the Challenge Cup and the Amateur Cup. On July 7 they played Chicago Vikings at Mark's Stadium holding them to 1-1 draw. However, on July 14 at Comiskey Park they lost the return game 2-1. On July 21 they gained some consolation when beat Castle Shannon of Pittsburgh 5-2 in the final of the Amateur Cup.[6] In 1947 Ponta Delgada again reached the final of both competitions, and this time they won the first ever Challenge Cup/Amateur Cup double. On May 24 in the Amateur final, Ed Souza scored five goals as they beat St. Louis Carondelets 10-1. This should have been the first leg of a two game series but a second game was never played. On August 31, in the first leg of the Challenge final, they defeated Chicago Sparta 6-1 at home with Ed Souza scoring another two goals. Joe Ferreira, Ed Valentine, and John Souza also scored that day. On September 7 they completed the double when they won the away leg 3-2 with goals from Valentine, Ferreira and Jim Delgado.[1][7][8] In 1948 they completed another double when they won both the National Soccer League of New England and their third Amateur Cup in three years after beating Pittsburgh Curry Vets 4-1 in the final on May 23.[9]

In 1950 Ponta Delgada once again reached the finals of both the Challenge Cup and the Amateur Cup. On April 22 in the first leg of the Challenge final they lost 2-0 to St. Louis Simpkins-Ford. Then on May 7 they held them to a 1-1 draw with Ed Souza once again on the score sheet. However the St. Louis club won the competition on aggregate. On May 15 in the Amateur final they lost the first-leg 1-0 to Pittsburgh Harmarville but on May 21 they won their fifth Amateur title when they won the return game 4-1. This time Ed Souza scored a hat-trick. The 1951-52 and 1952-53 seasons saw Ponta Delgada join the American Soccer League, playing in the New England Division together with Fall River S.C.. In 1953 they

were division champions, narrowly finishing above second placed Ludlow Lusitano. On May 2, 1953 they completed a league and cup double when Ed Souza scored both goals in a 2-0 win against Chicago Slovaks in the Amateur Cup final.[10][11]

In 1947, after Ponta Delgada won the National Challenge Cup / National Amateur Cup double, the team was selected en masse to represent the United States at the North American soccer championship where they played against Mexico and the host team, Cuba. Despite their cup successes at home, they lost 5-0 and 5-2 respectively. Although representing their national team, Ponta Delgada had to pay for the trip themselves.[1][12]

Several players in the Ponta Delgada team went on to become established members of the national team. Joseph Rego-Costa captained the United States at the 1948 Summer Olympics. This team included Manuel Martin, Joe Ferreira, Ed Souza, and John Souza.[13] Both Ed Souza and John Souza also played in the 1950 World Cup, including the 1-0 win against England.[2][12][14]

3. Corporation Counsel re: Open Meeting Law Complaint 2016-117
Councilor Linda M. Pereira is concerned that if an appeal is filed and the City loses, could the City then be fined? Council President Shawn E. Cadime stated that he believes the City should move forward with an appeal. A motion was made by Councilor Joseph D. Camara and seconded by Councilor Raymond A. Mitchell to waive the rules to invite Corporation Counsel to discuss item #3. Corporation Counsel stated that his position is that elected officials who are not part of the subcommittee can participate in meetings, as long as they don't deliberate. He also stated that there is no decided case from a court that has been published that states that the City is wrong.

The Attorney General's opinions are consistent and are enforceable if no one challenges them. Councilor Steven A. Camara asked Corporation Counsel if the Massachusetts Municipal Association had been contacted regarding this matter. Corporation Counsel stated that he intends to contact MMA and a few other associations to see if they may want to file Amicus Curiae Briefs in this matter. Councilor Steven A. He would have to be classified a special municipal employee and the designation could be changed if it was the wish of the Council. She explained that the appointment letters stated that this is a stipend and not a salary. Councilor Steven A. Camara questioned if all employees who get paid stipends be eligible for medical insurance. The City Administrator stated she will need to contact the Human Resources Director to discuss this and ensure that it be done correctly. Councilor Richard Cabeceiras stated that he is supporting the Hanover Properties, LLC bid of \$5,000 because the plans for the building proposed will generate more taxes than just a residential use. This was not required with the bid but would be required for the purchase and sales agreement. Dear Mr. Gallagher:

At a meeting of the City Council held on September 13, 2016, a discussion was held regarding the attached request for placement of a 20'x3' banner on the Government Center railing until September 17th to advertise the upcoming Southcoast MA Mini Maker Faire.

