COMMENTS:

The projected build date is currently mid to late June from Western Star. (This could change based on order intake at the factory.) The unit will be sent directly from the factory to Davis Body in Little Rock, AR for rigging. This normally takes 15 to 20 working days. Once the body is installed the unit will be brought to San Angelo. My team will go over the unit, perform a State or DOT Inspection, detail the unit and then I will personally deliver the unit to you in Lamesa at which time I will glad to assist in driver orientation if you would like.

Terms and Conditions for

Allison Transmission Coverage

Effective Dates

Transmission coverage effective dates as shown below are based upon individual agreements entered into between the OEM and Allison.

Navistar	Vehicles built on or after April 11, 2011.
Hino	Vehicles built on or after December 15, 2011.

All other OEMs referenced on the cover of this guide are eligible to receive Partnership Coverage and Extended Transmission Coverage, so long as they meet the Extended Transmission Coverage requirements listed below.

NOTE: Stated prices are effective for Extended Transmission Coverage purchased in 2017. For transmissions sold in 2016 to level 3 OEM's, please reference previous year (2016) ETC brochure for coverage and pricing.

Transmission Coverage Definitions And Requirements

Standard Limited Warranty

All Allison transmissions carry a comprehensive Standard Limited Warranty covering 100% parts and labor. The length of Standard Limited Warranty coverage depends upon the Vocational Model Series and vehicle vocation.

REQUIREMENTS: Use of Allison Approved TES 295[®] transmission fluid** and Genuine Allison Filters is required to be eligible for Partnership Transmission Coverage and Extended Transmission Coverage. Failure to use Allison Approved TES 295[®] transmission fluid and Genuine Allison Filters during the Standard Limited Warranty coverage period will result in no additional coverage options beyond Standard Limited Warranty.

Partnership Coverage

Some Allison-equipped vehicles purchased through Allison Partnerships carry Partnership Coverage. Partnership Coverage begins at the end of the Standard Limited Warranty period. Duration of Partnership Coverage varies depending upon the Vocational Model Series purchased.

REQUIREMENTS: Use of Allison Approved TES 295[®] transmission fluid and Genuine Allison Filters is required. Failure to use Allison Approved TES 295[®] transmission fluid and Genuine Allison Filters will result in no coverage for repairs beyond Standard Limited Warranty.

NOTE: Except as noted, all transmissions with Partnership Coverage beyond Standard Limited Warranty have 100% parts and labor coverage with no mileage limitations.

Extended Transmission Coverage***

In addition to Partnership Coverage, transmissions purchased through Allison Partnerships are eligible for Extended Transmission Coverage. Extended Transmission Coverage can be purchased on all models to increase coverage to a total of five years. Extended Transmission Coverage can be purchased on Highway Series, P&D/Beverage, to increase coverage to a total of seven years. Extended Transmission Coverage begins at the end of Partnership Coverage and is available for purchase through Allison Authorized Distributors and Dealers.

REQUIREMENTS: Use of Allison Approved TES 295[®] transmission fluid** and Genuine Allison Filters is required. Failure to use Allison Approved TES 295[®] transmission fluid and Genuine Allison Filters will result in no coverage for repair beyond the Standard Limited Warranty period. If the transmission is not OEM factory filled with Allison Approved TES 295[®] transmission fluid and Genuine Allison Filters, then Allison Approved TES 295[®] transmission fluid and Genuine Allison Filters must be installed at the time of Extended Transmission Coverage purchase. Transmissions not OEM factory filled with Allison Approved TES 295[®] transmission fluid, or transmissions operating with non-TES 295[®] fluids, must be drained and filled with Allison Approved TES 295[®] transmission fluid to achieve 100% concentration. One hundred percent concentration is not achieved until the second consecutive fluid change using Allison Approved TES 295[®] transmission fluid. The second consecutive change must be achieved at the time of Extended Transmission Coverage purchase.

* Suggested retail prices are established for each transmission vocational model/vocation combination. Prices and/or coverage are subject to change without notice. For current prices and coverage information, go to allisontransmission.com.

** For a list of current Allison Approved TES 295[®] transmission fluids, go to: allisontransmission.com; click on Parts + Service, then Approved Fluids.

