INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
County of Merrimack
Boscawen, New Hampshire

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the County of Merrimack, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County of Merrimack's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used, and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the County of Merrimack, as of December 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in total OPEB liability, schedules of proportionate share and contributions of the NHRS net OPEB liability, and schedules of proportionate share and contributions of the net pension liability, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Merrimack's basic financial statements. The combining, nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations*, (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and is also not a required part of the basic financial statements.

The combining nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2022, on our consideration of the County of Merrimack's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Merrimack's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

**County of Merrimack, New Hampshire
December 31, 2021**

The Commissioners, County Administrator and Finance Director, as "management" of the County of Merrimack, New Hampshire (the County), submit to the readers the following discussion and narrative analysis as an overview of the financial activities of the County of Merrimack, NH for the year ended December 31, 2021. The Management's Discussion and Analysis (MD&A) should be read in conjunction with the accompanying basic financial statements and the accompanying notes to those basic financial statements.

FINANCIAL HIGHLIGHTS

- The County's total combined net position decreased by \$1,150,590 or 0.9% between December 31, 2020, and 2021.
- The County's total combined net position amounted to \$(122,368,581) as of December 31, 2021. Net position consisted of \$574,130 net investment in capital assets: \$490,497 restricted for other purposes and an unrestricted net deficit of \$(123,433,208).
- The County's long-term liabilities, consisting of general obligation bonds, capital leases, compensated absences, OPEB obligations, and net pension liabilities decreased by a net (additions less reductions) \$26,256,959 during the year ended December 31, 2021. The ending long-term liabilities consisted of \$3,641,594 due next year.
- During the year, the County's expenses were \$1,150,590 more than the \$92,252,053 in revenues generated from charges for services, operating grants and contributions and general revenues (consisting of the assessment to towns and miscellaneous fees and contributions not restricted to specific purposes).

MANAGEMENT'S DISCUSSION AND ANALYSIS

County of Merrimack, New Hampshire
December 31, 2021

OVERVIEW OF THE FINANCIAL STATEMENTS

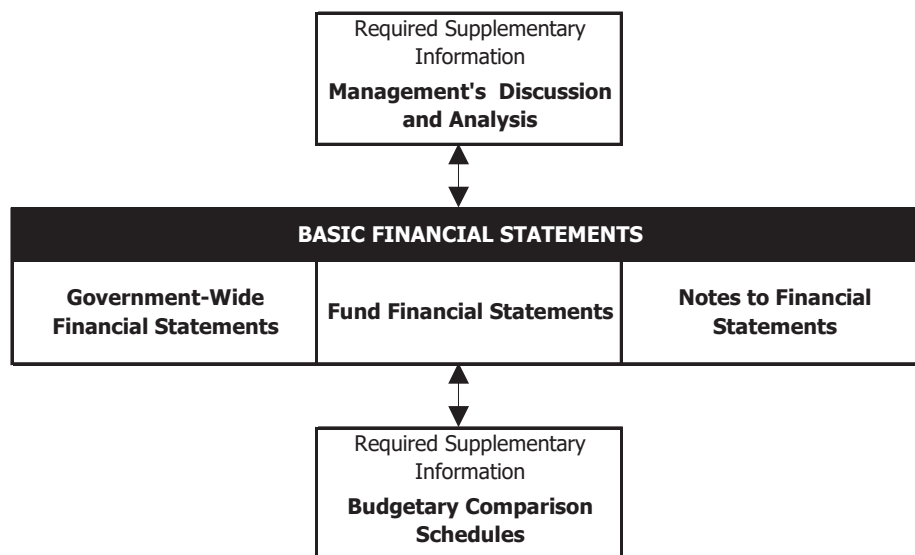

This discussion and analysis is intended to serve as an introduction to the County's annual report, which consists of a series of basic financial statements, notes and related financial or compliance information. The County's financial statements are comprised of the following primary sections or components: (1) basic government-wide financial statements, (2) basic fund financial statements, (3) notes to basic financial statements, (4) required supplementary information, (5) notes to required supplementary information, (6) other supplementary information, including combining nonmajor fund schedules, and fiduciary funds, and (7) federal supplementary information.

The basic financial statements include two kinds of statements that present different views of the County based upon measurement focus and basis of accounting.

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the County's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements. The governmental funds statements tell how the County's services were financed in the short term as well as what remains for future spending. Fiduciary fund statements provide information about the financial relationships in which the County acts solely as a trustee or agent for the benefit of others, to whom the resources belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Exhibit A-1 shows how the required parts of this annual report are arranged and related to one another.

The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

County of Merrimack, New Hampshire
December 31, 2021

Government-Wide Financial Statements

The first two basic statements are government-wide financial statements that provide both long-term and short-term information about the County's overall financial status and report net position and changes in them. Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources and is one way to measure the County's financial health, or financial position.

- Over time, increases or decreases in the County's net position are one indicator of whether its financial health is improving or deteriorating, respectively.
- In order to assess the overall health of the County other non-financial factors should also be considered, such as changes in the County's general revenues (principally the assessment to municipalities which is derived by local property taxes), and federal and state intergovernmental revenues; the condition of the County's buildings and other depreciable property (likelihood of emergency repairs or maintenance); and any other items subject to significant financial or budgetary uncertainty.

The government-wide financial statements of the County are included in the Governmental Activities category. Most of the County's basic services are included here, such as county administration and maintenance, county attorney, register of deeds, sheriff's department, human services, department of corrections and nursing home. General revenues, including the assessment to local municipalities, state aid, and charges for services finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. State law, regulation or bond covenant requires some funds, while others are established to comply with the requirements of grantors. The County has two kinds of funds:

Governmental Funds - Most of the County's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explains the relationships (or differences) between them.

Fiduciary Funds - The County is responsible for other assets that, because of an agency arrangement, can be used only for the intended purposes. These funds are excluded from the County's government-wide financial statements because the County cannot use these assets to finance its operations.

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

A portion of the net position is either invested in capital assets or restricted as to the purposes they can be used for.

- The County's investment in capital assets (land and improvements, buildings and improvements, and machinery and equipment, net of accumulated depreciation), net of related debt, is the largest positive component of the total combined net position.
- Restricted net position represents specific fund net position amounts that are not available for discretionary spending.

Unrestricted net position is a negative \$(123,433,208) as of December 31, 2021.

