1C

**Households:** 2,004,400

**Average Household Size:** 3.25

**Median Age:** 34.0

**Median Household Income:** \$113,400

## WHO ARE WE?

This is the new growth market, with a profile similar to the original: young professionals with families that have opted to trade up to the newest housing in the suburbs. The original *Boomburbs* neighborhoods began growing in the 1990s and continued through the peak of the housing boom. Most of those neighborhoods are fully developed now. This is an affluent market but with a higher proportion of mortgages. Rapid growth still distinguishes the *Boomburbs* neighborhoods, although the boom is more subdued now than it was 10 years ago. So is the housing market. Residents are well-educated professionals with a running start on prosperity.

## OUR NEIGHBORHOOD

- Growth markets are in the suburban periphery of large metropolitan areas.
- Young families are married with children (Index 220); average household size is 3.25.
- Homeownership is 84% (Index 134), with the highest rate of mortgages, 71.5% (Index 173).
- Primarily single-family homes in new neighborhoods, 66% built since 2000 (Index 441).
- Median home value is \$350,000 (Index 169).
- Lower housing vacancy rate at 3.7%.
- The cost of affordable new housing comes at the expense of one of the longest commutes to work, over 30 minutes average, including a disproportionate number (33.6%) commuting across county lines (Index 141).

## SOCIOECONOMIC TRAITS

- Well-educated young professionals, 55% are college graduates (Index 178).
- High labor force participation at 71.3% (Index 114); most households have more than two workers (Index 124).
- Longer commute times from the suburban growth corridors have created more home workers (Index 156).
- Well connected, own the latest devices and understand how to use them efficiently; biggest complaints—too many devices and too many intrusions on personal time.
- Financial planning is well under way for these professionals.

Note: The Index represents the ratio of the segment rate to the US rate multiplied by 100. Consumer preferences are estimated from data by MRI-Simmons.

## AVERAGE HOUSEHOLD BUDGET INDEX

The index compares the average amount spent in this market's household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

## OCCUPATION BY EARNINGS

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.

## MARKET PROFILE (Consumer preferences are estimated from data by MRI-Simmons.)

- *Boomburbs* residents prefer late model imports, primarily SUVs, and also luxury cars and minivans.
- This is one of the top markets for the latest in technology, from smartphones to tablets to internet connectable televisions.
- Style matters in the *Boomburbs*, from personal appearance to their homes. These consumers are still furnishing their new homes and already remodeling.
- Enjoy gardening but more often contract for home services.
- Physical fitness is a priority, including club memberships and home equipment.
- Leisure includes a range of activities from sports (hiking, bicycling, swimming, golf) to visits to theme parks or water parks.
- Residents are generous supporters of charitable organizations.

## HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

## WHO ARE WE?

*Middleburg* neighborhoods transformed from the easy pace of country living to semirural subdivisions in the last decade, as the housing boom spread beyond large metropolitan cities. Residents are traditional, family-oriented consumers. Still more country than rock and roll, they are thrifty but willing to carry some debt and are already investing in their futures. They rely on their smartphones and mobile devices to stay in touch and pride themselves on their expertise. They prefer to buy American and travel in the US. This market is younger but growing in size and assets.

## OUR NEIGHBORHOOD

- Semirural locales within metropolitan areas.
- Neighborhoods changed rapidly in the previous decade with the addition of new single-family homes.
- Include a number of mobile homes (Index 150).
- Affordable housing, median value of \$175,000 (Index 84) with a low vacancy rate.
- Young couples, many with children; average household size is 2.75.

## SOCIOECONOMIC TRAITS

- Education: 65% with a high school diploma or some college.
- Labor force participation typical of a younger population at 66.7% (Index 107).
- Traditional values are the norm here—faith, country, and family.
- Prefer to buy American and for a good price.
- Comfortable with the latest in technology for convenience (online banking or saving money on landlines) and entertainment.