*** The terms and conditions under which Allison Transmission offers Extended Transmission Coverage are set forth on the back of the Extended Transmission Coverage Agreement Registration, available from any authorized Allison Transmission Distributor or Dealer.

Every™ Coverage.

North American Truck Coverages
For 2017 L9™, B6.7™ And V5.0™ Engines.

Every™ Confidence.

You can have confidence knowing that your Cummins 2017 engine is backed by the total coverage of Cummins Base Warranty and Extended Coverage plans.

Every major component, from the air handling to the exhaust aftertreatment* – including those in the Single Module™ aftertreatment system and Cummins Aftertreatment System – is included under the Base Warranty.

In addition to the Base Warranty, Cummins offers a selection of Extended Coverage plans that provide extra protection for your business against major unexpected repair expenses. These protection plans provide financial peace of mind, insuring you against unforeseen expenses for years to come. And they can be included in the financing of your new truck for just dollars a day.

Cummins Extended Coverage plans are honored at all authorized Cummins service locations and backed by Cummins Care. No matter where your business takes you, you've always got a Cummins-authorized service facility nearby, with over 3,500 locations in North America. So you can be assured that every contingency is covered. Best of all, those facilities will handle every bit of paperwork associated with your warranty repair.

*Does not include air cleaner, intake pipes, exhaust pipes or mounting hardware.

L9 Base Warranty.

The L9 Base Warranty is good for 2 years/250,000 miles (402,336 km), whichever occurs first, and includes virtually everything at no additional cost:

- Consumables not reusable due to covered failure
- No deductible
- Includes aftertreatment

*Warrantable failures are those due to defects in Cummins material or factory workmanship.

B6.7 Base Warranty.

As part of Cummins commitment to add value for our customers, we've increased the Base Warranty for the market-leading B6.7 by 50 percent in 2017, from 2 years/unlimited mileage to 3 years/unlimited mileage.

3-Year/Unlimited-Mileage Coverage

- 100 percent parts and labor on warrantable failures*
- Travel or towing when an engine is disabled by a warrantable failure (from date of delivery through the duration of the 3-year Base Warranty)

2-Year/Unlimited-Mileage Coverage

- 100 percent parts and labor on warrantable failures*
- Travel or towing when an engine is disabled by a warrantable failure (from date of delivery through the first year)
- Consumables not reusable due to covered failure
- No deductible
- Includes aftertreatment

*Warrantable failures are those due to defects in Cummins material or factory workmanship.

Extended Coverage Means Added Security.

A Cummins Protection Plan is the most important travel insurance you can buy. Not only will it protect your business from unexpected expenses, but it will also ensure that you'll always get quality Cummins parts and professional Cummins service. There are two plans to choose from for L9 and B6.7 engines.

Protection Plan 1

Security is knowing that you are protected by comprehensive coverage, with options ranging from 3 to 6 years and 100,000 to 300,000 miles (160,934-482,803 km). Mileage range options may vary by engine and length of coverage. Contact your local distributor for details on your specific engine.

- Internal components and major engine systems including the turbocharger, water pump and fuel injectors and – new for EPA/GHG 2017 – the flywheel, wiring harness, front gear housing and thermostat
- Registered parts and labor on covered failures

Protection Plan 2

Cummins Protection Plan 2 covers you against major repair costs down the road, with registered parts and labor on internal components and – new for EPA/GHG 2017 – the water pump, with your choice of long-term options from 3 to 7 years and 100,000 to 300,000 miles (160,934-482,803 km). Mileage range options may vary by engine and length of coverage. Contact your local distributor for details on your specific engine.

- Internal components, major components and major engine systems, including cooled Exhaust Gas Recirculation (EGR) major components
- Registered parts and labor on covered failures

Aftertreatment Extended Coverage*

Extended coverage is also available for your Single Module aftertreatment system or Cummins Aftertreatment System. Options range from 3 to 5 years and 100,000 to 300,000 miles (160,934-482,803 km). Mileage range options may vary by engine and length of coverage. Contact your local distributor for details on your specific engine.