GENERAL FUND BUDGETARY HIGHLIGHTS

For the year ended December 31, 2021, the County did not revise its statutory budgetary line items; rather, the County's budgetary control was managed on an aggregate total budget-to-actual basis; total estimated revenues and appropriations versus actual revenues and expenditures.

Final Versus Original Budget Comparison

The original and final budget amounts were the same for the year ended December 31, 2021.

Actual Versus Final Budget Comparison

The amounts of actual inflows (resources) and outflows (charges to appropriations) varied from the final budget for the following significant items:

- Actual inflows (resources) were less than the budgetary revenue estimates by \$1,692,759. The total excess revenues and unused fund balance available for appropriation, was \$10,488,754.
- Actual total outflows, (expenditures or charges to appropriations), were less than the budgeted appropriations by \$9,673,528. The most significant variances to voted appropriations were for the corrections department which were \$1,078,703 under expended, and the nursing home which was \$5,940,847 under expended.
- None of the currently known reasons for the budgetary variations are expected to have a significant effect on future services or liquidity.

MANAGEMENT'S DISCUSSION AND ANALYSIS

County of Merrimack, New Hampshire
December 31, 2021

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The County management team considered several factors prior to submitting the fiscal year 2022 budget to the Merrimack County Delegation. Here are some highlights of the budget.

The 2022 adopted County budget totals \$99,236,083 which includes no tax increase. The 2022 budget includes a total use of fund balance equal to \$6,560,472.

The budget includes a new three (3) year collective bargaining agreement for 96 Correction employees covered by the Teamster Union contract.

During the 2022 budget process, our intent was to keep taxes flat from the previous fiscal year. This was due in part to our ability to maintain the 17% fund balance policy target that we had reached at the conclusion of fiscal year 2021 and projected to maintain. The County management team is comfortable with utilizing fund balance to offset expenditures in 2022 as a result of the anticipated year end surplus in 2021.

Health insurance rates have increased 3.2% for the upcoming fiscal year. This will be the first full year of the New Hampshire Retirement System employer contribution rates increasing from 11.17% to 14.06% for full time Group 1 employees and from 28.43% to 33.88% for full time Group 2 employees. Alternative Care and Nursing Home Care costs are expected to increase by a net \$152,130. Overall, personnel costs are expected to decrease by 7.8% or \$3,009,618. We will continue to utilize available federal grants to offset the costs of personal protective equipment and other Covid-19 related expenses as available.

A major factor in our budget this year relative to previous is the continued decline in nursing home bed days. It has gone from a historically budgeted amount of 279, to 260 in 2021, to 220 in 2022. This represents a 21% decrease in bed days, which is a major factor in the County's operational revenue. Additionally, the entirety of the county is facing issues with recruitment as employment levels continue to hit low points.

We received \$14.7 million in ARPA funds in 2021 and will receive an equal amount in 2022. This money will continue to be vetted and used for appropriate projects. We are allowed to expend these dollars through 2026.

Long-term liabilities are not due in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

Bonds payable	(33,165,000)	
Capital lease obligations	(71,224)	
Compensated absences	(3,448,139)	
OPEB obligations	(103,852,617)	
Net pension liability	<u>(40,512,693)</u>	(181,049,673)

Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the governmental fund financial statements, an interest expenditure is reported when due. (146,319)

Deferred outflows of resources and deferred inflows of resources related to long-term liabilities are not current financial sources and uses and therefore are not reported in the governmental funds.

Deferred outflows related to pensions	8,244,699	
Deferred outflows related to other post employment benefits	28,911,775	
Deferred inflows related to debt refinance	(1,107,263)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended December 31, 2021

Total Net Change in Fund Balances - Governmental Funds \$ 1,360,379

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital outlays	\$ 979,049	
Depreciation expense	(5,413,255)	
Gain (Loss) on disposal of assets	<u>(48,102)</u>	(4,482,308)

Bond proceeds provide current financial resources to governmental funds, but increase long-term liabilities in the statement of net assets. (15,330,000)

Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Principal on bonds, including payment to refunding bond escrow	19,260,000	
Principal on capital leases	<u>25,911</u>	19,285,911

Interest on long-term liabilities in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due. In the statement of activities, however, interest expense is accrued.

Change in accrued interest (increase) decrease		33,148
--	--	--------

In the statement of activities, certain operating expenses are measured by the amounts earned/used during the year. In governmental funds, however, expenditures for these items are measured by the amount of financial resources used.

OPEB obligation (increase) decrease	2,683,070	
Net pension liability (increase) decrease	<u>19,758,548</u>	22,301,048

The change in deferred inflows and outflows of resources related to long term liabilities are reported against pension expense and other financing uses in the governmental activities.

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the County of Merrimack ("County" or "Government") have been prepared in conformity with Accounting Principles Generally Accepted in the United States of America (GAAP) as applied to government units, except as disclosed. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB), when applicable, that do not conflict or contradict GASB pronouncements. The more significant of the generally accepted accounting principles applicable to the County, and the County's conformity with such principles, are described below.

A. THE REPORTING ENTITY

The County of Merrimack operates under the Delegation – Commissioner form of government and provides County services as authorized by state statutes. As required by GAAP, specifically Statement #14 of the Governmental Accounting Standards Board, "The Financial Reporting Entity," these financial statements are required to present the County of Merrimack (the "primary government") and its "component units" (if any). A primary government is defined by the GASB as any state government or general purpose local government. Additionally, a primary government may also consist of a special-purpose government (such as a school district) that meets all of the following criteria: (a) it has a separately elected governing body; (b) it is legally separate; and (c) it is fiscally independent of other governments.

A component unit is defined by the GASB as a legally separate organization for which the elected officials of the primary government are "financially accountable." The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A primary government may also be financially accountable if an organization is "fiscally dependent" on the primary government. Fiscal independency is defined by the GASB as the ability to complete certain essential fiscal events without substantive approval by a primary government; (a) determine its budget without another government's having the authority to approve and modify that budget, (b) levy taxes or set rates or charges without approval by another government, and (c) issue bonded debt without approval by another government. Based upon the application of these criteria, there were no potential component unit's identified in defining the County's reporting entity.

Notes to Basic Financial Statements
December 31, 2021

B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE FINANCIAL STATEMENTS

The County's basic financial statements include both government-wide (reporting the County as a whole) and fund financial statements (reporting the County's major funds). Both government-wide and fund financial statements categorize primary activities as either governmental or business type. The County does not have any business type primary activities.

In the government-wide Statement of Net position, the governmental activities column (a) is presented on a consolidated basis, (b) and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The County first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the County's functions / programs. The functions / programs are also supported by general revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants reflect capital-specific grants. The net costs (by function) are normally covered by general revenue. The County does not allocate indirect costs.

