Town of Kiawah Island  
Public Projects and Facilities  
Attn: Petra Reynolds, Town Clerk  
4475 Betsy Kerrison Parkway  
Kiawah Island, SC 29455

**RE: RFP FOR CONSULTING, ENGINEERING, AND INSPECTION (CEI) SERVICES FOR  
ROAD IMPROVEMENTS AND BIKE PATH EXTENSION ON BEACHWALKER DRIVE**

Dear Ms. Reynolds and Selection Committee,

Dennis Corporation respectfully submits the following Qualifications and Price Proposal to provide consulting, engineering, and inspection services for the Beachwalker Drive right-turn lane, overlay improvements, and bike path extension project. We are excited for this opportunity to work with the Town of Kiawah Island on this important project.

Dennis Corporation is prepared to perform all services requested from our convenient office location in Mt. Pleasant, SC. Our firm is one of the *largest locally owned and operated engineering, surveying, and CEI firms* in South Carolina. We have an experienced staff of certified CEI personnel who are practiced in providing construction engineering and inspection for roads and bridges, survey verifications, material testing, and CPM schedule reviews. Working with Dennis Corporation offers you an qualified and licensed team of professional surveyors, engineers, inspectors, and support staff ready to take this project from start to finish.

- **Experience, Qualifications, and Competence** Dennis Corporation's core CEI staff comprise of certified senior inspectors, with experience on numerous SCDOT and coastal area projects. We work throughout the state on municipal, county, and state projects performing construction inspection and materials testing services. We have inspected over 500 South Carolina roadways in our 13 year history.
- **Familiarity with SCDOT Practices and Procedures** All of our CEI personnel are familiar with SCDOT practices and procedures. In addition to our past work experience, our firm employs former SCDOT employees, including one of our senior inspectors. Collectively, these team members possess many years of SCDOT experience and certifications providing qualified and accurate roadway inspections.
- **Responsiveness to the Town, including availability of key staff, and the ability to mobilize quickly and meet project schedules and current workloads** Dennis Corporation has all certified CEI personnel and necessary equipment ready to begin this project. We are currently providing similar services for the Town of Mt. Pleasant on a major improvement project on Coleman Blvd. We can provide personnel at a moment's notice. Our staff are accustomed to the fast response times and tough schedules required to meet project completion dates for this type of contract. Our current workload is such that we can have inspectors at any project site **immediately upon notice to proceed**. Our convenient location in Mt. Pleasant can facilitate a quick, effective response to all of your project needs.

Since our firm's start in 2005, Dennis Corporation has assisted many coastal clients with roadway improvement projects. Our past experience and in-house resources allow us to provide solutions that will meet all of your needs. **Dennis Corporation is one of the only local firms in South Carolina concurrently licensed in surveying,**

engineering, and construction management.

The division of work for this contract within our team and our interface with the Town of Kiawah Island is depicted by the staffing plan chart located on page 23 of our submittal. The chart was developed in such a way as to ensure the rapid and accurate delivery of project milestones. Our staff will be available to commence work immediately upon notice to proceed. We aspire to develop into a seamless extension of your staff and deliver a quality service that exceeds your expectations.

Working with Dennis Corporation on the Beachwalker Drive and Bike Path Extension project offers the Town of Kiawah Island:

- A dedicated Project Manager with an Engineering Degree and Construction Management Certifications
- A Guaranteed On-Site Senior Inspector for Everyday of Construction
- An Invested Start-to-Finish Team Approach with Flexibility and Reliant Communication
- In-Depth Knowledge of the Project Area

Dennis Corporation is committed to serving the Town for this contract. We appreciate your time reviewing this submittal. If you have any questions or require any additional information, please do not hesitate to contact me on my mobile at (803) 206-4372, or via email at [rcraps@denniscorporation.com](mailto:rcraps@denniscorporation.com).

Sincerely,

*Ricky Craps*

## METHODS & MEANS

Project Site, Beachwalker Drive Entrance to Beachwalker County Park.

Dennis Corporation experts are prepared to provide the Town of Kiawah Island with CEI services for the Beachwalker Project

Dennis Corporation is pleased to provide you with this summary of qualifications and bid to provide Consulting, Engineering, and Inspections (CEI) services for the Town of Kiawah Island's Beachwalker Drive and Bike Path Extension project. We are a fully licensed South Carolina engineering, surveying, and construction management firm specializing in a wide range of services. Employing over 50 professionals, Dennis Corporation's specific fields of expertise include material sampling and testing, construction services, environmental compliance, work zone monitoring, CE&I Services, CEPSCI inspections, and transportation inspections. Since our firm's start in 2005, we have worked diligently side by side with many South Carolina county staffs across the state to provide high quality services and complete projects on time and on budget. Dennis Corporation operates as a South Carolina C Corporation. Our firm is one of the largest locally owned and operated engineering, surveying, and inspection services firms in South Carolina. Dennis Corporation's accomplished personnel have all the necessary training, certifications and software required to provide superior professional services for the Town of Kiawah Island.

Dennis Corporation's staff utilizes the latest equipment and software for design, survey, materials testing and construction management. The Construction Services Division has all of the necessary SCDOT certifications and equipment to perform inspections, testing, and management services for this project.

Our extensive experience has honed our ability to develop, monitor, control and manage changes in a project's scope, time, resources, cost, and risk. Every member of our firm complements each other with technical expertise and experience from working on similar roadway improvement projects.

Our staff is committed to the successful completion of this important work. Dennis Corporation personnel will attend every meeting and be made available to the Town for any questions or concerns once a project is underway. Our employees are taught the benefits of open communication with clients to assure that all aspects of a job are taken into consideration.

Dennis Corporation personnel are fully prepared to begin work at Notice to Proceed. Dennis Corporation's Construction Services Division thrives on providing the best professional inspection

services in our industry. Dennis Corporation takes pride in our responsiveness to our clients. Our inspectors and staff members are dedicated to returning phone calls and emails to our clients on the same day as they are received. We understand the importance of maintaining accurate inspection logs on-site as well at our main office. Inspectors are equipped with laptops and air cards allowing on-site inspection reports to be completed. We provide detailed and legible journals that tell a story of the construction activities on your site daily. All inspection reports are sent within 24 hours of inspection to all parties involved for review and records. If the need for a recommendation arises or a deficiency is found, those reports are sent and all parties are informed on that same day. Dennis Corporation managers review reports and attach proper backup with invoices to ensure a smoother process for us and our clients.

