CITY OF REDONDO BEACH
TELECOMMUNICATIONS AND PIPELINE ENCROACHMENT QUESTIONNAIRE

General Information

Street address of property: __________________________________________

1. APPLICANT:
   Company Name & Email:____________________________________________
   DBA:____________________________________________________________
   Address:_________________________________________________________
   Phone number:______________________ Fax #: ________________________

2. AGENT:
   Company Name: __________________________________________________
   Address:_________________________________________________________
   Phone number:______________________ Fax #:________________________

3. CONTACT PERSON:
   Name: ___________________________________________________________
   Address:_________________________________________________________
   Phone # ___________________________ Fax #: ________________________

4. Contractor license class:
   _________________________________________________________________

5. Contractor license number:
   _________________________________________________________________

6. Explain the authority of the applicant to excavate, use or otherwise occupy the
   rights-of-way:
   _________________________________________________________________
   _________________________________________________________________
   _________________________________________________________________
7. Is the applicant a Telecommunications and/or a Pipeline Corporation in California?
   Yes □   No □

8. If the answer to Question 7 is "Yes", please attach a copy of applicant’s Certificate of Public Convenience and Necessity ("CPCN") from the California Public Utilities Commission and the Negative Declaration adopted in conjunction with the CPCN.

9. In an attachment hereto, identify any and all direct and indirect affiliates of applicant.

10. Will the applicant use the telecommunications or pipeline facilities requested herein to carry materials, products or information for: Yes □   No □
    a. An affiliated company □
    b. Another certificated company □
    c. Another company □

11. If the answer to any part of Question 10 was “Yes”, please explain the nature of the materials, products or information to be carried and identify the companies involved in an attachment hereto.

12. Will the applicant sell or lease telecommunications or pipeline capacity, conduit, fiber or other facilities to any other person or entity?

13. If the answer to Question 12 was “Yes”, please explain in an attachment the nature of the use by the other persons or entities including materials, product volumes transported. With respect to telecommunications, state whether such persons or entities are an LEC, CLEC, CAP, OVS operator, or cable operator, and identify all such persons or entities.

14. If the applicant intends to provide services to persons, residences, businesses, or other within the City, please explain the nature of the services and provide a general description of the intended customers.

___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
15. Will the facilities proposed to be installed by the applicant be used by the applicant or any other person or entity?
   a. Cable television or video entertainment services.
      Yes ☐ No ☐
      Yes ☐ No ☐
   c. Any service not specifically authorized by applicant’s CPUC Certificate.
      Yes ☐ No ☐

16. If any part of Question 15 was answered “Yes”, in an attachment hereto, please provide a full explanation of the services to be carried, the companies involved and the intended customers.

17. List below the application or permit numbers of all pending applications and permits issued by the City to applicant (or a related company) which relate directly or indirectly to this application. Also list all pending applications or decisions applied for or granted by other State and Federal agencies which relate directly or indirectly to this application.

<table>

18. If applicant intends to attach any telecommunications facilities to a pole:
   a) Please describe, on a separate sheet, the pole attachment plans including route, schedule, and equipment to be used, etc.
   b) Provide a copy of agreement or other document detailing authorization granted by utility pole owner/occupants.

19. Attach an appropriate scale map to show the route that the telecommunications and/or pipeline infrastructure will take through the City. Use colors and a clear legend to show the following: (1) the infrastructure that is proposed in the application, (2) overhead plant that will be installed, even if it is not subject to the application, (3) existing infrastructure owned by applicant (or its affiliate) to which the new plant will be attached or integrated, (4) to the extent known at the time of filing, the entire infrastructure that is planned for the City. If the map scale is too small to show the information clearly, the applicant will be required to supply a larger map.
Existing and Proposed Telecommunications and Pipeline Infrastructure

20. Use a separate sheet to describe the existing pipelines and conduit and any proposed pipelines and conduit that exist or will be installed. For existing pipelines include, size, date of construction, material specifications of pipeline, maximum pipeline pressure ratings, date of most recent inspection, inspection results, date of most recent certification, copy of certification, detailed description of materials transported, volume of materials transported, maximum daily volumes actual and calculated, and certifications from all agencies responsible for permitting and operation of the pipeline facility. For telecommunications include size, number of conduits, nature of inner duct (if any), material (HDPE, PVC, etc.), and manufacturer.

21. Indicate the number of conduits/inner ducts that will be occupied initially by applicant’s cable.

22. Provide the following information on any conduit that will be installed as part of the construction proposed in this application.

