Now, therefore, the above referenced Parties agree to the Inter-Governmental Operating Agreement and Memorandum of Understanding for Transportation and Air Quality Planning, which supersedes and replaces the 2003 FMATS Inter-Governmental Operating Agreement and Memorandum of Understanding and its subsequent amendment, as follows:

SECTION 1 – PARTIES TO THIS AGREEMENT

The Parties to this Agreement are the State of Alaska (State), Fairbanks North Star Borough (FNSB), City of Fairbanks, and City of North Pole.

SECTION 2 – PURPOSE

This Agreement is entered into in accordance with 23 USC § 134 – 135, 49 USC § 5303 – 5306, and 23 CFR 450.300 to provide the structure and process for the continuing, cooperative and comprehensive consideration, development and implementation of transportation and air quality plans and programs for intermodal transportation in the metropolitan planning area (MPA).

SECTION 3 – LEGAL AUTHORITY

3.1 Federal Transportation Planning Statutes

23 USC § 104(f), 23 USC § 134 and 49 USC § 5303 – 5306 provide funding and require designation of a metropolitan planning organization (MPO) for urbanized areas of at least 50,000 population to carry out a transportation planning process and receive federal funding. Those Statutes require the State and the local governments to coordinate the planning and construction of all urban transportation facilities with a continuing, cooperative, and comprehensive transportation planning process.

Air Quality Title 42 USC § 7504 et. seq. requires each area-wide air quality planning agency to prepare an area-wide air quality plan providing for attainment of National Ambient Air Quality Standards (NAAQS). Alaska Statutes Chapter 46.14 requires the Alaska Department of Environmental Conservation (ADEC) to develop a State Implementation Plan (SIP) providing for the attainment of the NAAQS. SECTION 5 – ORGANIZATION AND RESPONSIBILITIES

5.1 FAST Planning

FAST Planning is the MPO’s staffed organization, in cooperation with the State and public transportation operators.

5.1.1 In order to receive and expend federal funding for transportation and air quality improvements there must be coordination between the State and

the MPO as required by federal regulation. Therefore, the purpose of FAST Planning is to provide the framework and mechanism for the MPO and the State to jointly develop and implement transportation and air quality plans and programs, which will assure compliance with State and Federal transportation planning and air quality requirements.

5.2 Policy Board

The FAST Planning Policy Board (Policy Board) shall have as members, a designated representative of the ADOT&PF, FNSB Mayor, City of Fairbanks Mayor, City of North Pole Mayor, a designated representative of ADEC, a designated representative of the FNSB Assembly, and a designated representative of the Fairbanks City Council. Each member of the Policy Board shall have one vote. FAST Planning's Executive Director will serve as Secretary to the Policy Board.

5.2.1 Powers and Duties of the Policy Board

The Policy Board shall have overall responsibility for the implementation of this Agreement, coordination of FAST Planning's efforts and responsibilities of FAST Planning's Technical Committee, and the ultimate development and adoption of the UPWP, TIP, and MTP.

5.3 Technical Committee

FAST Planning shall have a technical committee, which consists of representatives, such as engineers, planners, and other specialists from the City of Fairbanks, City of North Pole, FNSB, ADOT&PF, ADEC, Fort Wainwright, University of Alaska Fairbanks, Alaska Railroad Corporation, Fairbanks International Airport, local freight industry, and local Tribal entities. Each member of the FAST Planning Technical Committee (Technical Committee) shall have one vote and all actions of the Technical Committee, including recommendations to the Policy Board, shall be by a majority vote of the total authorized number of members.

5.4 MPA

The MPA specified by 23 USC § 134(e) shall be the geographical area shown on Attachment #1 to the Agreement incorporated herein by reference. Provided such boundaries conform to the requirements of 23 USC § 134(e), the MPO and the Governor may mutually agree to change the boundaries of the MPA.

5.5 MPO Self-certification

Every four years the MPO will self-certify to the FHWA and the FTA that the

planning process is addressing the major issues facing the area and is being conducted in accordance with all applicable requirements of 23 CFR 450.336.

SECTION 6 – KEY PLANS and PROGRAMS

- 6.1 There are three primary planning or programming activities that the MPO is responsible for developing. This section summarizes these key plans and programs, which include the MTP, TIP, and UPWP.

6.1.1 MTP

The MPO, in cooperation with the State, is responsible for developing or updating an MTP. The MPO shall follow the latest federal planning requirements, as prescribed in 23 CFR 450.322. For so long as the MPA is within an air quality nonattainment area for fine particulate matter (PM_{2.5}), the MPO shall update the MTP every four years as prescribed by 23 USC § 134(i).

6.1.2 TIP

The MPO, in cooperation with the State, is responsible for developing or updating the TIP. The MPO shall follow the latest federal planning requirements, as prescribed in 23 CFR 450.324.

6.1.3 UPWP

- (1) The MPO, with full assistance from the State and all other cooperating agencies, is responsible for developing or adjusting the UPWP, as prescribed by 23 CFR 450.308. The MPO shall:
 - (a) Describe all the transportation and air quality planning activities to be completed in a fiscal year.
 - (b) Ensure early coordination with FHWA and FTA.
- (2) No later than July 1 of each year, the ADOT&PF, in consultation with FAST Planning, will provide to the Policy Board in writing the amount of estimated Federal PL and Section 5303 funds, and required match ratios, to be made available to FAST Planning for the next fiscal year of October 1 through September 30. ADOT&PF, FNSB, and MPO staff shall recommend work tasks with budgets for tasks in which it participates. MPO staff shall develop and implement a UPWP public involvement program, within a Public Participation Plan, and prepare a UPWP with the full cooperation

of ADOT&PF, FNSB, and the MPO. Discussions between ADOT&PF, FNSB, and MPO shall take place to determine how the proposed tasks can be accomplished in the most efficient and effective manner. The UPWP shall be reviewed by the Technical Committee, approved by the Policy Board, and forwarded to ADOT&PF for concurrent approval by FHWA and FTA prior to any work being performed.