Dennis Corporation CEI Professionals

## DENNIS CORPORATION LIST OF SERVICES

### SURVEY

- Topographic
- Hydrographic
- Boundary
- ALTA
- Pre-Construction
- Right-of-Way Platting
- Settlement Plate Monitoring
- Construction Layout & Staking
- As-Built & Record Drawing
- Cross-Slope Verification
- 3D Scanning

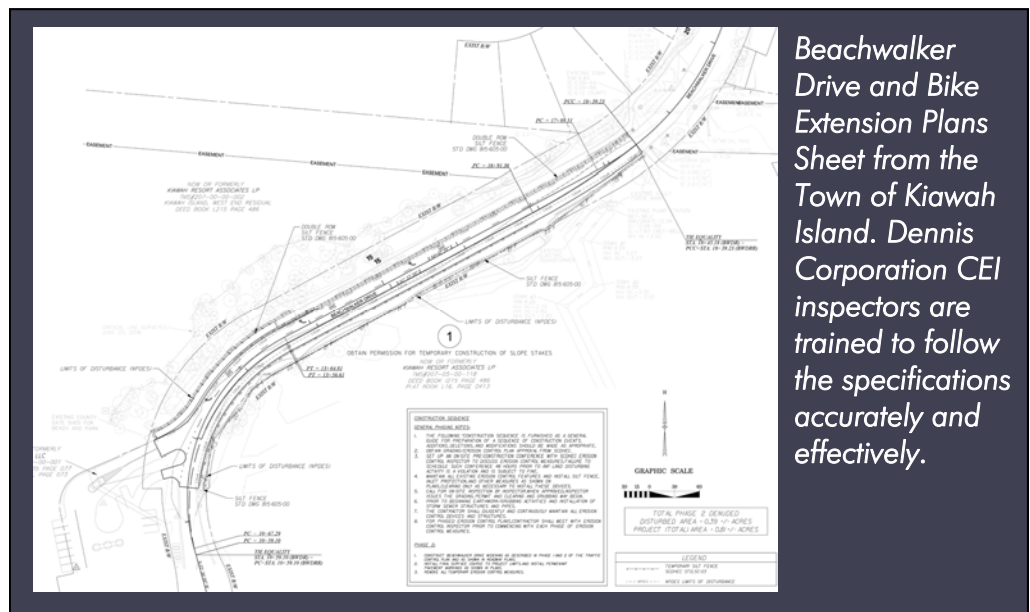

### ENGINEERING

- Project / Program Management
- Master Planning
- Civil Infrastructure Engineering
- Land Planning & Site Design
- Water & Wastewater Design

### CONSTRUCTION MANAGEMENT

- Heavy Civil Construction Management
- Building Construction Management
- Construction Cost Estimating
- Value Engineering
- Scheduling
- Financial Management
- Bidding and Award Services
- Contract Administration
- Construction Engineering & Inspection (CEI)
- Vibration Monitoring
- Special Inspections (Chapter 1 & 17)

Dennis Corporation is familiar with this project, and excited for the opportunity to work with the Town to provide CEI services. Mr. Bradley Randolph will serve as Project Manager for this roadway improvement and bike path extension project. He is currently working from our firm's Mt. Pleasant office on the Coleman Boulevard widening project for the Town of Mt. Pleasant. Mr. Randolph has an engineering degree, and found his niche supervising and managing civil field projects. He is knowledgeable of the road system in coastal areas and all SCDOT Policies and Procedures. He will be the point of contact for Town of Kiawah Island officials through the duration of this construction project.

*Beachwalker Drive and Bike Extension Plans Sheet from the Town of Kiawah Island. Dennis Corporation CEI inspectors are trained to follow the specifications accurately and effectively.*

Dennis Corporation's inspection staff understands that all materials incorporated into the projects must meet the requirement of the projects specification. In order to provide the most qualified personnel for the Town of Kiawah Island, our quality control program incorporates the following procedures:

1. All inspectors will be familiar with the plans and specifications and have a copy with them during every inspection.
2. Each inspector will be certified in the required field of inspection.
3. In order to provide a well-rounded inspector, special training is provided for our inspectors. This includes survey layout, Excel spreadsheets, first aid, and OSHA safety training.
4. All testing equipment including nuclear gauges, air pressure meters, thermometers, and proctor molds are calibrated and these records are kept on file.

By following these procedures, we feel that our inspection staff are prepared to provide quality inspections and material testing services for

any type of project. The inspector's duties and responsibilities will include, but not be limited to:

- Maintain a daily log of all inspection activities and observations.
- Communicate with Project Manager to inform them if the work being performed is or is not in accordance with the contract requirements.
- Conduct inspections of erosion prevention and sediment control items as specified in the SWPPP and report any deficiencies.
- Pull samples of all materials (rebar, concrete, aggregates, cement, etc.) requiring laboratory testing in accordance with the approved sampling and testing program outlined in the project documents.
- Monitor all earthwork activities and drainage construction and take samples and test materials at the prescribed frequencies based on the contract requirements.
- Perform asphalt inspections to ensure proper temperature and compaction methods are being implemented.
- Immediately notify the Project Representative if a contractor fails to take corrective action recommended by the Inspector with respect to unsuitable materials, safety concerns, environmental concerns or deviations from the approved construction plans.

*Baseball Alley Culvert Replacement Construction Management and CEI Project  
in Chester County, SC.*

All of the professional inspectors at Dennis Corporation are familiar with the construction standards, regulations, and procedures of the SCDOT. Our firm has provided construction inspection services, field testing, surveying, and engineering design for a number of projects for the SCDOT, including roadway design, bridge design, traffic and safety controls, storm drainage analysis and assistance with right-of-way acquisition and/or condemnation, among other transportation construction services. Our project team consists of many staff members who give our team unique insight into the daily operation of the SCDOT, as well as aiding us in efficiently completing our projects in accordance with SCDOT standards.

*View from Beachwalker Park*

First and foremost, our firm believes in quality initiatives and the integral part they play in providing construction inspection and material testing services. Quality is an ongoing process that requires the entire team of inspectors to perform appropriate activities during the construction process. In order to achieve and exceed our quality control goals, we have identified values that our firm believes holds our work to a higher standard. Listed on the next page is Dennis Corporation's Core Values.

