GREEN OAK CHARTER TOWNSHIP FIRE DEPARTMENT

KEVIN GENTRY, CHIEF

To: Green Oak Charter Township Board Members
From: Chief Kevin Gentry 
Date: April 20, 2020
Re: Extrication Equipment Requests

As the Board may recall, this year the Department budgeted for some new extrication equipment. There are four parts to this request, and each will be briefly addressed separately.

Rescue 82 E Draulic Equipment

Rescue 82 is the only vehicle in the Department's fleet which has the older gasoline powered extrication equipment system. These tools are used (mostly) to cut people out of crashed vehicles. This system involves a tool, a long hose, and a small engine/hydraulic pump system. It is an older system with several issues. First, the small engine, despite our mechanic's best efforts, is still a small engine. Sometimes it doesn't start or run as well as would be expected. Second, the length of the hoses limits the reach of the tools. This is an important consideration if the crashed vehicle is well off the road, as happens a lot on freeway crashes, where the speeds involved means the vehicle continues until it hits something (trees, ditch, median wall, etc.). Finally, this set of tools, being older, is not really up to the standards of cutting today's ever-stronger vehicle metals.

The remainder of the Department's rescue vehicles all have the Hurst E-Draulics, battery powered tools (akin to a very large Dewalt or Ryobi type battery) that have no need for hoses (and thus no reach restrictions), no need for a small engine/pump (and thus no reliability concerns) and are built to tackle today's tougher metals. The Department proposes upgrading Rescue 82's tools to E-Draulics. Because of the opportunity for a joint purchase with other Departments using the same specifications, the Department was able to negotiate a group purchase discount of 20% (-\$7121.00), bringing in this package at \$28,484.00, a substantial savings from the original quote of over \$35,000.

Air Bags

The Department uses air bags to lift vehicles on their roofs off up, and lift vehicles that have fallen on people (usually due to jack failures, an unfortunately common and very dangerous problem) up and off of them. The Department's air bags have been with the Department longer than I have, meaning they are at least 27 years old (no one really knows how old they actually are). They are well out of certification and, quite frankly, probably no longer reliable. While the Department has upgraded the control module once, the bags, which do the actual (very) heavy lifting are very out of date and this is decidedly concerning.

The Department proposes replacing these bags with a Vetter Sect 12 Air Bag Lifting System, which, with the applicable hoses and controller, costs \$2,307.00. These bags will draw air from the Department's existing SCBA air tanks and are otherwise compatible with the Department's equipment. Training on these new bags is included in the package bid.

Struts

The Department uses struts to stabilize cars that have rolled onto their sides or roofs. While the Department has several of these, to adequately outfit all of the Department's rescue vehicles, and, in this case, Rescue 82, the Department needs to purchase two more struts, one long and one short, a ratchet strap (used to secure the strut to the car so it doesn't move) and a hook (for the same reason). The total cost of this package would be \$2,756.00, again with training included.

Air Chisel

The Department uses its air chisel to cut long pieces of metal (car roofs, school buses, etc.) when removing victims trapped in crashed vehicles. As with the air bags, the Department's air chisel has been with the Department longer than I have (over 27 years, and no one really knows how old it is). It is a converted auto body shop device and almost useless on modern high strength steel car parts. The Department proposes replacing this device with an Ajax 911-RK air chisel, which is specifically designed for vehicle extrication/rescue work. Once again, this device is compatible with the Department's existing SCBA air cylinders, and training, which will be very useful for this new and much more capable tool, is included. The price for this tool is \$2,395.00.

The Source

All of these rescue tools would be purchased from Apollo Fire Equipment, which is the Michigan vendor for the Hurst E-Draulics (and the only source for those) as well as the remaining items. While this is a single source bid, all of these tools are distributor limited to one per state, making it difficult to get comparable bids. On the plus side, as noted above, there was a serious discount available for group purchasing, and the purchases include training with the START Rescue group, which is the premier training outfit for extrication operations in this state and for which the Department has previously paid considerable funds to hire for other trainings. The inclusion of this free training is a substantial bonus that would easily offset any small adjustments we might be able to make if other bidders were available.