# Rustbelt Traditions

**Households:** 2,716,800

**Average Household Size:** 2.47

**Median Age:** 39.0

**Median Household Income:** \$51,800

## WHO ARE WE?

The backbone of older industrial cities in states surrounding the Great Lakes, *Rustbelt Traditions* residents are a mix of married-couple families and singles living in older developments of single-family homes. While varied, the workforce is primarily white collar, with a higher concentration of skilled workers in manufacturing, retail trade, and health care. *Rustbelt Traditions* represents a large market of stable, hardworking consumers with modest incomes but an average net worth of nearly \$400,000. Family oriented, they value time spent at home. Most have lived, worked, and played in the same area for years.

## OUR NEIGHBORHOOD

- Almost half (46%) of the households are married-couple families, similar to the US (48%), most without children (also similar to the US); the slightly higher proportion of singles (Index 105) reflects the aging of the population.
- Average household size is slightly lower at 2.47.
- They are movers, slightly more mobile than the US population (Index 109), but over 70% of householders moved into their current homes before 2010.
- Most residents live in modest, single-family homes in older neighborhoods built in the 1950s (Index 224).
- Nearly three quarters own their homes; nearly half of households have mortgages.
- A large and growing market, *Rustbelt Traditions* residents are located in the dense urban fringe of metropolitan areas throughout the Midwest and South.
- Most households have one to two vehicles available.

## SOCIOECONOMIC TRAITS

- Most have graduated from high school or spent some time at a college or university.
- Labor force participation slightly higher than the US at 67%.
- While most income is derived from wages and salaries, nearly 31% of households collect Social Security and nearly 20% draw income from retirement accounts.
- Family-oriented consumers who value time spent at home.
- Most have lived, worked, and played in the same area for years.
- Budget-aware shoppers that favor American-made products.
- Read newspapers, especially the Sunday editions.

# Salt of the Earth

6B

**Households:** 3,545,800

**Average Household Size:** 2.59

**Median Age:** 44.1

**Median Household Income:** \$56,300

## WHO ARE WE?

*Salt of the Earth* residents are entrenched in their traditional, rural lifestyles. Citizens here are older, and many have grown children that have moved away. They still cherish family time and also tending to their vegetable gardens and preparing homemade meals. Residents embrace the outdoors; they spend most of their free time preparing for their next fishing, boating, or camping trip. The majority has at least a high school diploma or some college education; many have expanded their skill set during their years of employment in the manufacturing and related industries. They may be experts with DIY projects, but the latest technology is not their forte. They use it when absolutely necessary, but seek face-to-face contact in their routine activities.

## OUR NEIGHBORHOOD

- This large segment is concentrated in the Midwest, particularly in Ohio, Pennsylvania, and Indiana.
- Due to their rural setting, households own two vehicles to cover their long commutes, often across county boundaries.
- Homeownership rates are very high (Index 133). Single-family homes are affordable, valued at 25% less than the national market.
- Nearly two in three households are composed of married couples; less than half have children at home.

## SOCIOECONOMIC TRAITS

- Steady employment in construction, manufacturing, and related service industries.
- Completed education: 40% with a high school diploma only.
- Household income just over the national median, while net worth is nearly double the national median.
- Spending time with family is their top priority.
- Cost-conscious consumers, loyal to brands they like, with a focus on buying American.
- Last to buy the latest and greatest products.
- Try to eat healthy, tracking the nutrition and ingredients in the food they purchase.

## WHO ARE WE?

Well settled and close-knit, *Heartland Communities* residents are semirural and semiretired. These older householders are primarily homeowners, and many have paid off their mortgages. Their children have moved away, but they have no plans to leave their homes. Their hearts are with the country; they embrace the slower pace of life here but actively participate in outdoor activities and community events. Traditional and patriotic, these residents support their local businesses, always buy American, and favor domestic driving vacations over foreign plane trips.

## OUR NEIGHBORHOOD

- Rural communities or small towns are concentrated in the Midwest, from older Rustbelt cities to the Great Plains.
- Distribution of household types is comparable to the US, primarily (but not the majority) married couples, more with no children, and a slightly higher proportion of singles (Index 112) that reflects the aging of the population.
- Residents own modest, single-family homes built before 1970.
- They own one or two vehicles; commutes are short (Index 82).