This government-wide focus is more on the sustainability of the County as an entity and the change in the County's net position resulting from the current year's activities.

C. BASIC FINANCIAL STATEMENTS – FUND FINANCIAL STATEMENTS

The fund financial statements of the County are organized on the basis of funds, each of which is considered a separate accounting entity. Each fund is accounted for by a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures/expenses. The individual funds account for the governmental resources allocated to them for the purpose of carrying on specific activities in accordance with laws, regulations, or other restrictions. Funds are classified into three major categories: Governmental, Proprietary and Fiduciary.

Fund financial statements focus on major funds of the primary government in contrast to the governmental and business type (if any) activities reported in the government-wide financial statements. Major funds represent the government's most important funds and are determined based on a minimum criteria set forth in GASB 34 (numerical formula using total assets, liabilities, revenues, or expenditures/expenses of either fund category or activity combined). The general fund is always required to be reported as major fund. The following fund types are used by the County:

1. **Governmental Funds** – The focus of governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the County:

General Fund is the general operating fund of the County and is used to account for all resources except those required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The County reports various grants as separate special revenue funds along with a Dispatch Reserve Fund, Deeds Surcharge Fund, Timber Conservation Fund, and Fitness Center Fund.

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Energy Improvement/Mckenna Project was completed during the year.

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government programs. This includes nonexpendable trust funds that were reported as fiduciary trust funds prior to the implementation of GASB No. 34. The County does not report any permanent funds.

2. **Fiduciary Funds** – The reporting focus of fiduciary funds is on net position and, for private purpose trust funds, changes in net position. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the County, these funds are not incorporated into the government-wide statements. The following is a description of the fiduciary funds of the County:

Private Purpose Trust Funds are used to report trust arrangements under which the assets are essentially held in trust for someone outside the reporting entity. The County reports the following private purpose trust funds; McKenna Trust, Corrections Trust and Gagnon Scholarship Trust.

Custodial Funds are used to report assets held in a custodial capacity for individuals or organizations outside of the reporting entity. The County reports the following custodial funds; Residents Fund, Inmates Fund, Adult Diversion/Restitution Fund, and Deeds Transfer Tax Fund.

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Two different measurement focuses are used under the new financial reporting model, the flow of current financial resources and the flow of economic resources. The determination of when transactions are recognized is referred to as the basis of accounting. Like measurement focus, there are two different bases of accounting used, the accrual basis and the modified accrual basis.

Government-Wide Financial Statements

The government-wide financial statements use the flow of economic resources measurement focus and the accrual basis of accounting. Under this method, generally, all revenues, expenses, gains, losses, assets, and liabilities should be recognized when the economic exchange takes place. The government-wide financial statements report all of the assets, liabilities, revenues, expenses, and gains and losses of the entire government. These financial statements do not report fund information. Instead they focus on two specific types of activities performed by the government, "governmental activities" and, when applicable, "business type activities". Governmental and proprietary fund types are included in the governmental and, when applicable, business type activities reported in the government-wide financial statements and therefore utilize the measurement focus and basis of accounting applicable to these statements. Fiduciary funds are not reported in the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues and assets are recognized when they become both measurable and available. Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures and liabilities are recognized in the accounting period in which the fund liability is incurred, with certain modifications. Debt service and capital lease payments are recognized when the payment is due and compensated absences, claims and judgments, and special termination benefits are recognized to the extent that the liabilities are "normally expected to be liquidated with expendable available financial resources". Fiduciary fund financial statements use the economic resources measurement focus and the full accrual basis of accounting.

E. BUDGETS

Governmental revenues and expenditures are controlled by a formal integrated budgetary system which is substantially consistent with applicable State finance-related laws and regulations which govern the County's operations. The County budget is voted on at the delegation meeting. The New Hampshire Department of Revenue Administration utilizes the adopted County budget, and other town, school, and (sometimes) precinct tax assessment information, to calculate, determine and establish the annual tax rate of the town(s) against which the County assessment(s) are made. State legislation also requires balanced budgets and, in most cases, the use of the beginning general fund unreserved fund balance to reduce the amount of the subsequent County assessment to be made. For the County fiscal year ended December 31, 2021, \$6,424,929 in beginning general fund unassigned fund balance was used to reduce the County assessment.

COUNTY OF MERRIMACK, NEW HAMPSHIRE

Notes to Basic Financial Statements
December 31, 2021

F. ASSETS, LIABILITIES, AND NET POSITION

Cash and Cash Equivalents and Investments

Cash and equivalent accounts include amounts in demand and savings account deposits, certificates of deposit or short-term investments with an original maturity date of three months or less.

Investments are reported at fair value. Fair value is based on quoted market price.

Interfund Activity

Interfund activity is reported as either, loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to at market or near market rates, are treated as revenues and expenditures / expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

Inventories

Inventories are carried at cost using the first-in, first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed. The County reports inventory balances in the general fund. Examples of inventories reported include; fuel oil, food used in dietary operations and various maintenance supplies.

Capital Assets

For government-wide financial statements, capital assets purchased or acquired, in accordance with the County's capitalization policy, are reported at historical cost or estimated historical cost. Contributed assets, if any, are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight line basis over the assets estimated useful lives:

ASSET	Capitalization Threshold	Estimated Useful Lives
Land improvements	\$ 5,000	20
Buildings and improvements	\$ 5,000	20-50
Machinery, equipment and other	\$ 500	5-20
Vehicles	All	8-10

For fund financial statements, capital assets purchased for governmental operations are accounted for as capital expenditures of the governmental fund at the time of purchase.

COUNTY OF MERRIMACK, NEW HAMPSHIRE

Notes to Basic Financial Statements December 31, 2021

Long-term Obligations

All long-term debt is reported as liabilities in the government-wide financial statements. Long-term debt consists of, bonds and notes payable, capital leases, accrued compensated absences, other post-employment benefits and net pension liabilities. Governmental funds reported in the fund financial statements are concerned with current financial resources only and do not report long-term debt. Instead, debt proceeds are reported as other financing sources when received and payments of principle and interest are reported as expenditures when due.

The County implemented Governmental Accounting Standards Board Statement No. 75 – *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, which requires governments to account for other post-employment benefits (OPEB) on an accrual basis, rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially determined expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit.

