Circumvention by the Contractor of the requirement under Section 4104 of the Public Contract Code to list his subcontractors, by the device of listing another contractor who will in turn sublet portions constituting the majority of the work covered by this contract, shall be considered a violation of Division 2, Part 1, Chapter 4 of the Public Contract Code and shall subject the Contractor to the penalties set forth in Sections 4110 and 4111 of the Public Contract Code.

If the Contractor fails to specify a subcontractor or if the Contractor specifies more than one subcontractor for the same portion for work to be performed under the contract in excess of one-half of one percent of the Contractor's total bid, he agrees that he/she is fully qualified to perform that portion himself/herself, and that he/she shall perform that portion himself/herself. If after award of contract, the Contractor subcontracts, except as provided for in Sections 4107 or 4109 of the Public Contract Code, any such portion of the work, the Contractor shall be subject to the penalties named in Section 4111 of the Public Contract Code.

The Contractor shall not:

A. Substitute any person as subcontractor in place of the subcontractor listed in the original bid, except that the City may, except as otherwise provided in Section 4107.5 of the Public Contract Code, consent to the substitution of another person as subcontractor:

1. When the subcontractor listed in the bid, after having had a reasonable opportunity to do so, fails or refuses to execute a written contract, based upon the general terms, conditions, plans and specifications for the project involved or the terms of such contractor's written bid, is presented to him/her by the Contractor, or
2. When the listed subcontractor becomes bankrupt or insolvent, or
3. When the listed subcontractor fails or refuses to perform his/her subcontract, or
4. When the listed subcontractor fails or refuses to meet the bond requirements of the Contractor as set forth in Section 43108 of the Public Contract Code, or
5. When the Contractor demonstrates to the City, subject to the further provisions set forth in Section 4107.5 of the Public Contract Code, that the name of the subcontractor was listed as the result of an inadvertent clerical error, or

6. When the listed subcontractor is not licensed pursuant to the Contractors License Law, or

7. When the City determines that the work performed by the listed subcontractor is substantially unsatisfactory and not in substantial accordance with the plans and specifications, or that the subcontractor is substantially delaying or disrupting the progress of the work.

B. Permit any subcontract to be voluntarily assigned or transferred or allow it to be performed by anyone other than the original subcontractor listed in the original bid, without the consent of the City.

C. Other than in the performance of "change orders" causing changes or deviations from the original contract, sublet or subcontract any portion of the work in excess of one-half of one percent of the Contractor's total bid as to which his original bid did not designate a subcontractor.

Prior to approval of a Contractor's request for a subcontractor substitution, the City will give notice in writing to the listed subcontractor of the Contractor's request to substitute and of the reason for the request. The notice will be served by certified or registered mail to the last known address of the subcontractor. The listed subcontractor who has been so notified shall have five working days within which to transmit to the City written objections to the substitution. Failure to file these written objections shall constitute the listed subcontractor's consent to the substitution.

If written objections are filed, the City will give notice in writing of at least five working days to the listed subcontractor of a hearing by the City on the Contractor's request for substitution.

The Contractor, as a condition to asserting a claim of inadvertent clerical error in the listing of a subcontractor, shall within two working days after the time of the bid opening by the City, give written notice to the City and copies of such notice to both the subcontractor he claims to have listed in error and the intended subcontractor who had bid to the Contractor prior to the bid opening.

Subletting or subcontracting of any portion of the work in excess of one-half of one percent of the Contractor's total bid as to which no subcontractor was designated in the original

bid shall only be permitted in cases of public emergency or necessity, and then only after a finding reduced to writing as a public record of the City setting forth the facts constituting the emergency or necessity.

If the Contractor violates any of the provisions of Division 2, Part 1, Chapter 4 of the Public Contract Code or any amendments thereof, the Contractor violates his contract and the City may exercise the option, in its own discretion, of (1) canceling its contract, or (2) assessing the Contractor a penalty in an amount not more than ten percent of the amount of the subcontract involved, and this penalty shall be deposited in the fund out of which the prime contract is awarded. In any proceedings under Section 4110 of the Public Contract Code the Contractor shall be entitled to a public hearing and to five days notice of the time and place thereof.
