

MEADVILLE ENVIRONMENTAL ADVISORY COMMITTEE

EAC Weatherization Subcommittee

Minutes

March 13, 2024

5:15 P.M.

1. Allegheny Impact Team Outreach
 - One committee open to a meeting but no interest in acting as a facilitator. The system is fractured, and there is no specific discussion about continuing to fund community projects.
 - If the weatherization subcommittee is in need of a summer student researcher, that may be possible.
2. MPB Tax Credit Trainings & Convening Partners
 - Next Step: Reach out to McGill, Power, Bell, Common Roots, and Northwest Weatherization to attend April meeting
 - April 10th, 5 pm
 - Can these partners recommend funding for event supplies, hosting locations, and more?
 - Matt to check on ESS department resources for these sort of community events. Allegheny could host events like this.
3. City Housing Plan
 - Renna and Peter are contacts for the plan. Council gave consensus to move forward with adopting the draft plan.
 - Matt to share draft plan for context.
 - Subcommittee to consider alignment with the plan.
4. Clean Energy Center
 - Did anything ever come from this discussion? Where do we stand?
Jenny to reach out to ask.
5. Goals for 2024
 - Additional subcommittee members
 - Event series
6. Other
 - Conservation Voters of PA is holding Inflation Reduction Act Town Halls in other PA counties. Jenny will try to understand how those come together and see if we can use any of these resources.

- Similarly, they recently published a new website for people to understand the funding they can take advantage of – cleanenergyfunding.org

7. Next Steps

- Email Common Roots, MPB, & Northwest Weatherization about 4/10 meeting
- Loop back to Clean Energy Center about where we stand
- Loop back to DEP about IRS rebates
- Review Housing Plan
- Consider student opportunities
