INDEPENDENT AUDITOR'S REPORT

**To the Honorable County Commissioners
Madison County – State of Idaho
Rexburg, Idaho**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Madison County, Idaho as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Madison County, Idaho's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Madison Memorial Hospital which represent 100 percent and 100 percent respectively of the assets of net position and revenues of the component unit financial statements. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Madison Memorial Hospital in the component unit column, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that our audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the remaining aggregate fund information of Madison County, Idaho as of September 30, 2017, and the respective changes in financial positions and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and budgetary comparison and schedules of employer's share of net pension liability and employer contributions PERSI information schedules on pages 1 through 9 and 54 through 62 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual nonmajor funds, combining and individual private purpose trust funds, and combining and individual agency funds are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor funds, combining and individual private purpose trust funds, and combining and individual agency funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, the combining and individual nonmajor funds, combining and individual private purpose trust funds, and combining and individual agency funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Analysis of Expenditures and Reconciliation have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 12, 2018 on our consideration of Madison County, Idaho's internal control over financial reporting and our tests of its compliance

with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Madison County, Idaho's internal control over financial reporting and compliance.

Searle Hart & Associates PLLC

Rexburg, Idaho

March 12, 2018

Madison County, Idaho

Management's Discussion & Analysis September 30, 2017

The discussion and analysis of Madison County, Idaho's financial performance provides an overall review of the County's financial activities for the fiscal year ended September 30, 2017. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the County's financial performance.

FINANCIAL HIGHLIGHTS

The key financial highlights for 2017 are as follows:

At the end of the current year, the County's governmental funds reported a combined ending fund balance of \$11,433,197.

At the end of the current year, the fund balance for the General Fund was \$2,344,686, an increase of \$52,269 from the fund balance at September 30, 2016. The business-type activities reported net position of \$790,556, a decrease of \$8,647 from the prior year.

USING THE BASIC FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Madison County, Idaho as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole County, presenting both an aggregate view of the County's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the County's most significant funds with all other non-major funds presented in total in one column. In the case of Madison County, Idaho, the General Fund, Justice Fund, and Road & Bridge are significant funds.

REPORTING THE COUNTY AS A WHOLE

The County-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private sector business.

Statement of Net Position and Statement of Activities

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. The statement of activities presents information showing how the County's net position changed during the current year. These statements are prepared using the accrual basis of accounting similar to the accounting method used by private sector companies. The basis of accounting takes into consideration all of the current year's revenues and expenses, regardless of when the cash is received or paid.

The change in net position is important because it tells the reader whether, for the County as a whole, the financial position of the County has improved or diminished. However, in evaluating the overall position of the County, non-financial information such as changes in the County's tax base and the condition of the County's capital assets will also need to be evaluated.

In the statement of net position and the statement of activities, the County is divided into three kinds of activities:

Governmental Activities – Most of the County's programs and services are reported here, including general government, public safety, public works, health, human services, and economic development. These services are

Madison County, Idaho

Management's Discussion & Analysis September 30, 2017

funded primarily by taxes and intergovernmental revenues, including federal and state grants and other shared revenues.

Business-type Activities – These services are provided on a charge for goods or services basis to recover all or most of the cost of the services provided. The County's Solid Waste Fund activity is reported here.

Component Unit – The County's financial statements include financial data of the Madison Memorial Hospital. This component unit is separate and may buy, sell, lease, and mortgage property in their own name and can sue or be sued in their own name.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Fund financial statements provide detailed information about the County's major funds. Based on the restriction of the use of the moneys, the County has established many funds that account for the multitude of services provided to our residents. The County's major governmental funds are the General Fund, Road & Bridge, Ambulance, Jail Bond, Justice Fund, and Solid Waste.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities on the government-wide financial statements. Most of the County's basic services are reported in these funds that focus on how much flows into and out of the funds and the year-end balances available for spending. These funds are reported on the modified accrual basis of accounting that measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services being provided, along with the financial resources available.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government-wide financial statements. By doing so, readers may better understand the long-term effect of the governmental fund statement of revenues, expenditures, and changes in fund balances through reconciliations to facilitate comparisons between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately on the governmental fund balance sheet and on the governmental fund statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds – The County has one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities on the government-wide financial statements. The County uses enterprise funds to account for the Solid Waste operations.

Fiduciary Funds – Fiduciary Funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the County's programs. The accounting method used for fiduciary funds is much like that used for the proprietary funds.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided on the government-wide and fund financial statements.

Madison County, Idaho

Management's Discussion & Analysis September 30, 2017

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules.

Government-wide Financial Analysis

The following tables summarize the County's net position for 2017 and 2016.

	2017

 Increase (decrease) in net position	 <u>\$ 1,707,205</u>	 <u>\$ (9,364)</u>	 <u>\$ 1,697,841</u>

GOVERNMENTAL ACTIVITIES

The County's grant revenues from federal and state sources made up \$7,828,422 or 31% of total governmental revenues. The major recipient of intergovernmental program revenues was public safety.

The Road and Bridge accounted for \$3,570,472 of the \$22,247,852 total expenses for governmental activities, or 16% of total expenses.

Table 3 – for governmental activities, indicates the total cost of services and the net cost of services. The statement of activities reflects the cost of program services and the charges for services, and sales, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted intergovernmental revenues.

Madison County, Idaho

Management's Discussion & Analysis September 30, 2017

	<u>Total Cost of Services</u>	<u>Net Cost of Service</u>
General government	\$ 5,587,158	\$ 5,569,674
Public works	3,093,166	954,858
Public safety	9,923,629	5,802,594
Health and welfare	2,483,842	1,753,118
Recreation	331,477	165,183
Conservation	95,174	95,174
Interest on long-term debt	39,061	39,061
Total	<u>\$ 21,553,507</u>	<u>\$14,379,662</u>

Charges for services and operating and capital grants of \$7,353,845 (34% of the total costs of services) are received and used to fund the general government expenses of the County. The remaining \$14,379,662 in general government expenses is funded by property taxes, public service taxes, intergovernmental revenues, and other.

