## SB205 Stormwater Discharge Compliance Form

Effective January 1, 2020, Senate Bill 205 (SB 205), requires a person or entity who conducts a business operation that is a “regulated industry” to demonstrate enrollment with the National Pollutant Discharge Elimination System (NPDES) permit program. By providing specified information on the business license application, enrollment in the NPDES permit can be confirmed.

SB 205 does not affect all businesses. Only those businesses with primary Standard Industrial Classification (SIC) codes that are identified by the State Water Board as requiring enrollment in the Industrial General Permit (IGP) are affected. SIC is a system for classifying industries by a four-digit code. The questions below will guide you and the City in determining if your business requires enrollment in the IGP. **Completion and submission of this form with your business license application is REQUIRED.**