The coverage includes Cummins-supplied aftertreatment components, including:

- Diesel Oxidation Catalyst (DOC), Diesel Particulate Filter (DPF) and Selective Catalytic Reduction (SCR) assemblies
- Diesel Exhaust Fluid (DEF) dosing system
- Ammonia sensor

*Protection Plan 1 EPA 2017 of equal duration is required prior to the purchase of the Aftertreatment Extended Coverage.

TRUCK COVERAGE 4 (TC4)

NOTES:

NOTE 1: There are four (4) different Truck Coverages. Each TC package builds on the previous package (i.e. TC2 includes TC1; TC3 includes TC 1 & 2; TC4 includes TC 1, 2 & 3). Towing Coverage and Axle Coverage are stand-alone coverages that would need to be added separately. ParkSmart Coverage is only available in combination with one (1) of the TC products or Climate Control in the same time and distance.

NOTE 2: Truck Coverage 4 is not an extension of the standard new vehicle warranty. For detailed information about specific components or components contained in each extended coverage system group, please email ASPHelp@daimler.com.

WHAT IS TRUCK COVERAGE?

Truck Coverage is the extended service coverage that progressively combines chassis components into increasingly more comprehensive packages. The least comprehensive package is Truck Coverage 1 (TC1), while the most comprehensive coverage is TC4. Those familiar with our engine coverage products will appreciate the ease of selling value with these progressive packages. Truck Coverage is designed with the customer in mind, and coverages are grouped as they are typically purchased today. Truck Coverage 4 (TC4) is the Extended Service Coverage that combines several chassis components into one product. TC4 is the most comprehensive Extended Service Coverage offered and is the only TC to include Detroit Assurance Extended Coverage.

WHERE DID THIS PRODUCT ORIGINATE?

Truck Coverage came from an Aftermarket Service Products (ASP) initiative to make chassis coverage easier to understand and sell. This product structure was designed to emulate our Engine Coverage (EW1-EW4). www.aftermarketserviceproducts.com

EXTENDED SERVICE COVERAGE POLICY MANUAL

DTNA CHASSIS, DETROIT NEW & ENCORE USED ENGINE, DETROIT TRANSMISSION & CLUTCH

EFFECTIVE: JULY 20, 2016

1. New Coverage Purchase Timeframe

Extended coverage start date is based upon the registered in-service date.

Units that do not have base warranty (i.e. demo units over 10,000 miles/16,100 km, etc.) are not eligible for extended coverage.

Chassis Timeframe: Extended coverage can be purchased on the spec or in the aftermarket. Timeframe to purchase coverage in the aftermarket, as well as applicable late fees (25%, up to \$400 per unit) are based on the New Coverage Purchase Schedule (see below).

Engine/Transmission/Clutch Timeframe: Extended coverage can be purchased on the spec or in the aftermarket within eighteen (18) months of the registered in-service date. Extended Coverage is available up to twelve (12) months from the registered in-service date without additional fees. After twelve (12) months and up to eighteen (18) months, a \$400 late fee per unit will be applied.

Encore Used Engine Coverage is available for engines less than five (5) years old and with fewer than 550,000 miles/885,500 km. Encore Used Engine Coverage must be purchased within twelve (12) months or 1,000 miles/1,610 km of the approval date of the Encore used engine Inspection/Certification Form.

The engine must be in its original chassis and must match the vocation on the original vehicle product registration.

2. Supplier Coverages

Supplier coverages are defined as coverage purchased through DTNA but are not the responsibility of DTNA (Cummins Engine, Allison Transmission, Eaton Transmission, etc.). Supplier coverages cannot be upgraded, downgraded or cancelled once the new truck invoice has been generated and are non-refundable through DTNA. Supplier coverages must be purchased on the vehicle spec and are not available for aftermarket purchase through DTNA.

3. Transfer of Coverage

All extended coverage will follow the chassis and will remain valid as long as component serial numbers match original chassis serial number. Vocation must match the vehicle product registration for coverage to remain valid.

4. Cancelling Extended Coverage

Extended coverage can be cancelled within ninety (90) days of the registered in-service date.

For stock trucks, extended coverage can be cancelled within twenty-four (24) months of delivery date to the dealer.

A cancellation fee of \$125 per unit will be applied.

Ext Towing/Roadside Service cannot be cancelled once the vehicle is placed in-service.