Business-type activities

The net position for business-type activities decreased by \$8,647 during 2017, and the major revenue sources were charges for services of \$1,654,677.

FINANCIAL ANALYSIS OF THE COUNTY FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the year.

As of September 30, 2017, the County's governmental funds reported a combined ending fund balance of \$11,433,197, an increase of \$1,976,381 in comparison with the prior year. Approximately 47% of this total, \$5,376,827 constitutes unassigned fund balance, which is available for spending at the County's discretion. The remainder of the fund balance is assigned to indicate that it is not available for new spending because it has already been assigned for a variety of assigned purposes (\$6,056,370).

The General Fund is the primary operating fund of the County. At the end of 2017, unassigned fund balance was \$2,344,686. As a measure of the General Fund's liquidity, it may be useful to compare fund balance to total expenditures. Unassigned fund balance represents 42% of total General Fund expenditures.

The County's General Fund balance has increased by \$52,269 during fiscal year 2017. That increase was due to excess of revenues over expenditures.

Madison County, Idaho

Management's Discussion & Analysis September 30, 2017

Enterprise Funds

The County's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Solid Waste Fund at September 30, 2017, was \$145,425. Unrestricted net position increased by \$118,243.

BUDGETARY HIGHLIGHTS

By state statute, the Board of County Commissioners adopts the annual operating budget for the County effective the first day of October.

Capital Assets and Debt Administration

Capital Assets – Madison County's investment in capital assets for its governmental and business-type activities as of September 30, 2017, amounts to \$9,379,418 (net of depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, infrastructure (acquired since September 30, 2003) and construction in progress. (See table below.) The total decrease in the County's investments in capital assets for the current fiscal year (including depreciation, additions, and deductions) was 4.13% (a 5.75% increase for governmental activities and a 9.88% decrease for business-type activities).

	Governmental Activities		Business-type Activities		Total	
	2017	2016	2017	2016	2017	2016
Land	\$ 483,235	\$ 483,235	\$ 107,973	\$ 107,973	\$ 591,208	\$ 591,208
Buildings & improvements	4,088,174	3,099,383	444,471	480,077	4,532,645	3,579,460
Machinery & equipment	3,452,142	3,959,646	236,773	287,754	3,688,915	4,247,400
Infrastructure	566,650	580,920	-	-	566,650	580,920
Construction in progress	-	-	-	-	-	-
Total	<u>\$ 8,590,201</u>	<u>\$ 8,123,184</u>	<u>\$ 789,217</u>	<u>\$ 875,804</u>	<u>\$ 9,379,418</u>	<u>\$ 8,998,988</u>

Major capital additions include the various purchases of heavy equipment.

The County has not recorded the infrastructure acquired before October 1, 2003, at this time.

Additional information on Madison County's capital assets can be found in Note 9 to the financial statements for fiscal year 2017.

Long-term Debt – At September 30, 2017, the County had total capital lease debt outstanding of \$1,293,014. The County's long-term debt decreased by \$264,847 or 20.48% during fiscal year 2017, in large part explained by installment payments.

Madison County, Idaho

Management's Discussion & Analysis September 30, 2017

	Governmental Activities		Business-type Activities		Total	
	2017	2016	2017	2016	2017	2016
Compensated absences	\$ 606,693	\$ 510,827	\$ 26,237	\$ 25,793	\$ 632,930	\$ 536,620
Capital leases	1,293,014	1,557,860	-	-	1,293,014	1,557,860
Pension liability	3,809,740	5,005,265	187,469	251,591	3,997,209	5,256,859
Total	<u>\$ 5,709,447</u>	<u>\$ 7,073,952</u>	<u>\$ 213,706</u>	<u>\$ 277,384</u>	<u>\$ 5,923,153</u>	<u>\$ 7,351,339</u>

In addition to the bonded debt, the County's long-term obligations include compensated absences and pension liability. Note 4 will provide information regarding bonded indebtedness and additional information on the County's long-term debt can be found in Note 5 of this report under the Notes to Financial Statements.

Current Financial Issues and Concerns

Financial issues and concerns for 2017 include:

Madison County insurance and prescription drug price increases have been a concern with the implementation of the Affordable Care Act. We have increased the employee contribution for dependents the past few years to help meet costs, but are restricted further because keeping our grandfathering status provides better future benefits.

Levy limits are still a concern, especially in the Courts and Justice Funds. We continue to monitor these closely and keep expenses to a minimum. There is current legislation being prepared to ask for increases to the Justice Fund levy. A barrage of drug cases has been coming into our system and additional staff in the prosecutors have been required.

Other items impacting the budget for 2017 are:

- The City/County have started discussions regarding moving the existing airport. Money should be saved each year for grant matches over the next 10 years.
- Further upgrades to badly needed building upgrades to old buildings.
- Ambulance budget is running in the red and is up against levy limit.
- Grant matches for new roadways and bridge repairs that will need to be funded in the next few years.
- The implementation of Odyssey in the Courts and covering extra staff and overtime required to get old images updated and brought into the new system were huge.
- Aging buildings and the maintenance required to keep them up. Old original boilers in the Courthouse are failing and parts to repair them are no longer available. Roof repairs will also need to be completed in the next few years.
- The Assessor has discontinued figuring partial completion on apartment buildings as of December 31. These buildings will be added upon 100% completion, but caught us this year with a decrease in our new construction numbers.

Economic Factors

BYU-I which resides in Madison County continues to increase enrollment. There are a few large apartment complexes coming on the tax roll this year, which may help our budget in the next year and will have a positive impact to our local economy.

