RE: Phase 22 Loan Order

Attached please see the Phase 22 Loan Order and Financial Summary. Over the past 21 Phases the city has made great advances in the water quality that it provides to its customers.

As we embark on the Phase 22 project we are committing to improving the system by removing full lead services. The city has been committed to removing these as the water mains have been replaced. With changing regulations, this work is in compliance with our current ACOP and the upcoming "Revised Lead and Copper Rule" that will be in effect on October 16, 2024.

The changing regulations require that this work be carried out and that only Full Lead services will count towards a removed lead service. This will be a health and safety benefit to the city residents that still have a full or Partial Lead service that feeds their homes.

The State Revolving Fund (SRF) funding that this Loan Order will be borrowing eligible cost from is directly related to the Bipartisan Infrastructure Law Funding (BIL). The procedure to access this funding is to borrow funds through the SRF program and a Principal reduction will be provided on the Loan. A loan application was submitted in August of 2022.

In accordance with a resolution adopted, as amended May 8, 2012, persons are allowed to address the Council for a period of three minutes prior to the beginning or at the conclusion of business in the Committee on Finance. (Citizens' Input Time occurred at 6:05 p.m., prior to the President calling the meeting to order.)

2. Transfers and appropriations
 - a. Mayor and order transferring the sum of \$1,370,000.00 from the Tax Levy to School appropriation

Councilor Michelle M. Dionne asked for an explanation of how funds could be taken from the Tax Levy. Bridget Almon, Director of Financial Services, explained that as new growth numbers are available, the Tax Levy is increased, therefore it isn't being taken from existing Tax Levy amounts, it is the new growth that is being transferred to School funds. Ms. Almon clarified how the amount of growth wasn't estimated in the original Tax Levy, but that growth will be assessable in Fiscal Year 2023, and therefore can be transferred now to the School appropriation. Councilor Shawn E. Cadime asked if this tax growth has received certification from the Massachusetts Department of Revenue, Division of Local Services. Ms. Almon stated that the certification is currently ongoing. Councilor Cadime also asked if the deficit of \$3,000,000.00 from Fiscal Year 2022 had been covered. Ms. Almon stated it had been covered. Councilor Cadime asked if the \$1,370,000.00 would cover the yearly school budget. Ms. Almon stated that it fulfills the school budget and they are going through End of Year Reports currently to ensure no additional funds are needed. Councilor Cadime asked why the payment for the Amaral Bus settlement hadn't been paid within six months as required and Ms. Almon stated that because the agreement wasn't signed until the end of July 2022, the funds needed to be transferred from the Stabilization fund to the Fiscal Year 2023 budget. Seth Thomas Aitken, City Administrator, stated that there were ongoing discussions but the agreement itself wasn't finalized until July of this year. Councilor Cadime asked when the settlement payment was scheduled to be made. Ms. Almon and Mr. Aitken stated it had already been paid. Councilor Bradford L. Kilby stated he feels this is a reliable transfer of funds. Councilor Linda M. Pereira asked whether Item #3 on the City Council Agenda was for the Amaral Bus payment and Mr. Aitken confirmed that it was.

- b. Mayor and order transferring the sum of \$180,000.00 from the Fiscal Year 2022 Stabilization Fund to Law, Expenses

Mr. Aitken gave a brief explanation on the Amaral Bus Settlement and it's relation to the 2020 COVID pandemic.

- 3. Discuss order transferring the sum of \$1,995.00 from CPA's undesignated fund balance to CPA Historic Resources Preservation Projects and the sum of \$210.00 from CPA's undesignated fund balance to CPA community housing.

No discussion took place on this item.

On a further motion made by Councilor Bradford L. Kilby and seconded by Linda M. Pereira, it was unanimously voted to lift the matter from the table.