The Budget

All of these purchases were budgeted for in this year's budget, and, indeed, the expectation was that they would run \$7,121 more than this, but the group purchase discount helped there, and the funds were included in line 206.982.000, Capital Operating Equipment. The total amount of all of these purchases together, from Apollo Fire Equipment, would be \$35,942, and thus the Department is requesting approval in this amount.

I appreciate the Board's consideration of this request and would be happy to address any questions or concerns any Board member might have. Thank you.

GREEN OAK CHARTER TOWNSHIP FIRE DEPARTMENT

KEVIN GENTRY, CHIEF

To: Green Oak Charter Township Board Members
From: Chief Kevin Gentry 
Date: March 30, 2020
Re: Turnout Gear Purchase Request

The most essential piece of firefighting equipment is the personal protective gear each firefighter wears. Without this ensemble, functioning and in good fit, firefighters are not able to operate the tools and equipment required by their job. Accordingly, as the Board likely recalls, each year the Department purchases turnout gear for some members, replacing older sets in some cases and acquiring turnout gear sized for new members in other cases. This year, the Department is faced with a new NFPA (National Fire Protection Association) standard that requires turnout gear be replaced every ten years. While this is destined to be an expensive endeavor, it does make sense, as, over the course of the last decade, the protective capabilities of turnout gear have improved significantly. Accordingly, this request, which the Department anticipated and budgeted for, involves fifteen sets of turnout gear, all to outfit members who are now wearing outdated turnout gear.

For the past three years the Department has purchased Innotex turnout gear, which was the successful bidder in a Department sponsored competition between various turnout gear manufacturers and dealers, built to the Department's particular specifications. This gear thus costs \$2,275.52 per set, for a total cost of \$34,132.80 for this package. The quote from Phoenix Safety, the dealer for this gear, is attached.

Additionally, the Department is requesting purchase of 45 particulate blocking firefighting hoods. These hoods fit over a firefighter's head (somewhat akin to a ski mask) and protect the head, face, and ears from heat and flames. While the Department has many of these, the new hoods that are being requested are particulate blocking, which protect the firefighter against the various carcinogens that are present in the smoke they encounter when fighting fires. Recent research has found that the older style hoods essentially soak in the carcinogens, and bask the firefighters face with these dangerous particles. Accordingly, the newer technology is such that the hoods block the carcinogens. These hoods are \$105.00 each, for a total cost, to outfit the

entire Department, of \$4,725.00. Accordingly, the total cost of this package of gear and hoods is **\$38,857.80.**

The Department has planned for these purchases and would fund it from line 206.982.000, capital operating equipment. I am requesting the Board approve this purchase so that the Department may outfit our remaining firefighters with new turnout gear that is compliant with current standards. I appreciate the Board's consideration of this proposal and would be happy to address any questions or concerns any Board member might have. Thank you.

In the event that less than the entire principal amount of a bond is called for redemption, upon surrender of the bond to the Bond Registrar, the Bond Registrar shall authenticate and deliver to the Registered Owner of the bond a new bond in the principal amount of the principal portion not redeemed.

Any defect in such notice shall not affect the validity of the redemption proceedings. Bonds so called for redemption shall not bear interest after the date fixed for redemption, provided funds are on hand with the Bond Registrar to redeem the same.

TERM BOND OPTION: Bonds maturing in the years ____-____, inclusive, are eligible for designation by the original bidder at the time of sale as serial bonds or term bonds, or both. There may be more than one term bond maturity. However, principal maturities designated as term bonds shall be subject to mandatory redemption, in part, by lot, at par and accrued interest on _____ 1st of the year in which the Bonds are presently scheduled to mature. The interest on any one bond shall be at one rate only and all bonds maturing in any one year must carry the same interest rate. No bid for the purchase of less than all of the Bonds, at a price less than 99% or more than 115% of their par value or at an interest rate or rates that will result in a net interest cost of more than 5% per annum, will be considered.