Madison County, Idaho

Management's Discussion & Analysis *September 30, 2017*

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

**MADISON COUNTY - STATE OF IDAHO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended September 30, 2017**

Net change in fund balances - total governmental funds: \$ 1,976,381

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The amount capitalized is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which capital outlays \$1,724,203 exceeded depreciation \$1,087,969 in the current period. 636,234

Governmental funds report the entire net sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain (loss) on the sale of the assets. (169,217)

Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned. 218,276

Governmental funds do not recognize lease payments as expenditures until they are paid. In contrast, the Statement of Activities treats leases payable as a long-term liability. This amount is the net change in the leases payable liability. (264,846)

Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:

Compensated absences not reflected on Governmental funds	(95,866)
Deferred outflows of resources not reflected on Governmental funds	1,189,409
Deferred inflows of resources not reflected on Governmental funds	827,921
Net pension liability not reflected on Governmental funds	<u>(1,364,615)</u>

Change in net position of governmental activities \$ 2,953,677

MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. GENERAL

The financial statements listed in the table of contents have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

In June 1999, the GASB issued and approved Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis-for State and Local Governments. These statements establish new financial reporting requirements for state and local governments, public colleges, and universities throughout the United States. They require new information and restructure much of the information that governments have presented in the past. Certain significant changes in the statement include the following:

- A Management Discussion and Analysis (MD&A) section provides an analysis of the County's overall financial position and results of operations.
- Financial statements prepared using the full accrual accounting method for all County activities, including infrastructure (roads, bridges, etc.).

The County's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial position.

B. REPORTING ENTITY

Madison County (the County) is governed by a three-member Board of County Commissioners (the Board) elected by the voters of Madison County. The Board serves as the taxing authority, the contracting body, and the chief administrators of public services for the County. Other elected officials are the Clerk, Treasurer, Assessor, Sheriff, Prosecutor, Coroner, 1 District Judge, and 1 Magistrate Judge.

The elected officials and their departments comprise the primary government unit for Madison County. As required by GAAP, the financial statements of the reporting entity include those of Madison County (the primary government) and Madison County Memorial Hospital, a component unit. Madison County Memorial Hospital is included as a discretely presented component unit in the reporting entity because of the significance of its financial relationship with the County, as discussed below in the component unit section.

C. DISCRETELY PRESENTED COMPONENT UNIT

In conformity with generally accepted accounting principles, the basic financial statements of Madison Memorial Hospital have been included in the financial reporting entity as a discretely presented component unit, emphasizing their nature as a legally separate entity from the County. It is presented as separate columns within the basic financial statements on the combined financial statements.

The members of the governing board of Madison Memorial Hospital (the Hospital) are approved by the County Commissioners. The County is responsible for general obligation bonds if issued by the Hospital.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Complete financial statements of the individual component unit can be obtained directly from its administrative office located at:

Madison Memorial Hospital
450 East Main
Rexburg, Idaho 83440

D. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County. For the most part, the effect of interfund activity has been removed from these statements. Primary government activities are distinguished between governmental and business-type activities. Government activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net assets: invested in capital assets, net of debt; restricted net assets; or unrestricted net assets. Invested in capital assets, net of related debt, consists of capital assets net of accumulated depreciation and reduced by outstanding debt. Restricted net position result when constraints placed on net position use are imposed by third parties, through constitutional provisions, or enabling legislation. Expense allocation decisions are made on a program-by-program basis when both restricted and unrestricted net position are available. Restricted net position balance will fluctuate as related accounting transactions occur. Unrestricted net position consists of net position that do not meet the definition of the two preceding categories. Unrestricted net position may have constraints or designations placed upon them by management, but they can be unilaterally removed.

The statement of activities demonstrates the degree to which the direct expenses of governmental functions, business-type activities, and component units are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific governmental function, business-type activity, or component unit. Revenues are broken out by program and general designations. Program revenues display the extent to which programs are self-funded. Program revenues include 1) charges to (customers or applicants) who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, activity, or component unit, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

E. FUND ACCOUNTING

The County uses funds to report on its financial position and results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate 'fund types.'

Separate fund financial statements are presented for the governmental, proprietary, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. The emphasis in the fund statements is on major funds. Major governmental and business-type funds are reported as separate columns in the fund statement. The remaining governmental and business-type funds are considered to be nonmajor funds and are consolidated in a nonmajor funds column (on the combined fund statements). The nonmajor funds are displayed individually in combining schedules.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for services that include general government and liability and health insurance. The General Fund includes all financial resources of the general government except those required to be accounted for in another fund.

The Road & Bridge Fund is the fund that accounts for the County's maintenance of the roads and bridges in Madison County. Road & Bridge includes only the financial resources used for road and bridge maintenance.

The Ambulance Fund is the fund that accounts for the County's ambulance services. Ambulance only includes the financial resources used for ambulance services in the County.

The Debt Service-Jail Bond Fund is the fund that accounts for the payment of the bond issue. Jail Bond only includes the financial resources used for debt service in the County.

The Justice Fund is the fund that accounts for public safety and corrections. Justice fund includes only financial resources used for law enforcement and incarceration of inmates.

The County reports the following major proprietary fund:

The Solid Waste Fund accounts for the operation and maintenance of the County's solid waste disposal and landfill.

Governmental Fund Types

Governmental funds account for the County's general activities including current expendable financial resources (except for those accounted for in proprietary funds), and are those through which most governmental functions of the County are financed. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County's governmental fund types:

General Fund - The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Special Revenue Funds - Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects or expendable trusts) that are legally restricted to expenditures for specified purposes.

Capital Projects Funds - The Capital Projects Funds are used to account for the financial resources used to acquire major capital assets (other than those financed by proprietary funds).

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources and for the repayment of general long-term debt principal, interest, and related costs. The County transfers money from other funds to pay the bonded indebtedness.

Proprietary Fund Types

Proprietary Funds - Proprietary Funds account for ongoing organizations and activities of a government, which are similar to those found in the private sector. The measurement focus is upon the determination of net income. Madison County has one proprietary fund type, an enterprise fund used to account for solid waste disposal activities.

