

BUDGET WORKSHOP

SEPTEMBER 8, 2020

Tax History & Distribution, Relevant Strategic Plans, and Proposed
2021 Tax Levy

Prepared by Melina Lobitz
Government Affairs and Administrative Intern

EXECUTIVE SUMMARY

The purpose of this workshop complies with the budget calendar previously set and passed by the council. The calendar indicates that the September 8th workshop is convened to review and discuss the tax history & distribution backgrounds, relevant strategic plans, and the proposed tax levy.

- The taxable market value (TMV) of the community is estimated at \$1.2 billion for 2021. This is a \$17.7 million increase (or 1.5%) between 2020 and 2021 in new growth.
- The total city tax capacity increased by \$210,000 between 2020 and 2021
- The 2021 tax levy is estimated at \$6.8 million which is a 1.5% increase and amounts to approximately \$98,000 in new operating revenue for the City. All new revenue is allocated to the General Fund for 2021.
- The value of the community increased by 4.3% and new construction makes up 1.5% of that increase.
- The proposed tax rate is 48.275%, a 1.39 percentage point reduction from 2020. The decrease is proposed in recognition of the financial impacts of the COVID-19 pandemic on businesses and homeowners in the community.
- North Mankato is comprised of 5 major tax classifications including residential, commercial, industrial, agricultural, and tax-exempt properties.
 - o Residential parcels make up 78% of total City parcels. These parcels pay 57% of all city tax amounts.
 - o Commercial and industrial properties make up 5% of total City parcels and contribute to 30% of the City tax levy.
- The top 10 highest contributing tax entities in North Mankato contribute to 7.3% of the total levy or approximately \$515,000. Four of the top ten contributors are Taylor Corporation companies.
- The average North Mankato homeowner pays roughly \$1,000 in city taxes. Roughly 80% of all residents contributing to the tax levy have an estimated property value between \$100,000 and \$300,000.
- When compared to other similarly sized cities, North Mankato ranks in upper third for TMV, in the middle third for levy, and the bottom third for city tax rates. City utility rates are competitive when compared to similar cities in terms of population size and geographic location.
- Randomly selected commercial and residential properties suggest that the city portion of property tax rates has remained relatively flat over the last three years.