Compensated Absences

County employees are sometimes entitled to certain compensated absences based, in part, on their length of employment. In accordance with GASB Statement #16, "Accounting for Compensated Absences", compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay it. Compensated absences are generally calculated in accordance with the specific requirements of collective bargaining agreements or personnel policies and can include (a) vacation leave, (b) sick leave, or (c) severance and retirement bonus packages.

Pensions

The County implemented Governmental Accounting Standards Board Statement No. 68 – *Accounting and Financial Reporting for Pensions*. As a result, the County is required to report its proportionate share of the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense, and information about the fiduciary net position of the New Hampshire Retirement System, (NHRS) a Cost-Sharing Multiple Employer Defined Benefit Pension Plan.

Governmental Fund Equity and Fund Balance Policy

The county implemented GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The statement established new fund balance classifications and reporting requirements as follows:

Nonspendable – Are fund balances that cannot be spent because they are either; not in spendable form, such as inventories or prepaid amounts, or are legally or contractually required to be maintained intact, such as the principal of a permanent fund.

Restricted – Are amounts that can only be used for specific purposes because of enabling legislation or externally imposed constraints, such as grant requirements or laws or regulations.

COUNTY OF MERRIMACK, NEW HAMPSHIRE

Notes to Basic Financial Statements December 31, 2021

Committed – Are amounts that can be used for specific purposes because of a formal action by the entities highest level of decision-making authority (County Delegation). This would include contractual obligations if existing resources have been committed. Formal action (Commissioners vote at a public meeting) to establish constraints should be taken before year-end, even if the amount might not be determined until the subsequent period.

Assigned – Are amounts intended to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body (Board of Commissioners), or by and official whom authority has been given (County Administrator). Such assignments cannot exceed the available fund balance in any particular fund. This is the residual fund balance classification of all governmental funds except the general fund. Assigned fund balances should not be reported in the general fund if doing so causes the government to report a negative “unassigned” general fund balance.

Unassigned – Is the residual classification for the general fund. The general fund is the only governmental fund that can report a positive unassigned fund balance. Other governmental funds might have a negative unassigned fund balance as a result of overspending for specific purposes for which amounts had been restricted, committed, or assigned.

In instances where both restricted and unrestricted fund balances are available to fund expenditures, the restricted fund balances will be exhausted first, followed by the unrestricted classifications of, committed, assigned and unassigned fund balances.

The county has adopted a policy regarding the maintenance of a minimum unassigned fund balance in the general fund of no less than two months of operating appropriations. This amounts to a minimum level of 17% of current appropriations.

Revenues

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the period in which the resources are measurable and available. Revenue resulting from non-exchange transactions, in which the County receives value without directly giving equal value in return, generally includes grants and donations and is recognized when applicable grantor requirements, including purpose, eligibility, timing, and matching have been met.

General revenues on the Statement of Activities include the County assessment (levied by the appropriate local governments as property taxes) and various other sources that are not program revenues (charges for services, or related to operating or capital grant programs).

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Legal Debt Limit

Per state statute, the County may not incur debt at any one time in excess of 2% of its locally assessed valuation (for all municipalities included in the County) as last equalized by the Commissioner of the New Hampshire Department of Revenue Administration.

For the year ended December 31, 2021, the County had not exceeded its legal debt limit.

Risk Management

The County is exposed to various risks of loss related to property loss, torts, errors and omissions, injuries to employees and natural disasters. The County participates in the Workers' Compensation, Property/Liability, and Cyber Liability programs of the "New Hampshire Public Risk Management Exchange" (Primex), a "Public Entity Risk Pool". Settled claims, if any, have not exceeded the County's coverage in any of the past three fiscal years. Primex is a pooled risk management program under RSA 5-B and RSA 281-A. The Primex board has determined to totally retain the risk exposure for workers' compensation and has allocated funds based on actuarial analysis for that purpose. The County shares in contributing to the cost of, and receiving the benefits from, a self-insured pooled risk management program. The member participation agreement permits Primex to make additional assessments to members, should there be a deficiency in contributions for any member year, not to exceed the member's annual contribution.

Claims, Judgments and Contingent Liabilities

Grant Programs

The County participates in numerous state, federal and private funded programs, which are governed by various laws, regulations, contracts and agreements of the grantor. Costs charged to these programs are subject to audit or review by the grantor; therefore, to the extent that the County has not complied with laws, regulations, contracts and agreements of the grantor, refunds of money for any disallowed claims, including amounts already collected, may constitute a contingent liability of the County. As of December 31, 2021, the County believes that there are no significant contingent liabilities relating to compliance with the laws, regulations, and contracts and agreements governing these programs; therefore, no provision has been recorded in the financial statements for such contingencies.

Litigation

The County is subject to various claims, and sometimes lawsuits, which arise in the normal course of operations. Management of the County believes that the outcome of these contingencies will not have a materially adverse effect on the financial statements and accordingly, no provision for loss has been recorded.

NOTE 5 - LONG-TERM LIABILITIES

The County can issue general obligation debt instruments to provide funds for the acquisition and construction of major capital equipment, infrastructure and other facilities. General obligation debt instruments are "direct government obligations" and consequently are a pledge of the full faith and credit of the County. The County is obligated under certain leases accounted for as capital leases. The leased assets are accounted for as capital assets and capital lease liabilities in the government-wide financial statements. In the governmental fund financial statements the lease is recorded as an expenditure and other financing source in the year executed; annual lease payments are recorded as expenditures when paid. Other long-term obligations include compensated absences, net pension liabilities and other post-employment benefits.

On April 13, 2021, the County issued \$15,330,000 in refunding bonds. The Bonds are being issued to refund the aggregate principal amount outstanding of the County's 2012 General Obligation Refunding Bonds dated June 22, 2012, maturing on December 1 of the years 2023 and 2024, at a redemption price of 100% (the "2012 Bonds") and the County's 2014 General Obligation Refunding Bonds dated December 30, 2014, maturing on November 15 in each of the years 2025 through 2032, inclusive, at a redemption price of 100% (the "2014 Bonds" and together with the 2012 Bonds, the "Refunded Bonds").

The County deposited the net proceeds with an escrow agent to provide for all future debt service on the refunded portion of the bonds. As a result, that portion of the refunded bonds is considered defeased, and the County has removed the liability from its accounts.

The advance refunding reduced total debt service payments over the next 10 years by \$370,304. This results in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$336,826.