Enterprise Funds - Enterprise Funds account for operations that meet one of two criteria: 1) the activity runs in a manner similar to private business enterprises. Moreover, the intent of the governing body is that the ongoing operating costs (including depreciation) of providing goods or services to the public are financed or recovered primarily through user charges, or 2) where the governing body has decided that periodic determination of revenues earned, expenses and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Fiduciary Fund Types

Fiduciary Funds - Fiduciary Funds account for assets held in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds. The reporting focus is on net position and changes in net position.

Trust and Agency Funds - Expendable Trust Funds account for funds held in a trustee capacity. The accounting is essentially the same manner used for governmental funds. Agency funds are purely custodial in nature (assets = liabilities) thus do not involve measurement of the results of operations.

F. BASIS OF ACCOUNTING

The County adopted GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, during the fiscal year ended September 30, 2003. The adoption of this statement is meant to present the information in a format more closely resembling that of the private sector and to provide the user with more managerial analysis regarding the financial results and the County's financial outlook.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues accrued at the end of the year include intergovernmental revenues (including state and federal grants) and charges for current services. Other revenues including licenses, permits, fines, forfeitures, and miscellaneous are not measurable until received; therefore, recognition occurs upon collection. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to debt service, compensated absences, and claims and judgments, are recorded only when payment is due.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Deferred inflows arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, the revenue is recorded and the deferred inflows is reduced.

The proprietary fund is accounted for using a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of the fund are included on the balance sheet. Fund equity (i.e. net total position) is segregated into contributed capital, if applicable, and retained earnings components. Proprietary fund operating statements present increases (revenues) and decreases (expenses) in net total position.

The proprietary fund is accounted for using the accrual basis of accounting. Revenue recognition occurs in the accounting period in which they are both earned and become measurable. Expenditure recognition is in the period incurred, if measurable. The proprietary fund distinguishes operating revenues and expenses as the revenues and expenses generally resulting from provision of services in connection with the operation of waste disposal. Operating expenses for the enterprise fund include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The agency funds are accounted for on the accrual basis of accounting. The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). 'Measurable' means the amount of the transaction can be determined and 'available' means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

G. PROPERTY TAXES

The County levies property taxes on or before the third Monday in September and billings are sent to the taxpayers in November. The taxes are due in two installments. One-half of the real property taxes and all of the personal property taxes are due by December 20. The remainder is due by the following June 20. Real property taxes not paid constitute a lien on the property when entered on the real property assessment role as delinquent on the first day of January of the succeeding year. In accordance with applicable GAAP standards, we record the property taxes collected within the sixty days following the fiscal year closing, as revenue for the period ending September 30. The related property tax levy occurred in the prior year(s). Deferred inflows include the balance of delinquent taxes, which are those not collected within the sixty-day period.

H. BUDGETS

The fiscal year for Idaho counties begins on October 1, and runs through September 30 of the ensuing calendar year. By state law, the County is required to adopt annual budgets for all funds except trust and agency funds, and does so.

Madison County employs formal budgetary accounting as a management control. The Board of County Commissioners (BOCC) adopts the annual budget via resolution and formally integrates the budget in the accounting system. The annual budget is prepared and adopted on a cash basis. Budgets for governmental funds are prepared in accordance with the cash basis, which is not the same accounting basis used to reflect actual revenues and expenditures. The enterprise fund budget is prepared on the cash basis of accounting, which is not the same basis that we use to recognize revenues and expenses.

The level of budgetary control at which expenditures may not exceed appropriations is the department level. Management can revise the budget to meet unanticipated events, but not increase the overall budget after adoption. The one budget revision exclusion is the transfer of funds between personnel and non-personnel costs. The County may only increase the total appropriations budget through the receipt of unanticipated revenue. Budget increases can only occur after advertising the proposed change, holding a public hearing, and a subsequent resolution of the BOCC.

All appropriations, other than appropriations for incomplete capital improvements, lapse at the end of the fiscal year. Appropriation accounts remain open until the first Monday in November for the payment of claims incurred against such appropriations before the close of the fiscal year. Payment of any lawful claim presented after that day comes out of the ensuing budget.

All balances in any appropriation for incomplete capital improvements carry forward and integrate into the budget for the ensuing year.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. CASH AND INVESTMENTS

Cash includes amounts in demand as well as short-term investments with a maturity date within three months of the date acquired by the County.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, and repurchase agreements.

J. RECEIVABLES/PAYABLES

During the course of operations, numerous transactions occur between individual funds and the General Fund for goods provided or services rendered. These receivables and payables are classified as 'due from other funds' or 'due to other funds' on the balance sheet. See Note 6 for interfund activity schedule.

Receivables in the General Fund consist primarily of fees for services and property tax. Business-type activities are reported net of an allowance for doubtful accounts. Business type receivables occur as part of the ordinary course of business.

K. CAPITAL ASSETS

Capital assets, including land, buildings and improvements, and equipment assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$10,000 for equipment, \$15,000 for vehicles, \$100,000 for buildings and land, \$500,000 for infrastructure, and an initial useful life of one year or greater. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Buildings and improvements and equipment assets are depreciated using the straight-line depreciation method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	30
Equipment	3-15
Vehicles	3-4
Infrastructure	15-50

Infrastructure (roads and bridges) is presented for additions since September 30, 2002.

L. COMPENSATED ABSENCES

Government Accounting Standards Board codification specifies that a liability should be accrued for leave benefits that meet the following conditions:

- a. The employer's obligation relative to employee rights to receive compensation for future absences is attributable to employee services already rendered.
- b. The obligation related to rights that vest or accumulate.
- c. Payment of the obligation is probable.
- d. The amount can be reasonably estimated.

MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The County records a liability for accrued vacation and sick time when incurred in the government-wide, proprietary, and fiduciary financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The County uses the vesting method to calculate the compensated absence liability.