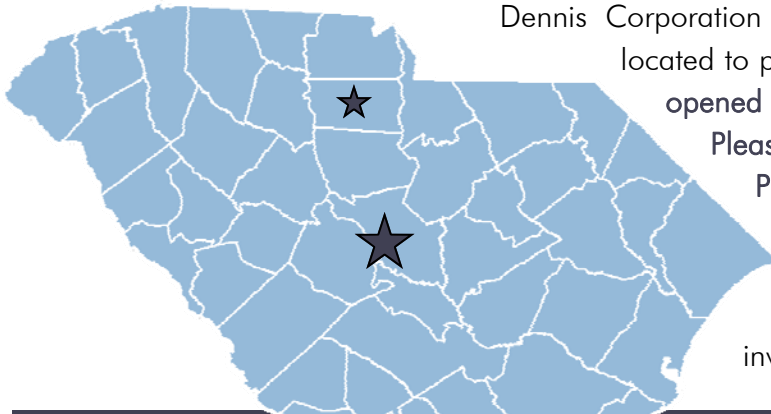

#### **Dennis Corporation Core Values:**

- Quality Control should ensure the work is done right the first time.
- Quality is achieved by preventing problems, not reacting to them.
- Quality is the responsibility of all team members at all levels.
- Personnel must have the proper training to perform their tasks.

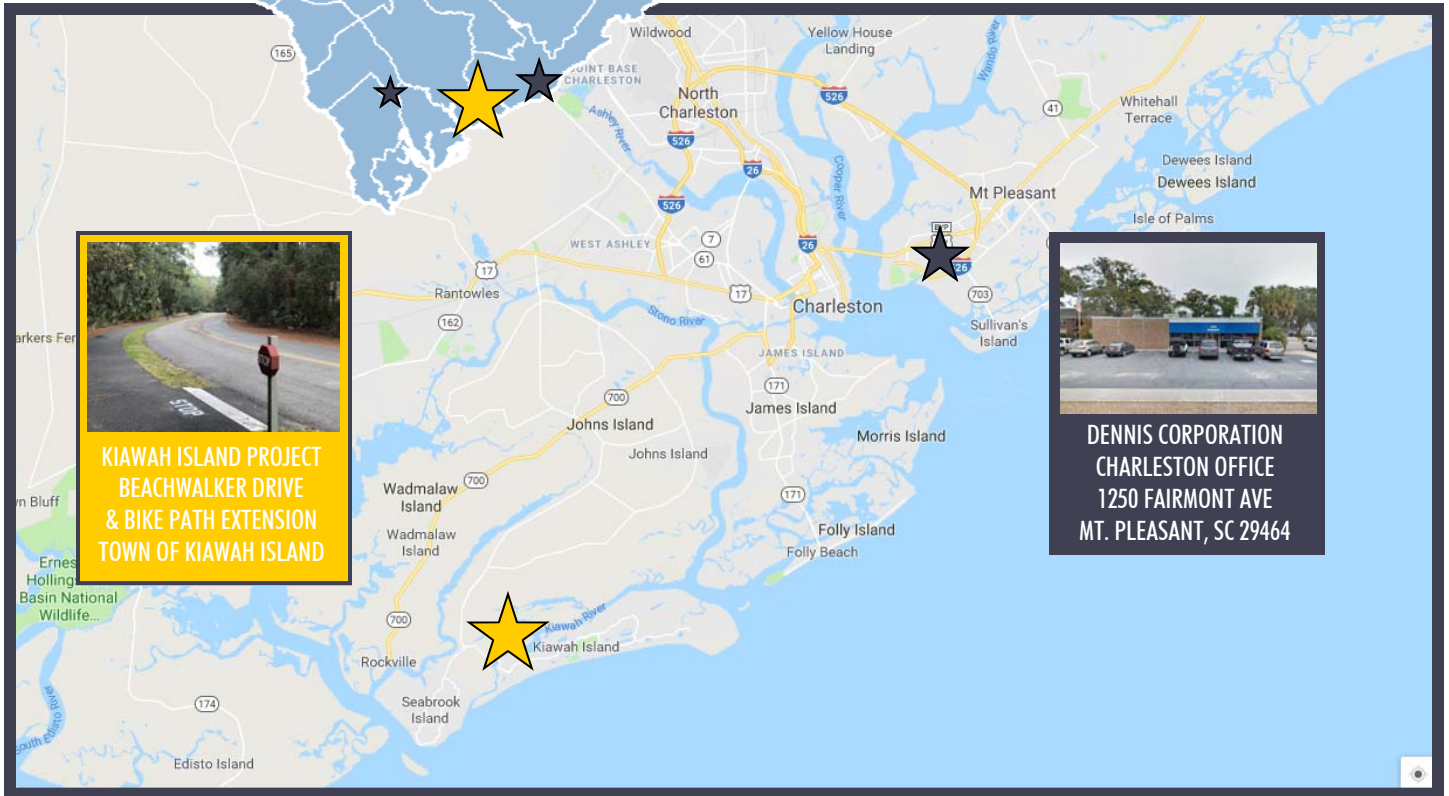

Our firm will follow these core values and put them to work for the Town. We will follow a Quality Control Plan that will be a comprehensive, well-defined written set of procedures and activities aimed at delivering services that exceed your expectations and the professional industry standards.

# TOWN OF KIAWAH ISLAND

REQUEST FOR PROPOSAL FOR CONSULTING, ENGINEERING, AND INSPECTION (CEI) SERVICES FOR ROADWAY IMPROVEMENTS AND BIKE PATH EXTENSION ON BEACHWALKER DRIVE

Dennis Corporation is headquartered in Columbia. We are centrally located to provide services to all of South Carolina. We recently opened a new Construction Management office in Mount Pleasant that is located less than 30 miles from the Project Site on Kiawah Island. We also have branch offices in Ridgeland and Chester, South Carolina. We opened our doors a little over 13 years ago, and have continued to grow responsibly while investing in the communities we serve.

KIAWAH ISLAND PROJECT  
BEACHWALKER DRIVE  
& BIKE PATH EXTENSION  
TOWN OF KIAWAH ISLAND

DENNIS CORPORATION  
CHARLESTON OFFICE  
1250 FAIRMONT AVE  
MT. PLEASANT, SC 29464

Dennis Corporation has over 30 "Mobile Office" vehicles that assist with projects throughout the state.