<table>
<thead>
<tr>
<th>Question</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Will applicant use directional boring to install conduit?</td>
<td></td>
<td></td>

</table>

23. Describe the pull boxes, splice boxes and other vaults and pedestals to be installed by applicant (include size, model number, and manufacturer):

___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________

24. Describe the type and amount of cable (fiber-optic, twisted-pair copper, coaxial, etc.) that will be installed by applicant as part of, or as a result of, the construction proposed in this application.

___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
Impact on City Resources and Quality of Life

25. Assuming that a qualified party, such as a CLEC or a national CAP, approached the applicant about sharing facilities on economic terms that were reasonable, would the applicant be willing to share facilities:

- In general? □ Yes □ No
- Share available conduit or inner duct? □ Yes □ No
- Share fiber strands in a fiber cable? □ Yes □ No
- Share splice boxes? □ Yes □ No
- Share trenching costs in a joint construction project? □ Yes □ No

26. Describe in detail the local benefits of permitting the proposed use of the rights-of-way. Include a discussion of direct benefits, such as, compensation in the form of franchise fees, utility user's tax, secured and unsecured property tax and the indirect benefits, such as, improved access for local residents or other aesthetic improvements.

___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________

27. In order to minimize the impact of applicant's proposed construction has the applicant:

- Checked pending applications and recently granted permits in the City to determine whether the opportunity to construct using joint trench or the opportunity to share facilities is available? Yes □ No □
- Checked street resurfacing schedules? Yes □ No □
- Proposed to use direction boring in areas where it would minimize the impact on traffic residents and businesses? Yes □ No □

If no directional boring is proposed, please explain why below:

___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________

OCTOBER 2023
Applicant agrees to comply with the City’s land use and planning process (including public notification) for the location of any structures or facilities to be placed in or adjacent to the City’s public rights-of-way. The applicant further agrees to provide all necessary information requested by the City including required documentation to conduct applicable CEQA review.

I declare under penalty of perjury that the foregoing information is true and correct.

Applicant: ____________________________________________________

(Owner of the facilities installed or to be installed in the public rights-of-way)

_____________________________________________________________

Printed Name, Title and Company
CITY OF REDONDO BEACH, CALIFORNIA
SUPPLEMENTAL APPLICATION FORM FOR WIRELESS PROJECTS
AND DISTRIBUTED ANTENNA SYSTEM ("DAS") PROJECTS

The City of Redondo Beach recognizes that the provision of wireless and DAS services are highly technical enterprises subject to various federal, state, and local regulations. This supplemental application form is designed to elicit necessary and required technical information in support of a planned Conditional Use Permit ("CUP") or Special Use Permit ("SUP") or Variance/Waver application for a new or modified wireless telecommunications site project or a Distributed Antenna System ("DAS") project within the City of Redondo Beach.

Completion of this supplemental application is a mandatory document for a wireless Project. This form assists the City of Redondo Beach to comply with its duties under its Municipal Code; Sections 253, 332, and 704 of the Communications Act of 1934 as amended; California Public Utilities Code Sections 7901 and 7901.1; the California Environmental Quality Act (CEQA); the provisions of Government Code Sections 65850.6 and 65964; T-Mobile v. City of Anacortes (2009), and other local, state, and federal laws, regulations, and court rulings. The City of Redondo Beach requires that the applicant provide this information to assist it in creating a written administrative record containing substantial evidence sufficient to permit the City of Redondo Beach’s informed consideration of your request, and to determine the rights and obligations of the City of Redondo Beach and the applicant/owner of the proposed project.

No application for a new wireless site or for a modification of an existing wireless site shall be considered for determination of completeness until all required responses to this supplemental application form and required attachments are completed and tendered to the City of Redondo Beach.

If you do not believe that a specific item of information is necessary or applies to your application, mark the item on this form with the words, “Not Applicable” and attach a detailed written explanation as to the basis for your belief (e.g., “Question 94.7 does not apply to this application because the proposed Project has no microwave transmission element.”) An unsupported statement such as “Question 94.7 does not apply” is insufficient, and the determination of completeness of your application will be delayed while you provide a meaningful and detailed explanation.

Every page of this form including this page and the last page must be tendered to the City of Redondo Beach. Each page including this page and the last page must be initialed where indicated. The last page must also be completed, signed, and dated.