- 4. Resolution – Discuss funding for construction of storage area/facility (tabled 6-28-22)
Mr. Aitken gave a brief explanation of how the Administration is putting together a plan for storage and went over current locations they are working to improve. Mr. Aitken also stated that the Administration waited for the reorganization of departments so they could appoint someone who works with both City Facilities and Community Maintenance and are working on filling that position to help this process. Charles Denmead, Director of Community Maintenance, gave a brief explanation of the process of clearing out the Department of Community Maintenance facility on Lewiston Street and that they held auctions to remove unused equipment. Councilor Linda M. Pereira asked why there was no public notice of the auctions. Mr. Denmead stated that while in the past this was an annual public auction, the City is now utilizing online auctions throughout the year and it all goes through the Purchasing Division. Councilor Linda M. Pereira

asked why storage was being utilized in the Armory building for items such as holiday decorations and how much containers would cost for storage. Mr. Aitken stated most of the items being stored there had been there long term but work was being done to remove them and Mr. Denmead stated that the School Committee was donating storage containers. Councilor Linda M. Pereira asked about a large tent being stored on Lewiston Street. Mr. Denmead stated he feels the tent should be auctioned off as it is not useful and Mr. Aitken agreed with him. Councilor Laura-Jean Washington gave compliments to Mr. Denmead. Councilor Michelle M. Dionne asked about the sale of the Armory building and if the City could use it for storage. Mr. Aitken stated there are currently prospective buyers and they do not plan to utilize the building for storage but for public events. Councilor Andrew J. Raposo asked about the trolleys that had been stored by the City and if there was a plan to repair them. Mr. Denmead stated they were beyond the possibility of repair but the City is currently looking at two vendors for new trolleys. Councilor Bradford L. Kilby asked if ARPA funding could be used for trolleys purchase and asked Mr. Aitken to discuss this possibility with the Mayor. Councilor Shawn E. Cadime asked the Administration to create a masterplan for storage project as well as for improvements to the Fire Department.

On a motion made by Councilor Linda M. Pereira and seconded by Councilor Andrew J. Raposo, it was unanimously voted to lift the matter from the table.

5. Resolution – Discuss plans to improve city parks and baseball fields (tabled 3-22-22) Councilor Linda M. Pereira gave examples of different issues with litter and items found in City parks and stated that if the City provided more equipment, such as volleyball nets, the residents would be more likely to utilize the parks. Councilor Shawn E. Cadime stated that he feels City park equipment being updated would provide an increase in quality of life for City residents and that the Administration should also help the City Council to create project goals regarding this. Nancy Smith, Director of Parks and Recreation, stated that while she agrees improvements should be made, it is hard to maintain those improvements with limited staff and funding. Councilor Shawn E. Cadime stated he agreed with Ms. Smith and recommended the City look into Community Preservation Committee (CPC) funding. Ms. Smith stated that some of the park lighting that had been updated was from CPC funding. President Joseph D. Camara asked if there are sprinkler systems in the parks. Ms. Smith stated some parks have them but there are many that are damaged. Councilor Andrew J. Raposo stated that he agreed a plan should be created for park projects and that he lives near a park where graffiti has been an issue. Ms. Smith briefly explained that there is a program where people from correctional facilities are being trained on how to use graffiti removal machine and discussed how lighting was reliant on time of planned events in the parks. Councilor Laura-Jean Washington asked for explanation of the budget for each park and asked Ms. Smith about what adequate staffing would be for the division. Ms. Smith stated that in the past the department had about forty employees, but would currently need a minimum of thirteen and stated that the pay grade for these positions limit who applies for them. Councilor Laura-Jean Washington asked Ms. Smith why they don't charge sports leagues to use the parks. Ms. Smith stated that often, most leagues pay for improvements themselves for the facilities, so they are not charged to use those spaces. Mr. Aitken stated that there are a lot of projects in the parks but there isn't a plan currently to maintain these facilities, but the Administration feels that should be a goal. Councilor Michelle M. Dionne stated that the Parks Division has to pay water and sewer bills that total \$252,000 a year and that she believes they should not have to do that. Councilor Dionne asked about vandalism and safety issues and if Park Police should be brought back to help protect parks and

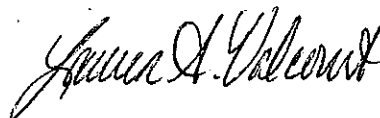

residents. Councilor Shawn E. Cadime stated that a majority of the their budget goes towards things other than parks, such as electricity, heating, repairs, vehicle maintenance, etc, in addition to the water and sewer bills. Councilor Cadime stated it was not right that the Parks Division only has a small amount left over for the actual parks. Councilor Andrew J. Raposo asked what could be done to move this project forward and asked Mr. Aitken if a plan could be put together with the Administration. Mr. Aitken stated that there is a plan in place currently from 2015, but the Administration is interested in pursuing updates to this plan with Chris Payrano, Interim City Planner. Councilor Andrew J. Raposo asked if he could have a copy of the plan from 2015 and if there could be a meeting scheduled with the Board of Park Commissioners. Mr. Aitken stated he will provide a copy of the plan. Ms. Smith stated that the Board of Park Commissioners will attend any meeting requested by the City Council.