We are committed to the successful completion of this project's goals. Dennis Corporation personnel will attend every meeting necessary and be made available for any questions or concerns once the project is underway. Our vehicles are outfitted as mobile offices. Each truck is setup with a WiFi hotspot and a laptop with access to plans, specs, and bids as well as all of the design programs including CAD and Modeling Software. We have access to all of our information so we can better serve our clients.

## PROJECT TIMELINE

A good way to tackle any project is to start with the end in mind. We have reviewed the Town of Kiawah Island's project goals, the engineers drawings, and the request for bids from contractors for the Beachwalker Drive and Bike Path Extension project. We have developed a timeline for the project based on the scope of work and the proposed construction schedule. It is our understanding that the contractor will have 15 days to complete construction not to extend past May 15th.

DATE ESTIMATE	PROJECT TASKS
APRIL 2, 2019	Price & Qualifications Proposal Due Date
	Project Meeting -Town of Kiawah Island - Engineer - Project Stakeholders - CEI Management
APRIL 15, 2019	<i>72 hours prior to Land Disturbance Activity</i> Utility Markings
APRIL 17, 2019	<i>48 hours prior to Land Disturbance Activity</i> Preconstruction with SCDHEC on Site -Town of Kiawah Island -Contractor -Engineer -CEI Management
APRIL 22, 2019	Erosion Control / Silt Fence Setup
APRIL 22, 2019	15 Days for Construction - Inspections on Site Every Day
MAY 6, 2019	Final Inspection
MAY 8, 2019	Client, Stakeholder Walk Through with Punchlist
MAY 10, 2019	Project Closeout once Contractor Submits Final Information
MAY 15, 2019	Absolute Deadline: May 15, 2019

## REFERENCES

*Our employees become an extension of our client's staff. Readily available to take on the next project, our engineers are professional problem solvers.*

Our clients are our best sales team. We feel confident that if the Town of Kiawah Island were to call any of the clients listed in this proposal, they would be able to give you numerous examples of how Dennis Corporation went above and beyond serving each of our clients with an attention to detail that sets us apart from our competitors.

The key to our success is responsiveness to our clients. New employees are taught our principals of returning phone calls and emails the same day. We have found that most errors involved with projects stem from a lack of communication. To this end, we try to eliminate this

from occurring with any of our projects. We believe we have been successful in satisfying our past and current clients' needs, leading to repeat business and word-of-mouth encouraging the growth of our company. Highlighted on the following pages are recognition from clients testifying to our level of service. These are letters of recommendation we have received due to our past innovative work; all of which attest to our quality performance on past projects.

Re: Town of Mt. Pleasant Roadway Improvements

Dear Frank,

I would like to take this opportunity to commend you and your staff for the professionalism and exceptional level of Construction Engineering and Inspection (CE&I) on the most recent roadway projects that Dennis Corporation has been involved with for the Town of Mt. Pleasant.

Your "Team" was on site every day, were easy to find and always a phone call away to address any questions or concerns that we would have. By working close with Town staff and the Construction crews your team served as the liaison between all involved in the project. The attention to detail and common sense approach accelerated the crews to complete their tasks on schedule while still maintaining a high level of Quality and Safety.

The Town of Mt. Pleasant looks forward to continuing the close working relationship that we have fashioned on upcoming projects in the near future. In the meantime please feel free to use my contact as a reference.

Sincerely,

  
Paul Lykins  
Transportation Project Engineer  
Town of Mt. Pleasant

Columbia, S.C. 29201

Your transportation design staff provided excellent work for the Town of Lexington's Vision Plan over the past year. The comprehensive long term master plan for our Town could not have been completed without your valuable transportation engineering services.

As you well know, at most of the public meetings, traffic congestion, road widening and signals were the public's primary concern. Dennis Corporation's professionalism in addressing these issues and proposing realistic solutions has been greatly appreciated.

On behalf of the Town Council and the citizens of the Town of Lexington, I want to personally thank you and your staff for outstanding work. We look forward to continuing the excellent partnership between the Town and the Dennis Corporation.

Sincerely,

  
T. Randall Halfacre  
Mayor  
Town of Lexington

"...Your transportation design staff provided excellent work for the Town of Lexington... Dennis Corporation's professionalism in addressing these issues and proposing realistic solutions has been greatly appreciated..."

I wanted to take this opportunity to thank you for the outstanding engineering, construction inspection, construction management, and project oversight your firm has performed for the Town of Irmo on recent projects. Dennis Corporation's engineering solutions have been a tremendous asset to the citizens of our town. Your company's sound engineering practices and your whole-hearted approach to supporting your clients have made Dennis Corporation an extraordinary consultant to work with.

It has been an absolute pleasure working with you. Your leadership and technical knowledge has directly influenced the success of several projects that in the past presented several challenges. I would recommend you and Dennis Corporation to anyone who regards timeliness, trustworthiness, and overall professionalism as the utmost qualities for an engineering firm. The quality of work that you continue to provide is far superior to any other consulting firm in your industry. Your efforts directly contribute to the unmeasured success of Dennis Corporation.

Thank you again for the professionalism you and your highly qualified staff have shown on all of the projects that you have participated in with the Town of Irmo.

Sincerely,  
  
 Robert M. Brown  
 Project Coordinator

MEMORANDUM FOR Whom It May Concern

SUBJECT: Letter of Recommendation For the Dennis Corporation

1. The purpose of this document is to provide my absolute strongest recommendation for the Dennis Corporation of Columbia, South Carolina in regards to any projects requiring engineering, surveying, construction management, and quality assurance/quality control (QA/QC) testing and inspection requirements.
2. In all of my dealings with the Dennis Corporation they have demonstrated unmatched expertise, professionalism and technical abilities. One of the fastest growing engineering companies in the nation, the Dennis Corporation has provided invaluable engineering, survey and construction management service to Shaw Air Force Base, Sumter County and the State of South Carolina. I have been more than satisfied with every aspect of support and the services provided by the Dennis Corporation.
3. Please do not hesitate to contact me if you have any questions at telephone 813 420-5195 or Email: [james.lechner@us.army.mil](mailto:james.lechner@us.army.mil)

# PROPOSED NTE BUDGET

March 28, 2019

RE: Kiawah Island Beachwalker Drive Turn Lane

Dennis Corporation is pleased to present this cost estimate of construction engineering & inspection services for the above referenced project.