BOOK-ENTRY-ONLY: The Bonds will be issued in book-entry-only form as one fully-registered bond per maturity and will be registered in the name of Cede & Co., as nominee for The Depository Trust Company, ("DTC"), New York, New York. DTC will act as securities depository for the Bonds. Purchase of the Bonds will be made in book-entry-only form, in the denomination of \$5,000 or any multiple thereof. Bidders will not receive certificates representing their interest in Bonds purchased. The book-entry-only system is described further in the Preliminary Official Statement for the Bonds.

BOND REGISTRAR, PAYING AGENT AND DATE OF RECORD: The Huntington National Bank, Grand Rapids, Michigan has been selected as bond registrar and paying agent (the "Bond Registrar") for the Bonds. The Bond Registrar will keep records of the registered holders of the Bonds, serve as transfer agent for the Bonds, authenticate the original and any re-issued bonds and pay interest by check or draft mailed to the registered holders of the Bonds as shown on the registration books of the Township kept by the Bond Registrar on the applicable date of record. The date of record for each interest payment shall be the 15th day of the month before such payment is due. The principal of and redemption premium, if any, on the Bonds will be paid when due upon presentation and surrender thereof to the Bond Registrar. As long as DTC, or its nominee Cede & Co., is the registered owner of the Bonds, payments will be made directly to such registered owner. Disbursement of such payments to DTC participants is the responsibility of DTC and disbursement of such payments to the beneficial owners of the Bonds is the responsibility of DTC participants and indirect participants as described in the Preliminary Official Statement for the Bonds. The Township may from time to time as required designate a successor bond registrar and paying agent.

PURPOSE AND SECURITY: The Bonds are to be issued pursuant to Act No. 34, Public Acts of Michigan, 2001, as amended (the "Act"), for the purpose of constructing capital improvements to the Township's building and parking lots, roads and road side trails located in the Green Oak Charter Township, Michigan (the "Capital Improvement Project"). The Township agrees to pledge for the repayment of the Bonds amounts of Township taxes levied each year provided that the amount of taxes necessary to pay the principal of and interest on the Bonds, together with the other taxes levied for the same year, shall not exceed the limit authorized by law and the Michigan Constitution.

BOND INSURANCE AT BIDDER'S OPTION: If the Bonds qualify for issuance of any policy of municipal bond insurance or commitment therefor at the option of the bidder/purchaser, the purchase of any such insurance policy or the issuance of any such commitment shall be at the option and expense of the purchaser of the Bonds. Any increased costs of issuance of the Bonds resulting from such purchase of insurance shall be paid by the purchaser. Any additional rating agency fees shall be the responsibility of the purchaser. FAILURE OF THE MUNICIPAL BOND INSURER TO ISSUE THE POLICY AFTER THE BONDS HAVE BEEN AWARDED TO THE PURCHASER SHALL NOT CONSTITUTE CAUSE FOR FAILURE OR REFUSAL BY THE PURCHASER TO ACCEPT DELIVERY OF THE BONDS FROM THE TOWNSHIP.

GOOD FAITH: A certified or cashier's check drawn upon an incorporated bank or trust company or a wire transfer in an amount equal to 2% (\$49,900.00) of the face amount of the Bonds, and payable to the order of the Township will be required of the successful bidder as a guarantee of good faith on the part of the bidder, to be forfeited as liquidated damages if such bid be accepted and the bidder fails to take up and pay for the Bonds. If a check is used, it must accompany each bid. If a wire transfer is used, the successful bidder is required to wire the good faith deposit not later than Noon, prevailing Eastern Time, on the next business day following the sale using the wire instructions provided by MFCI, LLC. The good faith deposit will be applied to the purchase price of the Bonds. No interest shall be allowed on the good faith checks, and checks of each unsuccessful bidder will be promptly returned to such bidder's representative or by registered mail. The good faith check of the successful bidder will be cashed immediately, in which event, payment of the balance of the purchase price of the Bonds shall be made at the closing.