Questions about this form or the required information to be provided should be directed to the City of Redondo Beach Community Development Department planner assigned to your project.
1.00: **Project Location and Applicant Information**

1.01: Project Physical Address (if any):

1.02 Applicant’s Site Number (if any)

1.03: Assessors Parcel Number:

1.04: Name of Applicant: __ Owner __ Owner’s representative

1.05: Applicant is:

1.06: Applicant’s Address Line 1:

1.07: Applicant’s Address Line 2:

1.08: Applicant’s Address Line 3:

1.09: Applicants Address Line 4:

1.10: Applicant’s Phone number:

1.11: Applicant’s Mobile number:

1.12: Applicant’s Fax number:

1.13: Applicant’s Email address:

2.00: **Project Owner Information and CPCN Information**

2.01: Disclose the Name and Address of all Project Owners, and attach a letter of agency appointing the Applicant as representative of the Project Owners in connection with this application. Designate the letter of agency as “Attachment 2.01.”

Initial here _______ to indicate that Attachment 2.01 is attached hereto.

2.02: Is any telecommunications service to be offered from this project subject to a California Public Utilities Commission ‘Certificate of Public Convenience and Necessity’ (CPCN)? ___ Yes ___ No

2.03: If the answer to 2.02 is Yes, provide either a web site link to the complete CPCN decision at the California Public Utilities Commission (CPUC) web site, or a true and complete copy of the CPCN decision and mark it as “Attachment 2.02.”

Initial here _______ to indicate that the required CPUC web site address or Attachment 2.02 is attached hereto.
3.00: **FCC License / FAA Compliance / RF Safety Disclosure Information**

3.01: For each person/legal entity that will be using the wireless site, provide the information in Sections 3 and 4. Copy these sections for each applicant if necessary.

Distributed Antenna System (DAS) providers and all others who are not licensed by the FCC for the radio services proposed for this project and identified in 3.09: For Section 3 disclose the information requested here for each FCC-licensee that will utilize the project as proposed.

3.02: Disclose all of the FCC licenses call signs or Construction Permit identifications to permit the City of Redondo Beach to verify your FCC authority: __________________________. If additional space is necessary attach and mark the sheet as “Attachment 3.02.” If none of the proposed radio facilities require an FCC license so indicate on the line, above.

Initial here _______ to indicate that Attachment 3.02 is attached hereto.

3.03: Name of FCC Licensee:

3.04: Licensee’s Address Line 1:

3.05: Licensee’s Address Line 2:

3.06: Licensee’s Phone number:

3.07: Licensee’s Fax number:

3.08: Licensee’s Contact Email address:

3.09: Use of facility: ___ Amateur Radio
   (Check all that apply) ___ Broadcast Radio
   ___ Broadcast TV
   ___ Cellular telephone
   ___ Distributed Antenna System (DAS)
   ___ Enhanced Specialized Mobile Radio
   ___ Microwave
   ___ PCS telephone
   ___ Paging
   ___ Specialized Mobile Radio
   ___ WiMax/WiFi
   ___ Other(s) (specify): __________________________

3.10: Project latitude and longitude: N_____________ W_____________

3.11: Specify DATUM used above: ___ WGS84 ___ NAD23 ___ NAD83
   ___ Other DATUM (specify): _______________________
3.12: Project maximum height (ft AGL):

3.13: Bottom of lowest transmitting antenna (ft AGL):

3.14: RF Emissions (“Rad”) center of the lowest transmitting antenna (ft AGL):

3.15: For each licensee (i.e., “ABC Wireless” or “XYZ Wireless”), and for each radio service (i.e., “PCS”, “Cellular”, “Broadband Radio”, etc.), complete and attach a separate two page “Appendix A” form from “A Local Government Official’s Guide to Transmitting Antenna RF Emission Safety: Rules, Procedures, and Practical Guidance” available by download directly from the FCC at its website, http://www.fcc.gov/oet/rfsafety/. Ensure that all proposed emissions from this project are accounted for on the Appendix A forms you submit.

Distributed Antenna System (DAS) providers and all other who are not licensed by the FCC for the radio services proposed for this project and identified in 3.09: Unless the DAS provider is the FCC licensee for the proposed project, the DAS provider must provide an Appendix A form completed by each wireless carrier or wireless service provider to be transmitted through the Project at each wireless site. Appendix A forms completed by a DAS provider are unacceptable if they are not the FCC licensee for the particular wireless service(s) to be transmitted through the project.

For consistency, all Appendix A forms submitted must use effective radiated power (ERP) units of measure. Do not use effective isotropic radiated power (EIRP). To verify your understanding of this requirement, you must append the letters “ERP” following each wattage listing in each Appendix A form you submit.

