Re: Florida Association of County Managers Consulting

Dear Chairman Stanley:

On behalf of the Florida Association of County Manager (FACM), I would like to thank you for allowing our organization to assist you with your search for a county administrator. We are pleased to provide the final report of the FACM volunteer group assisting with this search.

This was a limited engagement in that representatives from Glades County performed the initial screening and provided a total of fourteen applicants for consideration.

Accordingly, three County Administrators from FACM were impaneled to undertake the task of reviewing the fourteen candidates and to ultimately recommend a short list for further consideration. The panel consisted of Chair Mandy Hines, Desoto County Administrator; Jonathan Lewis, Sarasota County Administrator; and, Michele Lieberman, Alachua County Manager.

As charged, the panel unanimously recommends the following four applicants for further consideration, in no particular rank or order:

Louis Goodin  
Patrick Marsh  
Brian Geoghegan  
June Fisher\*

\*Ms. Fisher is a current employee of Desoto County and reports directly to Mandy Hines, Desoto County Administrator. Therefore, Ms. Hines abstained from reviewing Ms. Fisher's application and recused herself from any committee discussion and/or recommendation to the short list above.

It is our hope that these candidates will offer a candidate that meet the needs of your County. Please let us know if you have any questions or can be of further assistance and good luck with the rest of the process.

Sincerely,

John Hofstad, FACM President  
Okaloosa County Administrator