In proprietary funds, compensated absences are expensed when earned. The entire amount of compensated absences is reported as a liability.

At September 30, 2017, total compensated absences payable by the County is \$632,930. Of this amount, \$606,693 arises from governmental activity operations, and \$26,237 is attributable to business activity operations.

M. LONG-TERM OBLIGATIONS.

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Long-term liabilities to be repaid or financed by proprietary fund operations are accounted for in the proprietary fund.

N. PREPAYMENTS AND DEFERRALS

The County utilizes the nonallocation method of accounting for prepayments and deferrals. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

O. CAPITALIZATION OF INTEREST

County policy is to capitalize net interest on proprietary fund construction projects until substantial completion of the project. Capitalized interest is amortized over the estimated useful life of the asset on the same basis as the asset.

P. FUND EQUITY

Fund equity represents the difference between fund assets and fund liabilities. For governmental and fiduciary fund types the equity position is called fund balance, while for proprietary fund types that operate on a business basis it is called retained earnings. Contributed capital is also recorded in proprietary funds, which represents cash from other funds. Fund equity is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Restricted resources are used first to fund appropriation.

The County first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. RISK MANAGEMENT

The County is exposed to a considerable number of risks of loss, including: a) damage to and loss of property and contents; b) employee torts; c) professional liability, i.e. errors and omissions; d) environmental damage; e) workers' compensation, i.e. employee injuries; and f) medical insurance costs of employees. Commercial policies, transferring the risks of loss, except for relatively small deductible amounts, are purchased for property and content damage, employee torts, and professional liabilities. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

R. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the County to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

S. PENSION

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS

The County in effect maintains a cash and investment pool that is available to funds as allocated. Cash deposits and cash investments by the County Treasurer (including \$5,070 petty cash) as of September 30, 2017, totaled \$14,664,777 of which \$10,673,717 represent demand and savings deposits and CD's and \$3,991,060 represented investments in government backed securities. Of the total deposits for the County, \$10,774,570 was allocated to governmental funds.

The deposits and simple investments by the County are not collateralized nor are they required to be by Idaho State statute.

The County follows the requirements of the Idaho Public Depository Law (Idaho Code Section, Title 57-100), and applicable investments rights and restrictions cited by Idaho Code Section, Title 67, 67-1210.

Deposits

At year end, the carrying amount of the County's deposits in financial institutions was \$10,673,717 and the bank balance was \$10,702,929. The amount not covered by FDIC insurance was \$8,825,764.

Investments

The fair value of the County's investments at year end was \$3,995,512. The amount not covered by SPIC or FDIC insurance was \$3,995,512.

Custodial Credit Risk-Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

credit risk. As of September 30, 2017, \$8,825,764 of the government’s bank balance of \$10,702,929 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized of \$8,825,764 for a total of \$8,825,764.
At year end, the County had the following investments and maturities:

Investment Type	Fair Value	< 1 year	1-5 years	> 5 years	Cost	Rating	%
FHLMC	\$ 534,936	\$ -	\$ 475,263	\$ 59,673	\$ 535,000	S&P AA+	13.39%

Component Unit:

The Hospital is authorized under Idaho Code to invest in cash, certificates of deposit, U.S. Government securities, commercial paper, and repurchase agreements. All investments must be held by or registered in the name of the Hospital.

Cash balances of most of the Hospital funds are invested. The Hospital maintains two primary checking accounts and other miscellaneous accounts with local banks where a minimum balance is maintained. These accounts invest in time certificates of deposit, local government tax anticipation notes, federal loans, U.S. treasury notes and other U.S. governmental securities. Information regarding insurance or collateralization of amounts invested in the pooled accounts is not available. All funds are invested in investments that meet the requirements of state law.

The Hospital’s cash accounts are insured through the Federal Deposit Insurance Corporation up to \$250,000 per depository.

The Hospital adopted the provisions of GASB Statement No. 40, *Deposit and Investment Risk Disclosures* for the year ended September 30, 2017. This statement establishes and modifies disclosure requirements related to

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

investment and deposit risk; accordingly, the note disclosures on cash and investments are in conformity with provisions of GASB Statement No. 40.

Deposits-At September 30, 2017 the carrying amounts of the Hospital’s deposits were \$11,998,343 and the bank balances totaled \$12,759,132.

Custodial Credit Risk, Deposits-Custodial credit risk is the risk that in the event of a bank failure, the Hospital’s deposits may not be returned. As of September 30, 2017, \$9,745,047 of the total deposits of \$12,759,132 were not covered by federal depository insurance, and thus were exposed to custodial credit risk.

Investments-As of June 30, 2017, the Hospital had the following investments and maturities:

Investment Type	Fair Value	< 1 year	1-5 years	6-10 years	>10 years
Corporate Bonds	\$ 3,007,869	\$ 1,599,849	\$ 1,408,020	\$ -	\$ -
US Treasuries	1,169,909	349,828	99,824	-	720,257

State Pool	291,607	291,607	-	-	-
Total Invest.	<u>\$ 14,562,607</u>	<u>\$ 10,458,158</u>	<u>\$ 3,384,192</u>	<u>\$ -</u>	<u>\$ 720,257</u>

3. PROPERTY TAXES

In accordance with Idaho State Law, ad valorem property tax is levied in dollars in September for each calendar year. Taxes are recorded by the County using the modified accrual basis of accounting. Levies are made on the second Monday of September. All of the personal property tax and one-half of the real property tax are due on or before December 20. The remaining one-half of the real property tax is due on or before June 20 of the following year. Property taxes attach as an enforceable lien on property as of January 1, of the following year. Notice of foreclosure is filed with the County clerk on property three years from the date of delinquency. The property tax revenue is budgeted for the ensuing fiscal year.