Designate all completed two page forms as “Attachment 3.15.” Depending on the information provided in Attachment 3.15, additional RF safety disclosure information may be required by the City of Redondo Beach to permit a positive determination of compliance with FCC OET Bulletin 65 requirements. In addition to the LSGAC form(s) which you must submit, you may also submit any additional RF safety compliance information or report(s). Designate any additional RF safety compliance information as “Attachment 3.15-A.”

Initial here _______ to indicate that all required Attachment 3.15 and 3.15-A forms are attached hereto.

3.16 Considering your response in Attachment 3.15, above, and any other identifiable RF emitters that FCC OET Bulletin 65 requires be evaluated in connection with this Project, are all portions of this Project cumulatively “categorically excluded” under FCC OET 65 requirements? ___ Yes ___ No

3.17: Does this Project require the Applicant to file an FAA Form 7460 or other documentation under Federal Aviation Regulation Part 77.13 et seq, or under the FCC rules? ___ Yes ___ No
3.18: If the answer to 3.17 is NO proceed to 4.00.

3.19: Attach complete copies of all required FAA/FCC forms including all attachments and exhibits thereto, including without limitation FAA Form 7460. Designate this attachment, “Attachment 3.21.”

Initial here _______ to indicate that Attachment 3.21 is attached hereto.

4.00: Project Purpose

4.01: Indicate the dominant purpose of the Project (check only one, and then proceed where directed):

___ Add network capacity without adding significant new RF coverage area: Proceed to 4.20; or

___ Provide significant new radio frequency coverage in an area not already served by radio frequency coverage: Proceed to 4.10; or

___ Increase the existing RF signal level in an area with existing radio frequency coverage: Proceed to 4.20; or

___ Other: Proceed to 4.19.

4.10 Is this project intended to close a “significant gap” in coverage? ___ Yes ___ No

4.11 If the answer to 4.10 is NO proceed to 4.20.

4.12 Attach a written statement fully and expansively describing the following:

a. A description of the geographic boundary of the claimed significant gap area, and
b. Attach a map showing the geographic boundary of the claimed significant gap using the same standards as in 6.02; and
c. Identify the size of the area, in units of square miles or a fraction thereof, of the claimed significant gap; and
d. Explain exactly the your definition of the term “significant gap” as it applies to this project;
e. Specify whether the definition of “significant gap” provided in (d) above is the same definition used in by this applicant and owner in all of its prior projects submitted to the City of Redondo Beach, and if not, explain all differences.
f. Specify whether the definition of “significant gap” provided in (d) above is the same definition used in by this applicant and owner in all of its prior projects submitted to the City of Redondo Beach, and if not, explain all differences.

Designate this attachment, “Attachment 4.12.” Initial here _______ to indicate that Attachment 4.12 is attached hereto. Proceed to 4.13
4.13 Is the proposed project the least intrusive means to close the significant gap claimed in 4.10? ___ Yes ___ No

4.14 If the answer to 4.13 is NO proceed to 4.20.

4.15 Attach a written statement fully and expansively describing why this project is the least intrusive means to close the significant gap claimed in 4.10. Designate this attachment, “Attachment 4.15.”

Initial here _______ to indicate that Attachment 4.15 is attached hereto. Proceed to 4.20

4.19 Attach a written statement fully and expansively describing the “Other” dominant purpose of this Project. Designate this attachment, “Attachment 4.19.”

Initial here _______ to indicate that Attachment 4.13 is attached hereto.

4.20 If any portion of the project is to utilize radio spectrum that does not require an FCC license, identify in detail the portions of the project that used unlicensed spectrum.

Designate this attachment, “Attachment 4.10.”

Initial here _______ to indicate that Attachment 4.10 is attached hereto.

4.25 Does this project require an interconnection with any other site or sites to function, or do any other sites require interconnection with this site to function? For example, is this site a part of a microwave or fiber network that passes signals from site to site, as opposed to this site being connected directly back to a switch center or other central communications point or hub. ___ Yes ___ No

4.26: If the answer to 4.25 is NO proceed to 5.00.

4.27: Attach a detailed written statement fully and expansively describing the interconnection proposed, and identify all other existing or planned sites that will be interconnected with this project. Include a detailed map showing the interconnected sites and the means/direction of interconnection. Designate this attachment, “Attachment 4.25.”

Initial here _______ to indicate that Attachment 4.25 is attached hereto.