CONSTRUCTION ENGINEERING & INSPECTION SERVICES: \$14,100.00

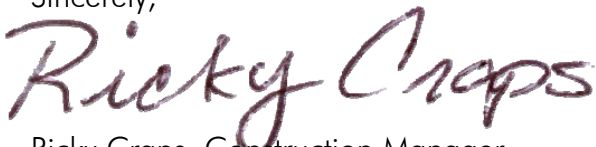

- Project Manager
- SCDOT Certified Earthwork/ Roadway/CEPSCI Inspector
- IRS Mileage Rate

## STANDARD HOURLY RATES FOR CE&I SERVICES

<u>CLASSIFICATION</u>	<u>HOURLY RATE</u>
PROJECT MANAGER	\$140
SCDOT CERTIFIED SENIOR ROADWAY INSPECTOR	\$100

Dennis Corporation appreciates the opportunity to provide this quotation of construction engineering and inspection services for this project. We look forward to the prospect of working with the Town of Kiawah Island on this project. If you have any questions regarding any items in this quotation or require any additional information, please contact me direct at (803) 206-4372.

Sincerely,

Ricky Craps, Construction Manager

## SIMILAR PROJECT EXPERIENCE

Dennis Corporation's CEI inspectors are trained, experienced, and skilled in many areas of transportation improvement projects. Our personnel have been involved with similar projects involving roadway, sidewalk, bike path and trail system inspections. Dennis Corporation's technical and field experience translates into effective estimate and schedule development. We will alert you immediately if there is a concern of anticipated construction pitfalls, delays, extra costs, or negative impacts. It is our goal to keep the contractor on schedule while helping to deliver the best product possible. Below and on the following pages are examples of similar projects we have successfully completed.

CORPORATION

*Mountain Laurel Drive After Construction*

### PROJECT DESCRIPTION

Dennis Corporation was retained to provide survey, design, and construction support to pave Aiken County's Mountain Laurel Drive. The roadway is approximately 1,300 LF in a residential area. This project was funded with C-Funds. The roadway section consists of open swales / ditches for storm water conveyance and includes the design of an offset cu-de-sac at the end of the roadway. The roadway is contiguous to approximately ten individual parcels. Our engineers attended plan review meetings, pre-construction conference, and site visits over the course of this project. Permitting requirements included NPDES coverage through Aiken, MS4, and Encroachment permits through SCDOT.

### SCOPE OF SERVICES

**DENNIS**  
CORPORATION

### PROJECT DESCRIPTION

Dennis Corporation was retained by Chester County to Survey, Design, and perform Inspections and Testing on Murdock Road. The county maintained road was older, and did not meet the county requirements. Dennis Corporation designed a widening solution for this project. Our engineers assembled a cost estimate and Final Construction Plans.

### SCOPE OF SERVICES

- CEI
- Roadway Design
- Utility Coordination
- Pavement Design
- Hydrology / Hydraulics
- Pre-Final Plans Preparation
- QA/QC
- Final Plans Prep and Spec
- NPDES Permitting
- Cost Estimating
- Bid Documents
- Advertisement and Award

### SERVICES PROVIDED BY

**DENNIS**  
CORPORATION

Installation of new Culvert

Emergency Culvert Replacement Construction

### PROJECT DESCRIPTION

Dennis Corporation has provided Chester County with On-Call engineering, surveying, and construction management services for over ten years. When the culvert near a popular Baseball Youth Complex began flooding and making the roadway impassable, our firm was onsite within 24 hours. Our engineers worked quickly to put together a scope and fee for the County. We took this project from initial scope through construction closeout providing detailed construction drawings, contractor bidding and award services, CEI, and project closeout services. The new culvert is a good example of how Dennis Corporation moves quickly for our clients and keeps budget and scope in mind throughout the entire project.

### SCOPE OF SERVICES

- Construction Management
- Construction Documents
- CEI
- Bidding & Award Services
- Conceptual Design
- Contract Administration
- NPDES Permitting
- Permit Compliance Inspections
- Planning
- Project Management
- Public Outreach
- Quality Control Review
- Roadway Design
- Scheduling
- Sediment / Erosion Control Design
- Storm Drainage Design
- Structural Design
- Sub-Surface Utility Engineering
- Utility Coordination
- Wetlands Delineation

Concrete Testing for Broad River Road Bridge Project

Temporary Bridge for Construction

### PROJECT DESCRIPTION

Dennis Corporation provided inspections on the \$28,000,000 bridge replacement of the 1125' long 4-travel lane bridge over the Broad River in Richland County, SC. The Foundation consisted of concrete driven pile end bents and 78" drilled shaft interior bents. 72' tall (118' long) concrete girders and a 9" cast-in-place concrete deck. Daily tasks consisted of ensuring SCDOT standard compliance, ensuring the use of pre-qualified construction materials, inspections of all construction tolerances per plan, inspection of all construction materials during placement, completion of all SCDOT inspection forms, weekly erosion and traffic control inspection, tracking daily quantities and reviewing for pay application.

### SCOPE OF SERVICES

- CEI
- Construction Management
- Drilled Shaft Tests
- CEPSCI Inspections
- Project Controls
- Verify Drilled Shaft Sockets

*Newly Widened Roadway*

### PROJECT DESCRIPTION

This project consisted of Widening SC 802 in Beaufort County and included the widening of the roadway and installation of a new bridge. The SC 802 Bridge, located over the Beaufort River, was widened to include the new construction of a 4,211 feet long by 46.6 feet wide bridge parallel to the existing McTeer Bridge. The project spans over tidal marshes and the Beaufort River (Intercoastal Waterway). The roadway portion was widened from two lanes to four lanes and includes grading, concrete curb, gutter, sidewalks, pavement markings and guardrails. Dennis Corporation was heavily involved in the project, providing surveying, roadway design, traffic engineering, construction management, construction engineering and inspection, and testing and sampling. The CEI for the project involved 15 inspectors who monitored day and night work throughout construction.