A summary of long-term liabilities outstanding as of December 31, 2021, is as follows:

	General Obligation Bonds	Capital Leases	Compensated Absences	OPEB Obligation	Net Pension Liability	Total

The County makes routine transfers during the year between the general fund and other funds based upon statutory or budgetary authorization. The general fund reports operating transfers to special revenue grant funds for budgeted expenditures in excess of the authorized grant awards.

NOTE 8 - DEFERRED COMPENSATION PLAN

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency (employees may borrow against it and do have ROTH options, as well). Accounting and reporting for the plan is done in accordance with GASB No. #32, "Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans". The plan assets are administered by a nongovernmental third party and the plan administrator invests plan assets at the direction of the plan's participants, not the County. As a result, the plan is not reported within these financial statements.

NOTE 9 - EMPLOYEE AND COLLECTIVE BARGAINING AGREEMENTS

The County regularly enters into long-term agreements, as a result of collective bargaining, with the Teamsters, Local 633, representing the Merrimack County Department of Corrections employees; the International Chemical Workers Union Council, United Food and Commercial Workers Union, Local 1046, representing Merrimack County Nursing Home employees as identified in Article 1 A of the agreement; the National Correctional Employee Union, representing Corrections employees; and the New England Police Benevolent Association, representing the Sheriff's Department employees. The financial costs of such agreements, which consist of both compensation amounts and fringe benefits (health, dental, group life and disability insurance's and sick-vacation-personal day absences) must be ratified by both the County delegation, (funding approval) and the County commissioners, (contract execution).

NOTE 10 - PENSION PLAN

The County participates in the New Hampshire Retirement System (the "System"), a cost-sharing multiple-employer defined benefit pension plan and trust established in 1967 by RSA 100-A:2 administered by a Board of Trustees. The plan is a contributory plan that provides service, disability, death and vested retirement benefits to members and their beneficiaries. Benefit provisions are established and may be amended by the New Hampshire State Legislature. The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to New Hampshire Retirement System, 54 Regional Drive, Concord, New Hampshire 03301.

The System is funded by contributions from both the employees and the County. Per RSA-100:16, plan member contribution rates are established and may be amended by the New Hampshire State legislature and employer contribution rates are determined by the System Board of Trustees based on an actuarial valuation. Group I Plan members (employees and teachers) are required to contribute 7.0% of their earnable compensation; Group II Police members contribute 11.55% of earnable compensation and the County is required to contribute at an actuarially determined rate. The County's contribution rates as of December 31, 2021, were 14.06% for Employees, 33.88% for Group II Policemen, and 32.99% for Group II Firemen, if applicable, of covered payroll, respectively. The County's contributions to the System for the years ending December 31, 2021, 2020, and 2019 were \$5,054,494, \$4,471,635, and \$4,593,299, respectively, equal to the required contributions for each year.

NOTE 11 – PROPORTIONATE SHARE OF NET PENSION LIABILITY

The County implemented GASB Statement 68, *Accounting and Financial Reporting for Pensions*. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense information about the fiduciary net position of the New Hampshire Retirement System Cost-Sharing Multiple Employer Defined Benefit Pension Plan (NHRS) and additions to/deductions from NHRS's fiduciary net position have been determined on the same basis as they are reported by NHRS.

General Information about the Pension Plan

Plan description. The New Hampshire Retirement System (NHRS) is a public employee retirement system that administers one cost-sharing multiple-employer defined benefit pension plan (Pension Plan). For additional NHRS information, please refer to the fiscal 2021 Comprehensive Annual Financial Report, which can be found on the NHRS website at www.nhrs.org.

Benefit formulas and eligibility requirements for the Pension Plan are set by state law (RSA 100-A). The Pension Plan is divided into two membership groups. State and local employees and teachers belong to Group I. Police and firefighters belong to Group II.

Group I benefits are provided based on creditable service and average final salary for the highest of either three or five years, depending on when service commenced.

Group II benefits are provided based on age, years of creditable service and a benefit multiplier depending on vesting status as of 1/1/12. The maximum retirement allowance for Group II members vested by January 1, 2012 (45 years of age with 20 years of service OR age 60 regardless of years of creditable service) is the average final compensation multiplied by 2.5% multiplied by creditable service. For Group II members not vested by January 1, 2012, the benefit is calculated the same way, but the multiplier used in the calculation will change depending on age and years of creditable service, as follows:

Years of creditable service as of January 1, 2012	Minimum Age	Minimum Service	Benefit Multiplier
At least 8 but less than 10 years	46	21	2.40%
At least 6 but less than 8 years	47	22	2.30%
At least 4 but less than 6 years	48	23	2.20%
Less than 4 years	49	24	2.10%

Contributions. By Statute, the Board of Trustees of the System is responsible for the certification of employer contribution rates, which are determined through the preparation of biennial valuation of the System's assets by the System's actuary using the entry age normal cost method.

The employer contributions used in the schedules of employer allocations is a component of total employer contributions presented in the System's financial statements for the corresponding period.

Actuarial assumptions. The collective total pension liability was based on the following actuarial assumptions:

COUNTY OF MERRIMACK, NEW HAMPSHIRE

Notes to Basic Financial Statements December 31, 2021

Inflation	2.0%	
Salary increases	5.6%	average, including inflation
Wage inflation	2.75%	(2.25% for Teachers)
Investment rate of return	6.75%	Net of pension plan investment expense, including inflation

Mortality rates were based on the Pub-2010 Healthy Retiree Mortality Tables with credibility adjustments for each group (Police and Fire combined) and projected fully generational mortality improvements using Scale MP-2019.

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2016–June 30, 2019.

The long-term expected rate of return on pension plan investments was selected from a best-estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. Following is a table presenting target allocations and geometric real rates of return for each class:

Asset Class	Target Allocation	2021 Weighted Average Long-Term Expected Real Rate of Return
Large Cap Equities	22.50%	6.46%
Small/Mid Cap Equities	7.50%	1.14%
Total Domestic Equity	30.00%	
Int'l Equities (unhedged)	14.00%	5.53%
Emerging Int'l Equities	6.00%	2.37%
Total International Equity	20.00%	
Core US Fixed Income	25.00%	3.60%
Total Fixed Income	25.00%	
Private Equity	10.00%	7.71%
Private Debt	5.00%	4.81%
Total Alternative Investments	15.00%	
Real Estate	10.00%	6.60%
TOTAL	100.00%	

Discount rate. The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the Pension Plan's actuarial funding policy and as required by RSA 100-A:16. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of projected benefits payments to determine the collective total pension liability.