5.00: **Build-Out Requirements**

5.01: Do any of radio services identified in 3.09 above require the licensee to provide specific radio frequency/population build-out coverage pursuant to the underlying FCC license? ___ Yes ___ No

5.02: If the answer to 5.01 is NO proceed to 6.00.
5.03: Have all of the FCC build-out requirements as required by all licenses covering all radio services proposed at this Project been met? ___ Yes ___ No

5.04: If the answer to 5.04 is YES proceed to 6.00.

5.05: Disclose by licensee call sign identified in Section 3.02 all remaining build-out requirements which have yet to be met, and the known or estimated date when the remaining build-out requirements will be met. Designate this attachment “Attachment 5.05.”

Initial here _______ to indicate that Attachment 5.05 is attached hereto.

5.10 Will this proposed site be interconnected via radio frequency transmissions to any other site or sites now constructed, proposed, or anticipated? For the purpose of this question, interconnection includes one or more radio frequency links for the purpose provide for ‘back-haul’ from this site to a switching center or centralized node location.

___ Yes ___ No

5.11: If the answer to 5.10 is NO proceed to 6.00.

5.15 Identify by physical address (or if none, by geographic description) all other sites, regardless of whether now constructed, proposed, or anticipated, that are to be interconnected with this project site. Disclose in technical detail the proposed method of interconnection.

6.00: Radio Frequency Coverage Maps

6.01: Where a licensee intends to provide radio frequency coverage from the project to an identified geographic coverage, the coverage maps and information requested in Section 6 are required attachments.

Distributed Antenna System (DAS) providers and all others who are not licensed by the FCC for the radio services proposed for this project and identified in 3.09: You must provide radio frequency coverage maps prepared by the FCC licensee(s) that will control the RF emissions from this project. Radio frequency coverage maps required here that are completed by a DAS provider are unacceptable if they are not the FCC licensee for the particular wireless service transmitted through the project.

If no geographic coverage area is identified, initial here _______ and proceed to 7.00.

6.02 For the coverage maps required here, the following mandatory requirements apply. Failure to adhere to these requirements may delay your application’s determination of completeness.

a. The size of each submitted map must be no smaller than 11” by 8.5.” Each map must be of the same physical size and map area scale. Each map must use the same base map (i.e., same streets and legends shown on all). You must show RF signal level(s) by colors or gradients on the map so long as they are adequately identified by objective RF level (i.e. “–xx dBm to –yy dBm”) in the map legend.
b. If the FCC rules for any proposed radio service defines a minimum radio frequency signal level that level must be shown on the map in a color easily distinguishable from the base paper or transparency layer, and adequately identified by RF level and map color or gradient in the map legend. If no minimum signal level is defined by the FCC rules you must indicate that in the legend of each RF coverage map.

c. Where the City of Redondo Beach reasonably determines that one or more submitted maps are inadequate, it will request supplemental maps with greater or different details be submitted.

6.03: Existing RF coverage within the City of Redondo Beach on the same network, if any (if none, so state). This map should not depict any RF coverage to be provided by the Project. Designate this attachment “Attachment 6.03.”

Initial here _______ to indicate that Attachment 6.03 is attached hereto.

6.04: RF coverage to be provided by the Project. This map should not depict any RF coverage provided any other existing or proposed wireless sites. Designate this attachment “Attachment 6.04.”

Initial here _______ to indicate that Attachment 6.04 is attached hereto.

6.05: RF coverage to be provided by the Project and by other wireless sites on the same network should the Project site be activated. Designate this attachment “Attachment 6.05.”

Initial here _______ to indicate that Attachment 6.05 is attached hereto.

7.00: Project Photographs and Photo Simulations

7.01: Where an Applicant proposes to construct or modify a wireless site, and the wireless site is visible from other residential properties, the Applicant shall submit photo simulations consistent with the following standards:

1. Minimum size of each base photo and each photo simulation must be 10 inches by 8 inches (landscape orientation). Each base photo and matching photo simulation must be the same size. Single sheets of 11 x 8 ½ inches showing base photos and photo simulations on the same page are unacceptable.

2. All elements of the Project as proposed by the Applicant which can be seen from any point at ground level, or from any level within or on buildings within 500 feet of the Project must be shown in one or more close-in photo simulations (i.e., panel antennas, omni-directional antennas, GPS antennas, antenna camouflage devices, cable trays; equipment cabinets; working lights; etc.).

