

Payments accepted for vaccines include: Medicare, Medicaid, and selected insurance plans, cash, check or money order. **Please call (607) 547-4230 for pre-registration and cost information.** Administration fees charged cover cost of staff time and supplies.

### Insurance

We have contracts with some insurance companies and may be able to bill for vaccines. All information must be verified prior to clinic. Some fees may apply and coverage will depend on your individual plan. If your child has insurance he/she should be seen by their primary physician if provider has vaccine.

### Uninsured or Underinsured Adults 19 Years or older

Select vaccines are available if you have no insurance or your insurance does not cover adult vaccinations. Only administration fee of \$25.00 will be charged for each vaccine needed. Must bring proof from employer of non-insurance. If you are an Otsego County resident you may qualify for reduced fees based on your income. Must supply proof of income and sign sliding fee scale application.

### Vaccines for Children Program

Children less than 19 years of age may be eligible to receive vaccines if he/she is:

- Medicaid/Medicaid Managed Care enrolled
- Not Insured or Underinsured only Administrative Fee of \$25.00 per vaccine
- American Indian/Alaskan Native only Administrative Fee of \$25.00 per vaccine
- Child Health Plus

### TIPS AND TIME SAVERS

1. Prepare your children for receiving an immunization, but not too far in advance. (One hour is sufficient)
2. Be honest; honesty builds trust. **Don't** tell them it doesn't hurt - (compare it to an insect bite or pinch). Use books, stories available at the public library.
3. Dress in clothing that makes the upper arms easy to expose and remove child's outerwear prior to going into the shot room.
4. If you are concerned about holding your child during immunizations, please inform the nurse ahead of time. We can provide a second staff person to assist. It is extremely important to hold the child firmly. This can make the procedure quicker, safer and less stressful for parent and child.
