Juneau County
Community Support Program

Mission Statement

Providing quality services for individuals and families in a safe, supportive, respectful partnership by promoting health, well-being, and self-sufficiency.

Vision Statement

To promote safety, well-being, and self-sufficiency for the individuals of Juneau County. We strive to do so by remaining open-minded to the ideas and suggestions of others; provide person-centered services in the least intrusive and least restrictive way possible; collaborate with our departments and community partners; to function with integrity in all matters, manage public resources responsibly; and acknowledge the values and beliefs of others in a courteous and respectful manner.

Community Support Program

What is CSP?

The Juneau County Community Support Program (CSP) provides comprehensive mental health and case management services to adults diagnosed with a severe and persistent mental illness.

Because such a diagnosis affects all aspects of an individual's life, effective treatment must address not only the management and reduction of symptoms, but also the individual's full range of unique personal, social, and economic needs.

Services to CSP clients are provided almost exclusively in the community, with the goal of assisting each client in gaining and/or maintaining increased independence in the community.

Each individual entering the Community Support Program is assigned a case manager who develops a treatment plan with the individual, provides support and outreach, and assists in coordinating other services.

Services Provided

- Psychiatric Services
- Medication prescription, administration, monitoring, and education
- Case Management
- Symptom Management
- Crisis Intervention
- Individual/family counseling and therapy services