HISTORIC AND CITY COMPARISONS

TAXABLE MARKET VALUE

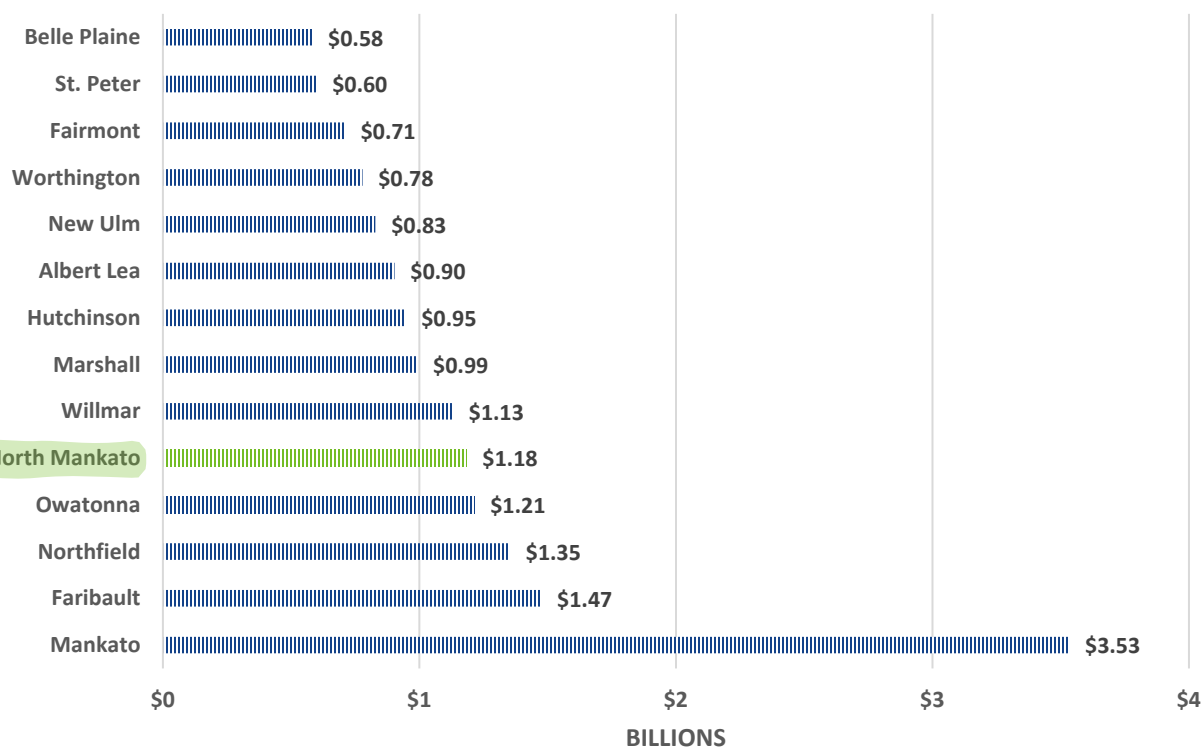

North Mankato est.TMV in 2021 - **\$1,236,359,031**

A property's TMV is its estimated market value without any tax exemptions, deferrals, or value exclusions that apply. For example, many homeowners have a Homestead Market Value Exclusion, which reduces the amount of home value that is subject to be taxed. The above value is rounded to the millions.

