Emily Rogers on behalf of Mr. Gibson, approached the podium to discuss his water bill issue from 2018. She stated that Mr. Gibson's water consumption largely increased in

January of 2018 after a water leak was found by a city employee. In February of 2018, Mr. Gibson instructed the city to turn off the water until the leak could be repaired. Once the leak was repaired his bill continued to increase. According to Mr. Gibson, the water was not turned off when he initially requested it to be so Ms. Rogers asked the Council to cut Mr. Gibson's February 2018 bill in half and to write off the remaining higher bills for this reason.

The Council discussed with Billing and Parks staff as to the timeline of water leak, who made the leak repairs, and who authorized the water to be turned back on according to city documentation. Since staff had limited information and Water Supervisor Tuggle was not in attendance of the meeting, Council requested the agenda item to be tabled to the next council meeting.
