REGULAR MEETING OF THE CITY COUNCIL

INÊS LEITE
ASSISTANT CITY CLERK

MEETING: Tuesday, June 8, 2021 at 7:00 p.m.
Council Chamber, One Government Center

PRESENT: President Cliff Ponte, presiding;
Councilors Shawn E. Cadime, Michelle M. Dionne,
Bradford L. Kilby, Pam Laliberte-Lebeau, Trott Lee,
Christopher M. Peckham, Leo O. Pelletier and Linda M. Pereira

ABSENT: None

IN ATTENDANCE: None

President Cliff Ponte called the meeting to order at 9:03 p.m. with a moment of silence followed by a salute to the flag and announced that the meeting may be recorded with audio or video and transmitted through any medium.

On a motion made by Councilor Linda M. Pereira and seconded by Councilor Trott Lee, it was unanimously voted to take item #6e out of order.

Committee on Finance recommendation:

6e. Community Preservation Act funds for Fiscal Year 2022 Community Projects in the amount of \$1,809,616

On a motion made by Councilor Bradford L. Kilby and seconded by Councilor Linda M. Pereira, it was unanimously voted to adopt the order.

Approved, June 9, 2021, Paul E. Coogan, Mayor

PRIORITY MATTERS

1. Mayor requesting confirmation of the appointment of Dawn Saurette to the Port Authority. *A motion was made by Councilor Michelle M. Dionne and seconded by Councilor Christopher M. Peckham to deny the appointment. Councilor Michelle M. Dionne stated that this Administration has indicated that appointees should have expertise or experience that would make them suitable for the appointment. She then mentioned that this individual has no experience or knowledge that would make her suitable for the Port Authority. She also stated that this individual lists on her resume that she is the creator and operator of the Highland Neighborhood Watch Facebook page, and on this page there is a post by Dawn Saurette where she mentions that she is collecting signatures for Mayor Paul E. Coogan's re-election campaign, because now is not the time for a change, it is time for continued stability. Councilor Michelle M. Dionne then stated that unfortunately this appointment is a text book example of the appearance of political patronage and represents a conflict of interest, and that is why she cannot support it. Councilor Shawn E. Cadime stated that he would like to receive more information on the duties of the Port Authority and bylaws of the State Pier. Councilor Linda M. Pereira stated that since more information is being requested from the Administration, the matter should be tabled. On a motion made by Councilor Linda M. Pereira and seconded by*

Councilor Leo O. Pelletier, it was voted 7 yeas, 2 nays to table the matter, with Councilors Michelle M. Dionne and Christopher M. Peckham voting in the negative.

2. Mayor requesting confirmation of the appointment of Patrick Norton to the Port Authority
On a motion made by Councilor Michelle M. Dionne and seconded by Councilor Leo O. Pelletier, it was voted 9 yeas to table the matter.

3. Mayor and order establishing spending limits for Fiscal Year 2022 Revolving Funds

Pole Locations

1. Massachusetts Electric Company for one new pole location as follows:

Greenleaf Street

One (1) new pole location

The petitioner requests to install new pole on Greenleaf Street approximately 100 feet from pole #3 on Judge Street. Pole is needed to reduce slack in current span of primary conductor. This will prevent span from hitting trees during wind events and reduce outages from the Greenleaf and Judge Streets area. In accordance with Plan No. 30378724 dated May 15, 2021.

2. Massachusetts Electric Company for one new pole location as follows:

Ling Street

One (1) new pole location

The petitioner requests to install new pole on Ling Street approximately 65 feet from pole #6 located on Terrie Marie Way. Pole is needed to supply electrical power to new home at 67 Ling Street. In accordance with Plan No. 30367254 dated May 15, 2021.

Fall River, MA 02722

Dear Honorable Council Members:

On March 11, 2021, the President of the United States signed into law the American Rescue Plan Act of 2021 (ARPA), Pub. L. No. 117-2. This law provides resources through the new Coronavirus Local Fiscal Recovery Fund (CLFRF) to local governments to respond to the public health emergency caused by the Coronavirus Disease (COVID-19). This fund is administered by the US Department of the Treasury.

The grant awarded to the city will be received in two payments the first received on June 1, 2021, in the amount of \$34,799,571.

I am respectfully asking that you accept this grant under MGL Chapter 44, Section 53A.

If you have any questions or concerns regarding this, please feel free to contact me.

