INTRODUCTORY SECTION

LETTER FROM THE EXECUTIVE DIRECTOR AND CHAIRPERSON

Active and Retired Members and Interested Individuals:

We are pleased to submit the annual report for Component I and Component II of the General Retirement System of the City of Detroit for the fiscal year ended June 30, 2016.

The General Retirement System of the City of Detroit (“System”) consists of defined pension plans and defined contribution plans for the non-uniformed employees of the City of Detroit, comprised of Component I and Component II. These plans are memorialized in a document entitled *The Combined Plan for the General Retirement System of the City of Detroit* (“Plan of Adjustment”), effective July 1, 2014, as amended and restated December 8, 2014. The System exists to pay benefits to its members.

As a result of the bankruptcy filed by the City of Detroit and the resulting Plan of Adjustment (“POA”), in the fiscal year 2014-2015 there were significant economic and non-economic changes to the retirement plans of the General Retirement System.

In addition to the economic changes discussed below, the POA established a seven member Investment Committee to assume responsibility for the investment of the Plan's assets. The committee is comprised of two General Retirement System Trustees and five financial professionals selected by the State of Michigan Financial Review Committee and the General Retirement System Board of Trustees.

As a part of the Plan of Adjustment, the original defined benefit plan, now known as Component II or the Legacy Plan, was frozen on June 30, 2014. All Component II benefits were frozen as of June 30, 2014 based on service and average final compensation accrued as of that date and the provisions of the General Retirement System as of June 30, 2014. Frozen benefits were reduced by 4.5% and all future cost-of-living adjustments were eliminated. Benefits resulting from the Annuity Savings Fund and benefits paid from the Annuity Reserve Fund were subject to a separate reduction described as a “Claw-back”.

Component I (Hybrid Plan) was created during the bankruptcy proceedings for active non-uniformed employees of the City of Detroit for benefits earned on and after July 1, 2014. Active members employed with the City on and after July 1, 2014 will earn service credit that entitles them to receive benefits under the Component I plan. Pursuant to the Plan of Adjustment, the benefit terms presently in force under the Component I plan will remain unchanged through June 30, 2023.

Accounting System and Reports

The financial statements of the System are prepared in accordance with Generally Accepted Accounting Principles (GAAP) and are subject to external review. The financial statements have been audited by the independent accounting firm of Plante & Moran, PLLC. The 2015-2016 financial statements contain more detailed information and is available for review on the System's web site: www.rscd.org. Copies of the report can also be obtained by a written request to the System's office.

Funding and Reserves

The funds of the System consist of contributions and earnings that are accumulated by the System in order to fund current and future benefit obligations to the retirees and their beneficiaries. Contribution requirements for both Component plans are detailed in the actuarial and statistical sections of this report. Continuous improvement in the funding of the System is a primary objective of the Board of Trustees

Investments

The System invests available funds in order to maximize income. The primary objective of the System's investment policies are to ensure that the System meets their obligation to provide retirement benefits. The System's portfolio of investments is diversified to provide the highest possible total return on assets with the least exposure to risk.

Closing

The Board of Trustees and the Retirement System staff continually strive to provide the members of the System with quality customer service. The Board and staff welcome your suggestions regarding the System and encourage you to inform us how we might better serve you.

Respectfully Submitted

INTRODUCTORY SECTION

SUMMARY OF COMPONENT I PROVISIONS (Hybrid Plan)

Component I (Hybrid Plan) was created during the bankruptcy proceedings for active non-uniformed employees of the City of Detroit to earn pension benefits on and after July 1, 2014. Active members employed with the City on and after July 1, 2014 will earn service credit that entitles them to receive future benefits under the Component I plan. Pursuant to the Plan of Adjustment, the benefit terms presently in force will remain unchanged through June 30, 2023.

Funding requirements of Component I are:

- Mandatory Member Contributions of 4% of base pay
- City Contributions of 5% of employee base pay, not including overtime

Voluntary Employee Contributions – Employees may make voluntary contributions of 3%, 5% or 7% of annual compensation at the election of the member. Each year, accounts are credited with earnings at a rate equal to the net investment rate of return of Retirement System Assets for the second plan year immediately preceding the plan year in which earnings are to be credited. The earnings rate may not be less than 0% and may not exceed 5.25%.