4. GENERAL LONG-TERM OBLIGATIONS

Long-term Obligation Activity:

General long-term obligations of the County include capital leases and other debt, including leases and contracts payable. During the year ending September 30, 2017, the following changes occurred in general long-term debt:

	Balance 9/30/2016	Additions	Deletions	Balance 9/30/2017	Amounts due within one year
Governmental activities					
Compensated absences	\$ 510,827	\$ 95,866	\$ -	\$ 606,693	\$ 467,154
Capital leases	1,557,861	-	264,847	1,293,014	243,818
Leases	-	-	-	-	-
Pension Liability	5,005,265	-	1,195,525	3,809,740	-
Total governmental act.	\$ 7,073,953	\$ 95,866	\$1,460,372	\$ 5,709,447	\$ 710,972
Business activities					
Compensated absences	\$ 25,793	\$ 444	\$ -	\$ 26,237	\$ 20,202
Pension Liability	251,594	-	64,125	187,469	-
Total business act.	\$ 277,387	\$ 444	\$ 64,125	\$ 213,706	\$ 20,202

Capital Leases:

Capital equipment leases are arranged through lease financing agreements with Wells Fargo, Zions Bank, Summit National Bank, US Bank, Citizens Community Bank, Citicapital Commercial Corporation, and Caterpillar Financial Services. The arrangements provide for an initial down payment with annual payments varying from three to five years and interest ranging from 3.60% to 6.95%. There were no capital lease additions for equipment during the year ended September 30, 2017. All new additions to property, plant, and equipment are financed through current revenues.

The schedule below is an analysis of assets under capital leases as of September 30, 2017:

	Governmental Activities	Business-type Activities	Capital Assets Under Capital Leases
Building and Improvements	\$ -	\$ -	\$ -
Machinery, equipment, and other	1,293,014	-	1,293,014
Total assets under capital leases	\$ 1,293,014	\$ -	\$ 1,293,014

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

4. GENERAL LONG-TERM OBLIGATIONS (Continued)

Obligations of governmental activities under capital leases and contracts as of September 30, 2017, are as follows:

Year Ended September 30,	Principal	Interest	Total
2018	\$ 243,818	\$ 34,309	\$ 278,127
2019	299,460	31,615	\$ 331,075
2020	199,753	21,078	\$ 220,831
2021	549,983	15,017	\$ 565,000
2022	-	-	\$ -
Total	<u>\$ 1,293,014</u>	<u>\$ 102,019</u>	<u>\$1,395,033</u>

Debt service for governmental fund types is budgeted and expended from the fund to which the debt belongs. The majority of long-term debt belongs to the general fund, and is paid from that fund when due.

Component Unit:

The financial information in this report for the fiscal year ending September 30, 2017, includes discretely presented financial information from the component unit, Madison Memorial Hospital. The long-term debt for the year ended September 30, 2017, for the Hospital is \$44,150,000. The capital lease obligations, net of current maturities, is \$44,079,167 at September 30, 2017.

5. INTERFUND RECEIVABLES AND PAYABLES/ INTERFUND TRANSFERS

The County had the following interfund balances at September 30, 2017:

General Fund interfund receivable	\$	-
Proprietary Fund interfund payable	\$	-

Transfers were made to transfer money to the various funds.

The following transfers were made:

	Transfer In	Transfer Out
Road & Bridge	\$ -	\$ 856,015
Fiduciary Funds-Agency Funds	856,015	-
General Fund	-	30,000
Fair Board	30,000	-
Justice	60	-
District Court	-	60
Total	<u>\$ 886,075</u>	<u>\$ 886,075</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS

6. PENSION PLAN

Plan Description

The County contributes to the Base Plan, which is cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement of 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) that are adequate to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60% of the employer rate for general employees and 72% for police and firefighters. As of June 30, 2017 it was 6.79% for general employees and 8.36% for police and firefighters. The employer contribution rate of covered payroll is set by the Retirement Board and was 11.32% for general employees and 11.66% for police and firefighters. The County's contributions were \$872,432 for the year ended September 30, 2017.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

6. PENSION PLAN (Continued)

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2017, the County reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County’s proportion of the net pension liability was based on the County’s share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2017, the County’s proportion was .2543032 percent.

For the year ended September 30, 2017, the County recognized pension expense (revenue) of (\$106,204). At September 30, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 41,385	\$ 360,115
Changes in assumptions or other inputs	73,919	-
Net difference between projected and actual earnings on pension plan investments	553,740	239,489
County contributions subsequent to the measurement date	227,428	-
Total	\$ 896,472	\$ 599,604

\$227,428 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ending September 30, 2017.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2016 the beginning of the measurement period ended June 30, 2017 is 4.9 and 5.5 for the measurement period June 30, 2016.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expenses (revenue) as follows:

Year Ended September 30:	
2018	(217,302)
2019	375,539
2020	106,557
2021	(236,740)
2022	-

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

6. PENSION PLAN (Continued)

Actuarial Assumptions

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	4.25 - 10.00%
Salary inflation	3.75%
Investment rate of return	7.10%, net of investment expenses
Cost-of-living adjustments	1%

Mortality rates were based on the RP – 2000 combined table for healthy males or females as appropriate with the following offsets:

- Set back 3 years for teachers
- No offset for male fire and police
- Forward one year for female fire and police
- Set back one year for all general employees and all beneficiaries

An experience study was performed for the period July 1, 2007 through June 30, 2013 which reviewed all economic and demographic assumptions other than mortality. Mortality and all economic assumptions were studied in 2014 for the period from July 1, 2009 through June 30, 2013. The Total Pension Liability as of June 30, 2017 is based on the results of an actuarial valuation date of July 1, 2017.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on the approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers and trustees to develop capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are show below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of January 1, 2017.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