Best Regards,

Paul E. Coogan

ORDERED, that pursuant to the requirements of General Laws Chapter 44, Section 53A the City Council accepts the Coronavirus Local Fiscal Recovery Fund (CLFRF) grant. This fund is administered by the US Department of the Treasury which the President of the United States signed into law the American Rescue Plan Act of 2021 (ARPA), Pub. L. No. 117-2. The first one half payment was received by the City in the amount of \$34,799,571. This grant provides for expenditures to local governments to respond to the public health emergency caused by the Coronavirus Disease (COVID-19) in the following areas and will be subject to the Single Audit Act:

- Support public health expenditures, by funding COVID-19 mitigation efforts, medical expenses, behavioral healthcare, and certain public health and safety staff;
- Address negative economic impacts caused by the public health emergency, including economic harms to workers, households, small businesses, impacted industries, and the public sector;
- Replace lost public sector revenue, using this funding to provide government services to the extent of the reduction in revenue experienced due to the pandemic;
- Provide premium pay for essential workers, offering additional support to those who have borne and will bear the greatest health risks because of their service in critical infrastructure sectors; and,
- Invest in water, sewer, and broadband infrastructure, making necessary investments to improve access to clean drinking water, support vital wastewater and stormwater infrastructure, and to expand access to broadband internet.

Dear City Council Members,

Fall River Arts and Culture Coalition (FRACC) was formed in March of 2019- to gather a group of stakeholders together around a common mission - Arts, Culture and Economic Prosperity for the City of Fall River. The mission is to support and bolster the arts and culture community in order to spur revitalization efforts.

FRACC is a committee of One SouthCoast Chamber and the Bristol County Chamber Foundation (501c3) is the fiscal agent for the Coalition. The Coalition has over 50 diverse members comprised of citizens committed to improving the lives of the people that live and work in the region. As stated, our goal is to unite and share resources to create a vibrant, inclusive and sustainable creative economy.

Since our first meeting, the Fall River Arts and Culture Coalition has sought to bring people together to share ideas, resources, and talents to advance the Arts and Culture economy in the city. Our aim has always been to break down barriers and silos to foster opportunities for organizations, artists, and interested community members to collaborate and work together in new ways that benefit these organizations and the city as whole. Anyone interested in collaboration has been welcome to sit in our meetings from the very beginning. Fortunately, many individuals and organizations have chosen to engage in meaningful collaboration while seated around the table or on the ZOOM screen.

FRACC supports and celebrates a variety of arts and cultures through collaborative round table planning, connecting local arts groups and artists with city venues and opportunities for success. We collaborate within and across city arts groups and businesses, as we connect visual and performing artists to potential opportunities for exploration within the city of Fall River.

Recognizing that a vibrant and growing cultural and creative life can support economic opportunity, neighborhood quality of life and connectedness, as well as public health, FRACC has raised private funding to engage a recognized consultant CivicMoxie to help us create a detailed Arts and Culture Plan. FRACC members and CivicMoxie have been actively engaging

residents, businesses, and community organizations to identify and celebrate the unique qualities of the city, including arts, ethnic and cultural traditions, creative businesses, events and food. The resulting plan will lay out a detailed road map and identify the necessary resources to build, support and grow a unique and vibrant creative sector that will benefit all residents and sectors of the city for the next 10 years.

We would like to make a presentation about the Fall River arts and culture plan, Viva Fall River, to city council members at your next meeting.

We look forward to hearing from you.

Sincerely,

City of Fall River, In City Council

66

BE IT ORDAINED, by the City Council of the City of Fall River, Massachusetts, as follows:

That Chapter 10 of the Code of the City of Fall River, Massachusetts, 2018, which chapter relates to Buildings and Building Regulations, be amended, by striking out Sections 10-246, 10-247, and 10-248, in their entirety, and inserting in place thereof, the following:

Sec. 10-246. Floodplain district boundaries and base flood elevation data.

The purposes of the Floodplain District are to:

- 1) Ensure public safety through reducing the threats to life and personal injury;
- 2) Eliminate new hazards to emergency response officials;
- 3) Prevent the occurrence of public emergencies resulting from water quality, contaminations, and pollution due to flooding;
- 4) Avoid the loss of utility services which if damaged by flooding would disrupt or shut down the utility network and impact regions of the community beyond the site of flooding;
- 5) Eliminate costs associated with response and cleanup of flooding conditions;
- 6) Reduce damage to public and private property resulting from flooding waters.