HISTORIC TAXABLE MARKET VALUES

2020 TMV FOR COMPARABLE CITIES

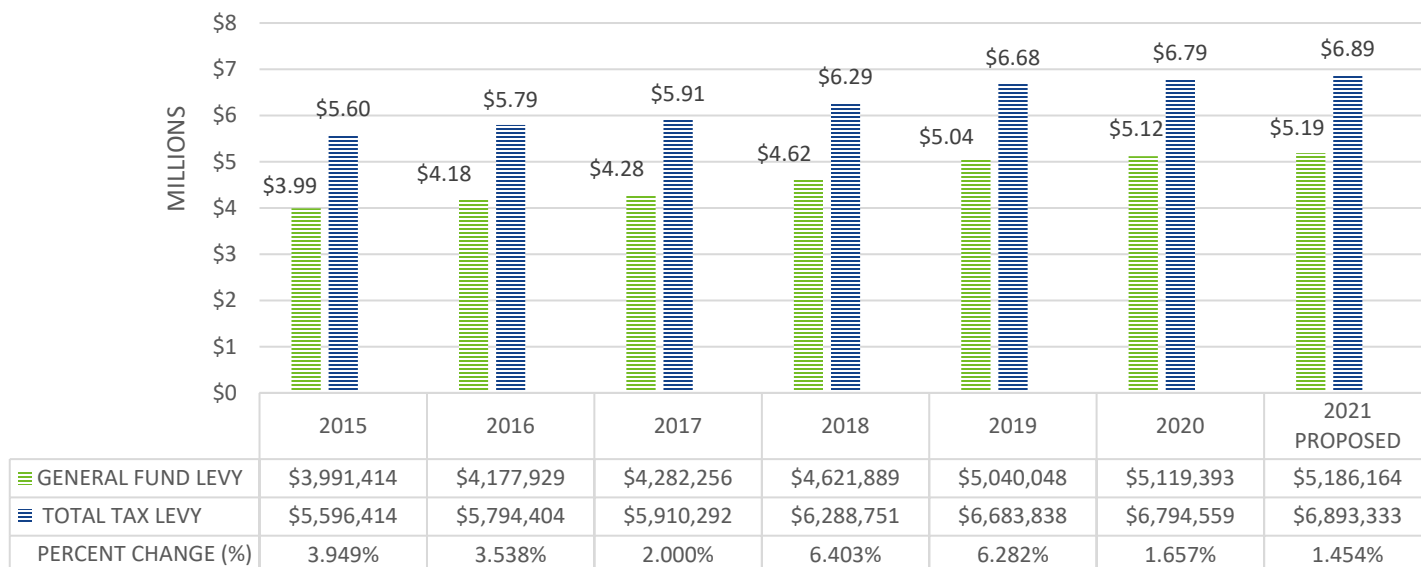

TAX LEVY

North Mankato proposed 2021 Levy - **\$6,893,333**

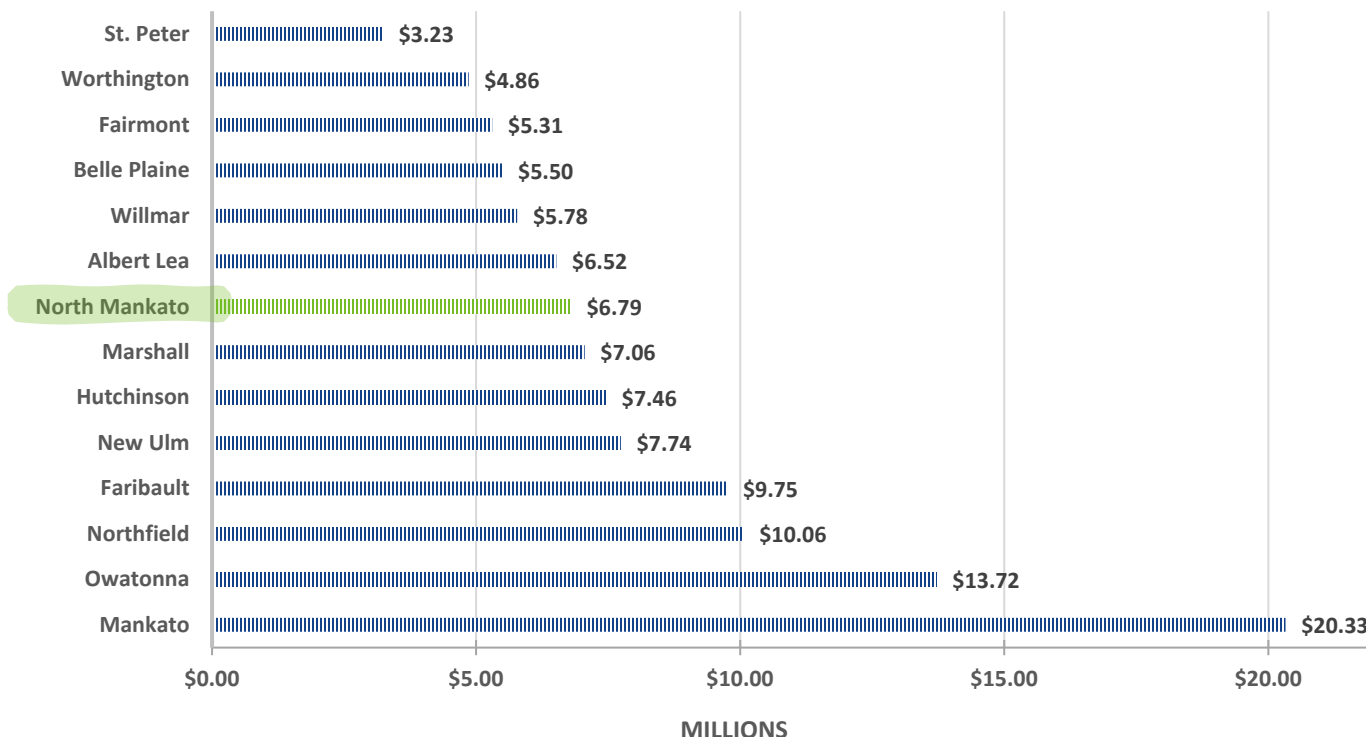

The City's Tax Levy is the amount of money that the City needs to collect from property owners to deliver an array of services for residents each year.

City levies include all levies spread at the city level and disparity reduction aid, which directly reduces property tax rates for city levies.