6.2 Changes/Amendments to Key Plans and Programs

6.2.1 Amendments to the MTP and TIP

The MPO, with its responsibility to maintain existing plans and programs, shall approve amendments, in accordance with its Public Participation Plan. An Amendment is triggered by the addition or deletion of a project or a major change in the project cost, project / project phase initiation dates, or a major change in design concept or design scope. An amendment is a revision that requires public review and comment periods consistent with the FMATS public involvement policy, re-demonstration of fiscal constraint, or a conformity determination (for MTPs and TIPs involving “non-exempt” projects in nonattainment and maintenance areas). Amendments require the concurrence of the MPO, ADOT&PF, FHWA, and FTA before becoming effective.

6.2.2 Administrative Modifications to the MTP and TIP

The MPO, with its responsibility to maintain existing plans and programs, shall approve Administrative Modifications in accordance with the Public Participation Plan. An Administrative Modification is triggered by a minor revision to a metropolitan transportation plan or TIP that includes minor changes to project/project phase costs, minor changes to funding sources of previously-included projects, and minor changes to project/project phase initiation dates. It is a revision that does not require public review and comment, re-demonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas). Administrative Modifications require the concurrence of the MPO and the ADOT&PF before becoming effective. The FHWA and FTA will be notified as soon as possible of these changes.

6.2.3 Amendments/Changes to the UPWP

Changes in work assignments and studies to be performed to meet the air quality and transportation planning requirements may be made by the MPO at such times and to such extent as deemed necessary. Total funds to be made available for the performance of said work and services shall

not exceed the amount specified in the UPWP. Reimbursement will be made by ADOT&PF in accordance with procedures stated herein and shall be expended only on the UPWP approved by the MPO, ADOT&PF, FHWA, and FTA.

(1) Changes in funding levels for tasks, or changes in tasks, shall be requested as soon as possible after the need for such change is recognized.

(a) Amendment to the UPWP

(No additional funding required)

An Amendment to the UPWP is triggered when task budget amounts exceed 10 percent of the original approved program budget, when there are individual changes of \$25,000 or more to task budgets, or when there are significant scope changes. Amendments require the concurrence of the MPO, ADOT&PF, FHWA, and FTA before becoming effective. Amendments to the UPWP require public review.

(b) Administrative Modifications to the UPWP

(No additional funding required or no significant change to scope)

An Administrative Modification is triggered when task budget amounts do not exceed 10 percent of the approved program budget or when individual changes are for \$25,000 or less of a task budget. Administrative Modifications require the concurrence of the MPO and the ADOT&PF before becoming effective. The FHWA and FTA will be notified as soon as possible of these changes.

6.3 Air Quality Plan

The ADEC, with assistance from the FNSB, and in coordination with the MPO, is responsible for developing and updating an Air Quality Plan, which shall:

- (1) Identify area-wide objectives and policies required to attain and maintain the NAAQS for CO and PM_{2.5} for the MPA;
- (2) Inventory technical, physical, and other air quality planning data;
- (3) Analyze alternatives and establish strategies designed to attain and maintain the NAAQS for the MPA;
- (4) Address any other air quality issues required by the EPA or

USDOT within the MPA;

- (5) Provide for the implementation of the adopted air quality strategies as expeditiously as practical; and

Memo

To: North Pole City Council
From: William Butler
Date: January 29, 2019
Subject: Truck route ordinance

Large commercial truck traffic on residential roads is a two-pronged problem. The City's residential roads were not constructed to support large commercial trucks on a routine basis. The Public Works Department is concerned about the hazards to pedestrians, bicyclists and residential vehicles presented by large commercial trucks operating on residential roads. The secondary concern is the negative effects large commercial trucks have on the condition and longevity of residential roads that will be borne by City tax payers not the commercial trucking businesses.

Ordinance 19-03, "An Ordinance of the City of North Pole City Council Amending Section Title 10 Vehicles and Traffic Adding Chapter 10.03 Restrictions on Certain Vehicles" is intended to restrict commercial truck traffic to identified truck routes. The ordinance will not restrict "routine" commercial truck traffic within the City like UPS, fuel delivery, tractor trailer deliveries to commercial establishments, construction vehicles for work within the City, etc. The ordinance is intended to prevent large heavy trucks from using residential roads for commercial activity like hauling gravel from pits within the city for projects outside of the city, large commercial trucks using city streets as short-cuts or by-passes, etc. Also, the ordinance will not invalidate any pre-agreed approvals for commercial truck traffic; for example, the developer agreement for the Brookside Development, that allows specified truck traffic from a gravel pit.

The ordinance grants the Mayor or Mayor's designee authority to establish truck routes. Based upon existing commercial truck traffic patterns, five truck routes are proposed. The intent of the proposed truck routes is to enable existing businesses to continue to operate, but to restrict their truck traffic to designated routes. Should the Council pass the ordinance, businesses within the City that have need to operate on City roads will be notified of the code change and the established truck routes. Signage will also be posted around the City notifying restrictions on truck traffic.