COUNTY OF MERRIMACK, NEW HAMPSHIRE

Notes to Basic Financial Statements December 31, 2021

Sensitivity of the County's proportionate share of the net pension liability to changes in the discount rate. The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 6.75 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of December 31, 2021, the County reported a liability of \$40,512,693 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's share of contributions to the pension plan relative to the contributions of all participating members, actuarially determined. As of December 31, 2021, the County's proportion was 0.91411173 percent.

For the year ended December 31, 2021, the County recognized pension expense of \$1,635,916. As of December 31, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Total Excluding Employer Contributions</u>
Differences between expected and actual experience	\$ 1,134,414	\$ 424,140	\$ 710,274

NOTE 12 – ACCOUNTING AND FINANCIAL REPORTING FOR POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS – GASB 75

A. COUNTY OPEB PLAN

Plan description

GASB Statement 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, requires governments to account for other post-employment benefits (OPEB) on an accrual basis, rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially determined expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit. The post-employment benefit liability is recognized on the Statement of Net Position over time.

GASB No. 75 requires that employers recognize the expected claims of the retiree population less the expected contributions by those retirees. This is not necessarily the same determination as the expected cash payments of the employer for retiree health benefits. The difference is that many post-employment health plans charge the same premium rates for all participants in a non-Medicare plan regardless of their age. This single premium rate is called a blended premium rate because it blends the expected claims of both active and retired participants. Retirees are generally older than the average participant in a non-Medicare plan, which means they are expected to generate higher claims than the average participant of the plan; therefore, they are receiving a subsidy even if they pay 100% of the blended premium rate because they would be paying less in premiums than their claims costs. This subsidy is referred to as the "Implicit Rate Subsidy".

Another way of considering the Implicit Rate Subsidy is to assume the retirees were removed from a blended plan and, instead, separately rated. In this scenario, the premium rate for the remaining active population would be lower; therefore, the retirees' premium rate is being subsidized by the premiums for active employees. Since the employer generally pays a portion of the premiums for the active employees, this subsidy creates a liability for the employer.

By comparison, the cash costs are the actual dollars paid by the employer to cover a portion or all of the retirees' premium rates. This is sometimes referred to as the "Explicit Rate Subsidy". This is the benefit that is explicitly stated by the County that will be paid on behalf of retirees.

GASB 75 reports are required to value both the Implicit Rate Subsidy and the Explicit Rate Subsidy. This report values both the Explicit subsidy and the Implicit Rate Subsidy.

Benefits Provided

The County provides medical benefits to eligible retirees at a percentage of the monthly premium based upon the number of years of service at the time of retirement. The same medical benefit options are available to retirees as are offered to active employees. The description of the benefits is defined in the agreements with applicable union groups and in county personnel policies for classified and unclassified employees not covered by union agreements.

Eligibility

All NHRS Group I employees are eligible to receive lifetime retiree benefits once they meet the following eligibility requirements:

1. Hired prior to July 1, 2011 – earlier of:
 - a. Age 60; or
 - b. Age 50 with 10 years of service; or
 - c. 20 years of service and rule of 70 age and service combination
2. Hired on/after July 1, 2011 – earlier of:
 - a. Age 65; or
 - b. Age 60 with 30 years of service

In addition to the eligibility requirements above, employees belonging in the following groups must have been employed full-time by the County on a continual basis for ten years at the time of retirement to be eligible for retiree health care coverage:

- ICWUC, NEPBA, and Non-Union employees belonging who were hired on/after January 1, 1997
- NCEU and SEA employees regardless of hire date

All NHRS Group II employees are eligible to receive lifetime retiree benefits once they meet the following eligibility requirements:

1. Hired prior to July 1, 2011 – earlier of:
 - a. Age 45 with 20 years of service; or
 - b. Age 60
2. Hired on/after July 1, 2011 – earlier of:
 - a. Age 50 with 25 years of service (reduced early retirement)
 - b. Age 52.5 with 25 years of service
 - c. Age 60

In addition to the eligibility requirements above, NCEU and SEA employees belonging in Group II must have been employed full-time by the County on a continual basis for ten years at the time of retirement to be eligible for retiree health care coverage.

Non-Union employees hired on or after January 1, 2020, are not eligible for benefits.

New Hampshire Retirement System (NHRS) Subsidy Eligibility

Group I members who retire at the earlier of: (a) age 60 with 20 years of service, or (b) age 55 with 30 years of service are eligible for the NHRS medical subsidy.

Additionally:

1. Member must have accumulated at least 20 years of medical subsidy eligible credible service as a Group I member or political subdivision employee as of July 1, 2008, and be eligible to retire on July 1, 2008, and retire on/before July 1, 2009.
2. If the qualified retiree has at least 30 years of creditable service as of July 1, 2008, eligibility for medical subsidy begins at age 55 or date of retirement, whichever is later.
3. Vested deferred members must have retired by July 1, 2008 in order to be eligible for the NHRS subsidy.

Group II Members who are (a) active or (b) retired as of June 30, 2000 who meet the following requirements are eligible for the NHRS subsidy:

1. Retire at age 45 with 20 years of service; or
2. Retire at age 60 (no service requirement); or
3. Retire on ordinary disability.

An employee who became a Group II member before July 1, 2005 and retires on Accidental Disability is eligible for NHRS subsidy. Those retiring on vested deferred retirement do not qualify for the subsidy.

NHRS Subsidy Benefit

NHRS will pay the minimum of the health insurance premium or the medical subsidy amount as shown below:

Under 65 \$ 375.56
Age 65 and over \$ 236.84

Spouse Benefit

Coverage continues to surviving spouse upon death of the retiree or active employee who is eligible to retire.

Dental Benefit

The monthly premium rates effective on January 1, 2021, are as shown below.

Total OPEB Liability

The county's total OPEB liability of \$101,093,942 was measured as of December 31, 2021 and was determined by an actuarial valuation as of January 1, 2021.

Actuarial assumptions and other inputs

There are changes to the actuarial methods and assumptions since the last full GASB valuation, which was for the fiscal year ending December 31, 2020.

