I. Benjamin Parker of Concord in the County of Merrimack and State of New Hampshire depose and testify as follows, in answer to the following interrogatories:

Inter. 1. by Asa Fowler Esqr Atty. for Wm C Thompson—
Please state your age, and how long you have lived in Concord.

Ans. — My age is seventy nine years. I have lived in Concord all my life excepting about seven years from 1807 to 1814. a portion of which time I lived in Concord. Since 1814 I have remained in Concord.

Inter. 2 by same.
State whether you have ever practiced as a surveyor of land and if so how long?

Ans. I have since 1876 — I began to survey land in 1876 and have done more or less of it every year since that date.

Inter. 3. by same
State if you knew Thomas W. Thompson formerly of Concord? If so, state as nearly as you can, when he died and how many children he left surviving him, and their names. if you can?

Ans — I did not know him. I cant state when he died — I don't recollect when it was — My impression is that he died somewhere about 1820 but I can't state within ten years probably. I think he left only two children surviving him — a son and daughter Their names were William C. Thompson and Lucia Thompson

Inter 4 by same.
Was there not a son, by the name of Charles E. Thompson who survived his father?

Ans. I don't know my impression is that it might be so.

Inter 5. by same
State whether or not, at any time, you made at the request of William C. Thompson son of Thomas W. Thompson a survey of a lot of land on the "dark plains" on the East side of the Merrimack River in Concord and a plan of said land? If so, state when you made said survey and plan, and the boundaries of the lot as you then found them to be? And also the quantity of land contained in the lot?

Ans. I did make such a survey, and I think a plan for William C. Thompson — My field book on file is dated December 5th 1853, and I suppose the survey must have been made on that day or previous. The boundaries of the lot are as follows; at the Southwest corner there was a stump and stone from this point it runs due North seventy one rods to a small pine tree with stones; thence North Eighty degrees East seventy two rods by Isaac Hills land to a pine tree, marked; then, about South eighty rods to a pine tree, marked by land of the heirs of William Stickney, then in the occupancy of John Stickney; thence South eighty six degrees West, seventy six rods to the first bounded, containing thirty four and one half acres, including the roads — This was done before the South Pembroke road was laid out, but after the Branch Turnpike was made.

199

Inter 6. by same
State whether or not you have been acquainted with this lot, and its boundaries, and with the owners of the adjoining lands, from the time of this survey, until now? And if so, please to State how often you have been upon the lot as nearly as you can, and who the adjoining land owners now are — giving the names of the adjoining land owners upon each side of the lot?

Ans. I have been acquainted with this lot, its boundaries and the owners of the adjoining lands from the time of this survey until now. I have frequently been upon this lot and the lands about there. But how often I am unable to say. I have run out the lines of most of the lots adjoining this lot. On the South of this lot Isaac H. Williams owns the most of the way - to within a few rods of the Southeast corner. Abial Chandler owned the rest of the land on the South. the last that I know about it. On the West side the land is owned by Isaac L. Emerson and Charles Butters; On the north the land is owned by Joseph P. Stickney and myself, and on the east, is George W. and William H. Browns land. The land owned by the Browns is the Easterly part of the same original lot.

Inter. 7. By same.

Please to give, if you can, the history of the lots of which the land you surveyed for Mr. Thompson constitutes a part from its first laying out until now - so far as you are able

Ans. So far as I know the history from the records, it is something like this I have a deed made by Henry Rolfe of Newburyport - it is dated about the year 1732 or 1733 - It conveys all the land then laid out and to be laid out to the use of Anna Rubamah Wise in the town of (then) Rumford now Pembroke, to Richard Hazeltine of Rumford This lot was not laid out then, but was laid out in the year 1742 or a little later than that. It was one of the last division lots. It was laid out to the right of Anna Rubamah Wise. It descended to Richard Hazeltine Jr. an heir of Richard Hazeltine, at the death of the latter. I know that the son of Richard Jr. - a Joseph Hazeltine once cut wood there. The Easterly part of the lot Richard Hazeltine Jr. sold to William Stickney the father of John Stickney who was in the occupation of it at the time I made the survey for Thompson. The Westerly part of the lot has been claimed by Thomas W. Thompson and his children ever since it was owned by Richard Hazeltine Jr.

Inter. 8. By same

State if you know who has paid the taxes upon this land, since the death of Thomas W. Thompson?

Ans - I have been told that Arthur Fletcher paid the taxes as agent for William C. Thompson.

Inter. 9 By same

State wether there is anything, and if so, what marking the boundary between the land which you surveyed for William C. Thompson as above mentioned, and the land of Isaac H. Williams on the south -

Ans - At the time of the survey there were spotted trees. There is now a ditch from the road, almost the whole length of the line.