On a motion made by Councilor Andrew J. Raposo and seconded by Councilor Laura-Jean Washington, it was unanimously voted to refer the matter to the City Council Committee of Human Services, Housing, Youth and Elder Affairs.

The President asked if there were any proponents to be heard. Michael Ozug stated that he has trouble getting his second car out of the driveway because the driveway is wider than the curb cut. He stated that when drivers park on the curb it often blocks the second car into the driveway. Councilor Leo O. Pelletier stated that he has concern about the impact to on-street parking and he would like to refer the matter to the Committee on Public Works and Transportation. The President asked if there were any opponents and the City Clerk stated that Carlos Arruda, 38 Manton Street, was listed as an opponent.

The President asked if there were any proponents. Frank Marchione gave a brief explanation of the construction of four duplexes on this lot and why the curbing needed to be removed to allow for eight driveways as each duplex would have two car parking. Councilor Bradford L. Kilby asked if this construction had been approved by the Planning Board. Mr. Marchione confirmed that it had been approved. Councilor Michelle M. Dionne asked for clarification on how the driveways would provide two parking spaces. Mr. Marchione explained that one space would be within the garage of the duplex and the other would be in the driveway.

Tax Classification

8. Adoption of the percentage of the local tax levy to be borne by each class of property for Fiscal Year 2023.

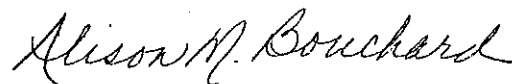

The President called on the Board of Assessors to address the Council and on a motion made by Richard B. Wolfson and seconded by Richard Gonsalves, it was voted 2 yeas to reconvene the Board of Assessors meeting at 6:16pm, with Nancy Hinote absent and not voting. He also stated this was the largest amount of growth since 2002. Mr. Gonsalves explained that the Board of Assessors is recommending an increase of 1.75% for the 2023 Fiscal Year and the tax increase would be \$259.53 per resident. Mr. Gonsalves stated that the median residential value being used is \$313,000. Councilor Bradford L. Kilby stated he was satisfied with the growth in comparison to New Bedford and supports the 1.75% increase. Councilor Laura-Jean Washington stated she was very proud of the City's new growth. Councilor Michelle M. Dionne asked what portion of this tax increase would be applied to the payment for the new Durfee High School. Mr. Gonsalves and Bridget Almon, Director of Financial Services, stated they were legally not allowed to separate the line items on the tax bill based on the requirements of the Department of Revenue. Councilor Michelle M. Dionne stated the residents needed to know what portion of their taxes are for the cost of the new Durfee High School. Councilor Shawn E. Cadime stated there is an online calculator with the Department of Revenue that will break down the costs for the debt exclusion. Councilor Michelle M. Dionne stated that it was promised to the residents that they'd know how much of their tax payment was going towards the school payments. Ms. Almon stated that she would be able to get a break down to the City Council within the next few days. Mr. Gonsalves estimated an additional \$65 would be added to the FY2023 single family residential tax bill. Councilor Michelle M. Paul Ferland, Administrator of Community Utilities, gave a brief explanation of research that was done on the cost of installing in-pipe turbines as well as the challenges the City would face with installation. Mr. Ferland stated that the branched network of water pipes have different pressures and velocities, depending on which portion of the city they are in, which would cause an issue. Mr. Ferland stated that in-pipe turbines require equal pressure and velocity throughout the system for them to work. Councilor Linda M. Bridget Almon, Director of Financial Services, stated that the City was doing very well with spending. Councilor Andrew J. Raposo asked about information for non-recurring local receipts. Raposo asked where the remaining amount of non-recurring local receipts would be going. Ms. Almon stated that she would forward that information to the City Council as soon as possible. Ms. Almon stated that the marijuana excise tax does not follow the same timing pattern as other excise taxes, therefore the number in this report may not be completely accurate. Councilor Michelle M. Dionne asked about receipts that reference solid waste. Ms. Almon stated that is for larger, bulky items, such as mattresses. Councilor Michelle M. Dionne asked if the City was doing better with collecting payments for larger collection items. Seth Thomas Aitken, City Administrator, stated that since Charles Denmead had taken over the Department of Community Maintenance, more payments have been received than in prior years. Councilor Michelle M. Dionne asked about "unclassified reserve fund" amounts being different than the original amount that was estimated. Mr. Aitken stated that there is typically a difference between what is anticipated versus what is achieved. Ms. Almon stated she will look into the matter and will advise the City Council. President Joseph D. Camara asked who created this report and Ms. Almon stated it was the City Auditor's Department. President Camara asked if Mr. Edward Iacaponi, consultant for the Finance Department, was still working for the City and Mr. Aitken stated that they are working to reduce his time with the City while balancing the need for his help with educating the Auditor's Department on daily processes and procedures. Councilor Michelle M. Dionne asked about unexpected buyouts. Ms. Almon stated that those are not typically anticipated, but that she is working to budget for that in the future. Mr. Aitken stated that it's challenging to anticipate employees moving on to other careers. Councilor Michelle M. Dionne asked about the impact of summer hours. Ms. Almon explained that there are some employees that have been with the City for a long time, and in their contract, they still receive summer hours. Mr. Aitken stated he will get more information on the percentage of employees under this category. Councilor Michelle M. Dionne asked about computer room expense as well as the office equipment purchased by the Elections Department. Mr. Aitken stated there were necessary computer upgrades within certain departments and the expenses for Elections were for early voting supplies. Councilor Shawn E. Cadime asked if there were any concerns in general regarding this first quarter budget report and Ms. Almon stated she has concerns about the Commonwealth's changes to the Marijuana community host fee laws. Councilor Shawn E. Cadime asked about the progress with the funding for the Bedford Street Streetscapes project and Ms. Almon said that a meeting was held with Bond Counsel, as she is also concerned about the cost of this project. Approval