Significant Changes from the Previous Actuarial Valuation

- Measurement Date - December 31, 2021, was used versus December 31, 2020, for the prior valuation.
- Actuarial Valuation Date - January 1, 2021, with results actuarially projected on a "no gain" basis to get to the December 31, 2021, measurement date. Liabilities as of January 1, 2021, are based on an actuarial valuation date of January 1, 2021, with no adjustments.
- Discount Rate – 2.12% as of January 1, 2021, and 2.25% as of December 31, 2021, for accounting disclosure purposes.
- Payroll Growth – A 2.75% rate for wage inflation plus merit / productivity growth, which are based on the General Employee and Police and Fire rates used in the New Hampshire Retirement System (NHRS) actuarial valuation as of June 30, 2020.
- Inflation Rate – 2.75% per year.
- Cost Method - Allocation of Actuarial Present Value of Future Benefits for services prior and after the Measurement Date was determined using Entry Age Normal Level % of Salary method where:
 - Service Cost for each individual participant, payable from date of employment to date of retirement, is sufficient to pay for the participant's benefit at retirement; and
 - Annual Service Cost is a constant percentage of the participant's salary that is assumed to increase according to the Payroll Growth.

Mortality assumptions used were as follows:

- General Employees: SOA Pub-2010 General Headcount Weighted Table fully generational using Scale MP-2020
- Police: SOA Pub-2010 Safety Headcount Weighted Table fully generational using Scale MP-2020
- Surviving Spouses: SOA Pub-2010 Contingent Survivor Headcount Weighted Table fully generational using Scale MP-2020

B. NEW HAMPSHIRE RETIREMENT SYSTEM MEDICAL SUBSIDY OPEB PLAN

Plan description

In addition to the OPEB plan discussed in A. above, the County participates in the New Hampshire Retirement System (NHRS) Medical Subsidy. The NHRS is a public employee retirement system which administers a cost-sharing, multiple-employer other postemployment benefit (OPEB) plan. For additional information, please refer to the system's website at www.nhrs.org.

Benefits

Benefit amounts and eligibility requirements are set by state law (RSA 100-A:52, RSA 100-A:52-a, and RSA 100-A:52-b) and members are designated in statute by type. The four membership types are Group I State Employees, Group I Political Subdivision Employees, Group I Teachers, and Group II Police and Firefighters. The Plan provides a medical insurance subsidy to qualified retired members. The medical insurance subsidy is a payment made by NHRS to the former employer or its insurance administrator toward the cost of health insurance for a qualified retiree, his/her qualified spouse, and his/her certified dependent children with a disability who are living in the household and being cared for by the retiree. If the health insurance premium amount is less than the Medical Subsidy amount, then only the health insurance premium amount will be paid. If the health insurance premium amount exceeds the Medical Subsidy amount, then the retiree or other qualified person is responsible for paying any portion that the employer does not pay.

Group I benefits are based on creditable service, age and retirement date. Group II benefits are based on hire date, age and creditable service. The OPEB plan is closed to new entrants.

Participating employers are required by GASB No. 75 to recognize *their proportionate share* of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense of the Plan. The employer allocation is the ratio of each employer's contribution to the OPEB Plan's total employer contributions during the measurement period.

Contributions

Funding for the Medical Subsidy comes from employer contributions. Employer contribution rates are set by the NHRS pursuant to RSA 100-A:16, and the biennial actuarial valuation.

Proportionate Share of NHRS Net OPEB Liability

The County's proportionate share of the NHRS Medical Subsidy Net OPEB Liability as of the measurement date was \$2,758,675. The County's proportion of the net OPEB liability was based on the County's share of contributions to the pension plan relative to the contributions of all participating members, actuarially determined. As of December 31, 2021, the County's proportion was 0.68888190 percent.

COUNTY OF MERRIMACK, NEW HAMPSHIRE

Notes to Basic Financial Statements December 31, 2021

Actuarial assumptions and other inputs

The collective total OPEB liability was based on the following actuarial assumptions:

Inflation	2.00%
Salary Increases	5.60% average, including inflation
Wage Inflation	2.75%
Investment rate of return	6.75% per year, net of OPEB plan investment expense, including inflation for determining solvency contributions

Mortality rates were based on the Pub-2010 Healthy Retiree Mortality Tables with credibility adjustments for each group (Police and Fire combined) and projected fully generational mortality improvements using Scale MP-2019.

Long-Term Rates of Return

The long-term expected rate of return on OPEB plan investments was selected from a best-estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. The following is a table presenting target allocations and geometric real rates of return for each asset class:

Asset Class	Target Allocation	2021 Weighted Average Long-Term Expected Real Rate of Return
Large Cap Equities	22.50%	6.46%
Small/Mid Cap Equities	7.50%	1.14%
Total Domestic Equity	30.00%	
Int'l Equities (unhedged)	14.00%	5.53%
Emerging Int'l Equities	6.00%	2.37%
Total International Equity	20.00%	
Core US Fixed Income	25.00%	3.60%
Total Fixed Income	25.00%	
Private Equity	10.00%	8.85%
Private Debt	5.00%	7.25%
Total Alternative Investments	15.00%	
Real Estate	10.00%	6.60%
TOTAL	100.00%	

COUNTY OF MERRIMACK, NEW HAMPSHIRE

Notes to Basic Financial Statements December 31, 2021

Discount Rate

The discount rate used to measure the collective OPEB liability was 6.75%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made under the current statutes RSA 100-A:16 and 100-A:53. Based on this assumption, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the NHRS Medical Subsidy Net OPEB liability to changes in the discount rate

The following presents the Net OPEB Liability, calculated using the discount rate as well as what the Net OPEB Liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	Discount Rate		
	<u>1% Decrease</u>	<u>Baseline Rate</u>	<u>1% Increase</u>

Notes to Basic Financial Statements December 31, 2021

Deferred outflows of resources related to OPEB benefits resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB liabilities will be recognized in pension expense as follows:

For the Year Ending December 31,	Deferred Outflows/(Inflows)

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

NOTE 1 - BUDGETARY INFORMATION

A. Original Budget

Governmental budgetary appropriations and estimated revenues are accounted for on a fund basis in accordance with state statutes, administrative rules, local laws and policies or procedures. The budgetary process results in a formally adopted County budget by the County delegation. Subsequent regulatory reviews by departments of the State of New Hampshire are made of the budgetary process (warrant articles, required results of votes, etc.), adopted budget and the estimated revenues of the County. After approval of final estimated revenues (including the use of beginning unreserved general fund balance), a balanced County budget is achieved in accordance with State statute (the "original" budget). The original budget is the first complete, legally appropriated budget adjusted for appropriate changes occurring before the beginning of the year.

B. Budgetary Changes, Transfers, Encumbrances and Continuing Appropriations

Budgetary Changes

Budget changes may be approved by the executive committee per RSA 24:14-I.