6. PENSION PLAN (Continued)

Capital Market Assumptions

Asset Class	Expected Return	Expected Risk	Strategic Normal	Strategic Ranges
Equities			70%	66% - 77%
Broad Domestic Equity	9.15%	19.00%	55%	50% - 65%
International	9.25%	20.20%	15%	10% - 20%
Fixed Income	3.05%	3.75%	30%	23% - 33%
Cash	2.25%	0.90%	0%	0% - 5%
			Expected	
Total Fund	Expected	Expected	Real	Expected
Actuary	7.00%	3.25%	3.75%	N/A
Portfolio	6.58%	2.25%	4.33%	12.67%

* Expected arithmetic return net of fees and expenses

Actuarial Assumptions	
Assumed Inflation - Mean	3.25%
Assumed Inflation - Standard Deviation	2.00%
Portfolio Arithmetic Mean Return	8.42%
Portfolio Long-Term Expected Geometric Rate of Return	7.50%
Assumed Investment Expenses	0.40%
Long-Term Expected Geometric Rate of Return, Net of Investment Expenses	7.10%

Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.10%, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10%) or 1-percentage-point higher (8.10%) than the current rate:

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

6. PENSION PLAN (Continued)

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
Employer's proportionate share of the net pension liability (asset)	\$ 9,290,337	\$ 3,997,209	\$ (401,520)

Pension plan fiduciary net position

Detailed information about the pension plan’s fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payables to the pension plan

At September 30, 2017, the County reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and employee contributions which had been withheld from employee wages but not yet remitted to PERSI.

7. CONTINGENCIES

Various claims and lawsuits are pending against the County. These claims and lawsuits are presently handled by the County's insurance company and the probability of potential loss in excess of insurance coverage is remote.

Component Unit:

The Hospital is currently a defendant in several civil lawsuits and tort claims, the outcomes of which are not known. The Hospital denies liability and is defending against the allegations. The Hospital is unable to determine the amounts at risk in these claims.

The County commissioned Valuations Northwest, an independent appraisal service, to compile a detailed record of the fixed assets for the County. The appraisal report established a detailed record as of June 24, 2002. The amount carried in the capital assets includes assets listed in the appraisal report including equipment, buildings, and transportation equipment, plus assets acquired after the date of the report. The infrastructure (i.e. roads and bridges) has been added if acquired after September 30, 2002. The County has not included infrastructure acquired prior to that date.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

9. WARRANTS PAYABLE

The County pays its claims by issuing a warrant ordering the County treasurer to pay for the warrant upon presentation. Warrants issued but not yet presented for payment are reported as warrants payable.

10. NONSPENDABLE AND SPENDABLE FUND BALANCES AND NET POSITION

Fund Balance and net position are divided into multiple designations.

Fund balance is separated into nonspendable and spendable fund balance. Nonspendable fund balance includes amounts that cannot be spent because they are either: (1) not in spendable form; or (2) legally or contractually required to be maintained intact. Spendable amounts are classified into restricted, committed, assigned, and unassigned. The following is a list of nonspendable and spendable fund balance designations for Madison County.

Assigned for Debt Service. The fund balance is assigned by approval of the County Commissioners to the servicing of debt and will be spent for future debt services expenditures.

Assigned for Other Purposes. The fund balance is assigned by approval of the County Commissioners to various other purposes and will be spent for the various other purposes expenditures.

Unassigned. This fund balance is not assigned to any specific purpose. Madison County will use the unassigned fund balance for expenditures in the subsequent fiscal year. Unrestricted net position- No restriction. This is used for the proprietary fund. Net position invested in capital assets, net of related debt - This is used by the proprietary fund.

11. DEFERRED COMPENSATION PLAN

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The County funds all amounts of compensation deferred under the plan, at the direction of the covered employee, through investments in fixed annuity contracts administered by PEBSICO Deferred Compensation Plan Administrator.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the County (without being restricted to the provisions of benefits under the plan), subject only to the claims of the County's general creditors. Participants' rights under the plan are equal to those of general creditors of the County in an amount equal to the fair market value of the deferred account for each participant.

The County has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. The County believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

12. CLOSURE AND POSTCLOSURE CARE COSTS

State and federal laws and regulations require that Madison County, Idaho place a final cover on its Non-Municipal Solid Waste Site (NMSWS) when closed. The NMSWS is classified as a C and D site which only accepts certain types of refuse like trees, shrubs, wood, and concrete but no household refuse. In addition to operating expenses related to current activities of the NMSWS, an expense provision and related liability are being recognized based on the future closure and post closure care costs that will be incurred near or after the date the NMSWS no longer accepts waste. The recognition of these NMSWS closure and post closure care costs is based on the amount of NMSWS used during the year. The estimated liability for NMSWS closure and post closure care costs has a balance of \$144,086 as of September 30, 2017, which is based on 35.00% usage (filled) of the NMSWS. It is estimated that an additional \$267,590 will be recognized as closure and post closure care expenses between the date of the balance sheet and the date the NMSWS is expected to be filled to capacity (2034). The estimated total current cost of the NMSWS closure and post closure care (\$411,676) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the NMSWS were acquired as of September 30, 2017. However, the actual cost of closure and post closure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

13. DEFICIT FUND BALANCES

The County had no deficit fund balances at September 30, 2017.

14. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expenses/expenditure) until then. The County had deferred outflows of resources related to pensions (see Note 7 for amounts).

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. See Note 7 for any deferred inflows of resources for the statement of Net Position. The County has one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes. This amount is deferred and recognized as an inflow of resources in the period that amounts become available. Deferred inflows of resources at September 30, 2017 consisted of \$218,276 in governmental funds.

15. CONTINGENT LIABILITIES

The County participates in a number of federally assisted grant programs. The audits of these programs have been completed in previous years in compliance with single audit requirements. The County appears to be meeting the grant requirements. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

The County is a defendant in several lawsuits. Although the outcome of the lawsuits is not presently determinable, in the opinion of the County attorney the resolution of these matters will not have a material effect on the financial condition of the County.