### SCOPE OF SERVICES

- Construction Management
- CEI
- Environmental Assessment
- Finding of No Significant Impact
- Bridge Survey
- SUE
- Roadway Design
- Hydraulic Design
- Utility Coordination
- Public Involvement
- Traffic Signal Design
- Wetland Mapping
- Utility Mapping
- Public Involvement

*Building the Rebar Substructure*

# STAFFING PLAN

After reviewing the scope of services and familiarizing ourselves with the Town of Kiawah's needs, Dennis Corporation has created a project organizational chart that we believe will best serve the Town. Our professional key personnel's experience and know-how ensure this project will be completed skillfully and cost-effectively. Our firm excels in attention to detail and concern for proper use and management of clients' resources, resulting in an unparalleled commitment to project completion on time and within budget. The below staffing plan identifies the key members of the team and delineates their roles and responsibilities.

# STATEMENT OF QUALIFICATIONS

Dennis Corporation CEI inspectors testing concrete on project site.

Dennis Corporation Inspectors are SCDOT Certified and prepared to provide CEI Services for this project. Mr. Bradley Randolph will lead a team of experienced certified inspectors to take this project through to completion. We will be responsive to the needs of the Town. We understand the importance of this roadway completion before the Memorial Day weekend holiday.

Dennis Corporation has a positive relationship with contractors throughout the state. We work as a team leader to ensure the project is built to specifications. Mr. Randolph will ensure that resources are adequately utilized, decisions made quickly, and the right play are called at the right time. On the following pages are our key senior inspector resumes and certifications. Also, below is a chart of the SCDOT Inspections Tasks and the experience of our key senior staff completing roadway CEI projects.

**Coleman Blvd. Widening CEI and CM; Mt. Pleasant, SC:** Dennis Corporation is currently providing Construction Engineering and Inspection services for the Coleman Boulevard Revitalization Project in Mount Pleasant. Mr. Randolph is the acting Resident Construction Engineer on site for this 2 year project. He manages a team of inspectors who closely monitor contractors to ensure that tasks are being completed on schedule with quality materials. Mr. Randolph works directly with the Town of Mt. Pleasant detailing the construction status of this highly visible project. He ensures that the job is being built to SCDOT, Charleston County, and all federal roadway specifications.

**SC 51 Section 3 & 4; Florence, SC:** Dennis Corporation provided Surveying and Vibration Monitoring services to RE Goodson in Florence for this project. Mr. Randolph provided Senior Inspector services assisting in the vibration monitoring during construction. He worked closely with the contractors on site to determine high volume construction elements and communicated with the client to ensure that there would be no liabilities.

**I-20 Rehabilitation; Lee, SC:** Dennis Corporation provided Surveying and Cross Slope Verification services to Palmetto Corporation in Lee County for this project. Mr. Randolph provided on-site cross slope verification inspection services. His background in engineering made him the ideal candidate to provide on site construction inspections and verifications for the in office designers. Mr. Randolph worked closely with the client to provide accurate information.

**Great Pee Dee Heritage Preserve's Hurricane Creek Bridge; Darlington, SC:** Dennis Corporation provided design, survey and inspections and testing services for the Great Pee Dee Heritage Preserve's Hurricane Creek single lane bridge repairs and improvements. Mr. Randolph was responsible for providing construction management support services and inspections.

**Great Falls Elementary Roadway Improvements; Chester, SC:** Dennis Corporation provided inspections and testing services for the elementary school roadway, bus loop, and parking lot improvements. Mr. Randolph was responsible for reviewing and approving contractor submittals, scheduling a pre-construction conference, providing Quality Assurance testing and inspections, maintaining daily work records, and performing the final inspections.

**Calhoun County CTC; Calhoun County, SC:** In addition to survey and engineering, Dennis Corporation provided Calhoun County with CEI services for their CTC Program. Mr. Craps managed the inspectors and construction administration for all the roadways our firm design engineered. He provided CEI for over 10 miles of roadway for this contract.

**Carley Circle, Honeysuckle Lane, and Portions of Miles Road; Chesterfield County, SC:** Dennis Corporation provided Construction Engineering and Inspection services for Carley Circle, Honeysuckle Lane, and portions of Miles Road in Chesterfield County as part of their 2015 CTC improvements. These were neighborhood roadways that required community relations and constant communication. Mr. Craps managed the team of inspectors who were responsible for inspection services on these roadway improvement projects.

**SC 165 Delemar Hwy; Dorchester, SC:** Mr. Craps provided pre-construction services for this roadway widening project. Dennis Corporation surveyed, designed, and administered more than two miles of roadway widening improvements along SC-165 from Carolinian Avenue to Ashley Ridge High School in Dorchester County.

**Cedar Creek Subdivision Pavement Microsurfacing; Aiken, SC:** This project consisted of the micro surfacing of approximately 100,000 SY to improve select roadways in the Cedar Creek Subdivision. It included full depth patching, crack seal and replacement of pavement markings. Mr. Craps provided all the CEI and material testing for this project

**SC 802 CEI; Beaufort County, SC:** This project consisted of widening SC 802 in Beaufort County and included improvements to the roadway and the installation of a new bridge. Mr. Craps was heavily involved with the construction engineering and inspection for this project along with 14 other inspectors. Mr. Craps monitored day and night work throughout the construction.

**Murdock Road Widening; Chester, SC:** Mr. Craps performed Inspections and Testing on Murdock Road to assist the Dennis Corporation team with designing a widening solution for this project. The county maintained road was older, and did not meet the county requirements.

**JIM STEWART**

**Coleman Blvd. Widening CEI and CM; Mt. Pleasant, SC:** Dennis Corporation is currently providing Construction Engineering and Inspection services for the Coleman Boulevard Revitalization Project in Mount Pleasant. Mr. Stewart is serving as Senior Inspector on this 2 year project. He works closely with contractors to ensure that tasks are being completed on schedule with quality materials. He oversees the materials testing and assists with Quality Assurance.

**US 278 Streetscape and Intersection Improvements; Varnville, SC:** Dennis Corporation was selected by the Town of Varnville to improve a dangerous intersection at US 278 and SC63 near their town hall. The intersection and streetscape improvement project included railroad coordination, environmental permitting, public transportation coordination, landscape design, turn lanes, sidewalk enhancements, traffic signals, public parking design, roadway widening, contract administration, bidding services, and public meeting presentations. Mr. Stewart was responsible for Quality Control during design, ensuring that all SCDOT procedures and specifications were followed.