ADJUSTMENT IN DISCOUNT OR PREMIUM: In the event the principal amount of this issue is increased or decreased, the premium or discount bid, if any, will be adjusted upwards or downwards so that it is the same percent as the premium or discount originally bid.

AWARD OF THE REFUNDING BONDS - TRUE INTEREST COST: The Bonds will be awarded to the bidder whose bid produces the lowest true interest cost determined in the following manner: the lowest true interest cost will be the single interest rate (compounded on _____, 20__ and semi-annually thereafter) necessary to discount the debt service payments from their respective payment dates to the date of delivery in an amount equal to the price

bid, excluding accrued interest. _____, 2020 is the anticipated date of delivery of the Bonds.

LEGAL OPINION: Bids shall be conditioned upon the approving opinion of Clark Hill PLC, attorneys of Detroit, Michigan (the "Bond Counsel") a copy of which opinion will be printed on the reverse side of each bond and the original of which will be furnished without expense to the purchaser of the Bonds at the delivery thereof. The fees of Bond Counsel for services rendered in connection with such approving opinion are expected to be paid from bond proceeds. Except to the extent necessary to issue such opinion and as described in the official statement, Bond Counsel has not been requested to examine or review and has not examined or reviewed any financial documents, statements or other materials that have been or may be furnished in connection with the authorization, issuance or marketing of the Bonds, and therefore, has not expressed and will not express an opinion with respect to the accuracy or completeness of the official statement or any such financial documents, statements or materials. **The Issuer reserves the right to reject any bid conditioned upon any other legal review or any other condition of the transaction if it is made a condition of the bid.**

TAX MATTERS: Under existing federal statutes, decisions, regulations and rulings, interest on the Bonds is excludable from gross income for federal income tax purposes. Interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax. The opinion set forth above is subject to the condition that the Issuer comply with all requirements of the Internal Revenue Code of 1986, as amended (the "Code"), that must be satisfied subsequent to the issuance of the Bonds in order that interest thereon be (or continue to be) excluded from gross income for federal income tax purposes. Failure to comply with certain of such requirements could cause the interest on the Bonds to be so included in gross income retroactive to the date of issuance of the Bonds. The Issuer has covenanted to comply with all such requirements. We express no opinion regarding other federal tax consequences arising with respect to the Bonds.

THE BONDS HAVE BEEN DESIGNATED AS "QUALIFIED TAX-EXEMPT OBLIGATIONS" WITHIN THE MEANING OF SECTION 265 (b) (3) OF THE INTERNAL REVENUE CODE OF 1986.

CERTIFICATE REGARDING "ISSUE PRICE": The winning bidder shall assist the Issuer in establishing the issue price of the Bonds and shall execute and deliver to the Issuer at Closing an "issue

price" or similar certificate setting forth the reasonably expected initial offering price to the public or the sales price or prices of the Bonds, together with the supporting pricing wires or equivalent communications, substantially in the form provided by Bond Counsel, with such modifications as may be appropriate or necessary, in the reasonable judgment of the winning bidder, the Issuer and Bond Counsel. All actions to be taken by the Issuer under this Notice of Sale to establish the issue price of the Bonds may be taken on behalf of the Issuer by the Issuer's municipal advisor identified herein and any notice or report to be provided to the Issuer may be provided to the Issuer's municipal advisor.

The Issuer intends that the provisions of Treasury Regulation Section 1.148-1(f)(3)(i) (defining "competitive sale" for purposes of establishing the issue price of the Bonds) will apply to the initial sale of the Bonds (the "competitive sale requirements") because:

- (1) the Issuer is disseminating this Notice of Sale to potential underwriters in a manner that is reasonably designed to reach potential underwriters;
- (2) all bidders shall have an equal opportunity to bid;
- (3) the Issuer anticipates receiving bids from at least three underwriters of municipal bonds who have established industry reputations for underwriting new issuances of municipal bonds; and
- (4) the Issuer anticipates awarding the sale of the Bonds to the bidder who submits a firm offer to purchase the Bonds at the lowest true interest cost, as set forth in this Notice of Sale.