The floodplain district is herein established as an overlay district. The district includes all special flood hazard areas within the City designated as Zone A, AE, AO or VE on Fall River's Flood Insurance Rate Map (FIRM) issued by the Federal Emergency Management Agency (FEMA) for the administration of the National Flood Insurance Program. The map panels of the county FIRM that are wholly or partially within the City are panel numbers 25005C0264F, 25005C0269F, 25005C0342F, 25005C0344F, 25005C0351F, 25005C0353F, and 25005C0432F, dated July 7, 2009; and panel numbers 25005C0244G, 25005C0263G, 25005C0329G, 25005C0331G, 25005C0332G, 25005C0333G, 25005C0334G, 25005C0341G, and 25005C0337G dated July 16, 2014, and 25005C0268G, 25005C0352G, 25005C0354G, 25005C0356G, 25005C0357G, 25005C0358G, 25005C0359G, 25005C0361G, and 25005C0362G dated July, 6, 2021. The exact boundaries of the district

66
may be defined by the one-hundred-year base flood elevations shown on the FIRM and further defined by the county Flood Insurance Study (FIS) report dated July 6, 2021. The FIRM and FIS report are incorporated herein by reference and are on file with the City Clerk.

USE REGULATIONS

The floodplain district ordinance is part of a federal requirement for communities that choose to participate in the NFIP. However, the state already administers regulations that take care of many floodplain management concerns. Referencing existing regulations is important to ensure that projects have been reviewed under the appropriate state regulations and that variances to the conditions of the ordinance do not erroneously allow variances to state requirements.

The Floodplain District is established as an overlay district to all other districts: All development in the district, including structural and non-structural activities, whether permitted by right or by special permit must be in compliance with Chapter 131, Section 40 of the Massachusetts General Laws and with the following:

- Sections of the Massachusetts state Building Code (780 CMR) which address floodplain and coastal high hazard areas;
- Wetlands Protection Regulations, Department of Environmental Protection (DEP) (currently 310 CMR 10.00);
- Inland Wetlands Restriction, DEP (currently 310 CMR 13.00);
- Coastal Wetlands Restriction, DEP (currently 310 CMR 12.00); (e communities only)
- Minimum Requirements for the Subsurface Disposal of Sanitary Sewage, DEP (currently 310 CMR 15, Title 5);

Any variances from the provisions and requirements of the above referenced state regulations may only be granted in accordance with the required variance procedures of these state regulations.

Sec. 10-247. Base flood elevation data and floodway data.

- A. In Zones A and AE, along watercourses that have not had a regulatory floodway designated, the best available Federal, State, local, or other floodway data shall be used to prohibit encroachments in floodways which would result in any increase in flood levels within the community during the occurrence of the base flood discharge.
- B. Base flood elevation data is required for subdivision proposals or other developments greater than 50 lots or five acres, whichever is the lesser, within the unnumbered A zones.

66

Sec. 10-248. Other use regulations.

- A. All new construction within zone VE must be located landward of the reach of mean high tide.
- B. In a riverine situation, the director of code enforcement shall notify the following agencies of any alteration or relocation of a watercourse:

(1) Adjacent communities including the towns:

- a. Tiverton, Rhode Island,
- b. Somerset, Massachusetts
- c. Westport, Massachusetts;
- d. Dartmouth, Massachusetts; and
- e. Freetown, Massachusetts;

(2) NFIP State Coordinator, Massachusetts Department of conservation and Recreation, 251 Causeway Street, Suite 600-700, Boston, MA 02114-2104; and

(3) NFIP Program Specialist, Federal Emergency Management Agency, Region I, 99 High Street, 6th Floor, Boston MA 02110

- C. Man-made alteration of sand dunes within Zone VE which would increase potential flood damage are prohibited.
- D. Within Zone AO on the FIRM, adequate drainage paths must be provided around structures on slopes, to guide floodwaters around and away from proposed structures.
- E. Within Zones AH and AO on the FIRM, adequate drainage paths must be provided around structures on slopes, to guide floodwaters around and away from proposed structures. (c, d, e communities, if AH or AO appear)
- F. All subdivision proposals must be designed to assure that:
 - (1) Such proposals minimize flood damage;
 - (2) All public utilities and facilities are located and constructed to minimize or eliminate flood damage; and
 - (3) Adequate drainage is provided to reduce exposure to flood hazards. (b, c, d, e communities)

Sec. 10-249 Use of FEMA maps and supporting studies.

- A. Abrogation and greater restriction section. The floodplain management regulations found in this Floodplain Overlay District

66
section shall take precedence over any less restrictive conflicting local laws, ordinances or codes.