**Wilson Hall Road/Wise Drive; Sumter, SC:** Dennis Corporation provided Construction Management and Construction Engineering and Inspections services to Sumter County for this project. CEI services included inspection, materials testing, quality assurance, and quality field testing with certified inspectors. Mr. Stewart provided Senior Inspector services on this intersection improvement project for Sumter County.

**Carley Circle, Honeysuckle Lane, and Portions of Miles Road; Chesterfield County, SC:** Dennis Corporation provided Construction Engineering and Inspection services for Carley Circle, Honeysuckle Lane, and portions of Miles Road in Chesterfield County as part of their 2015 CTC improvements. These were neighborhood roadways that required community relations and constant communication. Mr. Stewart worked closely with the contractors and the County, he was responsible for inspection services on these projects.

**ATC Roadway Asphalt Inspections; Aiken County, SC:** Dennis Corporation worked with ATC Site Construction to provide thirty party testing for the Aiken County asphalt roadway paving project. Mr. Stewart was responsible for ensuring accurate asphalt testing was completed in accordance with the SCDOT procedures.

**SCDOT Construction of Three Bridges over Wateree River; Sumter County, SC:** Mr. Mattox oversaw all concrete testing and sampling. Mattox also supervised bridge elevations, concrete pours, rebar placement, mechanical splices and pile driving. This project was under Dennis Corporation's three year, on-call contract for construction engineering and inspection services for the SCDOT.

**SCDOT Road Improvement Project; Kershaw and Sumter Counties, SC:** This project improved Paschals Rd., Richardson Blvd., Quail Lane, Moultrie St., Confederate Rd., and Furman Field Rd. This project consisted of roadway widening, milling and full depth patching. Mr. Mattox supervised day to day operations and coordinated with the contractor. He performed daily testing, verified quantities for payment, supervised traffic control and coordinated daily activities with the prime contractor and subs. This project was under Dennis Corporation's three year, on-call contract for construction engineering and inspection services for the SCDOT.

**SCDOT Road Improvement Project; Sumter and Lee Counties, SC:** This project consisted of widening, milling, full depth patching, surfacing, thermo and paint application, shoulder work and final grassing on Hwy 15, Hwy 341, Plowden Mill Rd. and St. Paul's Rd. Mr. Mattox supervised daily activities such as traffic control, testing and sampling. He assisted a SCDOT Engineer in determining change orders and design. Mr. Mattox also determined all quantities and authorized payment. This project was under Dennis Corporation's three year, on-call contract for construction engineering and inspection services for the SCDOT.

**Intersection Improvement at Session Road and Wildewood Road; Kershaw County, SC:** Near Elgin, SC This job consisted of right-of-way clearing, relocation of overhead utilities, RCP crossline replacement, offsite drainage system, erosion control inspections, manhole construction for drainage system, milling, surfacing, roadway paint, and grassing. Mr. Mattox was responsible for day to day operations, coordinating with contractors, and quality control at concrete batch plants. This project was under Dennis Corporation's three year, on-call contract for construction engineering and inspection services for the SCDOT.

**Coleman Boulevard Revitalization Project; Mount Pleasant, SC:** Dennis Corporation is currently providing CEI services for the widening and improvements to Coleman Boulevard in Mount Pleasant. Mr. Whitaker provided Construction Vibration Monitoring services during a phase of this project and has provided CEI services. He works closely with contractors to ensure that tasks are being completed on schedule with quality materials. He collects samples for materials testing.

**Chester CTC Road Improvement Programs; Chester County, SC:** Mr. Whitaker has provided construction engineering inspection services on roadways in Chester County under our on-call contract. Roads included in this contract: Cameron Road, Cradle Street, Gethsemane Church Road, Howe Road, Cherokee Drive, Durham Road, Hall Street, Mt. Tabor (S-466), Mt. Tabor (S-151), Old Store Road, Roof Lane, and Russell Road.

**Calhoun CTC Road Improvement Program; Calhoun County, SC:** Dennis Corporation was retained to provide professional services for Calhoun County's Road Improvement Program. Roads under this program included: Griffith Lane, Yenny Lane, and Lake Marion Drive. Mr. Whitaker was on-site to provide CEI services on roads included in this contract.

**SC 51 Section 3 and 4; Florence County, SC:** Dennis Corporation was retained to provide Construction Vibration Monitoring services for the SCDOT SC 51 project in Pamplico. Mr. Whitaker was on-site to provide a pre-construction condition assessment, crack monitoring during construction, vibration monitoring during construction, and method of measurement.

**Hardscrabble Road Widening Project; Richland County, SC:** Dennis Corporation was selected to provide Construction Vibration Monitoring services for the SCDOT Hardscrabble Road Widening Project in Richland County. Mr. Whitaker has been on-site to provide CEI services, pre-construction condition assessments, crack monitoring, and vibration monitoring.

Dennis Corporation CEI Inspectors are prepared to provide professional services for the Town of Kiawah Island's Beachwalker Drive and Bike Path Extension project. Below and on the following page are the key senior inspectors that will be onsite during this project.

# ADDITIONAL INFORMATION

Since our inception in 2005, Dennis Corporation has been a strong proponent of Disadvantaged Business Enterprises. Dennis Corporation was certified in 2015 as a Small Business Enterprise (SBE) through the SCDOT and is currently certified as a Charleston County Small Business Enterprise.

We appreciate the opportunity to grow as a small business in Charleston County and across the state. As a prime contractor, Dennis Corporation always promotes DBE/SBE subconsultant participation. Dennis Corporation provides equal employment opportunities (EEO) to all employees and applicants for employment without regard to race, color, religion, gender, sexual orientation, gender identity or expression, national origin, age, disability, genetic information, marital status, amnesty, or status as a covered veteran in accordance with applicable federal, state and local laws. Dennis Corporation complies with applicable state and local laws governing non-discrimination in employment in every location in which the company has facilities. This policy applies to all terms and conditions of employment, including, but not limited to, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, compensation, and training.

Dennis Corporation expressly prohibits any form of unlawful employee harassment based on race, color, religion, gender, sexual orientation, gender identity or expression, national origin, age, genetic information, disability, or veteran status. Improper interference with the ability of Dennis Corporation employees to perform their expected

job duties is absolutely not tolerated. Dennis Corporation also operates as a Drug Free Workplace. Engaging in the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited by Dennis Corporation.