9. Proposed Ordinance – amendments to graffiti ordinance

The City Clerk stated that the proper motion from the Committee on Ordinances and Legislation should have been to pass the proposed ordinance through first reading instead of approval. Councilor Linda M. Pereira stated that giving residents only two weeks and charging them a fee to remove graffiti on their own property was not fair as they did not vandalize the house and that she would be voting against this item. She also said this ordinance would be too difficult to enforce and asked what the expense for the City would be to remove the graffiti. Councilor Andrew J. Raposo stated that this is an amendment to a current ordinance that gives property owners only 48 hours to remove graffiti and that the expenses would be based on the hourly rate stipulated in the Teamsters collective bargaining agreement. He also said that this amendment is focusing more on commercial property owners utilizing the graffiti removal machine and that a conversation was held with the City Administrator and the Deputy Police Chief at the Committee on Ordinances and Legislation meeting regarding giving more leeway to residential property owners due to financial concerns. Councilor Raposo also stated that there is graffiti throughout the city and it is important to address this matter. Councilor Shawn E. Cadime stated he supports this amendment and agrees with Councilor Andrew J. Raposo. He said that a thorough discussion was held at the Committee on Ordinances and Legislation meeting to ensure the ordinance included the input and recommendations of the City Administrator and the Police Chief, which includes amendments designed to affect commercial property owners, not residential property owners and that if the person vandalizing is caught, they will be responsible for all the costs of the removal. Councilor Michelle M. Dionne stated that the City bought the graffiti removal machine with ARPA funding and the machine should be used. President Joseph D. Camara asked when the two week period would begin and who would be monitoring this

timeline. Councilor Laura-Jean Washington stated that she had the same concerns regarding resident costs but that the Administration stated they would work with residents who had financial concerns about removing graffiti on residential properties. On a motion made by Councilor Andrew J. Raposo and seconded by Councilor Michelle M. Dionne, it was voted 7 yeas, 1 nay, to pass the proposed ordinance through first reading, with Councilor Linda M. Pereira voting in the negative and Councilor Pamela S. Laliberte absent and not voting.

The Department of Public Utilities ("Department") has received several complaints from customers of municipal aggregation programs ("Programs" or "Program") throughout the Commonwealth. These complaints range from enrollment issues, incorrect information, customers being notified that they will be returned to basic service (and then are not), new customers being denied enrollment in a Program, opt-out customers being denied re-enrollment in a Program, and omitted Program information on municipality or Program websites (e.g.,

absence of current Program pricing¹, absence of current and future electricity supplier contact information, and absence of municipality officials' contact information on Program websites²).