- B. Disclaimer of liability. The degree of flood protection required by this ordinance is considered reasonable but does not imply total flood protection.
- C. Designation of community Floodplain Administrator. The City of Fall River hereby designates the Inspector of Buildings to be the official floodplain administrator for Fall River.
- D. Requirement to submit new technical data. If Fall River acquires data that changes the base flood elevation in the FEMA mapped Special Flood Hazard Areas, Fall River will, within 6 months, notify FEMA of these changes by submitting the technical or scientific data that supports the change(s). Notification shall be submitted to:

FEMA Region I Risk Analysis Branch Chief
99 High St., 6th floor, Boston, MA 02110

And copy of notification to:

Massachusetts NFIP State Coordinator
MA Dept. of Conservation & Recreation,
251 Causeway Street, Boston, MA 02114

- E. Variances to building code floodplain standards. Fall River will request from the State Building Code Appeals Board a written and/or audible copy of the portion of the hearing related to the variance, and will maintain this record in the community's files.

Fall River shall also issue a letter to the property owner regarding potential impacts to the annual premiums for the flood insurance policy covering that property, in writing over the signature of a community official that (i) the issuance of a variance to construct a structure below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction below the base flood level increases risks to life and property.

Such notification shall be maintained with the record of all variance actions for the referenced development in the floodplain overlay district.

6b

- F. Variances to local Zoning Ordinances related to community compliance with the National Flood Insurance Program (NFIP). A variance from these floodplain ordinances must meet the requirements set out by State law, and may only be granted if: 1) Good and sufficient cause and exceptional non-financial hardship exist; 2) the variance will not result in additional threats to public safety, extraordinary public expense, or fraud or victimization of the public; and 3) the variance is the minimum action necessary to afford relief.
- G. Permits are required for all proposed development in the Floodplain Overlay District. Fall River requires a permit for all proposed construction or other development in the floodplain overlay district, including new construction or changes to existing buildings, placement of manufactured homes, placement of agricultural facilities, fences, sheds, storage facilities or drilling, mining, paving and to other properties.
- H. Assure that all necessary permits are obtained. Fall River's permit review process includes the use of a checklist of all local, state and federal permits that will be necessary in order to carry out the proposed development in the floodplain overlay district. The proponent must acquire all necessary permits, and must submit the completed checklist demonstrating that all necessary permits have been acquired.
- I. Subdivision proposals. All subdivision proposals and development proposals in the floodplain overlay district shall be reviewed to assure that:
 - (a) Such proposals minimize flood damage.
 - (b) Public utilities and facilities are located & constructed so as to Minimize flood damage.
 - (c) Adequate drainage is provided.
- J. Unnumbered A Zones. In A Zones, in the absence of FEMA BFE data and floodway data, the Building Division will obtain, review and reasonably utilize base flood elevation and floodway data available from a Federal, State, or other source as criteria for requiring new construction, substantial improvements, or other development in Zone A as the basis for elevating residential structures to or above base flood level, for flood proofing or elevating nonresidential structures to or above base flood level, and for prohibiting encroachments in floodways.

- 66
- K. Recreational vehicles. In A1-30, AH, AE Zones, V1-30, VE, and V Zones, all recreational vehicles to be placed on a site must be elevated and anchored in accordance with the zone's regulations for foundation and elevation requirements or be on the site for less than 180 consecutive days or be fully licensed and highway ready.

Section 10-250. Definitions.

DEVELOPMENT means any man-made change to improved or unimproved real estate, including but not limited to building or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials. [US Code of Federal Regulations, Title 44, Part 59]

FLOODWAY – The channel of the river, creek or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height. [Base Code, Chapter 2, Section 202]

FUNCTIONALLY DEPENDENT USE means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities. [US Code of Federal Regulations, Title 44, Part 59] Also [Referenced Standard ASCE 24-14]

HIGHEST ADJACENT GRADE means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure. [US Code of Federal Regulations, Title 44, Part 59]

HISTORIC STRUCTURE means any structure that is:

- (a) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- (b) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- (c) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

66

(d) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:

- (1) By an approved state program as determined by the Secretary of the Interior or
- (2) Directly by the Secretary of the Interior in states without approved programs.

[US Code of Federal Regulations, Title 44, Part 59]

NEW CONSTRUCTION – Structures for which the start of construction commenced on or after the effective date of the first floodplain management code, regulation, ordinance, or standard adopted by the authority having jurisdiction, including any subsequent improvements to such structures. New construction includes work determined to be substantial improvement. [Referenced Standard ASCE 24-14]

RECREATIONAL VEHICLE means a vehicle which is:

- (a) Built on a single chassis;
- (b) 400 square feet or less when measured at the largest horizontal projection;
- (c) Designed to be self-propelled or permanently towable by a light duty truck; and
- (d) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

[US Code of Federal Regulations, Title 44, Part 59]

REGULATORY FLOODWAY - See FLOODWAY.