On a motion made and seconded, it was unanimously voted to approve such request, in accordance with Sec. 46-2 of the Revised Ordinances of the City of Fall River, 1999.

In addition, the City Council is requesting that banners placed on the railing not be attached with materials or attachments that scratch the railing. Previous banners have caused such damage.

Thank you in advance for your assistance in this matter. Should you have any questions, please feel free to contact me at 508-324-2220.

Very truly yours,

- b. Sucker Brook Driveway Crossing – \$1,000,000

Councilor Steven A. Camara asked what guarantee will the neighbors have that the Dickinson Street entrance will only be used for emergency access. Corporation Counsel stated that the restrictions will be by covenant and not by deed, as the Atlantis Charter School already owns the property.

Councilor Cliff Ponte asked if construction vehicles will use the Dickinson Street entrance or only the Jefferson Street entrance. Corporation Counsel stated that construction vehicles will need to use the Dickinson Street entrance from time to time, but will mainly access the site from the Jefferson Street entrance.

Councilor Raymond A. Mitchell asked what the cost would be to the average family to pay for these bonds. The Administrator of Community Utilities stated that the cost to the average family would be an increase of approximately \$1.59 per year and would begin in 2018.

On a motion made by Councilor Cliff Ponte and seconded by Councilor Linda M. Pereira, it was unanimously voted to refer the loan orders to the full Council for action.

2. Capital Improvement Plan

The Council President invited the Mayor to the table to address the Council regarding the Capital Improvement Plan. The Mayor stated that the Capital Improvement Plan addresses all of our needs for the City from backhoes to police cars. Additionally, streetscapes is a comprehensive plan to upgrade our main business districts. There were two qualifiers for the streetscapes plan:

- a. Low to moderate income area
- b. A healthy mix of businesses within the area

The City Administrator gave a PowerPoint presentation of the Capital Improvement Plan. Peter Frazier, Senior Vice President of First Southwest Company stated that many bonds from 2006 to 2008 were recently re-financed, saving the City a great deal of money. He also stated that legally you could add another \$163 million dollars in new debt.

Councilor Cliff Ponte asked Peter Frazier if he thought the City would have any problems bonding for an emergency in the future, if we move forward with the Capital Improvement Plan. Mr. Frazier stated that the City's credit rating with Moody is an A-3, but due to state aid the rating was bumped up to AA-2, a very good rating, so there would be no problem.

Councilor Pam Laliberte-Lebeau stated that she would like to see ten vehicles for the Police Department instead of five.

President Shawn E. Cadime relinquished the chair to Vice President Linda M. Pereira at 8:36 p.m. to discuss the Capital Improvement Plan. President Cadime stated that when he spoke with the Mayor about the Capital Improvement Plan, he informed him he would support the plan tomorrow because he knows the hard work it takes to run a city or town. He asked the City Administrator if she knew what the needs of the School Department were. The Director of Financial Services stated that they received a list from Kenneth C. Pacheco, Chief Operating Officer for the School Department and that list consists mostly of building repairs. President Cadime then stated that some of the fire stations may have needs that can be added to the Capital Improvement Plan. President Cadime returned to the chair at 9:26 p.m.

3. Communication from Mayor re: declaration of trash disposal vehicles as surplus property

Joshua Knott, Regional Sales Manager for Richie Brothers Auctioneers, Inc. gave an overview of how the process works and stated that they had been in business since 1958. He stated there are two options for the sale of the trucks. Option one, is a straight purchase which would be \$1,178,500 for the eighteen trucks. Option two, would be a gross guarantee of \$1,221,000 less 15% commission, less cleaning and transportation fees, for a minimum guarantee of \$1,026,350. At auction, if the sale price exceeds \$1,400,000 the excess is split between the City of Fall River and Richie Brothers Auctioneers 50/50. December 13, 2016 is the scheduled auction date, if the City chooses to auction the vehicles with Richie Brothers Auctioneers, Inc.

Mitchell, Cliff Ponte and President Shawn E. Cadime voting in the negative. Long withdrew his amendment to the first motion that stipulated the auction method be the gross guarantee that was offered by Richie Brothers Auctioneers, as the Administration will choose the company to auction the vehicles. The Council President asked the City Clerk to read the original motion that was made by Councilor Richard Cabeceiras and seconded by Councilor Raymond A. Mitchell for clarification. The City Clerk read the following motion, "The communication would be referred to the full Council for approval and that the vehicles be sold at auction".