HISTORIC LEVY GROWTH

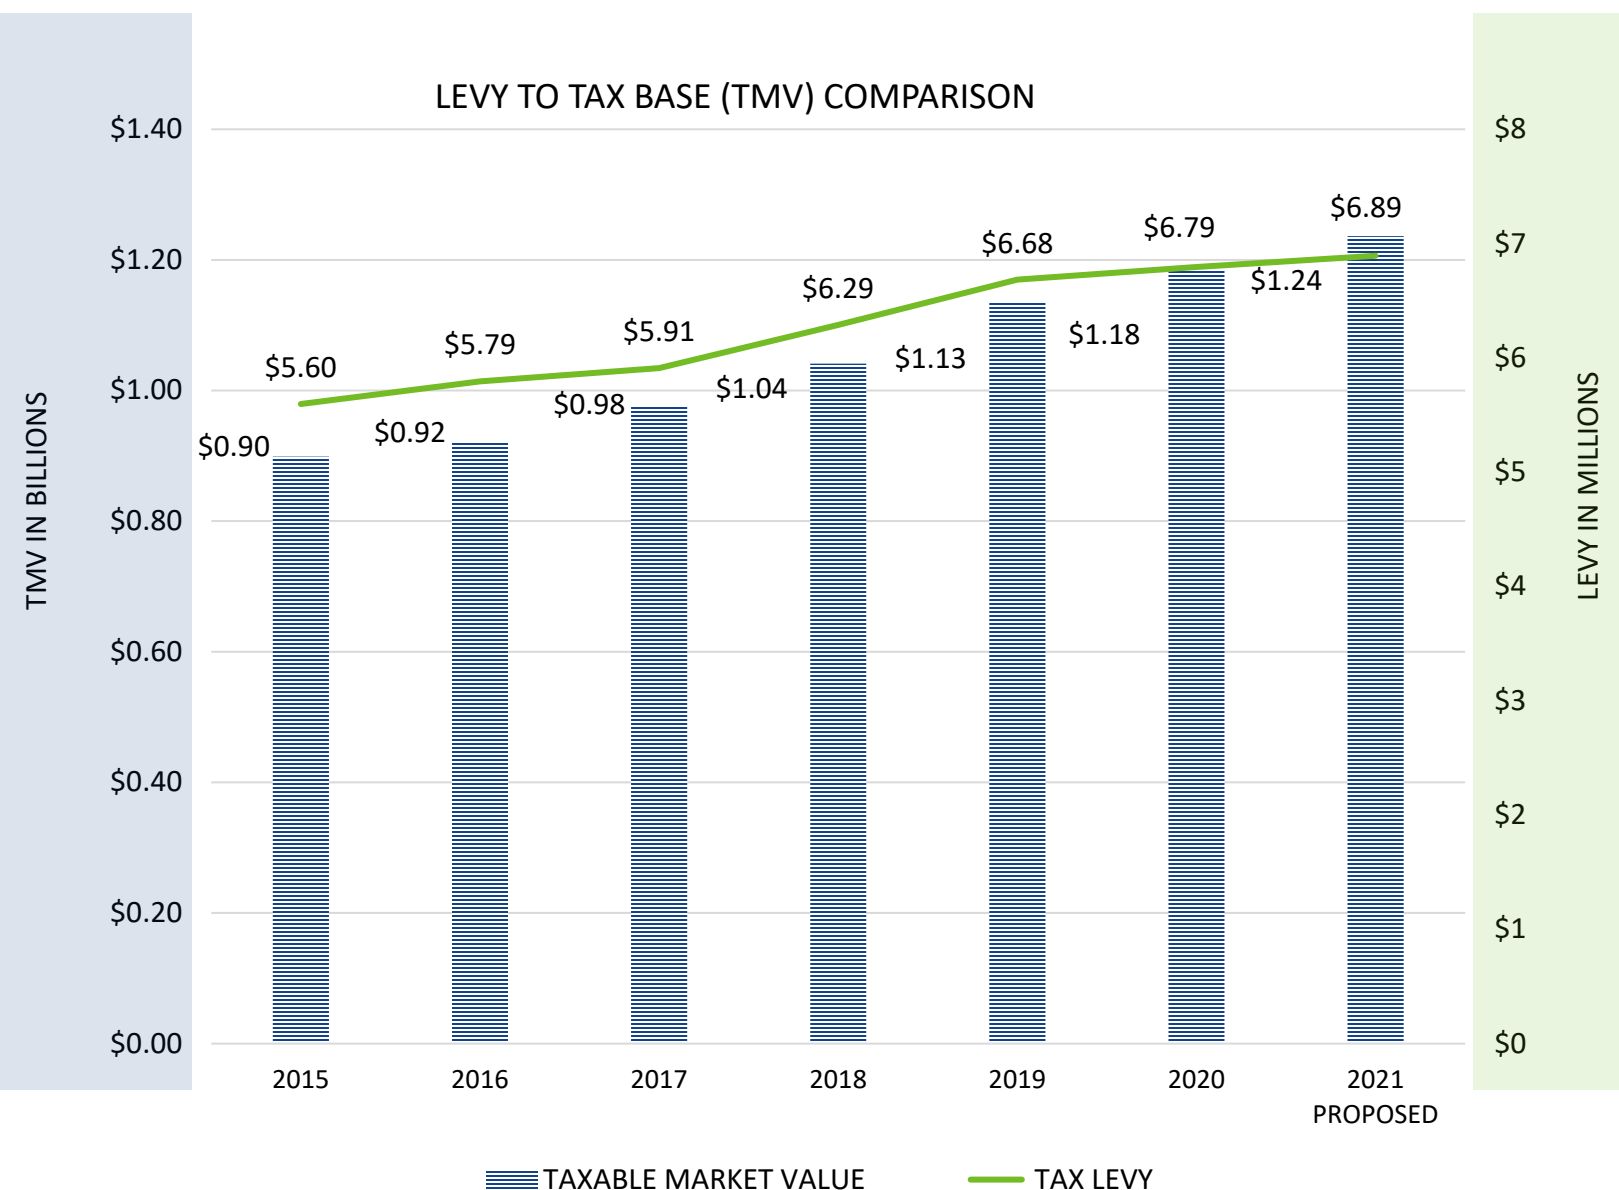

2020 TAX LEVIES FOR COMPARABLE CITIES

LEVY AND TMV

Taxing jurisdictions certify a levy equal to the amount of money they intend to raise from property taxes in the upcoming year. This levy is created based upon the priorities of the governing body. Based on the current taxing philosophy of North Mankato, the TMV and the City's levy go hand in hand. As a result, the City has captured new growth and continued to encourage City development