3. The overall Project as proposed by the Applicant must be shown in three or more area photo simulations. Base photographs must, at a minimum, be taken from widely scattered positions of 120 degrees. A map detail showing each location where a photograph was taken, the proposed site, and the direction to the site from each photo location must be
included. Base photographs taken from locations that have some physical feature obscuring the Project site, and the photo simulations associated with those same base photographs, are not acceptable.

Attach all base photographs and photo simulations to this application marked as Attachment 7.01.

The purpose of the photo simulations is to allow the City of Redondo Beach to visualize the Project as completed, therefore the number of site photos, and photo simulations, and the actual or simulated camera location of these photos and photo simulations are subject to City of Redondo Beach determination. The Applicant should submit photos and photo simulations consistent with these instructions, and be prepared to provide additional photos and photo simulations should they be requested by the City of Redondo Beach.

Initial here _______ to indicate that all of the photo simulations provided for Attachment 7.01 are reliable photographic representations of the Project proposed and to be built by the Applicant, and that the Applicant is aware that the City of Redondo Beach will rely on the photo simulations provided in Attachment 7.01 when it considers approval of this Project.

8.00: **Alternative Candidate Sites**

8.01: For applicants in the broadcast, cellular, PCS, broadcast, ESMR/SMR categories, as well as DAS providers and others as requested by the City of Redondo Beach, the information requested in Section 8 is required. All others proceed to 9.00.

8.02: Has the Applicant or Owner or anyone working on behalf of the Applicant or Owner secured or attempted to secure any leases or lease-options or similar formal or informal agreements in connection with this Project for any sites other than the candidate site identified at 1.01/1.02? ___ Yes ___ No

8.03: If the answer to 8.02 is NO, proceed to 8.05.

8.04: Provide the physical address of each such other location, and provide an expansive technical explanation as to why each such other site was disfavored over the Project Site. Designate this attachment “Attachment 8.04.”

Initial here _______ to indicate that Attachment 8.04 is attached hereto.

8.05: Considering this proposed site, is it the one and only one location within or outside of the City of Redondo Beach that can possibly meet the objectives of the Project?
___ Yes ___ No

8.04: If the answer to 8.05 is NO, proceed to 9.00.

8.05: Provide a technically expansive and detailed explanation supported as required by comprehensive radio frequency data fully describing why the proposed site is the one and only one location within or without the City of Redondo Beach that can possibly meet
the radio frequency objectives of the Project. Explain, in exact and expansive technical detail, all of the objectives of this Project. Designate this attachment “Attachment 8.04.”

Initial here _______ to indicate that Attachment 8.04 is attached hereto.

9.00: **Identification of Key Persons**

9.01: Identify by name, title, company affiliation, work address, telephone number and extension, and email address the key person or persons most knowledgeable regarding this Project so that the City of Redondo Beach may contact them with questions regarding the Project:

9.10  (1) Person responsible for the final site selection for the Project;
9.11  Name:
9.12  Title:
9.13  Company
9.14  Affiliation:
9.15  Work Address:
9.16  Telephone / Ext.:
9.17  Email Address:

9.20  (2) Person responsible for the radio frequency engineering of the Project;
9.21  Name:
9.22  Title:
9.23  Company
9.24  Affiliation:
9.25  Work Address:
9.26  Telephone / Ext.:
9.27  Email Address:

9.30  (3) Person responsible for rejection of other candidate sites evaluated, if any;
9.31  Name:
9.32  Title:
9.33  Company
9.34  Affiliation:
9.35  Work Address:
9.36  Telephone / Ext.:
9.37  Email Address:

9.40 If more than one key person is now or was involved in any of the functions identified in this section at or before the time of the submission of this form, attach a separate sheet providing the same information for each additional person, and identifying which function or functions are/were performed by each additional person.
Designate this attachment “Attachment 9.40.”

Initial here ______ to indicate that the information above is complete and there is no Attachment 9.4, or initial here ______ to indicate that Attachment 9.40 is attached hereto.

10.00 Additional Information Provided by Applicant

10.01 You are invited and encouraged to provide any additional written information that you wish the City of Redondo Beach to consider in connection with your proposed project. Designate this attachment “Attachment 10.”

Initial here ______ to indicate that Attachment 10 is attached hereto.

11.00: Certification of Accuracy and Reliability

11.01: The undersigned certifies on behalf of itself, the Applicant, and the Owner that the information provided in this form’s contents and attachments are true and complete to the best of the undersigned’s ability and knowledge, and that information should be relied upon by the City of Redondo Beach as being accurate and complete in evaluating this project.
