B. THE COMPANY'S OBLIGATIONS

The City grants the Exemption to the Company in consideration of and commitment by the Company of the following:

1. The Company shall relocate its operations to the City of Fall River on or before March 30, 2020. On or before March 30, 2020, the Company shall file a Form of List (State Tax Form 2-Return of personal property subject to taxation - General Laws Chapter 59, § 29) setting forth in detail all personal property subject to taxation that situated on the Property on the date the Company commences business operations in the City. The assessed valuation of said personal property, as determined by the Fall River Board of Assessors shall be deemed the actual initial investment made by the Company pursuant to this Agreement. The Company shall subsequently file a State Tax Form 2 by March 1 of each year during the term of the Agreement setting forth in detail all personal property subject to taxation that situated on the Property.
2. The Company shall create and retain 93 permanent full-time jobs during the term of this Agreement. The Company's job retention and creation plans are outlined in the Employment & Job Creation section of the EDIP Preliminary and Supplemental Applications submitted to the Commonwealth of Massachusetts by the Company in connection with the Company's request for a Personal Property Tax Exemption (which documents are incorporated herein by reference).
3. The Company shall submit an annual report to the Massachusetts Economic Assistance Coordinating Council ("EACC") through the Commonwealth's on-line portal for each year during the term of the Agreement. The annual report shall include the number of jobs retained and created, and value of the Property capital investments and other related items with respect to the Property annually and on a cumulative basis. The Company shall also submit a report as required by General Laws Chapter 40, Section 59(viii) to the Town Clerk and EACC.
4. The Company shall submit quarterly reports to the City of Fall River Mayor's Office, beginning with the First Quarter of Calendar Year 2020 and thereafter until the end of this Agreement, to include: employment levels at the beginning and end of the reporting period; the number of Fall River residents employed, and any other reasonable and relevant job creation information requested by and on a form provided to the Company by the City. The Company agrees to submit said report to the City no less than 30 days after each quarter.
5. If the Company fails to meet the obligations specified in this Section, the City, acting by its Mayor, may take action to notify the EACC and/or request decertification of the Project by the EACC. Upon decertification, the City shall discontinue the Tax Increment Financing (TIF) benefits provided to the Company, commencing with the first fiscal year in which the Project is decertified, or if such benefits have already been received by the Company for the fiscal year in which the Project has been decertified, commencing as of the fiscal year immediately following that fiscal year. 7. If the Company plans to move from the Property, the City shall be given sixty (60) days advance written notice.
8. In addition to the remedy set forth in Paragraph B.5 hereof, if the Company fails to cure any default within the time period set forth in Paragraph B.6 hereof or if the Company decides to sell its business, or to discontinue the operation thereof, as set forth in Paragraph B.7 hereof, then the City may recapture the value of the tax not paid due to the Exemptions set forth in Paragraph A.1 of this Agreement. Said recapture shall be made through a special assessment on the Company in the municipal fiscal year that follows the EACC's decision to revoke project certification. The assessment, payment, and collection of the special assessment shall be governed by procedures provided for the taxation of omitted property pursuant to Massachusetts General Laws Chapter 59, Section 75 notwithstanding the time period set forth in said Chapter 59 for which omitted property assessments may be imposed for each of the fiscal years included in the special assessment.
9. The matters described above as obligations of the Company are only conditions to the eligibility for tax exemptions under this Agreement, and do not create any enforceable obligations or covenants of the Company. The City's sole remedy for failure by the Company to satisfy any of its respective obligations and conditions are set forth in Paragraphs B.5 through B.8 of this Agreement.

C. OTHER CONSIDERATIONS

1. Pursuant to Chapter 40, Section 59 of the Massachusetts General Laws, this Agreement shall be binding upon the Company, their successors and assigns. Subject: [EXTERNAL] SecZetta is a Delaware Corp

We will likely remain incorporated in Delaware and not incorporate in MA, which is better for the City Of Fall River on the personal property tax.

This was a question that came up last night and that the city council will be looking for at the next meeting.

Thank you,

Dear Deputy Secretary McGourthy:

Attached please find the preliminary application from SecZetta, Inc. for the Economic Development Incentive Program.

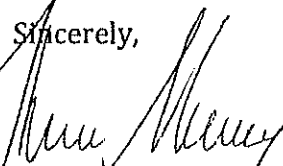

SecZetta, Inc. is a growing cybersecurity company currently operating in Newport, Rhode Island, but is interested in relocating in the very near future and is looking to do so across the border in Massachusetts, with a particular interest in Fall River. The company has just completed a \$10 million round of funding and will be expanding their operations, and looking to the local workforce to fill the positions necessary for that expansion.

Having worked on promoting economic development for the Commonwealth in my tenure as Senate President, I understand the commitment and dedication Massachusetts has made and continues to make in expanding economic development opportunities in our Gateway Cities.

Given their expansion plans, and their commitment to bring well-paying jobs to Fall River, I believe that SecZetta, Inc. would be a great fit in the Massachusetts and Fall River economies.

I hope that you will consider their application for the December 11th EACC meeting.

Sincerely,

Therese Murray

1. PROJECT TIMELINE & KEY MILESTONES

Please provide a detailed plan for the proposed project outlining the estimated timeline and key milestones.