SPECIAL FLOOD HAZARD AREA – The land area subject to flood hazards and shown on a Flood Insurance Rate Map or other flood hazard map as Zone A, AE, A1-30, A99, AR, AO, AH, V, VO, VE or V1-30. [Base Code, Chapter 2, Section 202]

START OF CONSTRUCTION – The date of issuance for new construction and substantial improvements to existing structures, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement or other improvement is within 180 days after the date of issuance. The actual start of construction means the first placement of permanent construction of a building (including a manufactured home) on a site, such as the pouring of a slab or footings, installation of pilings or construction of columns.

66

Permanent construction does not include land preparation (such as clearing, excavation, grading or filling), the installation of streets or walkways, excavation for a basement, footings, piers or foundations, the erection of temporary forms or the installation of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main building. For a substantial improvement, the actual "start of construction" means the first alteration of any wall, ceiling, floor or other structural part of a building, whether or not that alteration affects the external dimensions of the building. [Base Code, Chapter 2, Section 202]

STRUCTURE means, for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home. [US Code of Federal Regulations, Title 44, Part 59]

SUBSTANTIAL REPAIR OF A FOUNDATION – When work to repair or replace a foundation results in the repair or replacement of a portion of the foundation with a perimeter along the base of the foundation that equals or exceeds 50% of the perimeter of the base of the foundation measured in linear feet, or repair or replacement of 50% of the piles, columns or piers of a pile, column or pier supported foundation, the building official shall determine it to be substantial repair of a foundation. Applications determined by the building official to constitute substantial repair of a foundation shall require all existing portions of the entire building or structure to meet the requirements of 780 CMR. [As amended by MA in 9th Edition BC]

VARIANCE means a grant of relief by a community from the terms of a flood plain management regulation. [US Code of Federal Regulations, Title 44, Part 59]

VIOLATION means the failure of a structure or other development to be fully compliant with the community's flood plain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in §60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) is presumed to be in violation until such time as that documentation is provided. [US Code of Federal Regulations, Title 44, Part 59]

BE IT ORDAINED by the City Council of the City of Fall River, as follows:

That Chapter 66 of the Code of the City of Fall River, which chapter relates to Streets, Sidewalks and Other Public Places, be amended by striking out Section 66-258 in its entirety, and inserting in place thereof the following:

Sec. 66-258. Permit for signs and other structures projecting into or over public way.

- (a) *Required; fee; revocation.* No person shall place or maintain any structure, as described in M.G.L. c. 85, § 8, projecting into or placed on or over a public way without first obtaining a permit from the City Council. The fee for the permit shall be as provided in Chapter A110, Fee Schedule of the City Code.
- (b) *Exception; outdoor dining.* A permit issued by the City Council pursuant to this section shall not be required for structures used for outdoor dining on a public sidewalk or other public way, provided the restaurant/applicant has obtained all city required approvals including, but not limited to, written approval from the City Building Inspector.
- (c) *Violations; penalty.* The City may immediately remove, at the expense of the owner, any sign or structure found to be in violation of this section. Additionally, any person found to be in violation of this section shall also be subject to a fine, as provided in Section 2-1025. However, pursuant to M.G.L. c. 85 § 8, no fine shall issue unless the person fails to remove the structure or cure the violation after being given five (5) days' notice to do so.
- (d) *Licensing period.* A permit issued under the provisions of this article is revocable and shall be valid for the period of time allowed by the permitting authority.

City of Fall River, In City Council

(Councilor Linda M. Pereira)
(Councilor Michelle M. Dionne)

WHEREAS, the restaurants in Fall River have been requesting outside dining in front of their establishments from Memorial Day through Columbus Day, to provide increased services and add to the activity and ambience of their establishments since 2014, and

WHEREAS, in recent months the COVID-19 pandemic has adversely impacted the ability of many local restaurants to maintain cash flow and remain a viable business in our city, and

WHEREAS, the Governor has established an order to allow for outside dining/seating at the start of Phase II of the Massachusetts' re-opening efforts, and

WHEREAS, allowing for outside dining/seating would greatly assist Fall River restaurants to remain in business, now therefore

BE IT RESOLVED, that the City Council Committee on Economic Development and Tourism convene with the Director of Code Enforcement, Director of Traffic, City Planner, a representative of the Police Department, a representative of the Commission on Disability, a representative of the Licensing Board, and Corporation Counsel to discuss and assist in the immediate development of policies and guidelines that outside seating and service be allowed at these establishments immediately, provided that the configuration of seating does not prohibit public access in front of the establishment and that these businesses be allowed to immediately utilize half of the sidewalk or other designated area, and

BE IT FURTHER RESOLVED, that once protocols are developed, a proposed ordinance will be submitted to the Committee on Ordinances and Legislation.