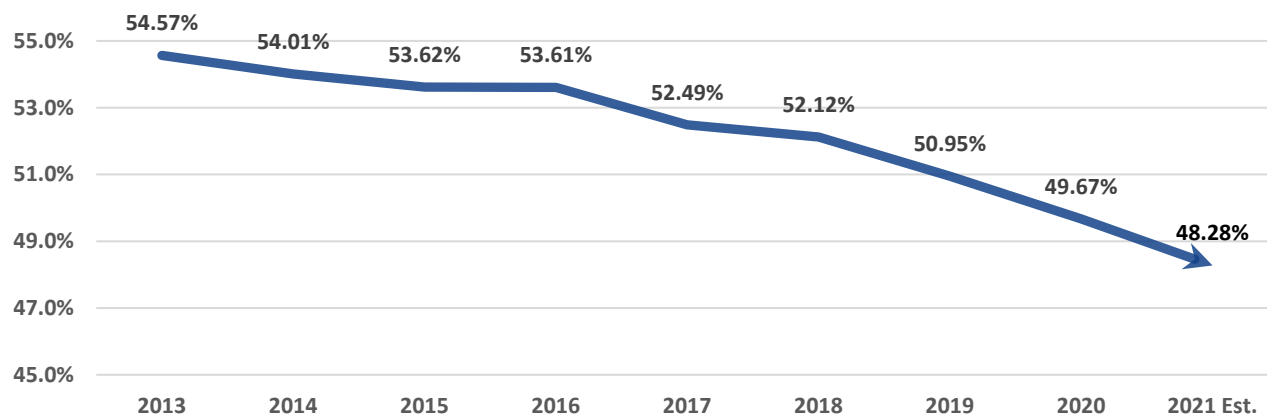

CITY TAX RATE

North Mankato est. city rate in 2021 - **48.275%**

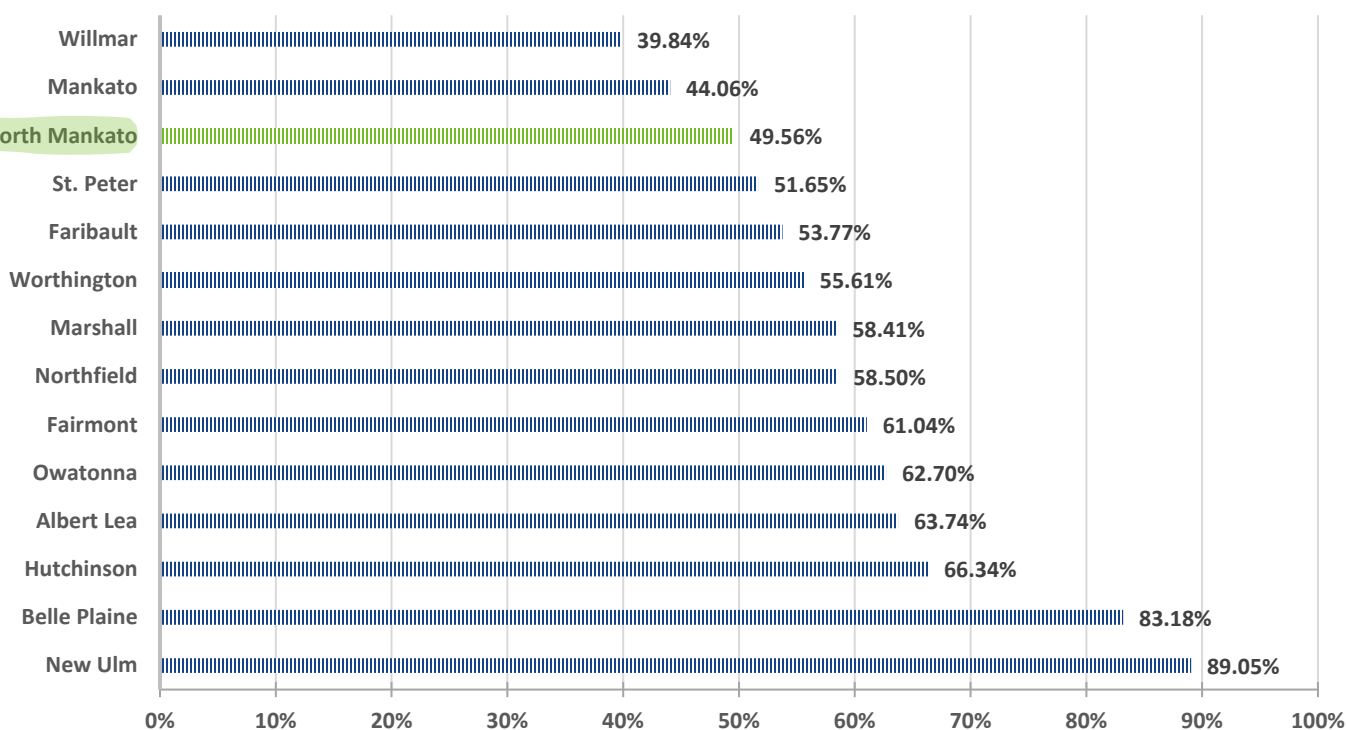

The Tax Rate represents the amount of taxes owed per \$10,000 of home value so that the levy can be raised and then used to invigorate and build up the City.

The City's Tax Rate has been on a general decline since 2013 when it was 54.57%.

