

February 2023

Food Show:

The Park's Director attended the United Wholesale Grocery food show on February 8th. Numerous vendors were in attendance with product samples and current pricing for concession items for the upcoming season. An initial season order was placed for delivery in mid April as well.

Applications for Park Employment 2023:

The township park will be taking youth applications for spring and summer jobs between February 15th and March 15th. The positions available will be for both field and concession employment. Potential workers must turn in their applications in person. Candidates for the jobs can range from 8th grade through college. Interviews and hiring will take place right after spring break. Applications are available at the township office or on township website. Not all applicants will be interviewed (as number of openings will dictate positions needed). All applicant's information will be kept on file for one year if new openings should arise.
