DIXON**
HISTORICAL PARK

TRAIL KEY

- **M-D Marker Trail:** (1.3 miles) This trail is very steep at the beginning, but once on top of the ridge, it levels out for a beautiful hilltop hike. From the parking lot, it takes 1,140 steps to reach the Mason-Dixon Marker Stone.
- **Blue Trail:** (0.65 miles) This trail offers many rock outcroppings to view — a perfect sunset hike! It also makes for a great return route after visiting the M-D Marker stone.
- **Orange Trail:** (0.35 miles) At the top of this short hike you will find Tucker Falls, named for park founder Dr. Eldon B. Tucker. This waterfall is seasonal and may be dry on hot summer days, but it is still a great trail to explore.
- **Lucky Dog Trail:** (0.75 miles) Once you make the climb up Brown's Hill, enjoy this flat trail that takes in the scenery of the eastern side of the ridge. Find deer and wildflowers aplenty here!

- **Green Trail:** (0.6 miles) Our most popular walking trail! This flat path is lined with gravel and can even be used on the wettest of days. This trail follows along the banks of Dunkard Creek to intersections with the M-D Marker Trail, South Bottom Field, Third Crossing of Dunkard Creek site, and the Bluebell/Fairy Door Trail.
- **Bluebell Trail:** (0.35 miles) Home of our extremely popular Fairy Door trail, this is one to make time for while visiting the park. During the weeks of April, you can also find thousands of Bluebell flowers growing on the hillsides of this route. *** A must see in April ***
- **Lillibelle Loop Trail:** (1 mile) NEW TRAIL as of Summer 2021! This trail still has parts under construction but is currently open for use.

- **Westside Trail:** (0.79 miles) Our newest trail on the map. Built in 2019, this trail offers a much easier way to get to the top of Brown's Hill by taking switch backs up. While you still need to climb to get to the top, the switch backs make the hike friendlier. The trailhead is located over the hill, behind our maintenance building and house on the property.
- **Mountain Bike Trail** (0.70 miles) This trail is specifically built for skilled mountain bikers to start their day off with some excitement. After experiencing this trail, mountain bikers are welcome to explore the other trails in the park. All trails in the park are open to mountain bikes, however, please yield to all walkers.