We believe that our diversity and broad range of capabilities are responsible for leading our firm to the forefront of our industry and the reason Dennis Corporation was recently ranked in the top ten fastest growing firms in Columbia, South Carolina by The Capital Corporation and the South Carolina Chamber of Commerce.

Below and on the following page are some of our firm's most recent awards:

2018 | 2017 | 2016 Grant Thornton South Carolina 100

Dennis Corporation was selected by Grant Thornton in coordination with the South Carolina Chamber of Commerce as one of the top 100 private companies in the state of South Carolina.

2018 SC Chamber of Commerce Workforce Innovator Award

Dennis Corporation was humbled to be selected for the 2018 SC Chamber of Commerce's Workforce Innovator Award. Dennis Corporation won the award in the small company division and was selected based on innovation, teamwork and concept training. SC Chamber honors companies that have utilized their own resources and ingenuity to address the skills gap and help create a South Carolina workforce of the future by implementing innovative private sector solutions.

2018 | 2010 | 2008 INC 5000

Dennis Corporation was listed named the 6th fastest growing engineering firm in the United States by *Inc. Magazine's* 2010 Inc. 500|5000. With a ranking of 693, Dennis Corporation placed in the top 15 percent overall and was also ranked the number 4 overall fastest growing company in the state of South Carolina. We also received this award in 2018 and 2008.

2011 SC Small Business Person of the Year

Mr. Dan Dennis, President of Dennis Corporation was named the SC Small Business Person of the Year for the state of South Carolina in 2011 by the Small Business Administration.

2011 Dennis Corporation Ranked 23rd Fastest Growing Engineering Firm in the U.S. for all Public and Private Companies

Dennis Corporation was recently ranked the 23rd fastest-growing architecture, engineering and environmental consulting firm in the country. *The Zweig Letter's* Hot Firm 2011 List lists the 175 fastest-growing firms for 2010.

## Southeast Construction

### 2010 Dennis Corporation Ranked in the Southeast's Top Specialty Contractors for Second Year

*Southeast Construction* magazine recently released the Top Specialty Contractors for 2010. Dennis Corporation had a regional revenue for specialty contracting of \$2.78 million for this past year, placing it in the list of Top Specialty Contractors. These revenues placed Dennis Corporation in the top 25 Specialty Contractors in South Carolina at number 24 and as number 144 for the Southeast.

### 2008 Pinnacle Award for Best Supplier/ Service Company

Dennis Corporation was honored with the prestigious Pinnacle Award for Best Supplier/ Service Company from the Carolinas Associated General Contractors of America (CAGC). For 17 years, the Pinnacle Award has recognized companies within the North Carolina and South Carolina construction industry that demonstrate sound business efforts, stringent safety programs, employee benefit programs and notable contributions to the construction industry and community. **Dennis Corporation was the first engineering firm ever selected for the Pinnacle Award for Best Supplier/ Service Company.**

### 2007 ACEC Engineering Excellence Award

Dennis Corporation was recognized for their innovative project approach to several projects. In 2006, for the Fairfield County Road Improvement Program; in 2007, for the Dutchman's Creek Pedestrian Bridge and Trail in Fairfield County; and in 2008, for the Roddey Drive Pedestrian Bridge and Sidewalk in the City of Lancaster.

### 2007 Asphalt Recycling and Reclaiming Association

Dennis Corporation was also honored with a national award for the 2007 Road Improvement Program in Fairfield County. Dennis Corporation was honored by *Roads & Bridges Magazine* in its First Annual Award for Recycling Projects. Each year, the ARRA Special Recognition Awards are given to honor public officials and consulting engineers who have made outstanding contributions to the asphalt recycling and reclaiming industry.

### 2007 Roads & Bridges Magazine

In addition to receiving the ARRA award, Dennis Corporation has also been recognized in various publications for their innovative efforts to improve various county roads. The 2006 Fairfield County Road Improvement Program was applauded in the Portland Cement Association's publication in 2007. In the April 2007 edition of *Roads & Bridges Magazine*, Dennis Corporation was recognized for innovative efforts during their road improvement project and was also recognized a second time by *Roads & Bridges* magazine, in February 2008, for continuous innovative

## **INDEMNIFICATION**

Except for expenses or liabilities arising from the negligence of the Town, the offeror hereby expressly agrees to indemnify and hold the Town of Kiawah Island harmless against any and all expenses and liabilities arising out of performance or default of any resulting contract as follows:

The offeror expressly agrees to the extent that there is a causal relationship between its negligent, reckless or intentionally wrongful action or inaction, or the negligent, reckless or intentionally wrongful action or inaction of any of its employees or any person, firm or corporation directly or indirectly employed by the offeror, and any damage, liability, injury, loss or expense (whether in connection with bodily injury or death or property damage or loss) that is suffered by the Town and its employees or any member of the public, to indemnify and save the Town and its employees harmless against any and all liabilities, penalties, demands, claims, lawsuits, losses, damages, costs, and expenses arising out of the performance or default of any resulting contract from this RFP. Such costs are to include any defense, settlement, or reasonable attorneys' fees incurred by the Town or its employees. This promise to indemnify shall include bodily injuries or death occurring to offeror's employees and any person directly or indirectly employed by the offeror (including without limitation any employee of any subcontractor), the Town's employees, the employees of any other independent contractors, or occurring to any member of the public. When the Town submits notice, offeror shall promptly defend any aforementioned action. This obligation shall survive the suspension or termination of this Agreement. The limits of insurance coverage required herein shall not serve to limit this obligation to indemnify. The recovery of costs and fees shall extend to those incurred in the enforcement of this indemnity.

## **MINORITY/WOMEN-OWNED ENTERPRISE:**

Are you a Minority or Woman-Owned business? \_\_\_ Yes x No

If so, are you certified? \_\_\_ Yes \_\_\_ No

If you are certified, you must furnish a copy of your certificate with your submittal.

## NON-COLLUSION OATH

COUNTY OF: RichlandSTATE OF: South Carolina

Before me, the Undersigned, a Notary Public, for and in the County and State aforesaid, personally appeared Ricky Craps and made oath that the Offeror herein, his agents, servants, and/or employees, to the best of his knowledge and belief, have not in any way colluded with anyone for and on behalf of the Offeror, or themselves, to obtain information that would give the Offeror an unfair advantage over others, nor have they colluded with anyone for and on behalf of the Offeror, or themselves, to gain any favoritism in the award of the contract herein.