HISTORIC TAX RATE CHANGES

2020 CITY TAX RATES FOR COMPARABLE CITIES

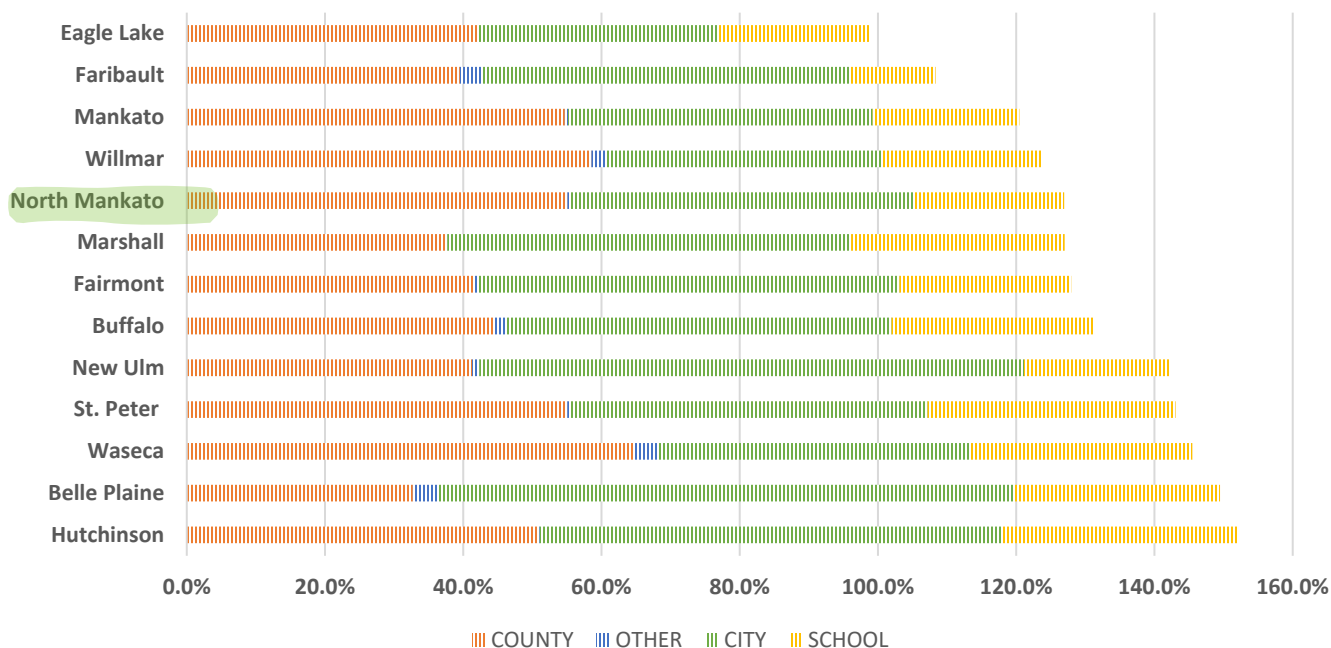

TOTAL RATE

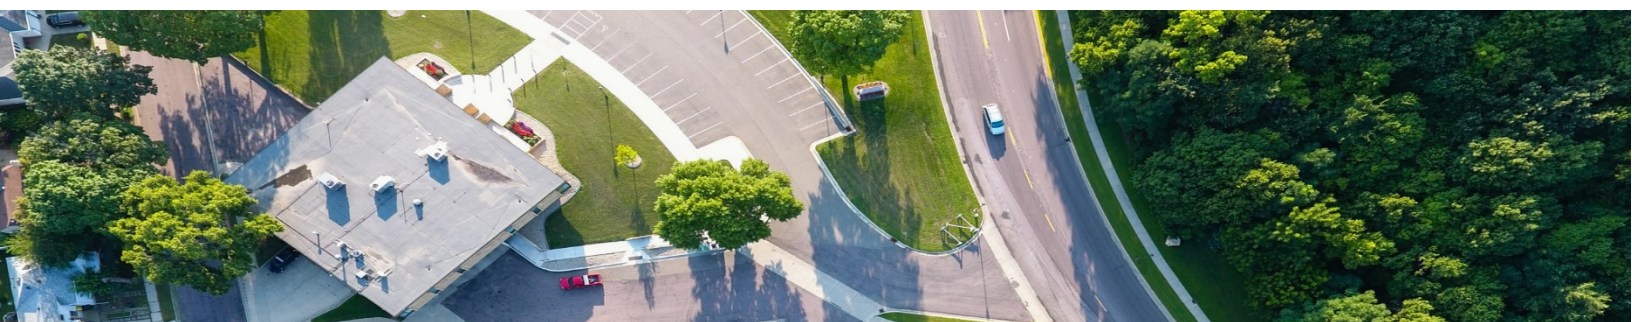

North Mankato Total Tax Rate in 2020 - 126.95%

A City's Total or Overlapping Tax Rate is a sum of all rates applied to the City. This includes city, county, and school tax rates. The category of "other" includes taxes like HRA, Region 9, and additional outlying rates.

HISTORICAL PROPERTY TAX AND VALUES

HOW PROPERTY TAXES EFFECT RESIDENTS AND BUSINESSES

Government spending and revenues will affect tax bills the most. If spending increases or revenues from other sources such as state aid decrease, your property taxes may increase. Conversely, if spending decreases or revenue from other sources increases, there may see a decrease in the property tax bill. Since property taxes are levy-based, it is possible to have the property tax increase while the market value decreases and vice versa. A property tax rate is calculated by dividing the property tax levy by the total taxable market value in a city, township, county, or school district.

The City has developed and adopted several plans as well as an overarching strategic plan that guides City direction and action. This list highlights many of these plans but is not an exhaustive list.

The **Safe Routes to School Plan** was established in 2015. Since then, improvements have occurred at Dakota Meadows Middle School and Monroe Elementary with additional Lookout Drive improvements totaling roughly \$1.1 million since it was adopted.

The **Pavement Management Study** identifies the needs of the street system within the community and recommends annual allocations to the replacement of pavement. Since 2015 \$2.63 million was invested.

The **Sidewalk Maintenance and Installation Policy** allows for 50% city match for the correction of nuisance properties. In the past 5 years, \$78,743 was spent on sidewalk improvements.

The **Public Art Ideas Plan** provides for the continued proliferation of art throughout North Mankato. Since its establishment, seven sculptures have been placed and additional grants have been received. In the past 5 years, \$51,578 was invested in the Public Art Ideas Fund with an additional \$20,000 investment in the Walking Sculpture Tour project.

