Members who obtain liability coverage through the League of Minnesota Cities Insurance Trust (LMCIT) must complete and return this form to LMCIT before the member's effective date of coverage. Return completed form to your underwriter or email to <a href="mailto:pstech@lmc.org">pstech@lmc.org</a>.

The decision to waive or not waive the statutory tort limits must be made annually by the member's governing body, in consultation with its attorney if necessary.

Members who obtain liability coverage from LMCIT must decide whether to waive the statutory tort liability limits to the extent of the coverage purchased. The decision has the following effects:

- If the member does not waive the statutory tort limits, an individual claimant could recover no more than \$500,000 on any claim to which the statutory tort limits apply. The total all claimants could recover for a single occurrence to which the statutory tort limits apply would be limited to \$1,500,000. These statutory tort limits would apply regardless of whether the member purchases the optional LMCIT excess liability coverage.
- If the member waives the statutory tort limits and does not purchase excess liability coverage, a single claimant could recover up to \$2,000,000 for a single occurrence (under the waive option, the tort cap liability limits are only waived to the extent of the member's liability coverage limits, and the LMCIT per occurrence limit is \$2,000,000). The total all claimants could recover for a single occurrence to which the statutory tort limits apply would also be limited to \$2,000,000, regardless of the number of claimants.
- If the member waives the statutory tort limits and purchases excess liability coverage, a single claimant could potentially recover an amount up to the limit of the coverage purchased. The total all claimants could recover for a single occurrence to which the statutory tort limits apply would also be limited to the amount of coverage purchased, regardless of the number of claimants.

Claims to which the statutory municipal tort limits do not apply are not affected by this decision.

Subject: Municipal State Aid Advance

The Minnesota Department of Transportation (MnDOT) allows cities to advance municipal state aid funds as required to construct state-aid projects when the city's Municipal State Aid Construction account does not have adequate funds to cover the eligible project costs. The City of North Mankato is requesting an advance of Municipal State Aid Funds in the amount of \$400,000 for the construction of the Lor Ray Drive Improvement Project. An advance is also being requested in the amount of \$240,000 for the payment of the bond principal for the existing State Aid bond that was taken out in 2015 for the TH 14/CSAH 41 interchange project

It is recommended that the City Council adopt the attached resolution, which is required to make the advance request to MnDOT. I will be available at the February 22<sup>nd</sup> City Council meeting to answer any questions.