Transfers

The commissioners may authorize budgetary transfers between allowable appropriations per RSA 24:15-III (programs, functions or categories); however, total expenditures may not exceed the total allowable appropriations budgeted (which consists of the original budget plus encumbrances carried forward from the prior year and continuing appropriations, if any).

Encumbrances and Continuing Appropriations

All annual appropriations lapse at year-end unless encumbered. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Encumbrances are not expenditures and are reported as a reservation of fund balances in governmental funds and are carried forward to supplement appropriations of the subsequent year.

Certain appropriations that are not "annual appropriations" do not lapse at year-end. These continuing appropriations include those from special or unanticipated revenues, capital projects and specific items that are not required to have been completed at year-end. Continuing appropriations are reported as a reservation of fund balances in governmental funds and are carried forward to supplement appropriations of the subsequent year.

C. Final Budget

The final budget consists of the original budget adjusted for appropriate legal changes applicable to the year, including those occurring during, and after, the end of the year.

NOTE 2 - EXPLANATION OF BUDGETARY TO GAAP DIFFERENCES

Basis and Timing Differences

The basis of accounting or the timing of transactions used or applied by the funds in the basic financial statements (fund financial statements) differs from the basis of accounting or timing of transactions used or applied by the funds for budgetary purposes. The following is an explanation of the differences between budgetary inflows and outflows and GAAP revenues and expenditures.

<u>Budgetary Fund</u>	<u>General Fund</u>
Financial Statement Major Fund	General Fund
Sources / Inflows of Resources:	
Actual amounts (budgetary basis) "available for appropriation" from the budgetary comparison schedule	\$ 105,183,822
Differences - Budget to GAAP:	
Budgetary inflows that are not revenues for financial reporting purposes	
Beginning unreserved fund (balance) deficit	(18,606,442)
Transfers from other funds	(250,437)
Financial reporting revenues that are not inflows for budgetary purposes	
Earnings on capital reserves	<u>1,289</u>
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds	<u>\$ 86,328,232</u>
Uses / Outflows of Resources:	
Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	\$ 86,021,540
Differences - Budget to GAAP:	
Budgetary outflows that are not expenditures for financial reporting purposes	
Transfers to other funds	<u>(1,171,128)</u>
Total expenditures as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds	<u>\$ 84,850,412</u>

NOTE 3 – REQUIRED GASB 75 OPEB SUPPLEMENTARY INFORMATION

The county is required to prepare its financial statements in accordance with accounting principles generally accepted in the United States. Accordingly, the county is required to disclose its obligations for post-employment benefits. In addition to pensions, these benefits include health insurance paid on behalf of retirees (County Plan) and medical subsidies to retirees paid by the NHRS (NHRS Medical Subsidy Plan). Guidance for the disclosure required is contained in Governmental Accounting Standards Board Statement No. 75 - "Accounting and Financial Reporting for Post-Employment Benefits Other than Pensions" (GASB No. 75). No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75 to pay related benefits.

County OPEB Plan – The County plan as described in the notes to the financial statements is required to report as required supplementary information a **Schedule of Changes in Total OPEB Liability**. This information is required to be disclosed for the 10 most recent years. Subsequent year's information will be added as it becomes available.

NHRS Medical Subsidy OPEB Plan – The NHRS medical subsidy plan as described in the notes to financial statements is required to report as required supplementary information the following:

- **Schedule of Proportionate Share of Net OPEB Liability**
- **Schedule of Medical Subsidy Contributions**

The information presented in the *Schedule of the Proportionate Share of Net OPEB Liability* is determined as of the measurement date of the collective net OPEB liability.

The information presented in the *Schedule of Medical Subsidy Contributions* is reported as of the PLAN's most recent fiscal year-end. County contributions after the PLAN fiscal year are reported as Deferred Outflows of Resources.

This information is required to be disclosed for the 10 most recent years. Subsequent year's information will be added as it becomes available.

NOTE 4 – GASB 68 REQUIRED SUPPLEMENTARY INFORMATION SCHEDULES

In accordance with GASB Statement No. 68 – *Accounting and Financial Reporting for Pensions*, the county is required to disclose historical data for each of the prior ten years within the following schedules:

- **Schedule of the Proportionate Share of Net Pension Liability**
- **Schedule of Pension Contributions**

The information presented in the *Schedule of the Proportionate Share of Net Pension Liability* is determined as of the measurement date of the collective net pension liability.

The information presented in the *Schedule of Contributions* is reported as of the PLAN's most recent fiscal year-end. County contributions after the PLAN fiscal year are reported as Deferred Outflows of Resources.

This information is required to be disclosed for the 10 most recent years. Subsequent year's information will be added as it becomes available.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners
County of Merrimack
Boscawen, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of County of Merrimack, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County of Merrimack's basic financial statements, and have issued our report thereon dated March 29, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Merrimack's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Merrimack's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Merrimack's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Merrimack's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Commissioners
County of Merrimack
Boscawen, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited the County of Merrimack's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County of Merrimack's major federal programs for the year ended December 31, 2021. The County of Merrimack's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County of Merrimack's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Merrimack's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County of Merrimack's compliance.

Opinion on Each Major Federal Program

In our opinion, the County of Merrimack, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Report on Internal Control Over Compliance

Management of the County of Merrimack is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County of Merrimack's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Merrimack's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

1. BASIS OF PRESENTATION

The Schedule of Expenditures of Federal Awards includes the federal award activity of the County of Merrimack under programs of the federal government for the year ended December 31, 2021. The County of Merrimack’s reporting entity is defined in Note 1 to the County’s basic financial statements. The information in the Schedule of Expenditures of Federal Awards is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Guidance, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Schedule of Expenditures of Federal Awards presents only a selected portion of the operations of the County of Merrimack and is not intended to and does not present the financial position or changes in net position of the County of Merrimack.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting within the governmental funds (general and special revenue) of the County. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. The expenditures reported in the Schedule of Expenditures of Federal Awards are recognized following the applicable cost principles of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Guidance, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and include, but are not limited to, expenditure transactions associated with grants, cost reimbursement grants and contracts, and the receipt or use of program income.

The County of Merrimack has not elected to use the ten percent (10%) de minimis indirect cost rate allowed under Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Guidance, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

3. RELATIONSHIP AND RECONCILIATION TO THE BASIC FINANCIAL STATEMENTS

The total expenditures of federal awards per the accompanying schedule of expenditures of federal awards reconciles to the Statement of Revenues, Expenditures and Changes in Fund Balances – Major and Other Governmental Funds as follows:
