Construction IS Underway

Construction began on Tuesday, December 26, 2023—The Enhancing Sewer Infrastructure Efficiency and Reliability Project consists of the removal and replacement of existing sewage pump station with a larger capacity pump station at the same location.

Traffic Impacts

**Yacht Club Way:** Closures during heavy construction, with possible public access during non-work hours and weekends.

**Yacht Club Way Full Closure:** Starting January 15th Yacht Club Way will be closed approximately three months for through traffic during the dewatering phase.

**Yacht Club Way Partial Closure:** Single Lane Operations will be implemented once grading is completed and the site is approved for public access.

Emergency vehicle access shall be provided

Driveways will remain accessible

If driveway closures in the construction area are necessary—you will be notified in advance.