## SOCIOECONOMIC TRAITS

- Retirees in this market depress the average labor force participation rate to less than 60% (Index 94). More workers are white collar than blue collar; more skilled than unskilled.
- The rural economy of this market provides employment in the manufacturing, construction, utilities, health-care, and agriculture industries.
- These are budget-savvy consumers; they stick to brands they grew up with and know the price of goods they purchase. Buying American is important.
- Daily life is busy but routine. Working on the weekends is not uncommon.
- Residents trust TV and newspapers more than any other media.
- Skeptical about their financial future, they stick to community banks and low-risk investments.

Note: The Index represents the ratio of the segment rate to the US rate multiplied by 100. Consumer preferences are estimated from data by MRI-Simmons.

## MARKET PROFILE (Consumer preferences are estimated from data by MRI-Simmons.)

- Traditional in their ways, residents of *Heartland Communities* choose to bank and pay their bills in person and purchase insurance from an agent.
- Most have high-speed internet access at home or on their cell phone but aren't ready to go paperless.
- Many residents have paid off their home mortgages but still hold auto loans and student loans. Interest checking accounts are common.
- To support their local community, residents participate in public activities.
- Home remodeling is not a priority, but homeowners do tackle necessary maintenance work on their cherished homes. They have invested in riding lawn mowers to maintain their larger yards.
- They enjoy country music and watch CMT.
- Motorcycling, hunting, and fishing are popular; walking is the main form of exercise.
- To get around these semirural communities, residents prefer domestic trucks or SUVs.

## WHO ARE WE?

*Bright Young Professionals* is a large market, primarily located in urban outskirts of large metropolitan areas. These communities are home to young, educated, working professionals. More than one out of three householders are under the age of 35. Slightly more diverse couples dominate this market, with more renters than homeowners. More than two-fifths of the households live in single-family homes; over a third live in 5+ unit buildings. Labor force participation is high, generally white-collar work, with a mix of food service and part-time jobs (among the college students). Median household income, median home value, and average rent are close to the US values. Residents of this segment are physically active and up on the latest technology.

## OUR NEIGHBORHOOD

- Approximately 57% of the households rent; 43% own their homes.
- Household type is primarily couples, married (or unmarried), with above-average concentrations of both single-parent (Index 125) and single-person (Index 115) households.
- Multiunit buildings or row housing make up 56% of the housing stock (row housing [Index 178], buildings with 5–19 units [Index 275]); 43% built 1980–99.
- Average rent mirrors the US (Index 100).
- Lower vacancy rate is at 8.2%.

## SOCIOECONOMIC TRAITS

- Education completed: 35% with some college or an associate's degree, 33% with a bachelor's degree or higher.
- Labor force participation rate of 72% is higher than the US rate.
- These consumers are up on the latest technology.
- They get most of their information from the internet.
- Concern about the environment impacts their purchasing decisions.

**Households:** 2,395,200

**Average Household Size:** 2.51

**Median Age:** 35.5

**Median Household Income:** \$39,300

## WHO ARE WE?

Residents in this segment live primarily in low-density, settled neighborhoods in the Midwest. The households are a mix of married-couple families and singles. Many families encompass two generations who have lived and worked in the community; their children are likely to follow suit. The manufacturing, retail trade, and health-care sectors are the primary sources of employment for these residents. This is a younger market—beginning householders who are juggling the responsibilities of living on their own or a new marriage, while retaining their youthful interests in style and fun.

## OUR NEIGHBORHOOD

- Married couples are the dominant household type, but fewer than expected from the younger age profile and fewer with children (Index 79); however, there are higher proportions of single-parent (Index 146) and single-person households (Index 112).
- Average household size is slightly lower at 2.51.
- Homes are primarily single family or duplexes in older neighborhoods, built before 1940 (Index 228).
- Most neighborhoods are located in lower-density urban clusters of metro areas throughout the Midwest and South.
- Average commuting time to work is very short (Index 22).
- Households have one or two vehicles.

## SOCIOECONOMIC TRAITS

- Over 70% have completed high school or some college.
- Labor force participation is a bit higher than the national rate at 63.4%.
- Almost three-quarters of households derive income from wages and salaries, augmented by Supplemental Security Income (Index 139) and public assistance (Index 152).
- Cost-conscious consumers that are comfortable with brand loyalty, unless the price is too high.
- Connected and comfortable with the internet, more likely to participate in online gaming or posting pics on social media.
- TV is seen as the most trusted media.