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

16. JOINT VENTURES

The County has entered into a joint venture, with Fremont, Teton, Clark, and Jefferson Counties, to construct and maintain a Five County Juvenile Detention Center. The construction of the Juvenile Detention Center was completed in 2003. The joint venture's new facility cost \$3,933,020 and has a debt for which the counties are jointly liable. The previous building is located in Madison County and has been converted to a women's facility. Madison County is reimbursing the other counties for their interest in the building by allowing them to pay a reduced fee for housing inmates in this facility which started in the 2004 fiscal year.

Fremont County is currently the trustee for all funds although Madison County was previously. The Detention Center is included in Fremont County's audit.

The operation of the Five County Juvenile Detention Center is funded by the five counties based on a predetermined percent.

Madison County's share of operation expenses in 2017 was \$538,964. The expense was paid out of the General fund. Total expenses for the Detention Center were \$2,137,584 for the fiscal year ended September 30, 2017.

In addition to the Five County Juvenile Detention Center, the County has entered into a joint venture with the City of Rexburg and the Fire District to construct and maintain an ambulance building. Construction was completed March 1999. The operation of the Ambulance building will be funded by the Fire District, City of Rexburg, and Madison County. The operational funds will be accounted for by the City of Rexburg. A quarterly reconciliation was completed for all expenses associated with the ambulance and fire station, and each entity will be responsible for their share of the total expenses. From October 2016 to September 2017 Madison County's share consisted of all expenses attributed to the ambulance which totaled \$1,298,058.

The Archer Fire Station was completed in 2002 by Madison County using County and grant funds. It is owned by the County and managed by the Madison Fire District, a separate entity.

17. ACCOUNTS RECEIVABLE

The County has no allowance for uncollectible accounts.

Component Unit:

Receivables at September 30, 2017, include the following:

Patients and third-party payers	\$ 24,330,490
Less allowance for doubtful accounts	<u>(12,716,438)</u>
Total	<u>\$ 11,614,052</u>

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

18. CONCENTRATION OF CREDIT RISK

Component Unit:

The Hospital is engaged in providing medical services to individuals throughout the Upper Snake River Valley. Fluctuations in the economy in the area can affect the profit of the Hospital. Financial instruments that potentially subject the Hospital to concentrations of credit risk consist principally of accounts receivable, which are carefully monitored to reduce such risk.

19. NONOPERATING REVENUES AND EXPENSES

Component Unit:

Nonoperating revenues and expenses for the year ended September 30, 2017, is as follows:

Interest income and finance charges	\$ 164,883
Contributions and grants	219,732
Other income	108,689
Joint Venture Income	184,809
Interest expense	<u>(1,794,870)</u>
 Total nonoperating revenues and expenses	 <u><u>\$ (1,116,757)</u></u>

20. LONG-TERM RECEIVABLES

Component Unit:

The long-term receivables are from individuals. They are due within three years of the origination of the note with provisions of penalty for nonrepayment.

Long-term receivables	\$ 832,025
Less current portion	<u>(632,025)</u>
Long-term receivables net of current portion	<u><u>\$ 200,000</u></u>

**MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017**

21. COMPONENT UNIT: NET PATIENT SERVICE REVENUE

A summary of gross and net patient service revenue for the year ended September 30, 2017 is as follows:

Gross patient service revenue	\$ 122,403,526
Deductions from revenue	
Medicare contractual adjustment	17,651,658
Medicaid contractual adjustment	7,813,192
Other deductions	<u>21,111,010</u>
	<u>46,575,860</u>
Net patient service revenue	<u>\$ 75,827,666</u>

22. JOINT VENTURE/JOINTLY GOVERNED ORGANIZATION

Madison County, along with three other counties, created the Eastern Idaho Regional Solid Waste District, a separate government entity. One commissioner from each county serves on the board. Clark County is where the project will be located and has spent \$178,862 as funding for the District’s start-up costs. The District will repay the County through grants they receive and a revenue bond. None of the counties will be responsible for any debt or financial claims against the District.

23. SUBSEQUENT EVENTS

Subsequent events have been considered through the date of March 12, 2018. There are no known subsequent events that will have a material impact on the operation of the County.

24. FAIR VALUE

GASB Statements No. 72, *Fair Value Measurement and Application*, (Statement 72) specifies a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical instruments in active markets, that the reporting entity has the ability to access at the measurement date.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are directly or indirectly observable. Examples would be matrix pricing, market corroborated pricing and inputs such as yield curves and indices.

Level 3 – Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable and may rely on the reporting entity’s own assumptions, but the market participant’s assumptions that may be used in pricing the asset or liability.

Inputs used to measure fair value might fall in different levels of the fair value hierarchy, in which case the County defaults to the lowest level input that is significant to the fair value measurement in its entirety. These levels are not necessarily an indication of the risk or liquidity associated with the investments.

MADISON COUNTY – STATE OF IDAHO
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2017

24. FAIR VALUE (Continued)

The following table presents fair value measurements as of September 30, 2017:

	<u>9/30/2017</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>

MADISON COUNTY - STATE OF IDAHO
NOTES TO BUDGET AND ACTUAL COMPARISON SCHEDULES
For the Year Ended September 30, 2017

1. The legally adopted budget for Madison County – State of Idaho is based on the cash basis of accounting which is a comprehensive basis of accounting other than GAAP. The budget to actual comparison is prepared on the cash basis of accounting.
2. The difference between the cash basis of accounting and the modified accrual basis of accounting is reconciled at the bottom of each individual Budget to Actual (With Variances) statement.
3. Actual expenditures did not exceed budgeted amounts in any of the major funds.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

**The Honorable Board of Commissioners
Madison County – State of Idaho
Rexburg, Idaho**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the remaining fund information of Madison County, Idaho as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated March 12, 2018. Our report includes a reference to other auditors who audit the financial statements of Madison Memorial Hospital, as described in our report on Madison County, Idaho's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Madison County, Idaho's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Madison County, Idaho's internal control. Accordingly, we do not express an opinion on the effectiveness of Madison County, Idaho's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Madison County, Idaho's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