The **Commerce Drive Improvement Plan** calls for the redevelopment and beautification of Commerce Drive as well as the creation of a business association. \$3.68 million dollars have been invested into the project, \$2 million of which was comprised of state funding. A business cooperation has been established and future community events are in planning stages.

The **Belgrade Master Plan** calls for the redevelopment of the 200 block and beautification through wayfinding signage. A \$425,000 investment has been budgeted for renovations in the area. More will be accomplished following the construction of Frandsen Bank and the rooftop bar establishment.

The **Budget Reserve Policy** establishes several policies for reserve amounts within the debt service and utility funds. This guidance is met in the proposed 2021 budget and planning.

The **Parks and Greenway Management Plan** calls for the investment and expansion of public parks by the way of play equipment, natural features, sporting fields, and green spaces used and celebrated by the community. Since 2015, \$1.13 million was invested in the parks plan system.

The **Benson Park Plan** calls for a variety of features to be expanded within the large park including ongoing prairie restoration and protection as well as play equipment expansions, art features, and public restrooms. To date, \$364,547 in improvements have been invested in the park.

The **Spring Lake Park Swim Facility** assessments called for improvements which were completed in 2019 and totaled approximately \$4.8 million including warming house and concession upgrades.

The **Ravine Management Plan's** purpose is to evaluate the conditions of ravines throughout the community. The most recent project took place in the North Ridge development to reduce and protect against future erosion and totaled \$2.4 million to date.

The **Water Supply and Wellhead Protection Plans** were implemented to create long-term water use sustainability, environmental conservation, and the protection of groundwater reserves and wellheads. Improvements, testing, and other safety measures undertaken since 2015 have totaled \$656,419.