We have an aggressive time frame to relocate our operations as we are expanding rapidly and need additional space. In mid October we identified aa location in the City of Fall River MA for the company to be able to expand. The building is a mixed-use building that provides a large enough footprint for us to as quickly as possible, because we are growing rapidly. We have already submitted space plans to the Landlord to see if we can make some improvements, such as to cut through some doorways allowing for two points of egress and give us an additional 4,000 SF of space that we could outfit with desks for additional working space. If we are able to do this, we will be in approximately 10,000 square feet, enough to accommodate new hires. We expect a final design by the end of December at which time we plan to award contract to selected contractor(s). Construction is expected to take 6 - 8 weeks.

RI tech company eyes future – and more jobs – in Fall River

FALL RIVER — A Rhode Island-based tech company is looking to relocate to Fall River and double its workforce over the next few years.

Representatives of SecZetta Inc., a Newport-based business that describes itself as “the leading provider of non-employee identity risk and lifecycle management software solutions,” met with members of the city’s Tax Increment Finance Board Tuesday to go over a planned tax break the company would receive for relocating to Fall River.

The agreement, which would be based on personal property taxes, was approved by board members Tuesday. Because the agreement would be based on annual personal property assessments the city would have to perform, an exact value of SecZetta’s tax break has yet to be determined. However, estimates included in the agreement show the company could save as much as \$36,800 in Fall River over the next five years.

“We spent a lot of time considering locations. Do we stay in Rhode Island or look at Massachusetts? Fall River is appealing and exciting to us for a multitude of reasons,” said Jason Hobart, SecZetta’s vice president of sales and marketing.

Hobart touted Fall River’s proximity to Boston and the potential of attracting “reverse commuters” as one incentive for looking to move to the city. He also mentioned Fall River’s available real estate and the location’s proximity to a planned commuter rail station as other reasons for moving to an office at 1082 Davol St., site of Commonwealth Landing.

“We really feel that we could be one of those leading software companies that helps drive and cultivate more of a tech hub and tech center,” Hobart said.

By moving to a larger space in Massachusetts, SecZetta predicts that it will more than double the size of its workforce while in Fall River. The company employs 31 people and intends to have a projected headcount of 70 employees by the end of 2021.

Due to the city-issued tax break being built around personal property taxes, and not real estate taxes as Fall River TIFs typically are, TIF Board members requested measures be taken to ensure SecZetta's savings match the company's investments.

"I would like some safeguards in there," said board member Richard Gonsalves. "Every year, we get to go out there, they submit a formal list (of personal property) and we review it. Then, we determine the value of the items."

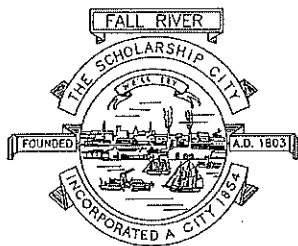

Personal property under SecZetta's agreement would largely consist of the technological infrastructure the company would need to purchase and maintain after moving to Fall River.

The only dissenting vote Tuesday came from Acting Mayor Cliff Ponte, who expressed interest in seeking further information on the tax break. Following SecZetta's presentation, Ponte said he had hoped the company would have provided a list of the personal property it plans to purchase.

"While I commend you and want to see you grow here in Fall River, I want to present this to the City Council in a way that is thorough," he said. "I'm not in favor of supporting this at this point."

With the approval of the city's TIF Board now secured, SecZetta's tax break will now go before the City Council for approval.

According to the text of SecZetta's TIF agreement, the company plans to employ 93 full-time employees in Fall River by 2025. The company plans to invest approximately \$155,000 in construction costs and approximately \$340,000 in personal property over the next five years.

Dear Fall River City Council,

I am a concerned resident living in the City of Fall River, MA who would like to put a citywide ordinance/legislation on the feeding of stray cats as well as wildlife due to it being a health hazard. Fall River already has an ordinance 34-289 Feeding wild birds and 34-290 Open feeding of domesticated animals and fowl (which does not specify clearly a timeframe or a specific place, I personally think this code 34-290 should not be allowed.) I reside next door to a neighbor who feeds stray cats at night. The cats are multiplying more and more and it's bringing in other creatures such as skunks, possums and raccoons.

I own a dog and we live in a fenced in yard. My dog has cornered a cat in his own fenced in yard and was scratched by a cat on his face near his eyes and nose. (Luckily he did not get bacteria or an infection from this stray cat.) There is cat feces in my yard multiple times a day. Cat feces contain a parasite called Toxoplasmosis. My dog is in harm of becoming ill due to the possibility of ingesting Toxoplasmosis. When my dog gets in contact with this parasite my family and I also have a high possibility of accidentally ingesting this parasite by touching him, because he may have come in contact with infected cat feces.

The cats are a nuisance, it's a citywide problem, as well as a health hazard and something needs to be done about it! I have already spoken with FR Animal Control as well as the FR Board of Health. I got the same answer "there's nothing we can do." The more people provide food for stray cats the more abundant they become. The city already has a problem with rodents and other vermin, so why add to the problem? In order to help control the population of cats we need to put in a legislation on the feeding of cats. When we control the feeding of cats, we can control the spread of parasites to dogs and humans and we can help stop the infestation of rodents and vermin.