Any bid submitted pursuant to this Notice of Sale shall be considered a firm offer for the purchase of the Bonds, as specified in the bid.

In the event that competitive sale requirements are satisfied, the winning bidder shall be expected to certify as to the reasonably expected initial offering price of the Bonds to the public.

In the event that the competitive sale requirements are not satisfied, the Issuer shall so advise the winning bidder. The Issuer shall treat (i) the first price at which 10% of a maturity of the Bonds (the "10% test") is sold to the public as

of the sale date as the issue price of that maturity and (ii) the initial offering price to the public as of the sale date of any maturity of the Bonds not satisfying the 10% test as of the sale date as the issue price of that maturity (the "hold-the-offering-price rule"), in each case applied on a maturity-by-maturity basis (and if different interest rates apply within a maturity, to each separate CUSIP number within that maturity). The winning bidder shall advise the Issuer if any maturity of the Bonds satisfies the 10% test as of the date and time of the award of the Bonds. Any maturity of the Bonds (and if different interest rates apply within a maturity, to each separate CUSIP number within that maturity) that does not satisfy the 10% test as of the date and time of the award of the Bonds shall be subject to the hold-the-offering-price rule. Bids will not be subject to cancellation in the event that any maturity of the Bonds is subject to the hold-the-offering-price rule. Bidders should prepare their bids on the assumption that some or all of the maturities of the Bonds will be subject to the hold-the-offering-price rule in order to establish the issue price of the Bonds.

By submitting a bid, each bidder confirms that, except as otherwise provided in its bid, it has an established industry reputation for underwriting new issuances of municipal bonds, and, further, the winning bidder shall (i) confirm that the underwriters have offered or will offer the Bonds to the public on or before the date of award at the offering price or prices (the "initial offering price"), or at the corresponding yield or yields, set forth in the bid submitted by the winning bidder and (ii) agree, on behalf of the underwriters participating in the purchase of the Bonds, that the underwriters will neither offer nor sell unsold Bonds of any maturity to which the hold-the-offering-price rule shall apply to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

- (1) the close of the fifth (5th) business day after the sale date; or
- (2) the date on which the underwriters have sold at least 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The winning bidder shall promptly advise the Issuer when the underwriters have sold 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering

price to the public, if that occurs prior to the close of the fifth (5th) business day after the sale date.

The Issuer acknowledges that, in making the representation set forth above, the winning bidder will rely on (i) the agreement of each underwriter to comply with the hold-the-offering-price rule, as set forth in an agreement among underwriters and the related pricing wires, (ii) in the event a selling group has been created in connection with the initial sale of the Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the hold-the-offering-price rule, as set forth in a selling group agreement and the related pricing wires, and (iii) in the event that an underwriter is a party to a retail distribution agreement that was employed in connection with the initial sale of the Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the hold-the-offering-price rule, as set forth in the retail distribution agreement and the related pricing wires. The Issuer further acknowledges that each underwriter shall be solely liable for its failure to comply with its agreement regarding the hold-the-offering-price rule and that no underwriter shall be liable for the failure of any other underwriter, or of any dealer who is a member of a selling group, or of any broker-dealer that is a party to a retail distribution agreement to comply with its corresponding agreement regarding the hold-the-offering-price rule as applicable to the Bonds.

By submitting a bid, each bidder confirms that: (i) any agreement among underwriters, any selling group agreement and each retail distribution agreement (to which the bidder is a party) relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter, each dealer who is a member of the selling group, and each broker-dealer that is a party to such retail distribution agreement, as applicable, to comply with the hold-the-offering-price rule if and for so long as directed by the winning bidder and as set forth in the related pricing wires, and (ii) any agreement among underwriters relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter that is a party to a retail distribution agreement to be employed in connection with the initial sale of the Bonds to the public to require each broker-dealer that is a party to such retail distribution agreement to comply with the hold-the-offering-price rule if

and for so long as directed by the winning bidder or such underwriter and as set forth in the related pricing wires.
