**SDD: SPECIAL DEVELOPMENT CATEGORY**

3.05.13 SDD: Special Development Zoning District\*\*\*

Permitted Residential Uses	Same as for R-1 Zoning District (2.02.03)						
Permitted Non-residential Uses	None						

\*\* This change would:

1. Eliminate the non-conforming uses in the Mixed-Use area in the northeast portion of the city (assumes a rather liberal interpretation of the code and requires fences be around areas of outside storage).
2. Opens mixed use and urban development areas to a wider variety of commercial uses (assuming zoning districts are assigned). Increase the allowable intensities of the Mixed Use and Urban Development FLU areas.

\*\*\*This is a temporary zoning district classification used only until preliminary development plans have been approved at which time a rezoning would occur to assign the permanent zoning district classifications.