Average Final Compensation

The average of the compensation received during the 10 consecutive years of credited service (including prior service) immediately preceding the date of the members last termination with the City. If the member has less than ten years of credited service (including prior service), the average final compensation is the average of the compensation received during all years of credited service.

Normal Retirement

Normal Retirement Age – The normal retirement age is 62. For individuals who were active employees and who had 10 or more years of vesting service as of June 30, 2014, the normal retirement age, solely for purposes of Component I, is reduced as follows:

<u>Age as of July 1, 2014</u>	<u>Normal Retirement Age</u>
52 years or younger	62 years
53 years	61 years and 9 months
54 years	61 years and 6 months
55 years	61 years and 3 months
56 years	61 years
57 years	60 years and 9 months
58 years	60 years and 6 months
59 years	60 years and 3 months
60 years	60 years
61 years	60 years

Normal Retirement Amount – 1.5% times average final compensation times credited service (after June 30, 2014) measured to the nearest month.

Early Retirement

Eligibility – Age 55 with 30 or more years of credited service plus prior service.

Early Retirement Amount – The same as normal retirement but actuarially **reduced**.

Deferred Retirement (Vested Benefits)

Eligibility – 10 years of vesting service.

Deferred Retirement Amount – The same as normal retirement but based on average final compensation and credited service at the time of termination, payable at age 62.

INTRODUCTORY SECTION

SUMMARY OF COMPONENT II PROVISIONS (Legacy Plan)

Component II (Legacy Plan), the original defined benefit plan, was frozen on June 30, 2014 because of the Plan of Adjustment that was created during the bankruptcy process. All Component II benefits were frozen as of June 30, 2014 based on service and average final compensation accrued as of that date and the provisions of the General Retirement System on June 30, 2014. Frozen benefits were reduced by 4.5% and all future cost-of-living adjustments were eliminated. Certain benefits provided by the Annuity Savings Fund and benefits paid from the Annuity Reserve Fund were subject to a separate reduction described as a “Claw-back”.

Employer contribution requirements for the fiscal years 2015 to 2023 were set according to the Plan of Adjustment. Beginning with Fiscal Year 2024, employer contributions will be actuarially determined.

Benefits are payable after separation from service, determined by the eligibility conditions of the plan as it existed on June 30, 2014 as detailed below:

Normal Retirement

- **EMS Members** - Sum of a) a basic pension of \$12 for each of the first 10 years of service, plus b) a pension equal to 2.0% of average final compensation (“AFC”) multiplied by years of service. Maximum benefit is 90% of AFC
- **Other Members** – Sum of a) a basic pension of \$12 for each of the first 10 years of service, plus b) a pension equal to the first 10 years of service multiplied by 1.6% of AFC, plus 1.8% of AFC for each year of service greater than 10 years up to 20 years, plus 2.0% of AFC for each year of service greater than 20 years up to 25 years, plus 2.2% of AFC for each year of service greater than 25 years. Future benefit accruals for certain active members (depending on bargaining unit) were reduced to 1.5% of final average compensation per year of service

Calculation of Average Final Compensation (AFC)

- Pre-July 1, 1992 – Highest 5 consecutive years out of the last 10, excluding longevity

- Eligible to collect based on the individual Union Contract at time of separation

INVESTMENT SECTION

The State of Michigan charges the Board of Trustees under the Public Employee Retirement System Investment Act with the responsibility of investing the Retirement System's portfolio in a prudent manner. Specifically, the Public Employee Retirement System Investment Act requires the Board of Trustees and the other investment fiduciaries to discharge their duties solely in the interest of participants and beneficiaries and to act with the same care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a similar capacity and familiar with those matters would use in the conduct of a similar enterprise with similar aims. The law also requires the Board of Trustees to prepare and maintain written objectives, policies, and strategies with clearly defined accountability and responsibility for implementing and executing the System's investments as well as monitor the investments of the System's assets with regard to the limitations of the law. The Act permits assets to be invested in a mix of fixed income, securities, real estate or other instruments in accordance with the percentages as detailed in the Act.