5. Upgrading Extended Coverages

Upgrades: the addition of time, distance or components that increases the price of the original purchased coverage.

Upgrades are available without additional fees up to ninety (90) days from the registered in-service date. Refer to the schedule below for all upgrade purchase timeframes.

Upgrades are subject to current coverage options and will be charged the fair market value/ aftermarket pricing at the time of purchase. Previously purchased extended coverage will be refunded.

Detroit Clutch	\$0	\$400	\$400	\$400	N/A

6. Downgrading Extended Coverages

Downgrades: reduction of time, distance, or components that reduces the price of the original purchased coverage.

Downgrades are allowed within ninety (90) days of the registered in-service date.

Previously purchased extended coverage will be refunded. Downgrades are subject to current coverage options and will be charged the fair market value/aftermarket pricing at the time of purchase.

A downgrade fee of \$125 per unit will be applied.

7. Roll Over Units

A vehicle ordered by a customer who did not take possession is considered a roll over unit.

Extended coverage contracts on roll over units that received customer specific terms must be cancelled and credited back to the original purchasing dealer prior to vehicle registration to new customer. The new customer will be able to purchase current published coverage at fair market value/aftermarket pricing (see section 1 for timeframe to purchase).

If spec'd coverage is not cancelled prior to vehicle registration to new customer, coverage contracts will be voided and a \$500 cancellation fee per unit will be applied. In addition, any claims will be denied.

8. Coverage Is Not Retro-Active

Extended coverage is not retro-active and does not cover pre-existing claims.

9. Totaled Vehicles

If the unit is totaled within twelve (12) months or 100,000 miles/161,000 km from the registered in-service date, or the unit is totaled within twelve (12) months of the delivery date to the dealer or body builder, extended coverage can be cancelled and refunded. A cancellation fee of \$125 per unit will be applied.

Ext Towing/Roadside Service coverage is non-refundable.

Extended coverage is non-refundable if unit is totaled by transporter or is a demo unit.

10. Foreign Exchange Rate

All extended coverage purchases (spec and aftermarket), including all applicable fees, are subject to foreign exchange rates as posted on The DASH.

11. Auctioned Vehicles

Vehicles purchased through auctions are not eligible for extended coverage.

12. Registered Vocation

Use of the vehicle for anything other than registered vocation will void extended coverages.

13. Pricing for Aftermarket Extended Coverage

Aftermarket extended coverage price is based on fair market value/aftermarket pricing at the time of purchase.

An official DTNA quote must come from the OWL or ASP Quoting tool. SpecPro is not valid for aftermarket quoting purposes.

14. Tier III

Engine: Tier III engine extended coverage is only available for S60 engines spec'd with a Mining (A85-013) or Airport (A85-015) vocation.

15. Level III / Severe Duty Warranty Levels

Chassis/Transmission/Clutch: Extended coverage is not available on vehicles that are warranty registered as Level III or Severe Duty on the vehicle product registration.

16. Aged Vehicle Adjustment for Stock Units

Requests for extended coverage on aged stock units must be accompanied by the Inactive Vehicle Maintenance Schedule (WAR255). Extended coverage will only be allowed if maintenance records have been completed at DTNA required intervals (refer to form WAR255 for schedule). Coverage is not guaranteed if inactive maintenance records are incomplete or unavailable. Units that do not have base warranty are not eligible for extended coverage. Extended coverage can be purchased on aged units with approval of base warranty reinstatement. Coverage will be charged fair market value/aftermarket pricing at the time of purchase, plus an aged vehicle adjustment fee (see chart). Fees are applied based on vehicle age.

Aged Vehicle Adjustment From Delivery to Dealer	
0 – 24 Months	0%
25 - 36 Months	33%
37 - 48 Months	66%
49 - 60 Months	100%
60+ Months	Not Available

17. Fees

All fees (late, cancellation, downgrade, aged vehicle, roll over, etc.) are non-negotiable, cannot be waived and are subject to foreign exchange.

18. EW Multi-Torque, Hi-Torque, Low-Torque

When purchasing coverage for multi-torque engines and/or transmissions, the higher torque package will apply. Any torque values changed will void the extended coverage.