The Department reminds you of the statutory Program requirements of universal access, reliability, and equitable treatment of all classes of customers. G.L. c. 164, § 134(a). Universal access requires that a Program be made available to all customers within a municipality. Town of Salisbury, D.P.U. 16-51, at 8 (2016); City of Lowell, D.P.U. 12-124, at 44-46 (2013); City of Marlborough, D.T.E. 06-102, at 19 (2007); Cape Light Compact, D.T.E. 00-47, at 47 (2000). Universal access also allows municipality residents to opt out of and opt in to a Program at any time.

Programs must provide for reliability. G.L. c. 164, § 134(a). This includes assurances that the Program will be operated without interruption and the municipality has the technical expertise necessary to operate its Program.

Finally, Programs must provide for equitable treatment of customer classes. G.L. c. 164, § 134(a). Equitable treatment of all customer classes does not mean all customer classes must be treated equally; rather, customer classes that are similarly situated must be treated equitably. D.P.U. 16-51, at 10, citing Cape Light Compact, D.P.U. 14-69, at 10-16, 45-47; D.T.E. 06-102, at 20. Thus, customers served by a competitive supplier at Program initiation who later join the Program must receive the Program rate, like those new customers who move to the municipality after Program initiation. Further, a Program may elect to offer customers who have previously opted out and wish to opt in a Program rate or a market-based rate; a Program may not refuse to serve such customers. Program competitive suppliers are required to provide all-requirements service to all customers residing within a municipality (unless a customer opts out), and nothing in Department Orders, rules, or directives involving municipal aggregation or competitive supply allow any Program competitive supplier to deny electric service to a customer.

Participation in a Program is voluntary. G.L. c. 164, § 134(a). Municipalities have a statutory duty to fully inform customers about automatic enrollment and the right to opt out of a Program. In this regard, the Department has determined that a municipal aggregation plan must include detailed education and outreach strategies that are appropriately customized for the individual municipality. Town of Becket, et al., D.P.U. 18-133 through D.P.U. 18-146, at 27-28 (2020). Municipalities must also continue to provide customers with information regarding the ongoing

¹ As of November 9, 2022, the Towns of Brookline, Carver, Charleton, Kingston, Lancaster, Millbury, Oxford, Tyngsborough, West Brookfield, and Winchendon do not have current (November 2022) Program pricing on their Program websites. Notably, municipalities that enter into new, future Electric Service Agreements are failing to maintain current Program pricing on their websites.

² For example, the Program website for the Town of West Stockbridge does not contain municipal official contact information (<https://colonialpowergroup.com/west-stockbridge/>).

operations of the Program after Program launch.³ See, e.g., D.P.U. 14-69, at 48; Town of Dalton, D.P.U. 13-136, at 23 (2014).

Within ten business days from the date of this letter, Municipalities and their consultants shall ensure that: (1) current (and future, if applicable) pricing for Program products is available on Program websites; (2) current (and future, if applicable) competitive supplier information is available on Program websites; (3) municipal and/or consultant contact information is prominently available on Program websites; and (4) the content of websites and Program notifications to customers have been reviewed to ensure all information is up-to-date and accurate.

Sincerely,

Katherine Lee Goyette

CITY CLERK
 FALL RIVER, MA

Good Afternoon,
 Municipal officials in all of our municipal aggregations received a letter (attached) from the Department of Public Utilities (DPU) this morning in an email titled All Muni Agg Letter 11-15-2022.

This letter outlined certain requirements as follows:

Municipalities and their consultants shall ensure that: (1) current (and future, if applicable) pricing for Program products is available on Program websites; (2) current (and future, if applicable) competitive supplier information is available on Program websites; (3) municipal and/or consultant contact information is prominently available on Program websites; and (4) the content of websites and Program notifications to customers have been reviewed to ensure all information is up-to-date and accurate.

As you know, Good Energy manages the Program website for your municipal aggregation. We believe that all of our Program websites are in compliance with the above stated requirements, and we will do a thorough review of our Program websites in the next few days to ensure compliance. We do not expect there is any action required of you as the municipality, but if there is, we will let you know.

Best Regards,
 The Good Energy Team
