News Release - Automated Traffic Cameras

Marlborough, CT - The Town of Marlborough is announcing the installation of Automated Traffic Enforcement Safety Devices (speed cameras) on North Main Street. This initiative is part of the Town's ongoing efforts to enhance road safety and reduce speeding in high-traffic areas.

Tuesday, June 17, 2025, speed enforcement cameras went active in both northbound and southbound lanes of North Main Street. In accordance with Connecticut state law, there will be a 30-day warning period. During this time, motorists who exceed the posted speed limit will receive warning notices rather than citations.

The goal of this program is not to issue tickets, but to reduce the risk of serious and fatal crashes and to make North Main Street safer for all road users, including pedestrians.

The deployment of these cameras aligns with Marlborough's broader traffic safety goals and supports the Town's Safe Streets and Rural Road initiatives, strategies dedicated to eliminating traffic-related fatalities and serious injuries.

Following the 30-day grace period, citations will be issued to vehicle owners exceeding posted speed limits. The Town of Marlborough encourages all drivers to observe posted speed limits and practice safe, responsible driving.

The Town remains committed to ensuring safer streets for everyone who lives, works, or travels through Marlborough.

For more information about the Automated Traffic Enforcement Camera Program, please contact Director of Public Safety Jay Kehoe at (860) 295-9098 or jaykehoe@marlboroughct.net.
